CHEAPEST OIL IN MARKET.

Economy & Convenience Combined,

LEWIS'

PATENT ANNOTTO OIL.

BURNS in all Fluid or Kerosene Lamps and Lanterns without smoke, smell or chimney, with a beautiful and clear brilliancy, in fact the only light yet discovered that can supersede or take the place of Burning Fluid for standing, hand or movable lights, at less than one-fourth the expense and much cheaper than Kerosene or Petroleum Oil, costing only ONE CENT FOR TEN HOURS, overcoming the inconvenience attending the use of chimnies, being in fact a perfect substitute for Burning Fluid, Candles, or the cumbersome and expensive method of using chimnies on hand lamps.

It is with pleasure that I can refer you to a few prominent persons who have seen the Oil tested: O. P. Sabin, Hamilton Hotel; Z. Smith, Welland House; Gilbert Eason, Eagle Tavern; Moses Turner, Scriba; Wm. H. Wales, Scriba; H. C. Sharp, Druggist; T. S. Brigham, Printer; Gage & Hancock, Grocers, J. C. Tucker, Crockery, E. D. Dickinson, Case House, Fulton; A. B. Mann, Esq., Town Oswego.

The Annotto ... which burns without a chimney, like the old sperm oil, and burns as long as Fluid. Having purchased the Patent Right for Oswego County, I am prepared to furnish the above Oil at wholesale and retail.

Also, a LUBRICATOR, superior to any other oil now in use, as it WEARS MUCH LONGER and does not GUM. febldawly R. E. STONE.

WEST'S

IMPROVED PUMP.

Anti-Freezing, Double-Acting, Forcing and Lifting.

THESE PUMPS have now been in general use a number of years, and give better satisfaction than any other, and are recommended as

THE BEST,

By Capt. ERRICSON, and other eminent Engineers. We can refer to thousands using them, and guarantee that all will recommend them. They are more simple in construction, and work easier, and cost less than all others.

"Our readers will find the double-acting, improved Pump of J. D. West & Co., one of the best in market. It is very simple, works to a charm, so that any child may use it; throws a steady, continuous stream, and does not freeze in the coldest exposures, and is unusually cheap. We say this knowingly, and give the testimony of our own accord, without the knowledge or request of the proprietors."—*N. Y. Evening Post, July 1st, 1863.*

This may certify that I have been using, at my manufactory, for the last four years, "West's Improved Pumps." I now have in use three of said pumps, one of which is kept constantly at work, 24 hours each day, (save Sundays) and has been running for the past two years. I pronounce them, unhesitatingly, the best pumps that have been brought to my notice, having used many others previously. They are simple in their construction, and not easily disarranged.

N. Y., Oct. 19, 1862. JAMES A. WEBB.

J. D. WEST & Co.,

We are pleased to state that the Pumps we had of you, about a year ago, have been in constant use, 12 hours each day, and raise for the use of our Woolen Factory about 180 gallons per minute. They work with but little power, compared with pumps we have used before, and do not get out of repair, and are satisfactory in all respects. Yours, &c.,

DUNLAP MANUFACTURING COMPANY.

SOLON ROBINSON to the Farmer's Club, Jan. 23:

"No farmer who owns a well or cistern can possibly afford to be without an iron pump. It should be at once a suction and force pump—a perfect little fire engine—such a one known as 'West's Improved Pump.' I speak of this pump because I happen to know it.... to be very simple, durable, powerful and cheap, and it don't freeze up, nor get out of order once a year.... I know this, and think I may be doing the farmers good by speaking of it ...A boy 10 years old can work it, and throw a continuous inch-and-a-quarter stream.... It can be made to work in deep wells as well as in shallow ones."

From the New York Observer.

We have had in use for months past one of West's Pumps, which has given us more satisfaction as a force and lifting pump than any we have ever used. It is one of great power, and well adapted for ship's decks, mines, factories, green-houses, graperies, &c. The *Mining Chronicle and Railway Journal* says:

It is recommended for its extreme simplicity of construction, great strength, and consequent durability and cheapness of repair. There is no stuffing box—the pressure being held by a cup packing, like that upon the working piston, working in a cylinder, fitted for the purpose within the upper air chamber—which we think a great improvement, as stuffing is so liable to be deranged, and leak under strong pressure, to say nothing of the loss by friction incident thereto. It has also two air-chambers; thus the action of the valve is cushioned upon both sides by air—preventing water-hammer and vacuum-thump. The valves are very accessible, and simply and cheaply repaired. They work much easier than any pump we have ever seen; the 4-inch cylinder being worked by children, in wells 100 feet deep, and as they are extremely cheap as well as simple and strong, we freely recommend them.

GT. NECK, L. I., 1860.

I have used this pump for one summer and winter, exposed to the North-west wind coming over Long Island Sound, being the coldest possible exposure, and at no time did it freeze, nor were we at any time unable to pump water with great ease.

