Intelligent Discrimination of Loyal Republicans

President Taft expresses great confidence in the intelligent discrimination of loyal Republicans, and calls special attention to the motto which now seems applicable, "That saints have a past, but only sinners a future."

We live under the best form of government in the world, a government by the people, giving every citizen an essential part in its operations.

President Taft's Renomination

The declaration of the New York Republican County Committee in favor of the renomination of President Taft, has had a tendency to arouse the anger and resent the machinations employed by his opponents to prevent his re-nomination.

High Cost of Living

Economic investigation into the cause for the high prices of the necessities of life, has been an interesting subject presented by President Taft, who discussed the high cost of living and the relations of labor and capital.

For some years past the high and steadily increasing cost of living has been a matter of such grave public concern that I deem it of great public interest that an international conference be proposed at this time for the purpose of preparing plans to be submitted to the various governments, for an international inquiry into the high cost of living, its extent, causes, effects and possible remedies.

The numerous investigations on the subject of official or other already made in various countries (such as Austria, Belgium, Canada, Denmark, France, Germany, Great Britain, Italy, the Netherlands and the United States) have themselves strongly demonstrated the need of further study of world-wide scope.

As already indicated, the preliminary conference itself would entail a comparatively small expense, and most of the subsequent investigations for which it would prepare the way could be carried out by existing bureaus in this and other governments as part of their regular work and would require little, if any, additional appropriations for such bureaus.

To Amend Primary Bill

Senator Wagner, the Democratic leader in the state senate will introduce today or to-morrow measures for the amendment of the Ferris-Blauvelt Primary bill. This is the

result of a conference representing the Republican organization, the Independence League, the Citizens Union and the City Club of New York city, which has thoroughly investigated the act. The object of a direct primary bill, Senator Wagner explains, was to put every member of a party on an equal footing. Then, if he did not come to the primaries, it was his own fault.

When the time arrives for the Senate to act on the election of Senator Stephenson of Wisconsin, Mr. Stephenson's counsel, it is asserted, will maintain that the Senate has no right to go back on the nomination of a Senator at popular primaries, to determine whether or not money was improperly used to promote his selection.

The Senate has not the right, and this view is sustained by Senator Hayburn, who says in the report that any method of electing a member of the United States Senate other than by the Legislature of the state is unknown to the Constitution and is not mentioned in the federal laws, from which facts he draws the conclusion that a popular election or nomination of a Senator "amounts to nothing more than a straw vote."

There is no law of the United States recognizing such a thing as a "candidacy" for the United States Senate, and no legal status is given to the frame of mind constituting an intention on the part of the man himself that he become a candidate before the Legislature.

In the darkness of Death, God's right hand leads to the never ending daylight of immortality. A heroic soul has passed into rest, after battling many years, with the saddest of adverse tides.

IN MEMORIAM

The end came gently at last "God's finger touched her and she slept." Very early in life, a sad heritage of sorrow came to her, the hardest of life experiences, cutting and deep, seemed to surround her every step, and verily, she trod the wine-press alone many times.

DO NOT APPRECIATE PRIVILEGE

The Oswego Times of Saturday says something that every rural patron should know. The Fulton carriers, too, have suffered keenly from the same neglect of duty on the part of the patrons. The Times says:

The R. F. D. carriers report that patrons on every route—practically in every instance—had not cleared the snow about their mail boxes yesterday so that the mail could be placed in them without either the carriers getting out of their rigs or forcing their horses to break through the hard, icy crust, cutting them about the legs. In some instances badly. Nearly every horse came back bleeding at the fetlocks.

Some of the carriers were asked why they didn't get out and go to the boxes instead of trying to force their horses from the track up to them. The answer was, how could a carrier be expected to do what the patron is compelled to do in order to be entitled to have his mail delivered, to pile out of his rig, that is, into the snow, in a hundred cases on a 25 mile drive, getting cold and wet in the operation, and make the trip "at all"?

Patrons ought to see to it that, in weather such as this month has been, access to their boxes should be a first duty with them, what due consideration for man and beast and their own interests dictate. A mail service that is showing a deficit of thirty million dollars a year is not a Government snap, something that the beneficiaries ought to appreciate to the extent of providing every facility possible in the way of good roads and roads kept open.

