Kedzie's Rain Water Filters.

PURE water cannot be procured from wells, springs or streams in this section of the country. All waters from these contain foreign matter, varying in character according to the nature of the soil from which they are obtained; these matters are lime clay, iron, magnesia, soda, sulphur, &c. In a word, all the water is hard, containing carbonate of lime (chalk), or sulphate of lime, (plaster) which renders it unfit for drinking, cooking, washing or bathing. There are in the wells of all large cities great impurities from the decomposition of animal and vegetable matter. These deleterious substances find their way through the porous earth from vaults and other repositories of decaying matter into wells, and no method can be devised to prevent the evil from this source in cities. Certainly in the houses in our cities, and many of the large cities have been obliged to introduce water from other well known sources—What then is the remedy? the easiest and cheapest resort is the use of rain water; but even this falling upon the roofs of buildings collects impurities, and is not then pleasant to the taste. It needs to be purified by passing through a properly constructed Filter, so as to be made pure, colorless and tasteless, like water gushing from a crystal fountain. Both health and comfort demand this course to obtain pure water for the table. Impure water, whether it holds in solution animal, vegetable or mineral products, is dangerous and prolific of disease of the worst character, which medical experience and history have abundantly verified. Of the first conditions of health is good pure water and water can be easily had by filtering rain water, it better can be obtained, it is a luxury beyond a doubt. Invest a small amount of money in buying Kedzie's Rain Water Filters, it will be the best investment. It will save much sickness by the means of procuring one of the choicest of blessings, which is Health. These filters are for sale at the Hardware Store of

Reported expressly for Times & Journal

THE TIMES AND JOURNAL *is the only paper in the City which furnishes a daily telegraph report of the New York market and news matter from all parts of the Union.*

NEW YORK, July 24.

There was much excitement in Brooklyn yesterday in consequence of the determination expressed by Franconi's Circus Co. to perform in the city without having first obtained a license. The Mayor had forbidden them by proclamation, but at the eleventh hour it was discovered that the ordinance was null in consequence of never having been published.

The Board of Health was then called to the rescue, which declared a circus company to be a nuisance, and dangerous to the health of the community; and the booths erected by the company, were ordered to be destroyed.

The Mayor attempted to execute this order, but the police refused their assistance, having been warned that they would be held individually responsible.

The affair was finally compromised by the company's being allowed to reset their tents in another locality, instead of near the City Hall, where they had first leased.

All the police who refused to obey the Mayor's orders have been suspended.

AT A SURROGATE'S COURT held in and for the county of Oswego, at the Surrogate's office in the town of Catskill, in said county, on the 11th day of June, 1855. Present, F. James Fitch, Surrogate. In the matter of the application of Isaac Powell and John W. Powell, administrators, and Jeruah B. Vowell, administrator, &c., of David Powell, deceased, intestate, for authority to mortgage, lease, or sell, the real estate of the said intestate, for the payment of his debts—

On reading and filing the application of Isaac Powell and John W. Powell, administrators, and Jeruah B. Vowell, administratrix, of all and singular the goods, chattels and credits, of David Powell, late of New Baltimore, in the county of Oswego, deceased, intestate, for authority to mortgage, lease, or sell, the real estate of the said intestate for the payment of his debts, it is ordered that all persons interested in the estate of the said David Powell, deceased, appear before the Surrogate of the county of Oswego, at his office in the village of Catskill, in the said county of Green, on the 30th day of July next, at 10 o'clock in the forenoon of that day, then and there to show cause why authority should not be given to the said administrators and administratrix to mortgage, lease or sell, so much of the real estate of the said David Powell, deceased, as shall be necessary to pay his debts.

MISCELLANEOUS.

M BALLY'S ANTIDOTE AND LOTIONS the great original FRENCH PREPARATIONS, for the safe, speedy and permanent cure of all diseases of the URINARY ORGANS, without the least restriction in diet, drinks, exposure or change in application to business. These invaluable Preparations have been before the people for the past five years and have become so well and favorably known that they do not require any elaborate puffs. They were invented by one of the first and most celebrated venereal physicians in Paris, and since their introduction into the United States, have effected more cures both of recent cases and those of long standing, than any other remedies of the kind ever offered to the public.—In the treatment of Gonorrhœa and Gleet, also in Leucorrhœa or Whites (or females) they have never been equalled, having cured many cases of more than twelve years standing, and the proprietor will warrant them to cure any case not of a nature to take the life from any age. They contain no mercury or any other mineral substance, as a large majority of the preparations now in market do, but on the contrary are entirely vegetable in their nature, and will be an injury to the most delicate frame. Those who are afflicted cannot do better than to try them and they will be convinced their selves.

They are put up in bottles with full directions accompanying them, the Antidote at $1 and the Lotion at 50 cents per bottle. One bottle lasts from 4 days; many have been entirely cured in two or three days.

Invented by M Bally, Physician of the Paris Hospitals, and prepared from the original recipes, and sold wholesale and retail by HURON & Co.

NEURALGIA—This formidable disease, which seems to baffle the skill of physicians, yields like magic to Carter's Spanish Mixture.

Mr. F. Boylston, formerly of the Astor House, New York, and late proprietor of the Richmond Hotel, Richmond, Va, is one of the hundred who have been cured of severe Neuralgia by Carter's Spanish Mixture. Since his cure, he has recommended the numbers of others who were suffering with nearly every form of disease, with the same wonderful success.

He says it is the most extraordinary medicine he has ever seen used, and the best blood purifier known. ☞ See advertisement in another column
