## London Office

A file of this paper can be seen at the office of our England Representatives, Messrs. E. and J. Harry & Co., 30, 31 & 32 Fleet street, London, England, free of charge and that firm will be glad to receive news, subscriptions and advertisements on our behalf.

## WEDNESDAY, JULY 7, 1909

A man could earn several dollars with the energy he generates in trying to borrow one.

The hardest life lies between the soft snags that a fellow wastes his time looking for.

The small boy enjoys coasting, but the average man can do down hill fast enough without a sled under him.

This is the glad season of the year when flies are almost as plentiful as insanity experts at a millionaire's trial.

It is said that nearly \$200,000 worth of rat skins are used annually in London in the binding of books, the manufacture of photograph frames and purses, and making the thumbs of gloves.

When a medical prescription can be sent by wireless from a surgeon on land to a sea captain 150 miles at sea, as was done from New Orleans, it comes pretty near being absent treatment.

One natural gas well at Clarkeburg, W. Va., supplies the inhabitants of the city with all the gas they need. And the price is only four cents per 1,000 feet. This well has been supplying over 5,000,000 cubic feet daily for 15 years. Natural gas abounds in the vicinity of Clarkeburg. Within a radius of 25 miles the total product is about 1,000,000,000 feet daily.

The attendance for the first month of the Alaska-Yukon-Pacific exposition amounted to 267,971. President J. E. Chibberg stated that the net profits for the month amounted to \$86,000. The number of complimentary admissions is considered small, being placed by fair officials at 27 per cent.

By a decision of the Supreme Court of Alabama, the "Locker System" of storing liquors was upheld, delivering a blow to prohibition in Alabama. The court holds that liquor when kept in lockers by individuals and not for sale is personal property and therefore any municipal ordinance prohibiting such possession is an abridgment of the privileges and immunities of the citizen without any legal justification and therefore void.

Mrs. Sophie Mayer, a lawyer, of New York, will leave for Austria on the Cincinnati on July 17th to represent Herman Eberenshaft, of No. 144 Ridge street, in the courts at Tarnow, where an effort is being made to break the will of his aunt, which leaves him and other relatives an estate valued at \$300,000. Eberenshaft is a tailor of moderate means. Mrs. Mayer, who has practiced in New York for several years, obtained through Edas Goldhammer, a member of the bar in Austria, permission to represent her clients in Tarnow. This is one of the first cases on record where a woman attorney has obtained permission to practice before a foreign court.

James K. Jones, a Washington lawyer, and a son of Mr. James K. Jones, of Arkansas, who was national democratic chairman in the campaigns of 1896 and 1900, has had good fortune thrust upon him. Several years ago he leased a large tract of land from the Delaware Indians in Oklahoma. One of the conditions was that he should develop its oil resources. This he failed to do. Mrs. P. C. Adams, a Delaware Indian, whose husband is a lawyer, brought the matter to the attention of the Interior Department, which recently called upon Mr. Jones to either develop the land or sell the lease. He started drilling oil wells and struck a gusher—which now produces five hundred barrels of oil daily.

# DISCOVERY OF LAKE CHAMPLAIN

## Explorer's Memory Honored by Two States and Three Nations.

## AT HISTORICAL CROWN POINT

Governor Hughes Spoke Briefly of Significance of the Celebration—Historical Addresses Delivered by Ex-Mayor Seth Low of New York and Judge Albert C. Barnes of Chicago. Clinton Scollard of Clinton, N. Y., Read a Commemorative Poem.

Fort Henry, N. Y., July 6.—With the crumbling ruins of Forts Amherst and Frederick forming a historic setting, the first of a series of events celebrating the three hundredth anniversary of the discovery of Lake Champlain by the famous French explorer, navigator and colonizer, Samuel de Champlain, occurred at Crown Point, where Champlain with his Canadian Indian allies of the Huron and Algonquin tribes first met the Iroquois in battle.

The celebration was arranged jointly between the states of New York and Vermont and will continue throughout the week, representatives of France, of England, of Canada and of the Indian aborigines joining in the exercises with those of the states and of the federal government in the exercises commemorative of the history making struggles throughout the Champlain valley.

