
Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

TURKISH BATHING.

Are You Really Clean?

The advantages of thorough personal cleanliness are only appreciated by a few, for most people are truly ignorant of what thorough personal cleanliness means, and consider ablutions which are confined to the face, neck and hands all that is necessary, while others who pride themselves on their regular daily or weekly tub-bath, little realize that they are internally dirtier than the workingman who has been digging a ditch all day in the hot sun. The ditcher has been perspiring profusely, the pores or drain pipes in his body have all been, as it were, "flushed," fully prepared to fulfill its proper functions. His system, therefore, succeeds in casting forth and ejecting, as nature intended, through the pores of the skin, all used-up, effete and dead matter. Thus the laboring man is in perfect health, while people of leisure and luxury may wash and be clean on the surface, but their body, unless they perspire, is filthy as a covered cesspool. But if one were to say to the average man or woman "you are not clean," it is very certain the average man or woman would be horrified and feel insulted. It is a fact, nevertheless, that largely from ignorance and partly from prejudice, we go through life "dirty," rarely, if ever, cognizant of the physical pleasure to be derived from perfect cleanliness, and many who consider themselves refined and fastidious continue that extremely filthy habit of sleeping in the same under-clothes they wear during the day. Now, it may be asked by my readers, "What do I consider perfect cleanliness?" Briefly, let me describe it as that condition which enables the body to breathe with regularity and ease through the 7,000,000 pores of the skin. Whenever the body cannot so breathe, we are not clean, and some internal disorder, more or less severe, is the inevitable result. A great many people are sick and are daily visited by their drug doctor, their pulse felt of and their tongues looked at, and pronounced dangerously sick with an attack of fever or some other blood-poisoned disease, simply because they are dirty. Hence, it is said, with truth, that dirt on the surface of the skin is not nearly so deleterious as this dead and effete matter in the pores of the skin. Thus we learn that the skin and pores have certain action to perform, certain duties to fulfill. To remove all internal dirt and impurities of 7,000,000 pores, is to cleanse and ventilate 28 miles of human drainage, and this is accomplished every time this Turkish Bath luxury is enjoyed, cleansing the inward as well as the outward man. It is applicable to every age and condition, is adapted to make the healthy healthier and alleviate disease, whatever its stage or severity. The natural result of this Turkish Bath's cleansing and purification will show itself in bright eyes and glowing skin; while a deeper sympathy with deeds of worth and charity, a purer good will toward one's fellow creatures will animate the mind and stimulate fresh interest in promulgating the truth of thorough cleanliness as taught by every true physiologist and Turkish Bath crank.

PUBLIC WORKS BUSINESS

Upper Washington Street May Have a Drain

A Street to be Accepted—Talk of a New Quarry—Various Other Matters Passed Upon.

The board of public works held forth last evening from 8 till nearly 10. As a result of its labors two new sewers will be built. Considerable other business was transacted.

THE PROCEEDINGS.

On motion of Com. Tubbs, Patrick Redmond was made clerk pro tem. in the absence of Chamberlain Murray. Mayor Wise and Coms. Sherman, Mould and Tubbs were present. A petition was received asking for a sidewalk on the north side of Water street, between No. 45 and the Davidson switch. It was signed by six residents.

The following bills were audited and ordered paid:

J. J. Knight	$ 1 50
H. M. Ball	5 73
Warren-Scharf Co	9 50
J. J. Jones	13 00

The resolution passed by the board of health ordering a sewer to do away with the nuisance in the Arsenal street school building was presented, received and filed.

Com. Mould reported that the pole committee hadn't much to report. There was a useless telephone pole on Keyes avenue, however, and it should be removed. Supt. Parker will attend to the matter.

The superintendent's summary of pay roll for the week ending Aug. 1, was $354.24.

The following bill was presented and referred to committee on accounts: William Bret, $4.35.

The report of the sidewalk inspector showed that 24 walks had been completed as ordered during the past week. Other owners have been warned and will flee from the wrath to come.

