# SCHOOLS RANK HIGH

WATERTOWN STUDENTS MAKE EXCELLENT RECORDS WITH THE REGENTS

## NEW SCHOOL BUILDING NEEDED

Supt. Tisdale Recommends a Substitute for the Pearl Street School, in a New Location—The Growing North Side Needs It—High School Pupils Average 91 Per Cent. in Regents' Examinations; Grammar Grades 85 Per Cent.; the Average for the State is Only 70 Per Cent.—An Enrollment of 426 in the High School—Cooper Street School 669—W. W. Conde's Bid for Supplying the Hardware for the High School Accepted.

The board of education, in regular monthly session last night, awarded the contract for equipping the new High school with plumbing to W. W. Conde, for $919.14.

Superintendent Tisdale, in his regular report, recommended the sale of the Pearl street school building and an 8 or 12 room building to be built on a site that will accommodate the pupils now there and those from the section about to be built up through the erection of the new brake works plant on Pearl street. The executive committee will investigate the matter and report later.

The board came to order at 7.45 with President Harrington present and Coms. Reeves, Rexford, Stevens, Nims, W. J. and L. L. Allen, Keenan, Rice and White. Architect Wilson Potter, of New York, who designed the new High school building, was also present.

Superintendent Tisdale, in his report, said:

Superintendent of public instruction has apportioned to this city the sum of $148, with the usual condition that a like amount be raised by the city, for the purchase of library books. I would request that I be permitted to spend $100 of this library money under the direction of the visiting committee with the usual approval of the state department.

In the recent regents' examinations the High school maintained the high percentage attained a year ago of 91 per cent. of accepted papers. In 1897, 78 per cent of the papers were accepted. In 1898, 79 per cent. in 1899, 81 per cent., in 1900, 87 per cent., in 1901, 91 per cent.

In the grammar grades, the percentage of accepted papers two years ago was 80 per cent. One year ago the percentage was raised to 89 per cent. In the recent examinations this was increased to 95 per cent. As the average percentage of all the schools of the state is only 70 per cent., I consider that the above averages may be taken as an indication of better methods of instruction in our schools, and may also be used as a basis of comparison with the other school system in Feb. 4. The number of eighth grade pupils granted diplomas of the state was 94. Of this number, all passed in the so-called preliminary subjects and in addition 44 passed in elementary drawing and 71 in United States history. This is the first time in the history of the schools that grammar school pupils have passed the regents' examinations in drawing. As the work done in the eighth grade rooms two years ago was only sixth-year work, our standard of work in drawing is shown to have been raised one and a half years in all of the schools of the city and two years in the Academy and Arsenal street schools.

I have paid to the city treasurer the sum of $94.65 received for tuition.

There are now 426 students in the High school, the largest number ever enrolled.

The enrollment in the Cooper street school is now 669. I had hoped that the attendance at the Cooper street school might not increase sufficiently to demand a new school this year on the north side of the river. You will see, however, that the full capacity of the school has been nearly reached. Moreover, I am informed that the construction of the new Air Brake works on the north side of the river is certain to be followed by the building of a large number of dwellings in that part of the city.

I have carefully examined the Pearl street school building and find that its enlargement is not practicable. The building is poorly ventilated, the heating system is worn out, the school is not well located.

I would respectfully recommend that the Pearl street school building be sold, and an eight or 10-room building be built on a site which will accommodate both the pupils now in the Pearl street school and the pupils from the section about to be built up. This school can be so located as to keep the number in the Cooper street school near the present enrollment. If such a school is built, it should be of at least eight rooms and be built on a plan by which the school can, if necessary, be enlarged to 20 rooms.

A resolution was offered by Com. L. L. Allen providing that the superintendent be permitted to expend not to exceed $50 for pictures for the schools. Adopted.

Com. Nims moved that the Monday following Feb. 22, Washington's birthday, be observed as a school holiday. Carried.

Com. Reeves offered a resolution directing the executive committee to investigate the matter of schools for the north side of the river and report at the next meeting of the board. Adopted.

Chairman Rice of the finance committee, reported accounts for audit as follows, a resolution being drawn authorizing their payment:

| | |
|---|---|
| Ginn & Co. | $ 486 24 |

Com. Reeves offered a resolution permitting the superintendent to spend $150 for library books under the direction of the visiting committee. Adopted.

Pool & Bill, W. W. Conde and H. M. Spoonenberg had samples of hardware on exhibition and the commissioners began to inspect them, their points being exploited by the dealers and representatives present. After a thorough examination of samples Com. Reeves offered a resolution providing that W. W. Conde's bid for hardware for the High school be accepted and directing the executive committee to enter into a contract with Mr. Conde at the specified price, $919.14.

Adopted.

The board then adjourned.

The New and Better Breakfast Food, "It" Is the best preparation of wheat—whole wheat with all the good retained; ready cooked; ready sweetened. Just add milk or cream. Everybody likes "It". At grocers. Prepared by The Genesee Pure Food Co., LeRoy, N. Y.

Denver News.