## Earliest Records of New York State.

The discovery of Lake Champlain in July, 1609, antedates the discovery by the whites of any other portion of the territory now comprised in the state of New York, and deeming it an event worthy of commemoration in the annals of the state and nation, the state of Vermont in 1906 appointed a commission headed by Governor Prouty to arrange with a similar commission to be appointed on the part of New York to arrange for the observance of such tercentenary. The New York commission was appointed the following year and jointly the representatives of the two states arranged the program.

H. Wallace Knapp of Moores heads the New York commission, which during the week will entertain President Taft, United States Senator Root, Ambassadors Bryce of Great Britain and Jusserand of France, members of the New York legislature and other distinguished guests. Thursday and Friday the party will be the guests of the state of Vermont.

Governor Hughes of New York and Governor Prouty of Vermont with the state commissions and their guests participated in the exercises. The governor and Mrs. Hughes, with the commissioners, came down on an early train from Hotel Champlain at Bluff Point near Plattsburg and were saluted by the United States naval flotilla upon arrival. The governors and the members of the commissions and others in the party were entertained at luncheon as the guests of Walter C. Witherbee, after which the party embarked on a steamer for Crown Point to participate in the day's ceremonies.

## Sham Battle by Regulars.

The program included a sham battle between companies of the 10th regiment which has been in camp for a week at Crown Point, an Indian pageant, and literary exercises late in the day. The speakers were Governor Hughes, ex-Mayor Seth Low of New York and Judge Albert C. Barnes of Chicago. An original poem entitled "Song for the Tercentenary of Lake Champlain" was composed for the occasion by Clinton Scollard of Clinton, N. Y.

The Indian drama of Hiawatha which formed a picturesque part of the day's program, was produced by 150 Indians—original descendants of the Algonquins and Iroquois who participated in Champlain's battle, under the direction of L. O. Armstrong of Montreal, on a floating island constructed on barges. The island, which is several hundred feet in length, depicts among other scenic effects a stockade, the point of attack in the battle by the besieging bands of Indians, who reached the beach in canoes.

## Proper

### Outing Toggery.

Now for the Summer vacation time. We've many things you'll need:

- Trunks and Bags.
- Flannel and Khiki Trousers.
- Summer Shirts.
- Bathing Suits.
- Belts,
- Underwear and Hosiery,
- Golf Caps.
- White Duck Hats.
- Yachting Caps.
- Straw Hats.

Automobile dusters, gloves and caps.

Our usual splendid assortment of 50c Neckwear. Some new English Runchundas.

Arrow Collars—4 sizes, with the new graduated cutout. 2 for a quarter.

JAS. T. MURPHY as Sole Surviving Partner of

## JAS. MURPHY & SON.

Late in the day there was a dress parade of the 10th regiment, following which the gubernatorial party left on a steamer for Ticonderoga, the scene of today's observances.

Wednesday at Plattsburg will be the big day of the celebration. Thursday Burlington, Vt., will be the center of interest and Friday exercises will be held at Isle la Motte in the northern part of the lake. At each of these places Indian pageants will be presented, the floating island having been so constructed that it can be towed from place to place on the lake.

## ONE HUNDRED YEARS OF PEACE

### Suggestion to Fittingly Close War of 1812.

Ottawa, Ont., July 6.—The suggestion made by Hon. MacKenzie H. King at Harvard commencement last week that Canada and the United States should fittingly commemorate the hundred years of peace between the two countries by the erection and dedication of some striking international monument is likely to bear fruit in joint action by the governments at Washington and Ottawa.

It is known that Sir Wilfrid Laurier is thoroughly in accord with the suggestion of the minister of labor and that it is not all improbable that steps will be taken by the Canadian government to invite the co-operation of the United States government in arranging for a celebration of the hundredth anniversary of the close of the war of 1812-14, that will be to the whole world a striking object lesson in the victories of peace as opposed to those of war in settling international differences.

It is felt the time is opportune for the new world with its hundred years of peace and its 3,000 miles of international boundary without a gun or fortification to point in some effective way the moral to the armed camps of Europe.