The matter of the acceptance of Griffin street, as deeded to the city by the Griffin Land company, then came up. The mayor explained that the council, at its meeting Tuesday night, had accepted the street in consideration of the Griffin Land company keeping up the street for five years. The city engineer has prepared plans for the sewer which is wanted by the Land company.

Com. Sherman offered a resolution directing the city engineer to prepare specifications for a sewer commencing on Arsenal street west of Massey street, at the easterly end of old sewer, and running therefrom along Arsenal street easterly 400 feet. Adopted.

The city engineer presented an approximate estimate of the cost of extending the eight-inch sewer to a point in the rear of the Arsenal street school building, making the total cost $368.50.

Com. Tubbs offered a resolution ordering the city engineer to prepare specifications for a sewer commencing at a point 135 feet north of Gale street and running thence through Griffin and Phelps streets to the center of Leray street. Adopted.

The city engineer presented an approximate estimate of the proposed Griffin street sewer, the total being $602.56. Com. Sherman offered a resolution calling upon the common council for $306 for a sewer 400 feet long on Arsenal street. This includes laterals. Adopted.

Com. Tubbs offered a resolution calling upon the common council for means to construct a sewer 510 feet long on Griffin and Phelps streets, between Gale and Leray. The cost of the sewer is $405.92. Adopted.

Com. Mould offered a resolution directing the superintendent to build a sidewalk in front of the premises of Charles Riggs, Broadway avenue, he having failed to heed a notice, and that the superintendent to report the cost to the board. Adopted.

Com. Mould offered a resolution directing the superintendent to lay a plank crosswalk at the junction of Broadway avenue and Salina street; also another plank crosswalk at the junction of Hamilton and Salina streets. Adopted.

Sidewalk notices were ordered served on the following parties:

Patrick J. Cellery, Arsenal; W. H. Graves, Prospect; R., W. & O., Polk; Dr. Thomas Burns, Leray; George L. Davis, Court; Micajah Horton, Stone; Thomas Millington, Superior; Benjamin Stevens, Superior; Mrs. M. Armstrong, Massey avenue; Charles Andrus, Superior.

The mayor stated that the reservoir quarry is getting too expensive to work. C. W. Rider has a stone pile on Huntington street and the mayor stated that it was the kind of stone that would be required. The mayor had had some talk with Mr. Rider, he stated, but thought it would be well to have the superintendent look up matters before another meeting, as it was not a matter which ought to be leaped into promiscuously. This will be done, and the superintendent will report next week.

The mayor brought up the matter of the Washington street proposed drain. This is the make-shift which is to fill the bill until the sewer is built. Christopher Armstrong was present to urge the matter. On motion City Engineer McComb was ordered to make an estimate of the cost of putting in the drain, and report, if need be, at a special meeting of the board, to be called in the near future. The work, it is thought, will cost $100.

Adjourned.

can now be devoted to other uses. Its former delightful smelling and delicious tasting contents are duplicated in quality and flavor in None Such Mince Meat, a pure, wholesome, cleanly made preparation for mince pies, fruit cake and fruit puddings.

NONE SUCH
MINCE MEAT

saves the housewife long hours of wearisome work and gives the family all the mince pie they can desire at little cost. A package makes two large pies. 10c. at all grocers. Take no substitute.

MERRELL-SOULE CO., Syracuse, N. Y.

CARTHAGE.

A Railroad Man Surprised a Doctor Who Came to Attend Him.

Carthage, Aug. 6.—William Sholes, a brakeman on the local freight, created considerable excitement yesterday afternoon. He was caught between two freight cars and supposed to be seriously injured. He was laid beside the track and a messenger sent for the company doctor, Charles F. Adams. He repaired to the station in great haste. Just as he approached the wounded man the train on which he had been working was moving out. The doctor put his hand on Sholes to see if the body was cold, when up it jumped, made for the train, went up the side of a box car like a cat and disappeared from view around the curve in the road. The astonished doctor hasn't recovered yet from the effect of seeing a patient run away like that.

