January Clearance

BEGINNING WEEK OF JANUARY 29th

We announce the most important price reducing event of the year.

We say this is important for several reasons and principally because the character of goods on sale and the prices which are now in force cannot be dispensed with the wholesale markets at this time. Then, please bear in mind that this January Clearance is the only sale we hold this season. It is an event we have not to add our stocks of all small lots and to offer to our customers the opportunity to save on desirable, searchable merchandise. In the face of advancing costs this clarity, then, provides the opportunity to save by spending—an event which should not be overlooked by any thriftily inclined woman.
