WPA FAILS TO PAY 170 MEN IN POTSDAM

\$5,000 Due the Men and Majority of Them in Dire Need of Their Pay Checks - Supervisor William E. Flanders Personally Advances \$10 to Each of the 170 Men

The Potsdam Courier says: The P. W. A. workers in Potsdam have been unpaid since the first week in December, and according to advice received from headquarters, their checks will not be received until some time next week. There is about \$5,000 due the 170 men, and the majority of them are in dire need of their pay checks.

At a conference held Tuesday morning Supervisor Wm. E. Flanders agreed to advance personally \$10 each to the 170 men. This will be sufficient to tide them over until the full amount of their checks is received. Mr. Flanders will be reimbursed when the money is received from W. P. A. The act is a most generous one on the part of Mr. Flanders and it will be the means of also saving the town considerable. The working of the W. P. A. in this section has not been satisfactory, as it is unfair to ask men to wait a month for their money.

IT PAYS TO KEEP HEAVEN IN VIEW It pays to be perfect. It pays to be true. It pays to be honest. In what we do. It pays to submit. Our ways to the Lord. It pays to be meek. In reading His Word. It pays to obey. The instructions He's given, Without perfect obedience, We cannot enter Heaven.

REV. REUBEN KLINE AT 91 Resident of Port Leyden for 47 Years, Serving as Postmaster for 17 Years and Member of Board of Education for 19 Years

Port Leyden, N. Y. - Rev. Reuben Kline celebrated his 91st birthday on December 30 at his home on Lincoln street in this village. The increase in age to a jump in the machinery account from 490 to 6000. Mr. Kline was born in Columbia county, N. Y., on December 30, 1844. During the Civil war he served in Company A, 2nd New York Cavalry.

Apple Souffle Pie 1 1/2 cups sugar, 1 teaspoon cornstarch, 1/2 teaspoon cinnamon, 4 teaspoon nutmeg, 1/2 teaspoon salt, 1/2 cup melted butter, 1/2 cup milk, 2 egg yolks, beaten, 1 cup grated apples, 1 teaspoon vanilla, 2 egg whites, beaten stiff. Blend the sugar with the cornstarch, add the cinnamon, the melted butter, milk and beaten egg yolks and mix with the dry ingredients. Stir in the grated apples and the vanilla, and fold in the stiffly beaten egg whites. Place in an ungreased pan and bake in a hot oven (425 degrees) for 15 minutes. Reduce the oven to 350 degrees and continue baking for about 45 minutes, or until the filling is firm and the pastry is browned. Remove the pie from the oven and cool before serving.

Lindbergh to Rest in Wales Liverpool - The Lindberghs - Charles, Anne and Jon - reached British shores to stay a family spokesman said, "for some time" in peaceful Wales, seeking privacy and security for their second son.

It is said there are thunderstorms in Java 225 days out of each 365. That ought to be a good place to stand radio announcers.

NURSERY SCHOOL AT POTSDAM STATE NORMAL CLOSED

Education Department and W. P. A. Unable to Agree on Wages

The nursery school which has been in operation at the Potsdam State Normal for a year or more has been closed along with similar other schools in the state. The Potsdam school was virtually a school of instruction and was started under the TERA. Teachers assigned to the various projects in the different towns of the county were sent to Potsdam for special instruction. The instructors and nurses were paid in full by the TERA.

Local educational authorities considered the project a practical one because of the benefits resulting for the children, many of whom were undernourished and physically deficient when they entered the school. The project operated under the T. E. R. A. until December 31, 1935, when it was to have been taken over by the W. P. A. However, the transfer was not made because of the failure of the W. P. A. and the State Department of Education to reach an agreement.

Dr. Morrison, in announcing the shutdown, said "salaries decided upon by the State W. P. A. officials for state supervisors on the proposed emergency educational project are on the average nearly 50 per cent below their regular salaries. Supervisors and teachers' salaries are approximately 25 per cent below those required for rural elementary school teachers by state law."

THE BUDGET INCREASED 1935 Total Exceeds Last Year's Figure by More Than \$600. Croghan - The 1935 budget for Croghan totaling \$24,487.30 shows an increase of \$2,147.50 over last year's. The increase is due to a jump in the machinery account from 490 to 6000.

Mr. Kline was born in Columbia county, N. Y., on December 30, 1844. During the Civil war he served in Company A, 2nd New York Cavalry. After Lee's surrender, Mr. Kline was transferred with his company to guard the overland stage route leading from Port Leyden through the plains to Colorado and the west. He served in the 1st New York Cavalry, 1st New York Cavalry, 1st New York Cavalry, 1st New York Cavalry.

Mr. Kline married Miss Clark of this village and they have three children: Homer Kline of Albany, Dr. Arthur Kline, Prospect, and Mrs. William Kline of Ohio.

Bill to Legalize Lotteries in This State to Raise Funds for the Jobs. Albany - The long debated proposal of legislation to legalize employment relief is once again before the New York legislature. Senator Julius S. Berg, Bronx Democrat, dropped into the legislative hopper a bill designed to legalize lotteries in the state to raise funds for the jobs.

Under the proposed bill the revenue of such lotteries would be used to pay administrative expenses. Fifty per cent would be appropriated for unemployment relief.

ONE BOY KILLED AND CHUM INJURED IN ACCIDENT

Robert Gibson, 15, Found Dead by Side of Road - Ivan Babcock, 17, Suffers Skull Fracture and Other Injuries

Carthage - Victims of a hit and run driver on the Carthage-Fargo road a half mile east of Carthage, Robert Gibson, 15, son of Mr. and Mrs. Albert Gibson, resting on a farm on the Fargo road, was killed almost instantaneously at 11 o'clock Saturday night and Ivan Babcock, 17, son of Eugene Babcock, Fargo road, is in the House of the Good Samaritan with a badly fractured skull. His condition is critical and he is not expected to live.