The many friends of Rev. R. J. Thompson, of Adams, former pastor of the Baptist church of this village, will be pleased to learn that he is to preach in the Congregational church in West Carthage morning and evening of the 16th. Mr. Thompson has a host of friends here.

The house and lot owned by John Shafer, on upper State street, has been sold to M. C. Paul for $1,724.40 on a foreclosure sale on a mortgage held by the Carthage Loan and Building association.

James Burbams, W. C. Porter and Wesley Briggs, of West Carthage, were elected school trustees of that village for one, two and three years. There is a project to make the school a union free school.

Mrs. H. H. Mills, Mrs. John A. Potter and Miss Sarah Potter left for their home in Syracuse, this morning. They are accompanied by Miss Nellie Mathews.

Mathews & McDonald have started a feed store in the store formerly occupied by L. E. Bossout.

In a game of baseball between the Carthage and Felts Mills second nines at Pleasant Lake yesterday, Carthage was victorious by a score of 20 to 8.

Miss Maggie Higman has returned from a visit at Jerdan Falls.

Miss L. Minkin, of Albany, was registered at the Elmhirst yesterday.

Mrs. George Ryther and Mr. and Mrs. Oakley Walker attended the Walker-Aldrich wedding in Watertown, yesterday.

Mrs. Frank McCormack and sister, Miss Anna Apes, of Watertown, left for a visit at Star Lake, yesterday.

Mrs. Charles P. Ryther left this morning for a visit with friends in Oswego.

Miss Cora Bassett returned to her home at Felts Mills last evening.

Mrs. C. H. Wing left this morning for a visit with relatives in Oswego.

George Kincaid, of Springfield, is in town visiting friends.

Mr. and Mrs. James Galvin left this morning for Winchester Springs, in Canada.

E. H. Stanbilber and family, of Sherburne, N. Y., are in town visiting friends and relatives.

Edward Dowdle, of the Oswego Silverware company, is registered at the Elmhirst.

Oriental Encampment will confer the degrees this evening and afterward hold a banquet at the Grand Union.

James Johnson, of Poughkeepsie, was in town yesterday on his way to Star Lake.

Mrs. Fred Wilson, of Watertown, is the guest of Mrs. Frank Smith, on State street.

Miss Jennie Hart, of Felts Mills, is the guest of Miss Nellie Sweet.

Preston R. Moody, of the Standard Pulp company, of New York, is in town for a few days.

John R. Wilson's Case.

Several months ago Rev. John R. Wilson, who was pastor of the Presbyterian church at Brownville, was arrested in this city on complaint of his wife, charged with desertion and non-support. He met his wife at Auburn and they were quietly married by Justice Lody in Syracuse. At first he denied the marriage. He was convicted and being unable to furnish bonds was sent to jail, where he remained 15 days. when he was released, two Watertown citizens signing his bond. A motion was made to discharge him, but it was denied. The motion was renewed Wednesday before Judge Emerson and granted, the bondsmen being discharged and Wilson made a free man. Wilson has been to Dakota and has commenced an action against his wife for divorce.

To Cleanse the System

Effectually yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, or fevers, use Syrup of Figs.

Relief in Six Hours.

Distressing kidney and bladder diseases relieved in six hours by the New Great South American Kidney Cure. This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by J. W. Nott, druggist, Watertown, N. Y.

That Corn.

Cure that painful corn by using Mothersill's Sure Corn Cure. Warranted or money refunded.

If you want a cool drink get it from Rice's fountain.

Rice's orange, lemon and cherry phosphates are great.

CAPE VINCENT'S BREAKWATER.

Plans for Beginning the Work—Courteous Government Officials—The $25,000 Appropriation Will Not Go Far.

Cape Vincent, Aug. 5.—The residents of Cape Vincent generally have been greatly cheered and interested during the past few days by the indications which they have observed in the river adjacent to the village by the operations of government engineers. The appropriation of $25,000, secured through the efforts of our member of congress, Hon. Charles A. Chickering, in the river and harbor bill recently passed, will apparently soon be applied to the object for which it was designed, and we trust that at no distant date the commerce of the St. Lawrence and Lake Ontario will find at Cape Vincent the shelter which has so long been absolutely needed and desired.