COUNTY SUNDAY SCHOOL ASSOCIATION

At a meeting of the Executive Committee of the Oswego County Sunday School Association in Oswego last Tuesday, a plan of campaign was outlined to secure the affiliation of every school with county organizations, which in turn would affiliate with the State organizations.

The Socialist party has secured Dr. Howard A. Gibbs of Ballston Spa to explain the principles of Socialism in a public lecture at the party's headquarters on Onondaga street, the Mason Union Hall at the rear of Scholtz barber shop, Monday evening, Feb. 12. Dr. Gibbs is an old timer in the Socialist party, well known to many as a lecturer and writer on economic questions.

Famous English Chef Who Worked Out and Perfected Popular System of Paper Bag Cooking

Women readers of this paper will be interested to learn that we have arranged to publish a series of articles on the famous Soyer system of paper bag cooking with recipes that have been carefully worked out by M. Soyer and Martha McCulloch Williams, the well known American cooking expert.

Some months ago M. Nicholas Soyer, chef of Brooks' Club, London—himself one of the world's most noted living chefs, and grandson of that Soyer, "the immortal Alexis," who has

been called the gastronomic regenerator of the Nineteenth Century—worked out and perfected a system of cooking in paper bags.

After years of study and effort he did this—and then he told of his system and its advantages over the old pot and kettle method.

M. Soyer's system of paper bag cooking is unquestionably fast revolutionizing household cooking in England, for a thousand years noted for its ultra conservatism.

CIVIL WAR ECHOES

The Bone of Contention "The soul of John Brown still goes marching on," also that of the Martyr Abraham Lincoln, who came to the fore from a babe in the woods.

Also the shining stars, Grant, Sherman and Sheridan and others, down to the humble boy private in the ranks. All took a hand in putting down the greatest rebellion and one of the greatest evils of modern times.

Also the publication of Uncle Tom's Cabin and several other books were strong factors in arousing public sentiment and in the preservation of the Union. The Civil War was God's war and he couldn't overlook the great sin of Amalgamation and allow the South to live on in luxury and idleness any longer keeping their slaves in bondage.

In 1863 on Bennett's plantation on the Mississippi river above New Orleans four companies of the 110th Regiment were guarding his plantation. One day a soldier met a beautiful quadroon slave on the lawn, and became engaged in conversation with her, she said, "We are in sight of three generations, that little curly headed boy you see playing there is my son, that man over there busy, is my boy's father, and that old gentleman in the arm chair on the porch leaning on his cane is my boy's grandfather."

"If it hadn't been for man's sin there would have been no colored people, and if it had not been for man's extreme love for the mighty dollar, there would have been no slave traffic from the shores of Africa. Don't tell me there isn't a God in Israel when the poor ignorant slaves of the South after such a long exhibition of prayer and faith for mercy and freedom were finally answered by the Emancipation Proclamation."

Thinking the day of jubilee had come, Abraham Lincoln under that long tunic he used to wear was a very tall man, but he keeps on growing in the estimation of American people and of the entire civilized world. I consider that George Washington was the grandfather of his country, and Abraham Lincoln was the father of his country.

NOTES FROM OSWEGO

FALLS GRANGE The Lecturer of the Oswego Falls Grange at the regular meeting gave out a patriotic program for Saturday evening in commemoration of Lincoln Day. All the members of the Grange are requested to give selections and stories of Lincoln and the Civil war.

Mrs. J. H. Stewart was reported ill. John Churchill and family have recovered from their illness and were present Saturday evening.

Dame Fortune having knocked at the door of Worthy Master and Lady Assistant McCoy, congratulations were in order. I suppose they will be riding in their touring car next summer when the rest of us are walking.

W. H. Pollard, Secretary of the Farmers' Institute, has given out a request for samples of fruits and vegetables to be brought forward for display at the coming Farmers' Institute, February 16 and 17.

