NEW YORK STATE NEWS.

CITY ITEMS.

Democratic economy — The Democratic Common Council of New York has just voted $60,000 to print ten thousand copies of the clerk's manual! This is what we call throwing away money by the shovel-full.

—An unknown man walked over the pier at the foot of Jay street, North River, New York, Wednesday morning, and was drowned. A verdict of accidental death was rendered by the Coroner's jury.

—There were four hundred and ninety five deaths in New York, last week—one hundred and twenty four men, one hundred and twelve women, one hundred and fifty-four boys, and one hundred and five girls—an increase over last week of seventy eight, and a decrease of fifty-nine as compared with the corresponding time in 1865. Of the deceased, two hundred and four were children under five years of age.

COUNTRY ITEMS.

A proclamation is to be issued against any violation of the neutrality laws.

—It is stated that Mr. Barnes Superintendent of the State Insurance department, has enjoined the Morris Insurance Company, of New York from continuation of business, on the ground that its capital has been too much impaired.

—At a Fenian meeting in New York, on Wednesday night, intimations were given of a plan to seize British Columbia, and establish a harbor for privateers off the Pacific coast, that will sweep away British commerce.

—The Troy *Times* in noticing our public institutions says: The Utica Insane Asylum has a neat little theatre, with the best stage properties in that part of the state, connected with it, and on Thursday evening, 22d, a comedy, a farce and an original play entitled, "The Afternoon Visit," were rendered for the divertisement of the inmates, and such outsiders as chose to invest 50 cents for the fun.

—It is said that the peace proclamation which the President has had under consideration for some time, has been completed, and will probably be announced in a few days. It has been held back on account of the position of affairs in Texas. The President has assurances from Governor Hamilton which are most satisfactory.

—On the 28th of March the Executive Committee of the State Agricultural Society will meet to decide upon the location of the Fair for next fall. It is said that the officers of the state society and the Executive Committee are favorable to Rochester for the Fair.

—There will be a total eclipse of the moon on the evening of March 30th. It begins at five minutes past nine o'clock, is at its total at twelve minutes past ten, and begins to disappear at fifty-one minutes past eleven. It is visible throughout the United States.

—An exchange correctly remarks that when a man gets mad and stops his paper, he always borrows the next number of his neighbors, to see if the withdrawal of his subscription hasn't killed the editor, and if he has not dressed the columns of the paper in mourning. Such men imagine that the world rests on their shoulders.

—John S. Parson who had served three years in the southwestern army and received a dangerous wound at the battle of Chickamauga, was hanged on Friday at Goshen, Orange county, in atonement for the murder of Walter Gregory, an old farmer, who was assassinated on the 24th of September last. The gallows was erected in the court room in which the prisoner had been tried and sentenced to death. The culprit met his fate most courageously.

—A Troy paper tells us of an elopement among the upper ten people of that goodly city. "A well known merchant" and the daughter of a gentleman of Fourth street. The story is old and brief. The daughter and merchant loved each other—the parents tried to prevent the proposed match, and, as is always the case, the flame was only increased by such efforts, and Wednesday the twain baffled the intentions of careful parents and fled to consummate the union.

—About four o'clock Wednesday morning, a ball with explosive fluid was thrown into the window of a house on Lafayette street, Rochester, occupied by Captain Bottigan, constable of the Third ward. The Captain was sleeping in the room which was set on fire, and nearly enveloped in flames. He escaped with some trouble unhurt, but the house was destroyed. The author of the outrage is unknown, though he is suspected to be some party [illegible] whom the constable made the discharge of his official duties.

—A house on Lafayette avenue, Brooklyn, was burglariously entered a few nights ago, and robbed of about $500 in gold. Mrs. Powell, the occupant of the house, saw one of the burglars, and was enabled to identify him upon his arrest the next day. A careful search of his apartments failed to discover the money. That night Mrs. Powell had a dream, in which she dreamed that the money was concealed in a batch of dough in the prisoner's house. She related her dream to the police, when Capt. Leich proceeded to search the premises again, and actually found part of the coin in a batch of dough in the oven. The remainder was found concealed in a jar of preserves. The prisoner's wife was arrested as an accomplice.

—A terrific explosion occurred Monday evening at the furnace of J. and H. J. Meilly, in Middletown, resulting in the complete destruction of the furnace, the death of three men, and the wounding of six others. Eight boilers were in the furnace. One was raised through the building, carried 500 yards, and lodged in the Pennsylvania Canal. The other boilers were scattered in various directions, some of them passing through houses and other buildings. A portion of one boiler was hurled through a room in which two women were laying sick, but missed them. The bridge over the Union Canal was carried away.