Maj. W. S. Stanton, of the United States corps of engineers, whose office is at Oswego, has charge of the matter, and his assistant, William Pearson Judson, United States civil engineer, also of Oswego, has been here since Thursday last, making a close study of the natural conditions which exist, in order that the best location may be selected that will tend to furnish the best results in the way of shelter and at the same time be the least expensive.

The breakwater committee, consisting of Messrs. Ainsworth, Strowger, Fowler, Gardner and Wood, who for the past two years have had the matter in charge, were earnestly requested by Mr. Judson to express their wishes in the fullest manner, and are gratified and appreciate the unstinted courtesy extended to them by Mr. Judson and also the thoroughness with which the harbor bottom and surroundings have been examined. That Mr. Judson has done his work well and faithfully we do not for a moment doubt, and are quite sure that his report to Maj. Stanton will be well considered and adopted.

No borings have been made before into the bottom of the river where the breakwater is to stand, and the committee are somewhat surprised at the results Mr. Judson finds by such an investigation. The bed rock in some places is found from 14 to 15 feet beneath the blue clay that forms the river bottom. This clay is very soft and the proposed structure must sink through it to the rock. The breakwater will be a costly one (though not more so than the required estimate) and the present appropriation cannot be expected to construct a very large piece. At the basis of the 1889 estimate, 125 feet is about all the $25,000 will complete.

Lafargeville.

Aug. 6.—Miss Anna Strickland, of Philadelphia, was the guest of Mrs. H. B. Bushnell last Thursday and Friday.

At school meeting Tuesday evening the following officers were elected: D. DeLaney, trustee; H. O. Rood, collector; L. L. Jerome, clerk.

Mrs. O. E. Tallman, of Philadelphia, who has been spending a few weeks with her sister, Mrs. H. B. Bushnell, has returned home.

Mrs. Dell Kimell, of Theresa, is visiting her parents, Mr. and Mrs. J. Tallman.

Mr. and Mrs. J. Tallman are entertaining Miss Myra Davis, of Ogle county, Ill.

Mr. and Mrs. Gillett were calling on friends in town Tuesday.

Prof. Wiggins and wife, of Point Peninsula, are visiting friends and relatives at this place.

Mrs. Charles Flansburg is visiting her parents in Syracuse.

Rev. Mr. Haffstater and family, Miss Addie Lanway, Miss Edna Nash, Mrs. D. Eddy, and Mr. and Mrs. Nash are attending camp meeting at Rodman.

Mrs. L. L. Strough, who is occupying her summer cottage at Fine View, one day recently captured 13 fine pickerel.

Omar ball team did not put in an appearance Saturday.

Miss Lizzie Cobb, of Utica, is visiting relatives at this place.

Mrs. Carlom is the guest of Mrs. A. L. Hurd, in Utica.

Mrs. J. Schneider, Mrs. M. Lehr, Mrs. J. Tallman, Mrs. Strough, and Miss Belinda Bushnell were the guests of Mrs. B. J. Strough, at Fine View, Tuesday.

Miss Florence Courier is visiting her aunt, Mrs. M. Hyde, at the river.

Mr. and Mrs. F. Rhines, of Watertown, were in this place Saturday and Sunday, the guests of Mr. and Mrs. Valda Baxter.

Miss Edith Cline Ford, of Minneapolis, Minn., is visiting her parents, Mr. and Mrs. W. F. Ford.

Mrs. J. Gellick is visiting friends in New York.

F. M. Drake is putting a new chimney into D. DeLaney's store which will start from the cellar, going up through store to the roof, making it thoroughly safe.

Mrs. Charles Ford, is the guest of Mrs. B. J. Strough at Fine View.