The boys were walking on the left hand side of the state highway to their homes on the Fargo road, about two miles east of Carthage. They had been to a picture show at Carthage. The farms of their parents adjoin.

After a long afternoon examination in the Carthage town hall at which witnesses testified, District Attorney Edward E. Donaldson said that identity of the driver of the car which killed the boys had not been obtained and that the investigation would continue. State troopers are searching for the driver of the car.

During the examination, William Forney of Carthage, Charles State of West Carthage and Basil Madden of Canada, who is visiting in Carthage, were questioned. Forney's car was found ditched about one mile east of Carthage, State and Madden were with him.

The examination, however, showed that the Forney car was not involved in the accident, but he was locked up at Carthage police headquarters to face a charge Monday morning of driving while intoxicated. District Attorney Donaldson who conducted the examination, assisted by Assistant District Attorney Carl J. Hynes and Corp. Howard E. Cole in the presence of Police Justice Michael Backus, called the story of the car as fair as far as investigation had progressed Sunday night.

Backus stopped and started back with Forney to Carthage to bring a tow car, and while making this trip discovered the two boys lying in the road. Backus at once summoned help from Carthage.

Edward Deitz also was notified and came with his ambulance. The boys were taken to Carthage. It was thought there was still a spark of life in Gibson and he was taken to St. James Catholic church rectory, for the night, where he died. He had been in the hospital for several days.

Forney, State and Madden told of their activities that evening. They had started to the George Barris farm near Fargo's farm. They had a party and were drinking. Forney was driving the car and was intoxicated.

GOP GROUP ASKS BORAH TO RUN

Fish - Macy Bloc Calls Him Man To Be Leader

New York - Describing Senator William E. Borah as "the man to lead the movement to preserve our institutions," group of New York Republicans Sunday asked the senator from Idaho to become the Republican party's nominee for president.

The request was signed by 33 Republicans, headed by Representative Hamilton Fish Jr., of New York, and W. Kingland Macy, former Republican state chairman. In a telegram, the group gathered in informal meeting here, said: "We realize that this critical period in our country's history demands of the party in opposition under the two-party system the most forthright effective candidate."

"We Republicans interested in our country and in our party's ability to present a candidate who can measure up to the severe test of the times, and mindful of your long and distinguished record of service to the people, do hereby express to your belief that you are the man to lead the movement to preserve our institutions."

"We trust that in this true spirit of patriotism inherent in your character you will become the nominee of the Republican party for president at its convention in June, and to this end we pledge your loyal support."

MOVE MADE TO END GASOLINE TAX Republican Introduces Bill Repealing Latest State Levy Albany - The Long heralded Republican attack on Governor Herbert H. Lehman's fiscal policies was launched in the New York Legislature Friday with a move to end the latest one-cent emergency gasoline tax.

Assemblyman F. X. Bernhardt of Buffalo introduced a bill calling for repeal of the tax levied last April 1, upon the recommendation of the Governor to raise in 14 months a sum which the executive estimated at \$12,500,000.

The legislation raised the temporary emergency rate from one cent to two cents. The tax levied last April in the state is two cents. A federal tax now makes the levy in the state five cents.

Inasmuch as the tax automatically expires next June 30, the Republican measure is designed to forestall any possible recommendation by the Governor to continue the levy for another year.

He has not yet made known his position, but most sources believe he will recommend continuance of the levy in view of the state deficit of approximately 100 million dollars. His budget bill, however, could be submitted not later than January 15.

Penitents PWA Workers Protest Buffalo - Hundreds of payless and penniless workers protested administration workers provided the Buffalo city jail this afternoon in demand that which was returned for their pay. The men said they were the victims of delayed payrolls and layoffs and that they were being held in jail for no reason.

They returned to the jail and were held in the jail for several days. They were protesting against the PWA workers who were being held in jail for no reason.

SMALL POX AND DIPHHERIA

One hundred and fifty years ago the people of the earth were helpless before the onslaught of small pox; 600,000 people in Europe died from its effects every year. At last a modest English physician, Edward Jenner, by introducing vaccination, brought freedom from the deadly effects of this scourge.

In 1880, 112 out of each 100,000 people in the United States were killed by diphtheria. Today the number is not more than seven in 100,000; this has been accomplished by the use of antitoxin. Going a step further it has been found that "toxoid" when injected into a person susceptible (likely to be attacked by) diphtheria makes it impossible for the disease to infect that person.

The Dick test was devised by Dr. Dick, husband and wife, of Chicago. By its use physicians find whether or not a child is susceptible to scarlet fever and are thus able to immunize (prevent attacks) against it.

Similarly typhoid fever no longer ravages mankind. In former years it has happened that more soldiers have died of typhoid fever than were killed in warfare. Malaria and typhoid fever that killed off hundreds of thousands yearly are no longer a menace to mankind, thanks to our patient research workers.

During the past few years we have seen two "incurable" diseases mastered in that persons afflicted with diabetes or pernicious anemia are now enabled to live out the usual span of life.

Thus Dr. H. Sheridan Ballard, mayor of City, in a radio broadcast some months ago records the work of medical men, who in their efforts to prevent death and disease really understand their own livelihood.

All over the world, men of medicine are studying, practicing, teaching, money, bending all their scientific capabilities to discover how to reduce the toll of illness, suffering and death. They are searching for the formula that will prevent every case; that will cure every case; that will cure every case; that will cure every case.
