24TH VISIT TO WATERTOWN

Tuesday, Wednesday and Thursday

March 19, 20 and 21,

AT THE

OTIS HOUSE

Parlors Nos. 5 and 6.

CONSULTATION FREE!

Mrs. R. L. Smith, M. D.,

Will be at her SYRACUSE office, No. 223 W. Fayette street, Every Saturday.

Dr. Smith can tell your disease without asking any questions, or having any previous knowledge of your complaint. The doctor is a graduate of both the old and new school of medicine, with a practice of over 20 years, and will guarantee a cure in Catarrh, Bronchitis, Incipient Consumption, Dyspepsia, Rheumatism, Cancers and all diseases peculiar to women.

Dr. Smith will be in Utica, Baggs Hotel, March 13, 14 and 15. Testimonials of cures given at her office when desired. If your case is incurable, Mrs. Smith will frankly tell you so.

Practical Questions Discussed in the Grange

Letters from Three Counties, Which Show the Educational Work Being Done in the Grange—Farm, Factory, and Market News.

Depauville Grange.

DEPAUVILLE, March 19.—Depauville grange, No. 59, met in their hall last Saturday. The attendance was light, as so many of our members are more interested in staying away than in attending the meetings of the order. The usual business being over one candidate received the first and second degrees. Then a proposition was read for another to become a member and one who had withdrawn from us came back, and like the prodigal was received joyfully. Much interest was manifested in devising some plan by which the members would become more interested in attending the regular meetings of the grange, and it was decided to have a question box and that each member be required to present some topic for discussion next meeting, April 6, at 2 p. m.

Mannsville Grange.

MANNSVILLE, March 18—At our Friday's session, the secretary reported arrangements made for the purchase of flour, and gave terms upon which grass and clover seed could be obtained. Orders from those present were then taken. It was decided to order a car load of salt for members of the order, provided 100 barrels could be disposed of in advance. Nearly half that amount was taken by those present and a full attendance is desired at our meeting April 5, to complete this order, if possible.

Members will please extend this notice and dispose of as many barrels as possible.

Lecturer Staplin was present and read a well chosen selection. F. D. Hatwick was in attendance for the first time since the return of himself and wife from a six weeks' sojourn in Florida. Owing to the lateness of the hour Brother Hatwick asked to be excused from giving an account of his trip south, but will undoubtedly do so at an early date.

ST. LAWRENCE COUNTY.

Hammond Grange.

HAMMOND, March 18.—Grange No. 677 was called to order by Past Master George Gipson. The task before him seemed to be quite familiar, initiating the candidates in the third and fourth degrees.

A large company from grange No. 676 paid the Hammond grange a pleasant visit. Brother Conroy expressed himself well pleased with the good work being carried on by the Hammond grange, and said the grange was a great educator to the farmer, and a place where the various interests could be discussed to good advantage.

Refreshments were served by the ladies and then the organist and violinist gave all who wished a chance to trip the light fantastic toe.

Stockholm Depot Grange.

BUCKTON, March 16.—Grange No. 586 met for regular meeting Saturday, March 16.

The grange has decided to have a fair next fall. A committee was appointed to decide what it should consist of. Every one seems very much interested and we do not see any reason why we cannot make it a success.

A gentleman and lady were instructed in the third and fourth degrees.

The rest of the time was taken up in ordering grass seed. The grange closed without form, as the hour was late.

LEWIS COUNTY.

Denmark Grange.

DENMARK, March 18.—Four applications for membership were received at the Saturday evening session of grange No. 585, making ten applications received during the first quarter of 1895. Instructions in the first and second degrees will be given at the next session, which occurs on the evening of April 6. Miss Julia Warner, Pomona, who was not present at the installation of the officers, declined to accept the office, and Mrs. Ethel Archer was elected to fill the vacancy. Delegate-to-state grange, P. E. White, who has been sick most of the time since returning from Albany, came before the grange and spoke on the work of the recent session of the state grange. Alson Cook, the veteran fighter against the manufacture and sale of oleomargarine, addressed the grange claiming that the low price of butter was largely due to the large amount of oleomargarine that was being sold, and read a paper in support of his statement. He thought that if the sale of so-called patent butter could be suppressed that the farmers, instead of having to take less than the cost of producing their butter, or not sell at all, would receive a good price for their product.

A well prepared paper was read by Mrs. John Spencer, taking for her subject "Christian Charity."

C. L. Smith read a paper containing much sound advice on the question "Is it Wise for the Farmer to Put His Surplus Capital in Other Business Than His Own?" He thought that the farmer should use surplus capital in improving his farm and stock and in supplying the farm and household with labor-saving devices and in beautifying the surroundings of the country home, making it neat and attractive, and then if any surplus capital remained deposit it in some banking house where it would be earning something, or let to some person where you will feel that it is secure.

Potato Shipments from Franklin County.

