Mrs. Hammond's contribution to the staff of the TCS will be on Tuesdays and Thursdays.

**Conservation Comments**

**By Paul Kelley, State Wildlife Biologist**

**NY Conservation Department**

**Summer Fish Kill**

Many people are wondering about the fish kill that has been occurring in the Tully Creek area. The fish kill is due to the presence of a toxic substance in the water. The toxic substance is known as fish-killing bacteria. These bacteria are present in the water and are responsible for the death of fish. The bacteria are present in the water due to the presence of a toxic substance in the water.
