Mrs. Julia E. Worden, a former resident of Hermon, died Thursday night at Utica. She was aged 61 years.

It was reported in New York yesterday that former President Grover Cleveland was hopelessly ill of cancer of the stomach.

Ten inches of snow fell at Jamestown yesterday. There was also snow at Ottawa, Plattsburg and in several Adirondack villages.

The cost of fighting smallpox in Hamilton since last September has been \$8,000, \$2,000 of which was for watchmen on infected houses.

Chancellor James R. Day of Syracuse university has suspended the class of engineering as punishment for criticizing the removal of Dean Kent.

Charles W. Lindsey, a well known R. W. & O. engineer, died at Pulaski yesterday. He was injured a few weeks ago by falling from a wagon.

The Republican senatorial convention of St. Lawrence and Franklin counties will be held in the town hall at Ogdensburg Tuesday, May 5th, at 1 o'clock.

The Golden Glow club's dance in the town hall last night was well attended and much enjoyed. The musical program was given by the Opera House orchestra.

Beginning today the Central will run its first week end excursion on regular trains to Ogdensburg. Reduced rates have been provided between Philadelphia on the south and Massena on the north.

Mr. and Mrs. Charles Lockwood, who have been connected with the St. Lawrence state hospital the past 18 years, have resigned from the service and will go to the Adirondacks for the summer.

Major C. E. A. Patterson, one of the oldest volunteer officers in the Canadian service, has been gazetted to his brevet majority in the 85th Infantry Regiment. He is a brother-in-law of D. L. Henderson of this city.

Holds were opened yesterday for laying granolithic walks and making extensive alterations at the postoffice building. Four were received as they were at once transmitted to Washington for action. Golden & Wilmut of Ogdensburg are the lowest bidders.

It is expected that Senator William O'Neil of Malone will be returned, as no opposition has developed against him. Mr. O'Neil is one of the strongest men who has represented his district, and his work in the senate has been satisfactory to his constituents.—Gouverneur Cor.

A school girl was required to write an essay of 250 words about an automobile. She submitted the following: "My uncle bought an automobile. He was riding out in the country one day when it busted going up a long hill. I guess this is about 50 words. The other 200 are what my uncle said while he was walking back to town but they are not fit for publication."

It is a matter of general regret that the bills of Assemblyman Gray of St. Lawrence county, and Wood of Jefferson county, providing for uniform text books in the schools, were killed in the legislative committee at Albany during the recent session of the legislature. It is claimed that book publishers were able to exert sufficient influence against the bills so that the introducers of the measures could not get them out of the committee.—Malone Gazette.

Another New York broker, whose firm was in difficulties, has rid himself of them by taking his life. Since the financial depression began last fall quite a score of men in New York who suffered from it, including some of almost national repute, have gone to suicides' graves. The conditions of modern life may make men daring in their business ventures, but it leaves them sad cowards when the consequences of mistakes have to be face

W. A. Stetson, one of the largest leather dealers in the United States, was petitioned into bankruptcy by his creditors in the U. S. district court at Boston yesterday. Included with Mr. Stetson in the proceedings were three companies in which he had the controlling interest—the Ford Morocco company of Wilmington, Del., of which he was president, the Boston Chromé Leather company of which he was secretary, and the William A. Stetson company of Boston, of which he was the head.

The time for using nets in the Oswegatchie river at Ogdensburg for taking suckers and mullets has been extended by Chief Game Protector J. B. Burnham from May 12 to May 25. This favor was granted local fishermen at the request of Mayor George Hall. These fish feed on the spawn of game fish and the department looks with favor upon any scheme calculated to exterminate them. With the use of nets they are taken in large numbers. Chief Protector Burnham has also announced that the use of nets, set lines and sturgeon lines in the St. Lawrence river is prohibited by law and that no special permits will be issued. This is a heavy blow to sturgeon fishermen in Ogdensburg as it deprives them of their favorite means in capturing this gigantic fish. They have been taken in such large numbers of late years, however, that the species was rapidly becoming extinct. Last year one was caught here that weighed 215 pounds, and it was the largest of which there is any authentic record hereabouts. The pike and pickerel season opened yesterday.