Chateaugay Record: Last year's potato crop would seem to be almost inexhaustible. On Thursday and Friday last between seven and eight thousand bushels were received at the depot for shipment, and those who are familiar with the business say that there are still thousands of bushels remaining unsold in this vicinity. The success of the potato crop last season will result in the planting of an immense acreage this year and under favorable circumstances the yield will be largely increased over last year. The last harvest was a Godsend to this locality, as nearly $100,000 will be paid out for this commodity.

Sick headache, constipation and indigestion are quickly cured by DeWitt's Little Early Risers, the famous little pills.

Allard, the Optical Specialist.

Parlor No. 6 Washington hall block, ...

Barnes Corners Grange.

March 18.—Barnes Corners grange, No. 94, held a very interesting meeting last Saturday afternoon, March 16. There was in attendance about 60 members. Our meetings have never been so well attended or so much interest shown as at the present time. This is as it should be. The question on the program for the day: "Does it Pay Farmers to Buy and Use Commercial Fertilizers?" was responded to by D. A. Hill, S. B. Hubbard, George Goutier, D. W. Jones, C. W. Lanzler, D. Gourmoue and S. E. Kenfield, all agreeing that much benefit was to be realized by the judicious use of commercial fertilizers. All farmers should investigate and understand the fundamental principles of fertilizing. It is not such a formidable subject as one might be led to think; it is the knowing how to prevent waste in fertilizers and how to get the best possible results. Most farmers know the principal elements in plant growth are potash, nitrogen and phosphoric acid. Farmers should experiment and do more thinking on the subject, and find out by investigation and study if the soil is deficient in one or all of these elements, and then supply the deficiency as best judgment dictates. Potash can be obtained in an available form. Lime and phosphates as well as wood ashes contain both of these elements, but more especially potash, and it is much cheaper and better to buy them separately. The lecturer and Miss O. E. Woodard each read a fine selection. Mr. Morris Gragg, of South Rutland grange, was present. He is a live patron and much interested in the order. At the close of the session warm sugar and popcorn were served, and an hour was passed very agreeably. Our next regular meeting will be held on Saturday afternoon, April 6.

Farm and Factory.

F. V. Haas has been re-elected salesman of the Farmers' cheese factory at Depauville for the coming season, and F. V. Haas secretary and treasurer. Pearl Cheever will make the cheese. The factory will open about April 15. The question of adopting the Babcock test was discussed at the annual meeting but no action was taken.

Simeon Mather has been re-elected salesman of the Mather Brothers' cheese factory and F. D. Mather secretary and treasurer. The dividends will be made out on the weight plan. The proprietors will make, furnish and insure the cheese at $1.05.

The new factory to be built this spring on Pillar Point by Charles Mearns will be called the "Central." William M. Elmer will act as salesman.

Ed. Lewis will make, furnish, insure and apportion dividends at the Belleville factory this season at $1.05 per hundred for cheese and 2¼ cents per pound for butter. The salesmen elected at their annual meeting are: Edward Lewis, W. H. Green and C. B. Kennedy.

The Chauncey Stearns farm near Redwood has been sold for $3,700. It contains 100 acres.

Grange Gleanings.

There was a special meeting of the Plessis grange last Saturday afternoon for the purpose of initiating C. M. Waite in the first and second degrees.

It is reported that the Lafargeville grange will put up a building on Clayton street in Lafargeville this spring.

Lewis County Markets.

The Lowville correspondent of the Utica Herald says: B. J. Richardson & Co., of Lowville, have bought 450 boxes of cheese of the Gardeers Corners factory at 10 cents per pound.

During the past week A. G. Bosbert has shipped 8,000 bushels of potatoes for which he paid from 45 to 50 cents per bushel, the latter price being paid for seed rose stock. Few people realize the amount of money paid Lewis county farmers annually for potatoes. Conservative estimates place the number of bushels shipped from Lewis county this season at 200,000, and there is probably another 100,000 bushels remaining unsold. The lowest price paid during the season was 40 cents per bushel and the highest 55 cents. This would give a fair average for the 200,000 bushels sold at 45 cents per bushel, or an aggregate of $90,000. It is conceded that it costs only from 18 to 20 cents per bushel to grow potatoes, so that the farmers have realized a net profit of $50,000 on the 200,000 bushels. A few years ago the farm lands on the east side of Black river were not considered over and above profitable, owing to the sandy soil, but of late years the farmers through that section have quite generally turned their attention to potato growing, and generally speaking their products in this direction brings 5 cents more per bushel than potatoes grown on the lime rock uplands, it being claimed that they are smoother and possess better keeping qualities. As between potatoes and hops, which are two of the leading crops (aside from hay for dairying purposes), grown in Lewis county, the potato crop has netted far the best returns of late years, and the potato acreage is steadily on the increase.

LaGrippe is here again with all of its old time vigor. One Minute Cough Cure is a reliable remedy. It cures and cures quickly.

Receipts and Exports of Butter and Cheese.