It is reported that each night before retiring President Roosevelt lies on his back and kicks his feet 50 times into the air. Perhaps he is simply exercising what he would like to do to those south ca republican delegations.

### AN INDIAN DOLL

The Finding of a Curious Relic Reported from Cape Vincent.

The Cape Vincent Eagle, whose editor delights in good stories, prints a new one which is republished here for the amusement of local antiquarians with a cautionary reminder of the Eagle's discovery of a specimen of the "stone bird" on Wolfe island several years ago.

Cape Vincent Eagle.

In the old days when the Black river country was first visited by French explorers from Canada, the hillside above the present hamlet of St. Lawrence, in the town of Cape Vincent, was the site of an Indian village. From that hillside have been taken many Indian relics which have gone into private collections all over the country and into the museums of cities and colleges. From the site of this old village there has recently been found a figure which the local antiquarians are uncertain how to classify, some maintaining that like the Buddhist image worshiped by Kipling's Simla girl, the figure found is a "bloomin' idol made of mud," while others maintain that it was an aboriginal doll and the plaything of a dusky maiden long gone with her vanishing race.

The figure, which was found in a pit that had been overlooked by the archaeologists of Chaumont, Drs. Getman and Amidon, who in their excavations missed it by only a spadeful of earth, is in a sitting position about eight inches high with distinctly aboriginal features. It was evidently sun baked, being the kind of aboriginal ware known as adobe. While the clay of which it was formed was not mixed with pounded shells of mollusks, as was most of the Indian ware, to give it a temper, it shows regular tracing wrought with the bone awl and shell blade of the aboriginal potter.

Although the village that formerly occupied the site was one of the outposts of the great Iroquois confederacy, the figure is unlike any Iroquois doll of which there is any record, the Onondagas and their confederate tribesmen manufacturing dolls for their papooses of wood or weaving them from bark, but never making toys of clay as far as recorded.

The figure has certain markings which indicate an Aztec origin and it is believed to have been captured or bought by the Iroquois, who are nature worshippers, but not idolaters, from some tribe of the southwest. One local antiquary holds the opinion that the figure was an Esquimaux doll, but they made such toys of bone and feathers, never of clay.

Fifty thousand persons visited Robert Burns' cottage at Ayr last year.

# A BOARD OF TRADE

CITIZENS GATHER AND FORM THE NUCLEUS OF AN ORGANIZATION

## ENCOURAGING INTEREST SHOWN

A Movement to Unite and Represent the Commercial Interests of Watertown—A Committee Appointed.

About 35 business and professional men met at the City hall last night and took the preliminary steps towards the organization of a business men's association or a board of trade of the city of Watertown. Representatives of many of the business interests of the city were present and active interest was displayed, which promises that the repeated efforts of ex-Mayor Wise and a few energetic business men will be crowned with success.

The meeting was called to order shortly after 8 in the city court room by ex-Mayor James B. Wise, who was immediately chosen as chairman. Mr. Wise said:

"This meeting has been called for the purpose of organizing either a board of trade or a business men's association in this city. The object of such an association is not so much to endeavor to get new enterprises to locate here as it is to correct abuses which exist in present conditions of the business interests here. There are many things which need correcting and can be corrected by organized effort, and it is proper that such effort should be put forward by the business men of the city, and the object of this meeting is to form an association for such a purpose."

E. Cole was elected secretary of the meeting. On a suggestion by W. H. Moffit the constitution and bylaws of the former board of trade which expired in 1893, were read to give those present an idea of the intent of the organization.

Ex-Mayor John Nill said that in his opinion the former board was still in existence although they had not held a meeting in so long, and that there must be a fund belonging to it which should properly come to its successor. The proper way, he thought, would be to call a meeting of the old board and either continue that organization or discontinue it and form another. "With all due respect to the men here present, there are not enough of the business interests represented here to make an organization effective and it seems to me it would be better to have a committee urge the business men to come to another meeting at which the organization could be perfected."

C. E. Dorr moved to proceed to take the preliminary steps towards the perfection of an organization. This motion was carried and a general discussion of the best methods to pursue was had.

W. H. Hathway proposed that a committee be appointed to draft bylaws, select a name and present a ticket of officers at a future meeting.

W. C. Kelly thought it not advisable to do much when there were so few business men represented but suggested that a committee be appointed for the purpose proposed by Mr. Hathway.

George N. Brown moved that the chair appoint a committee of five to draft bylaws and select a name for the organization, all of which was to be presented at a future meeting. This motion was carried and the chair appointed as that committee, John Nill, W. J. Mills, W. H. Hathway, Mason M. Swan, B. B. Taggart and the chairman will act also.

B. F. Taggart moved that a committee of three from each ward be appointed to solicit members for the new organization among the business and professional men of the city. This motion was carried and a discussion was had as to the best manner in which the committee could work. It was finally decided that the chairman ex officio be a member of the committee and make his select(ions) later when he can do so with more care and thought, and then call a meeting of the committee and lay out plans upon which to work. There was some talk of naming a committee to propose officers at the next meeting but it was decided that such action had better come before the larger meeting, when there would be some definite knowledge of the membership and all would have a voice in the selection. The meeting then adjourned and it was understood that the membership committee will be appointed and get to work at once with the intention of holding the meeting for permanent organization within two weeks.