H. B. McILVAIN.

The undersigned, having to use "West's Improved Pumps," cheerfully recommend them as simple, durable and powerful in raising and throwing water, and for their ease of action, security against frost, and low price, we believe them superior to all others.

CAMBRIDGE MINE, N. C., June 15, 1863.

J. D. WEST & CO.:

Gents—The pump which I ordered for our Mine is received and put to work in our underlay shaft, which we are sinking. We find that one man will with ease lift 50 gallons per minute. We lifted in three and a half hours all the water in the shaft, which measures seven by twelve feet and 30 feet deep, and it was full when we commenced. It answers our expectations in every respect, and our workmen are highly pleased with it. It will do great service with but trifling expense for repairs.

Yours, respectfully, BURR HIGGINS.

We have plenty more such certificates, but think these are enough. For Pumps, Hose, Pipe, &c., address or call upon J. D. WEST & CO.,

The following are the principal objections urged against Sewing Machines:

1—Excessive labor to the operator.
2—Liability to get out of order.

4—Incapacity to sew every description of material.
5—Disagreeable noise while in operation.

The Empire Sewing Machine is Exempt from all these Objections.

Having neither Cam nor Cog Wheel, and the least possible friction, it runs as smooth as glass, and is

THE GREAT

AMERICAN TEA COMPANY,

51 VERSEY STREET, N. Y.

Since its organization, has created a new era in the history of

Wholesale Teas in this Country.

They have introduced their selection of Teas, and are selling them at not over

Two Cents (.02 Cents) per pound above Cost.

Never deviating from the one price asked.

Another peculiarity of the Company is that their Tea Taster not only devotes his time to the selection of their Teas as to quality, value, and particular styles for particular localities of country, but he helps the Tea Buyer to choose out of their enormous stock such Teas as are best adapted to his particular wants, and not only this, but points out to him the best bargains.

It is easy to see the incalculable advantage a Tea Buyer has in this establishment over all others.

If he is no judge of Tea, or the market, if his time is valuable, he has all the benefits of a well organized system of doing business, of an immense capital, of the judgment of a professional Tea Taster, and the knowledge of superior salesmen.

This enables all the Tea Buyers—no matter if they are thousands of miles from this market—to purchase on as good terms here as the New York merchants.

Parties can order Teas, and will be served up as well as though they came themselves, being sure to get original packages, true weights and tares, and the Teas are warranted as represented.

We issue a price list of the Company's Teas, which will be sent to all who order it; comprising

Hyson, Young Hyson, Imperial, Gunpowder, Twankay and Skin.

Oolong, Souchong. Orange and Hyson, Pekoe.

JAPAN TEA,

of every description, Colored and Uncolored

This list has each kind of Tea divided into Four Classes, namely: Cargo, High Cargo, Fine, Finest, that every one may understand from description and the prices annexed, that the Company are determined to undersell the whole Tea trade.

We guarantee to sell ALL our Teas at not over Two Cents (.02 Cents) per pound, above cost, believing this to be attractive to the many who have heretofore been paying enormous prices.

MEDICAL.

HOSTETTER'S

CELEBRATED

STOMACH BITTERS.

A pure and powerful Tonic, corrective and alterative of wonderful efficacy in diseases of the

Stomach, Liver and Bowels.

Cures Dyspepsia, Liver Complaint, Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Cramps and Spasms, and all complaints of either sex, arising from Bodily Weakness whether inherent in the system or produced by special causes.

Nothing that is not wholesome, genial and restorative in its nature enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind, no deadly botanical element; no fiery excitant; but it is a combination of the extracts of rare balsamic plants and herbs with the purest and mildest of all diffusive stimulants.

It is well to be forearmed against disease, and, so far as the human system can be protected by human means against maladies engendered by an unwholesome atmosphere, impure water and other external causes, HOSTETTER'S BITTERS may be relied on as a safeguard.

In districts infested with *Fever and Ague*, it has been found infallible as a preventive and irresistible as a remedy and thousands who resort to it under apprehension of an attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine. Fever and Ague patients, after being plied with quinine for months in vain, until fairly saturated with that dangerous alkaloid, are not unfrequently restored to health within a few days by the use of HOSTETTER'S BITTERS.

The weak stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in cases of Dyspepsia and in less confirmed forms of Indigestion. Acting as a gentle and painless apperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to *Nervous Attacks, Lowness of Spirits* and *Fits of Languor*, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes

The agony of Bilious Colic is immediately assuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be prevented.

As a General Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of *Constitutional Weakness, Premature Decay* and Debility and Decrepitude arising from Old Age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, It is *The Only Safe Stimulant*, being manufactured from sound and innocuous materials, and entirely free from the acid elements present more or less in all the ordinary tonics and stomachic of the day.

No family medicine has been so universally, and, I may be truly added, *deservedly* popular with the intelligent portion of the community, as HOSTETTER'S BITTERS.