The receipts and exports of butter since May 1, 1894 (the beginning of the trade year), compare as follows:

	Receipts Pkgs.	Exports Lbs.

Eggs.

The market is steady at 12½c for state eggs. Receipts, 10,298 packages.

NEW YORK PRODUCE MARKET REVIEW.

This morning's New York Commercial Bulletin gives the following review of yesterday's produce market:

Butter.

Tuesday Evening, March 19.

The market is showing a little further gain in strength and buyers showing rather more interest. Receipts are running lighter than last week, with the proportion of really fancy goods moderate and such are firmly established at 20c for Western creamery, particular buyers not objecting to the price for fancy quality, but some buyers prefer to shop around for something obtainable a trifle cheaper rather than pay the advance, and good value lots from 18 a 18½c upwards are receiving fair attention and tone firm, but below 18c the supply is ample and demand slow, with little indication of any better feeling. Fine, well-kept June creamery is having some inquiry, but buyers rarely offering above 13 a 14c. State dairy, new half tubs held with increasing confidence for fancy grades, but quality continues irregular and under grades dull and uncertain. Old state dairy slow.

Cheese.

The market continues to present about the same general features as for some time past. The home demand, while not specially active, still is felt and very satisfactory, but mostly confined to fancy grades and those closely approximating and prices of such are held firmly and with confidence, with stocks steadily narrowing and no more left than will be wanted, and possibly fancy grades will run short before the new season fairly opens. Exporters make occasional inquiries for under-priced full cream cheese at low prices, but the little taken by such buyers is not sufficient to have any influence, while under grades receive very little attention from home buyers, and with stocks of such rather large the feeling is weak and uncertain. Part skims are very dull and weak.

Eggs.

The receipts are very heavy, 36,000 cases being received Monday and Tuesday, and while the market settled to 12¼ cents in the middle of the day, at the close a slight gain was made.

Poultry.

LIVE—The market is firm at 11½ a 12c for fowls and 11 a 12c for turkeys.

DRESSED—The market is moderately active, but under light receipts the market is firm. Fresh turkeys are very scarce, selected hens selling at 15c, mixed weights at 11½ a 13½c, young toms at 10½ a 11c and old toms at 8½ a 9c.

Country Dressed Meats.

Dressed calves are in free supply and with trade slow tone is weak and prices favoring buyers. Small ranged from 3½ a 5c and common to medium calves 4 a 6c per lb. Good hutches offered freely at 6½ a 7½c and 8c was top for prime.

Pork in light supply and steady. Prime spring lamb in fair demand and steady, but poor dull and weak.

Potatoes.

The market is quiet and unchanged. Prime table stock is not plenty and is held steadily at former prices.

Hops.

There is no change of importance in the market or distinctly new feature in the surroundings. Export business and inquiries from exporters are too light to have any influence at present, and the home trade buying is commonplace in the extreme, although sellers offer at prices that are but little above present cost in the interior markets. There is probably less pressure of interior holdings, but in the present condition of affairs the small lots that come out are sufficient to keep prices low. The domestic receipts and exports and imports (foreign) of hops in New York compare as follows:

	Past week	Corres. p'd's w'k last yr.
Domestic Receipts	2,148	[illegible]
Exports to Europe	756	[illegible]
Imports from Europe	69	[illegible]

WOOL.—Market firm; domestic fleeces 15@19; pulled at 13@30; Texas 9@12.

WATERTOWN MARKETS.

WATERTOWN TIMES OFFICE, Wednesday, March 20.

The butter offering has been light today and yesterday, and occasionally a grocer is found whose supply is short. All good flavored fresh made butter sells readily at 18 cents, and in a few cases 16 cents is allowed, but rarely. A jobber has recently purchased 21 tubs from an out-of-town dealer at 14 cents.

The egg market is steady, the general price today being 15 cents. A Belleville party sold 1,000 dozen to the grocery trade in this city today at that price. A general drop to 12 cents was made in the retail price today by the grocers.

An advance of ½ cent per pound in cows' hides and bulls' hides under 60 lbs., was made today.

The offerings of hay are not large and prime timothy brings $9.50 and $10 per ton quite readily.

H. P. Dunlap is marketing some fine celery in the city. His supply of 4,000 heads put into the cellar last winter is nearly all sold.

Favorite Lotion!

It will do what is claimed it will do—produce a soft, clear and velvety complexion. Manufactured at the

Old Post-office Drug Store

W. G. Mothersell.

FIRE, LIFE AND ACCIDENT INSURANCE POLICIES, ...

Fine Shoes for Particular People.

People who insist on knowing all about shoes before buying them, who demand that price and quality must be just exactly as represented, who form their opinion of dealers by the goods they have sold in the past—these are the people we like to do business with. We are rather particular ourselves in buying: we won't buy a dollar's worth of goods unless the price is low and the quality high. Your presence is at all times desirable when you want to buy the best shoes to be found in the market.

A. Allingham.

Spring Styles