### HOW TO BE

Cured of Piles Without Pain

First. Change from sedentary occupation to wisely chosen, more active work.

Second. From indoor to outdoor life.

Third. From wrong to right clothing.

Fourth. From unhealthy, rich living to a mild hygienic diet.

Fifth, sixth and last, use Pyramid Pile Cure regularly, and according to directions, for it is the right cure for the trouble, and will cure you as it has hundreds of others.

Don't wait until you are a helpless invalid for a seemingly simple case of hemorrhoids, or piles, may, if neglected, rapidly lead to worse. The unnatural formations become tumorous and permanent and the inflammation grows until abscesses form the disease burrows into the tissues, forming tubular growths which discharge pus, cancerous conditions and general gangrenous degeneration appear.

What is needed at the start or at any stage, is something to so the this inflammation, reduce the swelling and distension, and at the same time restore the diseased parts to normal condition. These three things are accomplished perfectly by the Pyramid Pile Cure. It checks all progress of the disease and rapidly returns the affected parts to health, besides relieving at once the pain and fearful irritation.

"I began using Pyramid Pile Cure and in order to make sure of a cure bought five packages, for the past six weeks I have not been troubled in the least and I had been bothered for 35 years, and I had spent more than $100 for different remedies, this is the first permanent help I have had, and no one could feel more grateful than I do." L. M. Williams, Conneaut, Ohio.

Pyramid Pile Cure is sold by druggists generally for 50 cents a package, and we urge all sufferers to write Pyramid Drug Co., Marshall, Mich., for their valuable little book describing the cause and cure of piles.

"Never Fry a Fish Till It's Caught."

But when the catching is *probable*, you may begin heating the pan.

Likewise, make preparation for curing a cold before it's caught by buying Hale's Honey of Horehound and Tar. Keep it ready to use. The chances are you'll catch a cold.

For Sale by Druggists.

FOR SALE BY ALL LEADING DRUGGISTS. PRICE FIFTY CENTS PER BOTTLE.

### THE MEN AND WOMEN

Who Enjoy the Choicest Products of the World's Commerce.

Knowledge of What is Best More Important Than Wealth Without It.

It must be apparent to every one that qualities of the highest order are necessary to enable the best of the products of modern commerce to attain permanently universal acceptance. However loudly heralded they may not be wonderful preeminence unless they meet with the general approval, not of individuals only, but of the many who have the happy faculty of selecting, enjoying and learning the real worth of the choicest products. Their commendation, consequently, becomes important to others since to meet the requirements of the Well-informed of all countries the method of manufacture must be of the most perfect order and the combination the most excellent of its kind. The above is true not of food products only, but is especially applicable to medicinal agents and after nearly a quarter of a century of growth and general use the excellent remedy, Syrup of Figs, is everywhere accepted, throughout the world, as the best of family laxatives. Its quality is due not only to the excellence of the combination of the laxative and carminative principles of plants known to act most beneficially on the system and presented in the form of a pleasant and refreshing liquid, but also to the method of manufacture of the California Fig Syrup Co., which ensures that uniformity and purity essential in a remedy intended for family use. Ask any physician, who is well informed and he will answer at once that it is an excellent laxative. If at all eminent in his profession and has made a special study of laxatives and their effects upon the system he will tell you that it is the best of family laxatives, because it is simple and wholesome and cleanses and sweetens the system effectually when a laxative is needed, without any unpleasant after-effects. Every well-informed druggist of reputable standing knows that Syrup of Figs is an excellent laxative and is glad to sell it at the regular price of fifty cents per bottle, because it gives general satisfaction, but one should remember that in order to get the beneficial effects of Syrup of Figs it is necessary to buy the genuine, which is sold in original packages only, the name of the remedy—Syrup of Figs and also the full name of the Company—California Fig Syrup Co.—printed on the front of every package.

# A CASE OF IT

Many Here Like It in Watertown.

The following case is but one of many similar occurring daily in Watertown. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such conclusive evidence.

Mrs. J. L. White, fashionable dressmaker, at 21½ Jackman street, says: "A few years ago I had a severe attack of typhoid fever, and upon my recovery from it I found it left me with kidney trouble and a weak back. Every month it grew weaker and more painful, particularly if I had been on my feet much. Before I got Doan's Kidney Pills at Felt & Co.'s drug store, it was necessary for me to elevate my feet when lying on my back to prevent almost unbearable pain in the loins. Frequently it extended upward towards the shoulders and downwards into my limbs. Other conditions existed, but they all left me after I used Doan's Kidney Pills. It was not over three or four days before I noticed a change for the better, and as I continued the treatment I rapidly improved until cured."

For sale by all dealers. Price 50 cents. Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

GRAY'S SPECIFIC MEDICINE

TRADE MARK