S. D. Gardner, Press Correspondent

HOSPITALS CURE, TUBERCULOSIS The annual report of the Board of Managers of the Ontario County Tuberculosis Hospital shows that the institution, although it has been in operation for only a little more than a year, is already successful. Of the 48 patients admitted during the year, 12 were discharged with the disease arrested and 9 improved under treatment. Only 7 out of the 48 died. There are now 16 patients in the institution. The Ontario County institution has had since last summer, awaiting list varying from 5 to 16. The Board of Managers has asked the Board of Supervisors for additional stacks for 8 incipient cases.

NEW BANK PROPOSED Pulaski.—If present plans carry, Pulaski will soon have another bank. A prominent business man stated that the matter had been under consideration some time but declined to give out any information regarding the promoters. He declared that already \$25,000 has been pledged for the proposed banking institution, which it is understood will be capitalized with at least \$50,000. While no definite information can be secured at this time, it is said that outside capitalists will also be interested in the formation of the proposed new bank, and that if the plans carry a handsome new brick structure will be started in the spring.

CERTAINLY IS TOUGH Big Bill Edwards, who saved Mayor Gaynor from death by assassination, was turned out of a New York restaurant because he was not clad in evening dress. It certainly is tough if you must spend \$50 for a dress suit before you can be permitted to pay fifteen cents for a piece of pie.

MR. McPEAK PASSED Albany.—Thomas F. McPeak, of 48 East Oneida street, Oswego, has passed the recent competitive State Civil Service examination for the position of orderly or watchman in the State service. The salary of the position is \$760 per annum.

SALE OF REAL ESTATE Lewis A. Coon, of Scriba, has purchased from Isaac P. Brewer, of Fulton, sixty-two acres in Scriba for \$2,900.

REPORT OF POSTAL COMMISSION Washington, Feb. 2.—Associate Justice Hughes of the Supreme Court today submitted to President Taft the final report of the Postal Commission on the plan to increase rates for newspapers and magazines. The commission, it was reported, had recommended that the second class rate of one per cent a pound be doubled. President Taft will send the report to Congress with a special message giving his views.

This problem of what to "do to" our former presidents is getting more and more acute every day.

The ice making record furnished by the Weather Bureau, furnishes interesting reading at this period of the year. Oswego has 12 inches, Buffalo and Charlotte, 14 inches, while through the New England states there is a record from 18 to 20 inches. At Albany, on the Hudson, there are 13 inches, while Lake Champlain has but 5 1/2 inches. The greatest depth of ice in the country is at Bismarck, N. D., 14 inches, while Calamus, Mich., has the greatest depth of snow, 34 inches. The northern part of the State in the vicinity of Malone has but 5 inches. Herkimer has 12 inches and Syracuse and Canton 9 inches.

PAPER BAG COOKING CONVERT

Martha McCulloch Williams Declares Soyer System is Latest Gift to Woman's Greatest Art.

Mrs. Martha McCulloch Williams, one of America's foremost cooking authorities, is a strong advocate of paper bag cooking. She has prepared a number of recipes for good dishes that will be printed in the series of articles on M. Soyer's famous system of paper bag cooking that we have arranged to run.

Mrs. Williams proclaims herself joyously a self-made cook, and might proud of her ability in that line. Indeed she says she thinks it a shame that so many millions are wasted in the endowment of colleges, libraries and so on—the money would bring

so much greater increment of happiness and human comfort were she endowed liberally enough to permit of her cooking all the time, and all the things she likes.

"I am keenly interested in public affairs—almost as much so as in paper bags. But you couldn't chase me with the ballot—to give it to women would mean the spoiling of two excellent-good things. The profession of woman I regard as the finest in the world—and sufficient to satisfy the most supreme talent. But in cooking lies my real enthusiasm. It is the one art that might tempt me into capital letters. And paper bags are the last best gift of it."

Mrs. Williams keeps house, and delights in dinners for six—which she cooks and serves herself. Thus what she has to say in this series carries the weight of experience.

Drop by drop the offensive discharge caused by Nasal Catarrh falls from the back of the nose into the throat, setting up an inflammation that is likely to mean Chronic Bronchitis. The most satisfactory remedy for Catarrh is Ely's Cream Balm, and the relief that follows even the first application cannot be told in words.
