N. B. C. GRAHAM CRACKERS

You don’t have to cost the children to eat plenty of N. B. C. Crackers. These are not only rich in the nutrition that builds bone and muscle, but the tempting taste makes the little appetites hungry for more. N. B. C. Graham Crackers add an individuality and outside interest that other crackers lacked. This makes them an almost universally popular article of everyday diet.

NATIONAL BISCUIT COMPANY

PROHIBITION IN MEXICO

Little Lightfoot will be located in MEXICO.

Queretaro, Mexico, Jan. 13—News received here on Tuesday evening of the capture of Little Lightfoot, the reputed chief of the American outlaws who have been terrorizing this province for the last several months. The operation was carried out by a force of 150 Mexican soldiers, aided by a few local scouts. Little Lightfoot was arrested without resistance or violence, and is now being held for trial.

MUNICIPAL REVENUES

The use of city property is a tax-paying proposition. Even if the city were to be completely owned by the state, it would be necessary to keep the property in operation, and the presence of a tax-paying proposition would be necessary. The city property would be taxed by the state, and the proceeds would be used to pay the city debts.

As a whole, the city property is not a tax-paying proposition. The city property is the property of the state, and the proceeds of the state are not tax-paying propositions.

A SENSIBLE cigarette must taste good. It must be cool and smooth to your throat and tongue. It must be properly mild—mild enough so that you’ll feel all right even though you may smoke more than usual.

In short, it must be comfortable. If it isn’t, it can’t be sensible.

Fatties are comfortable because of the balance of their Turkish blend. The milder tobaccos in this blend are in such perfect balance with the richer, fuller-flavored leaves as to entirely obscure the tobacco, giving a "oily heathness" found in so many other cigarettes.

You’ll notice the difference as soon as you try Fatties.

What kind of a cigarette would YOU call sensible?

Check up and see how nearly this comes to fitting in with your own ideas:

ON THE BELGIAN FRONT

A RARE blank in the galaxy of German battleships was entered during World War I when the German fleet was seen in the Canal of the Stars on Dec. 17th. It was the first time that the German fleet had been seen in that area since the beginning of the war.

PATIENTS FOR HOPES WEEK

As the season of the harvest is on, the hospital is busy. The patient’s hope is strong, but his body is weak. It is necessary to care for the patient’s body, to keep it strong and healthy. The patient’s hope will be strong, if he has a strong body.

A. R. Pearson has made arrangements for a meeting of the patient’s club at the hospital. The patient’s club will be composed of all the patients in the hospital. The purpose of the club will be to encourage the patients, to keep them occupied, and to give them hope.

BELGIUM

During the war, Belgium was occupied by the Germans. The country was devastated, and many of the people were killed. The country was left in a state of desolation.

The Belgians have been working hard to rebuild their country. They have been working to restore the beauty of their land and to make it once more a land of peace.
