Assemblyman Young Introduces Two Acts in Legislature.

Assemblyman Fred A. Young, Lowville, has introduced in the Legislature a bill amending the highway law, to provide for a state route, to be known as 25-A, commencing in Lowville and terminating at Stillwater, Herkimer county. The bill went to the legislative committee for consideration.

The Assembly has passed the bill of Assemblyman Young, providing for extension, by county treasurers, of the time for collecting taxes levied in 1936 to a date not later than June 1, 1936. The bill now goes to the Senate for concurrence.

50-Mile Limit for Autos.

Albany.—The New York senate started Governor Herbert H. Lehman's highway safety program rolling through the legislature by passing two measures which would drastically increase penalties for all traffic violations and limit speed to 50 miles an hour.

The measure designed to limit the speed of automobiles to 50 miles an hour also would limit the speed of trucks to 40 miles, and motorcycles to 50. The present limit for all automobiles is 40 miles an hour.

The senate next proceeded to pass a bill providing drastic increases in penalties for all traffic violations, including a provision for a jail term for a first offense.

SAYS ROOSEVELT POLICY IS DRIVING NATION TO CHAOS

Dr. Fred J. Douglas, Utica, Has Large Following for Representative in Congress From the 33d District.

Dr. Fred J. Douglas, of Utica, will be a candidate for representative in Congress from the 33d district, comprising the counties of Oneida and Herkimer.

He made this announcement Sunday, following weeks of public speculation as to whether he would become a candidate or not.

The doctor stated that he was impelled to this action by the present state of affairs. In an authorized statement he declared the Roosevelt administration was driving the country into a state of chaos and following policies that are contrary to the American way of life. His statement:

"It is true that I have been contemplating running for the Republican nomination for Congress from the 33d district for some time. I have always, as the public knows, taken a deep interest in politics. Ordinarily, I would not be a candidate for any office, but the situation in the country at the present time is such that a man cannot follow his personal inclinations and still remain a good citizen.

Attacks Administration

"While there may be some features of the New Deal which are commendable, the Roosevelt policy, as a whole, in my estimation, is rapidly driving the country into a state of chaos.

"Unemployment, which is the worst symptom of the country's trouble, is increasing rather than decreasing. Measures advanced by the Roosevelt administration are practically all unsuccessful, and in principle I regard them as unwarranted and contrary to the American tradition of government.

"If I am nominated and elected, as I expect to be, I shall go to Washington and exercise my best effort towards restoring the country to normal conditions.

"While friends in both counties have urged me to become a candidate for Congress, the chief factor in my decision is the opportunity afforded me to do something for my country at a time of crisis when a straight, forthright and forward looking course is demanded by the representative of the people.

"I shall appreciate the support of my fellow-citizens and I feel that my record will convince them of my sincerity and patriotism."

Outstanding Career

Doctor Douglas was born in Clinton, Mass. He came to Little Falls with his parents when he was five years of age. He attended the Little Falls public schools and then entered the medical school at Dartmouth College, from which he was graduated in 1914.

Following a period as house intern at Paxton hospital, he began the practice of medicine in Utica in 1916, and he has pursued his profession there since, becoming one of the best surgeons in the state.

He has always taken an interest in public affairs. He had charge of the Utica City hospital for a time. Then he held the office of city health officer. For several years he was a member of the Board of Education.

In 1921 he was elected mayor of Utica, and served one term. Under Mayor Fred J. Rath he held the office of commissioner of public safety.

In the meantime, by his political activity, he had won a widespread acquaintance among Republicans, and in 1934 he was the candidate of his party for lieutenant-governor, and carried Oneida county by a majority of 10,000. He carried the 33d Congressional district by more than 15,000 majority.

Both as a physician and a politically active citizen, he has a large acquaintance in Oneida and Herkimer counties, while he is universally known in Utica. He is understood that many of the party leaders in both counties have assured him of their support.

An increase of about 17 1/2 per cent in the number of automobiles registered during 1935, as compared with the previous year, has been announced.

The sermon on Sunday of this week will be on "The Law and the Gospel." The old law that we know? It is not important to ask what we think of ourselves, nor what our neighbor thinks of us, but what does God think of us? Lent is here to answer the last question, and fortunate that man with the humility to go to church until he gets an answer. Our visiting preachers and our own pastor are earnestly trying to answer that question for this parish. Come to church.

Christian Science "Substance" is the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, March 15th.

The Golden Text is: "Honour the Lord with thy substance, and with the first fruits of all thine increase" (Proverbs 3:9).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "My fruit is better than gold, yea, than fine gold; and my revenue than choice silver. I lead in the way of righteousness, in the midst of the path of judgment: That I may cause those that love me to inherit substance; and will fill their treasures" (Proverbs 8:10-21).

The Lesson-Sermon also includes the following pertinent selections from the textbook of Christian Science "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Ideas are tangible and real to immortal consciousness, and they have the advantage of being eternal." In proportion as the belief disappears that life and intelligence are in or matter, the immortal facts of being are seen, and their idea or intelligence is in God."

Volunteer Class Officers At the regular business meeting held last week in the assembly room of the Methodist church the following officers were elected: President, Mrs. Annie Stearns; first vice-president, Mrs. Maud Kent; second vice-president, Mrs. Priscilla Rittus; secretary, Mrs. Merton Blitzer; treasurer, Mrs. Charles Arthur.

LOWVILLE BOARD OF WATER COMMISSIONERS

Lowville, N. Y., March 1st, 1936. To the Honorable, the Mayor and Board of Trustees of the Village of Lowville, N. Y.

We, the Board of Water Commissioners, of the Village of Lowville, N. Y., in compliance of Chapter 414 of the laws of 1897, report the activities of the Board together with the receipts and disbursements for the year March 1st, 1935, to March 1st, 1936, as follows:

During the year there was crushed and placed on the reservoir lot 16,000 yards of stone to be used on the new reservoir, which has been completed with a Granite compact lining and put in service.

The old reservoir has been lined with the same material. This work was done by The Cement Gun Co., Albany, Pa.

We now have a storage capacity in the two reservoirs of 4,200,000 gallons. The ground around both reservoirs has been graded and seeded.

The unskilled labor on both reservoirs was done by the T. E. R. A., we paying 25% of cost of labor.
