## The City of Opportunity

A Place to Make Things — to Buy Things — To See Things  
 General Clearance in All Lines Underway

### BUYING OPPORTUNITIES GREATEST NOW

**JANUARY** is the clearance month. The time, broadly speaking, when retail profit making is past. The period, twilight seasons, when Winter goods are hurried out at minimum prices, and merchants generally are getting ready for the reception of new Spring styles.

For You Who Live Near Syracuse It Is Your Buying and Saving Time. Notably so this year in view of the increasing cost of all lines of merchandise — especially of woollens, cottons and silks.

A trip to Syracuse this week will secure for you every advantage these stock-reducing events offer. It will enable you to furnish your home—replenish your wardrobe—secure home comforts and necessities and spend considerably less than these same things will cost you a month or two hence.

The merchants whose names appear below welcome you to stocks that offer extraordinary opportunity in assortments and money saving.