Stabbed at Ball Game. Des Moines, Ia., July 6.—During an altercation at a Fourth of July ball game at Fontenelle Henry Parschen, a prosperous farmer of that place, was probably fatally stabbed by Luke Winn. Winn is in jail at Greenfield.

# HAMMONDSPORT MAN TOOK PRIZE

## Glenn H. Curtiss Flew a Mile and a Quarter.

## ELEVATION OF ABOUT 30 FEET

Starting at Upper End of Track, Mr. Curtiss Sailed Gracefully Down to Grand Stand, Then Turned and Sailed Back, Alighting Without Mishap. Starting Again He Sailed Around the Track, Accomplishing More Than Conditions Required.

New York, July 6.—In three flights at the Morris Park racetrack, north of the city, Glenn H. Curtiss, the aviator of Hammondsport, N. Y., flew a mile and three-quarters and won the first of four prizes, known as the president's prize, offered recently by Cortlandt Field Bishop, president of the Aero club of America. Mr. Bishop recently offered \$250 each to the first four aviators flying five-eighths of a mile. The Wrights have not competed for the prize and Mr. Curtiss is the first to comply with conditions.

The contests were held under the auspices of the Aeronautic society of New York, recently organized for the promotion of aviation. Fifteen thousand persons were present. Curtiss did not attempt his flights until 7:45 in the evening. Starting at the upper end of the track he sailed gracefully down to the grand stand, a distance of half a mile, then turned and sailed back, alighting without mishap.

A few moments later he started again from the upper end of the field and sailed almost around the track, accomplishing in this flight more than the required five-eighths of a mile. His elevation was about 30 feet and the speed of about 33 miles an hour.

There were several other minor contests during the day, including a short flight in a dirigible balloon by Dr. William Greene of New York. A propeller blade of the dirigible was broken in the descent but no one was injured.

W. H. Martin of Canton, O., failed to fly in his glider which is pulled by an automobile, nor did his wife, who is an expert aeronaut, give any exhibition of her skill. But George Thompson, a former jockey of Westchester county, boarded the craft and made several good flights. Among the other exhibitions was a good run or Dr. Julian P. Thomas' wind wagon.

## BLIND SENATOR "SIGHTSEER"

Gore's Wife His Eyes at Wright's Flights and Ball Games

Washington, July 6.—Through going to Fort Myer repeatedly to "see" the Wright brothers fly in their aeroplanes, Senator Gore, the blind statesman from Oklahoma, is becoming one of the most pronounced aeronautic enthusiasts in Washington.

Senator Gore's substitute for the eyes he lost by a series of accidents during his youth is his wife and a keen sense of hearing, to both of which his

## SENATOR GORE.

mind is peculiarly attuned. From them he obtains the same thrill of excitement that others experience through first hand perception.

Few men in Washington are affected by the "atmosphere" of an event as Senator Gore. It helps him to comprehend the quiet words of his wife as she explains every movement of the aviators. When all is concluded he is just as anxious to applaud as any other "spectator."

The senator also is very fond of "watching" a baseball game. He is a patron of the league games here, where Mrs. Gore helps him to follow the play closely, although his eyes cannot distinguish night from day.

## Boston Baker Won Marathon Race.

Burlington, Vt., July 6.—Pat Dineen, the Boston baker, won a full distance Marathon race held at Centennial field here, in connection with the Champlain celebration. Johnny Hayes of New York was second and nearly a mile behind. Teddy Crooks of Fall River was third and Black Hawk, a Canadian Indian, fourth. Dineen's time was three hours flat.

## RIGHTS OF AVERAGE MAN

Subject of Mayor McClellan's Fourth of July Oration.

Schenectady, July 6.—Mayor George B. McClellan of New York was the Independence day orator in Schenectady. His address was patriotic in nature and touched only in a general way upon politics. He made a strong plea for recognition of the rights of the average man in government and in closing said:

"As long as the average men in this country continue to use their hard-headed common sense and innate conservatism in dealing with public questions, just so long will our nation be safe. And our country will be happy as long as her average sons remember that the greatest glory of a free people is in its honor and its righteousness as a nation; that there is only one rule of conduct for the individual and for government."

## DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
