Mr. Sharp is one of the zealous workers in the grange and his influence with the railroad officials in securing special rates is of great importance, as the Pan-American exposition is coming.

—Mrs. L. D. Pierce, lecturer of the Denmark grange, furnishes us with the report of the fourth regular meeting, held Saturday evening. Owing to many of the members being ill with the prevailing distemper, the attendance was light in comparison to the members generally present. The work in the lecturer's hands consisted of a discussion of "Which is more profitable, to raise your stock or to replenish by purchasing?" W. Walsman and R. C. Otis took up the question and gave many points in favor of raising stock to keep the dairy good. Mrs. H. E. Cook gave an excellent reading, entitled "The Old School House;" Pearl Barnum gave a recitation, "He Merely Didn't Think." By request the worthy master, J. T. Martin, read the address of Hon. James Wood, delivered before a large audience at the state grange. We can vouch for Mr. Wood's address, being one of the most telling speeches on the canal question that we have ever listened to, and one that carried a great weight with it. It should be read at all grange meetings to open the eyes of Patrons of Husbandry everywhere. The meeting was one of profit, as is usually the case where vital questions are at stake.

—Last Thursday evening, just after dark, some boys accidentally discovered James H. King, aged about 80 years, and for the past thirty years a resident of this village, lying in a snow bank and badly chilled but a few feet from his own door. He was a wagon maker and cooper by trade, and has worked in his shop nearly every day this winter, but on Thursday complained of not feeling well and remained at his home. He was living entirely alone and had been for several years. To a neighbor who called in about noon he remarked that he was feeling better and would soon be out. It is quite probable that toward night he was taken worse and started to go to the next house but failed to reach it. When found he was carried into the house and a physician promptly summoned. Every effort was made to revive him, but he was pulseless and remained so until he died at about 10 o'clock that evening. His funeral occurred on Saturday afternoon, Rev. H. A. Lawrence officiating, and the remains were placed in the vault in the cemetery at this place.

—Judson C. Hart, who lives on the river road, is suffering from a very painful accident. Mr. Hart and his son *Burton have been cutting wood in a* ravine near the river, and hauling it down the river on the ice to this place. The timber is situated on a steep bank and they load the sleigh up on the bank, then fasten a rope and chain to the rear bob and by snubbing around a tree ease the load down to the bottom. It seems that Mr. Hart, Sr., was in the act of letting a load down the hill when his left hand was caught in the chain and two fingers were crushed. Burton Hart notified Dr. C. B. Hall, who went *to the Hart home at once.* In the meantime Mr. Hart, Sr., walked one mile through the snow and cold to his home. When the doctor arrived he found the little finger torn off below the second joint and the next one was torn off below the first joint, jagged bones protruding from both. It was necessary to unjoint the little finger at the knuckle and the other one was taken off at the second joint. The patient is as comfortable as can be expected.

Dr. E. F. Butterfield will be at the Kellogg House, Lowville, on Monday, Feb. 25th.

Here is one of those astonishing cures of Dr. E. F. Butterfield and a letter that tells its own story:

MONTAGUE, Sept. 8, 1900.

My Dear Doctor:—When I came two months ago I did so because I had exhausted all the remedies the doctors in this county could give me. I had no confidence in your theory and knew nothing about your practice. I was supposed to have Bright's disease, diabetes and spinal complaint, and generally used up condition. I had no rest or comfort in living. I spent restless days and sleepless nights. After taking your remedies for two months I am a new man. You have given me a new spine and new hips, and I weigh 10 to 15 pounds more than I did and my health is splendid. I believe you can cure anything that is curable. I am willing to do anything for you. Refer any one to me.

Yours truly,
ARCHIBALD GOUTREMOUT.

Resolutions of Respect.

Minute adopted by G. D. Bailey Post, February 14, 1901, upon the death of Past Commander-in-Chief Col. Albert D. Shaw:

The members of this Post profoundly deplore the untimely death of Past Commander-in-Chief Comrade Albert D. Shaw, whose record as a gallant and loyal soldier in the Union armies in the late civil war is both honorable and creditable, and whose interest and zeal in the welfare and prosperity of our noble order won our sincere regards and warm affection, and placed him high upon its roll of fame.

In civil life he was the embodiment of the upright man and Christian gentleman, and graced and adorned every station he occupied, and has fallen in the strength of his manhood and just when he had attained a position where he gave promise of such usefulness to his comrades and the people of this Congressional district.

To his surviving family we tender our sincere sympathy and pray that our loving Divine Father may give them comfort and consolation.

It is hereby directed that copies of this minute be sent to the family of Col. Shaw and supplied to our local press, and that our colors and rooms be properly draped in mourning for sixty days.

Minute adopted at a regular meeting of G. D. Bailey Post, No. 200, Department N. Y., G. A. R., February 14, 1901, upon the death of Comrade Lieut. Warren L. Scott:

It is with unspeakable sorrow that the members of this Post have learned of the sad and untimely decease of our beloved and gallant comrade, Warren L. Scott, a charter member and the first commander of the Post, who suddenly died at his home in this village the 12th inst.

Comrade Scott had a splendid record as a soldier, and exemplified the courage and patriotism of the American volunteer in his long service in the Union armies in the late civil war, and won the respect of his superior officers and the confidence and regard of his comrades.

The prosperity of this Post and its good name were ever objects of his solicitude, and his noble generosity never refused the calls of charity.

Kind and courteous to all, upright in character and honorable in all the relations of life, his loss to his family and our Post is deeply deplored and brings unmeasured sorrow and regrets.

To his bereaved widow and relatives we extend our earnest sympathies, and commend them to Him, our Divine Father, who alone can give peace and comfort.

It is ordered that copies of this minute be sent to the widow of Comrade Scott and furnished to the local press, and that our Post colors and rooms be draped in mourning for a period of sixty days.

In Regard to Scrofula.

It is commonly inherited.

Few are entirely free from it.

Pale, weak, puny children are afflicted with it in nine cases out of ten.

And yet it may develop so slowly as to cause little, if any, disturbance during the whole period of childhood.

It may then produce dyspepsia, catarrh, and marked tendency to consumption before manifesting itself in much cutaneous eruption or glandular swelling.

A hundred and one things aggravate it, among them being want of proper exercise, too much heat or cold, impure air, unwholesome food, bad water—whatever tends to vitiate the fluids and relax the solids.

Common indications of it are bunches, abscesses, inflamed eyelids, sore ears, rickets, paleness, nervousness, wasting, and general debility.

It affected the eyes and caused a running sore on the head of Gertrude[?] Trudeau[?], of West Franklin, Maine, who, at eighteen years of age, testified that she had been entirely cured of it by Hood's Sarsaparilla, when other medicines had failed to do her any good whatever.

It exhibited itself in sores on the face and neck of the son of Mrs. Etta Washburn, of Kennebunk, Maine, and in bunches under the eyes of the daughter of Mrs. W. F. Tewksbury, of South Atkinson, Maine, both of whom were radically and permanently cured by Hood's Sarsaparilla.

The fact is, Hood's Sarsaparilla is the medicine of all medicines for scrofula, in either sex, at any age. It acts directly and peculiarly on the blood, which it rids of every impurity, and makes rich and abundant, and this can be easily proven by what it has done in your own neighborhood.

Accept no substitute for Hood's Sarsaparilla.

No substitute acts like it.

Remember, the first step toward Hood's is a step toward a cure.