Mr. and Mrs. F. Haller, Mr. and Mrs. Berger, of Brooklyn, N. Y., and N. A. Jones, are sojourning at Fine View.

Mrs. E. C. Cummins and Mrs. Nora Bender, of Utica, returned last Saturday from Grenell Park, where they were the guests of Mrs. H. J. Kilbourn.

Shake Into Your Shoes

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting feet, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. A PERFECT FOOD

WOMAN'S INFLUENCE.

The influence of women upon the civilization of the world, could never be measured.

Because of her, thrones have been established and destroyed. The flash of her eye, the touch of her hand, and we have the marvellous power of women, glorious in the possession of perfect physical health.

Lydia E. Pinkham, by her wonderful discovery of the "Vegetable Compound," has done much to place this great power in the hands of women.

She has lifted thousands and thousands out of the misery brought by displacement of the womb, and all the evils that follow diseases of the uterus.

The "Vegetable Compound" restores natural cheerfulness, destroys despondency, cures backache, strengthens the muscles, restores the womb to its normal condition, and you are changed from a physical wreck to the joy of your home and friends.

By the way—the leading druggists tell us that the demand for Lydia E. Pinkham's Vegetable Compound is simply beyond their power of understanding, and what is best of all, it does the work and cures where the best physicians utterly fail.

WOMEN ON THE SCHOOL BOARD.

Two Ladies Elected at the Annual Meeting at Canton.

Canton, Aug. 5.—School meeting passed off quietly last evening. There were several tickets in the field, but no excitement. The successful one contained the names of J. Stanley Ellsworth, Mrs. Leah Rushton and Miss Lucia E. Heaton for members of the school board, and Charles J. Perkins for clerk. The ladies have at last been recognized and are happy. It is generally believed that this departure is in the right direction.

Car Service Officers' Convention.

The fifth annual meeting of the eastern association of officers in charge of car service will be held at the Central Park hotel, St. Lawrence river, Wednesday, Aug. 12. Railroads, fast freight lines and private car companies located within the boundaries of eastern standard time are invited to send representatives. The subjects for debate will be: First, "Light weighing and stenciling of freight cars;" second, "The demand of private car owners as to what information shall be given them." The party is expected to arrive from Ogdensburg on the steamer Island Belle, Aug. 11, and leave for Prescott on the same boat Aug. 13.

A REMARKABLE CURE.

A Lady Who Was Dying of Diabetes Saved by Dr. Showerman.

Dr. Showerman.

Dear Sir: You wish me to make a statement regarding my condition four months ago. I was actually dying of diabetes. Myself and husband had given up all hope. Our doctors expressed no hope of my recovery. My urine showed a specific gravity of 1,044, and was loaded with sugar. I passed large quantities of urine. Was so weak I was obliged to lie in bed much of the time. Constipation of the bowels, bad feeling in stomach, sweet taste in my mouth. In fact, I had all the symptoms of sugar diabetes. I had heard of your work in cases like mine, and applied to you. The first month I made great progress towards recovery, and at the end of three months I am well and strong. Specific gravity of urine 1,019. I consider it one of the most remarkable cures on record.

MRS. MARY J. HALSTEAD,
Adams Centre, Nov. 22, 1895.

A Silver Dollar

Invested in a bottle of the new discovery, Bushnell's Hair Restorative, is the best investment for any one suffering from diseased scalp, dandruff or feeble, falling gray hair. Its preparation is based upon scientific principles, as it not only restores gray hair and beard to its youthful color, but no local application excels it for the promotion of healthy, soft, luxuriant hair. A dollar bottle bought of any first-class druggist will prove it.

Sold by all druggists for $1. Camp & Massey, Watertown; Doig Bros. and Bronson & Snyder, Lowville; A. T. Smith, Theresa; Collins & Son, Norwood; W. E. Boyce, Henderson; D. Fish, Adams; Charles Williamson, Utica.

Trial bottles sent to any address express prepaid, on receipt of $1. Address Dr. H. N. Bushnell, Cape Vincent, N. Y.