Under the newly revised game law of New York state the season when trout can be legally taken in the Adirondack counties of Clinton, Essex, Franklin, Fulton, Hamilton, Herkimer, Lewis, Saratoga, St. Lawrence, Warren and Washington began yesterday. From late reports which have been received from the Adirondacks, however, it appears that the ice is not yet out of all of the lakes, although some of them have been clear for nearly a week, and there are still snowbanks in the ravines and densely shaded portions of the woods. In view of these conditions it is safe to predict that the angler who goes into the woods with the expectation of catching a good mess of trout at this time will be far more likely to have his hopes realized if he does his fishing exclusively in the lakes than he will if he essays to entice the speckled beauties, which inhabit the streams. As a rule the early fishing in the lakes is the best of the season, but the trout do not bite well in the brooks until the water caused by the melting snow and ice is gone.

AN ACTUAL GUARANTEE.

The cash returns to members of the People's Mutual who joined in 1903 is actually guaranteed during the remainder of this year from \$100 to \$300. We have established a precedent in positively knowing, and paying just what is due a member and no more. The actual proved profit is sixty per cent., or twenty-three and one half per cent. interest per annum on amount paid in. We have assets of two millions. I would like an educated lady to solicit applications.

C. A. Haller, Dist. Manager, 19 Ford street, City.

Notice, Horse Owners.

W. H. Mandigo has taken his son, Charles, into partnership, beginning May 1st., and with the extensive experience we have had we are in a position to guarantee our work as the best above cut prices. Personal attention given to every horse before leaving shop. We make a specialty of horse shoeing and do it right. On account of prices of material, rent and other things being higher our prices have been raised a trifle, but after one trial of our work no horseman will complain.

Board of Public Works.

April 27, 1908. Present—J. E. Kelly, president, and Commissioners Woods and Kelly. Absent—Commissioner Nash.

President Hawkins of the Ogdensburg Gas company addressed the board on the matter of the cost of permits for excavating in the streets and stated that the charge of \$5.00 for permit to open the streets to put in service pipe was excessive and asked the board to reduce the price. He also stated that the company would repair the streets in any way the board would suggest.

Moved by Commissioner Skelly: that the clerk be authorized to advertise for bids for construction of 10,000 yards of granolithic sidewalk; said bids to be submitted on or before the 11th day of May, 1908. Bids will be considered for 19,000 yards and lots of 2,500 yards to the extent of 10,000 yards.

Seconded by Commissioner Wood. Carried, ayes all. Moved by Commissioner Woods that the specifications for granolithic sidewalks as submitted by the city engineer for 1908 be accepted and adopted. Seconded by Commissioner Skelly. Carried, ayes all. On motion the board adjourned. J. E. Kelly, president. D. J. Crichton, City Clerk.

Increase For Railway Employees.

Mt. Vernon, N. Y., May 1.—Notices were posted at the terminal of the Westchester railway and the Tarrytown and Mamaroneck Railway company announcing an increase in wages for conductors and motormen. This was the result of a decision by the Supreme Court Justice Morschauer, who granted the application of J. Addison Young, receiver of the roads, for permission to increase the pay of the conductors and motormen from 20 cents to 21 cents an hour for the first year of service and to 24 cents thereafter. The men asked for a flat rate of 25 cents an hour, but a compromise was effected.

Abraham Lincoln was not usually so unkind. Of the cycle of anecdotes that gathered around him much was fabricated. The story of his boiling his watch while holding an egg in his hand, often related also of Newton, is in La Bruyere's "Caracteres." But there seems to be some foundation for the suspicion that in his laboratory he once lunched on a frog and was afterward found deeply contemplating a sandwich.
