Dangerous Use of Strong Purgatives

Pills and bitter waters which act quickly upon the bowels, irritate and destroy the mucuous linings of the stomach and bowels. A continued use of such remedies inflames the stomach and bowels. The use of the genuine imported Carlsbad Sprudel Salt is highly recommended because its action is due solely to its solvent and stimulating properties, without irritating the stomach.

The Carlsbad Sprudel Salt

is a remedy prepared by nature. It cures constipation, liver and kidney complaints, catarrh of the stomach, gout and rheumatic conditions. It effects a cure without weakening the system.

Every bottle of genuine Carlsbad Sprudel Salt bears the signature of EISNER & MENDELSON CO., Sole Agents, New York. Beware of imitations.

HER LIFE SAVED BY A BUCK

MISS M'CONNELL RELATES A STRANGE EXPERIENCE WITH A DEER

While She Was Perishing in the Forest the Animal Discovered Her and Remained Near Until He Was Shot by Hunters.

Miss Margaret McConnell, the Utica nurse who was lost in the woods two days and nights last week, tells a very strange story of her experiences. She says:

"That night I could find no other shelter than a large rock leaning over a hollow in the ground. I pulled some boughs into the opening and covering myself over with them, I lay quietly for at least an hour. As I lay there a large buck came near me and appeared very tame. I reached out my hand and touched his head and neck. Soon he left me and in a moment returned with a doe and fawn. They were very much afraid of me but the buck seemed not in the least alarmed. Finally he came and lay down beside me. This is without doubt the one thing that saved my life.

"The big deer remained with me all night and in the morning was in sight most of the time. About noon, as I suppose, and while I was engaged in rubbing my feet, I heard a shot, saw the deer bound into the air and fall. I tried to rise but could not. I shouted and shouted and finally I saw a man coming my way. My first words were, 'Have you shot my big deer.' The hunter, whose name I learned was Fred Reber, and who lives in Boonville, built a fire for me and then dragged the body of the deer near there and I sat upon the carcass while I tried to warm my feet. Soon Mr. Reber's companions from camp a mile or more away came and after making a litter out of some boughs, they carried me to their camp. The worst of the whole experience was the first part of the night of Tuesday, spent without shelter of any kind and the snow falling continuously. I am going to ask of Mr. Reber for the head of that buck, for he gave his life for me."

SUBSCRIBERS ASKED TO PAY.

Citizens Called Upon to Contribute for the Overhead Crossing.

Mayor Pappa has forwarded the following letter to the persons who subscribed various amounts for the purpose of aiding in the construction of the overhead crossing on Arsenal street:

Watertown, N. Y., Nov. 15, 1901.

Dear Sir: In the spring of 1900, you with several others, petitioned the common council of the city of Watertown to construct an overhead crossing on Arsenal street; and for the purpose of assisting the city in the consummation thereof, you subscribed the sum of $—— and agreed to pay the same to the city when the viaduct was commenced. It is now in process of construction and will soon be finished.

The city has already expended nearly $6,000 on account of the damages sustained to the abutting owners, a portion of which has been borrowed upon the notes of the city, which will soon be due.

An early remittance to the city treasurer of your subscription will be greatly appreciated, and duly acknowledged.

JAMES F. PAPPA, Mayor.

The amounts pledged aggregated about $2,000.

ROYAL TONIC

Vinol Will Invigorate And Strengthen Quickly.

We Endorse and Guarantee It.

We sell many tonics.

We have demands for many so-called strength creators.

We handle all kinds of remedies that claim to be invigorators. We do this because we are druggists, and it is our business to supply the public with that which they want.

When our advice is asked, however, as to a tonic and rebuilder, strength creator and an appetite producer, we invariably recommend Vinol. We do this because we know all about Vinol. We know all that it contains. We have sold enormous quantities of it, and we have had every opportunity offered us to watch the results that have been accomplished by the use of this wonderful reconstructor.

If you have not yet had occasion to use such a tonic we would like to have you call on us, and learn why we are so enthusiastic about this scientific remedy.

Vinol contains all the curative principles in a highly concentrated state that are found in cod liver oil. It does not contain, however, any of the obnoxious, digestion destroying grease that always proved to be such a drawback to what otherwise would have been a most valuable remedy. We wish you would remember Vinol, and bear in mind that as a blood enricher and flesh creator and as a wonderful aid to digestion, we know of nothing that will compare with it.

Mrs. M. L. Perkins, Bangor, Maine, says: "I have only taken one bottle of Vinol. I, therefore, am not in a position to know the full extent of its beneficial action, but this one bottle has convinced me that Vinol is a marvelous tonic. While ill this winter with grippe, a friend told me about Vinol, and recommended it so highly that I procured a bottle. It benefited me wonderfully, and I believe that it possesses splendid building up properties. The little I have taken of it has convinced me that in my case it is most excellent."

We endorse Vinol. We guarantee its action. Such is our faith in it that we will gladly refund to anyone who is not satisfied the price they have paid for it.

EDINBURGH THE SCOTCH CAPITAL

The Subject of the First Illustrated Lecture at Hope Church.

The first of this winter's illustrated lectures by the pastor, Rev. George H. Feltus, at Hope Presbyterian church, will be presented Friday night of this week. Edinburgh, the capital of the Scottish kingdom, will be described with word and picture. That name is always suggestive of the good old days when Mary, Queen of Scots, swayed in inimitable sovereignty the sturdy, stalwart sons of Scotia. Many a father's son and many a mother's daughter has heard the tales of Old Scotland till the history is known better than that of their adopted land. Nothing can make those scenes so vivid as a vision with the naked eye, but next best and of good value when the former cannot be had is a striking and characteristic picture. Forty-six of the choicest views of that city will be shown Friday night.

Tickets have been prepared and may be had at Bolton's drug store on Main street and McKim's grocery on Leray street. A ticket for five admissions is 40 cents for adults and 25 cents for children. This is in place of the collection formerly taken to defray expense of lantern and slides.

SHORTAGE IN WOOD PULP.

Difficulty in Securing a Supply for the Big Paper Plant at Millinocket.

A Boston dispatch to the New York News Bureau says:

The price of paper is reported to be very firm, with an upward tendency, on account of the shortage of pulp from which some manufacturers are suffering. It is reported that the Great Northern Paper Co., whose plant at Millinocket was laid out to make 250 tons of paper a day and 150 tons of pulp a day, is now making but 50 tons of pulp, the water power proving very inadequate. This plant is situated on one of the tributaries of the Penobscot river and at the foot of Lake Millinocket. This lake is now reported to be very low, having been drawn down during the summer, and as there is no prospect of its filling up before the winter season closes in, it is feared that the plant will be very much crippled throughout the winter and that its production will be greatly reduced. Already, it is said, they are 40 or 50 tons short in their New York deliveries and are obliged to call upon other manufacturers for the deficit. They are making every possible effort, however, to overcome the shortage of pulp by buying from outside sources, regardless of cost, and it is known that large shipments have been made from Ticonderoga and Plattsburg, N. Y., which are several hundred miles away, and that they are now scouting the country for further supplies and negotiating with parties in Sault Ste. Marie, which is more than a thousand miles distant. They will have to buy, it is said, 150 tons of pulp daily throughout the entire year to meet the shortage.
