CHEAPEST OIL IN MARKET.

Economy & Convenience Combined.

LEWIS'

PATENT ANNOTTO OIL.

BURNS in all Fluid or Kerosene Lamps and Lanterns without smoke, smell or chimney, with a beautiful and clear brilliancy, in fact the only light yet discovered that can supersede or take the place of Burning Fluid for standing, hand or movable lights, at less than one-fourth the expense and much cheaper than Kerosene or Petroleum Oil, costing only ONE CENT FOR TEN HOURS, overcoming the inconvenience attending the use of chimnies, being in fact a perfect substitute for Burning Fluid, Candles, or the cumbersome and expensive method of using chimnies on hand lamps.

It is with pleasure that I can refer you to a few prominent persons who have seen the Oil tested:

O. P. Sabin, Hamilton Hotel; Z. Smith, Welland House; Gilbert Eason, Eagle Tavern; Moses Turner, Scriba; Wm. H. Wales, Scriba; H. C. Sharp, Druggist; T. S. Brigham, Printer; Gage & Hancock, Grocers, J. C. Tucker, Crockery, E. D. Dickinson, Case House, Fulton; A. B. Mann, Esq., Town Oswego.

The ANNOTTO is a Patent Oil, which burns without a chimney, like the old sperm oil, and burns twice as long as Fluid. Having purchased the Patent Right for Oswego County, I am prepared to furnish the above Oil at wholesale and retail

Also, a LUBRICATOR, superior to any other oil now in use, as it WEARS MUCH LONGER and does not GUM. febidawly E. E. STONE.

FROM PROF. WILLIAMS, PRINCIPAL OF THE UTICA MUSICAL INSTITUTE.

R. CLINE: *Dear Sir*—Having witnessed the very beneficial results from the use of your Vegetable Embrocation by myself and members of my family in cases of Colds, Sore Throat, and Hoarseness, I cheerfully give you this testimony to its worth, and can confidently recommend it in the above cases from an experimental knowledge of its efficacy.—Yours very truly,

W. WILLIAMS.

UTICA, *June 4, 1861.*

Good News from Home—All agree—See what they say.

We, the undersigned, citizens of Utica, having used Cline's Vegetable Embrocation in our families, and finding it a most salutary remedy, can cheerfully recommend it to the public generally, as being an indispensable article for the family use. We do not wish to underrate any other worthy medicine, but can truly say that we never before have found an equal to this Vegetable Embrocation, and we would advise every family to keep a bottle ready for immediate use.

WEST'S

IMPROVED PUMP.

Anti-Freezing, Double-Acting, Forcing and Lifting.

THESE PUMPS have now been in general use a number of years, and give better satisfaction than any other, and are recommended as

THE BEST,

By Capt. ERRICSON, and other eminent Engineers. We can refer to thousands using them, and guarantee that all will recommend them. They are more simple in construction, and work easier, and cost less than all others.

"Our readers will find the double-acting, improved Pump of J. D. West & Co., one of the best in market. It is very simple, works to a charm, so that any child may use it; throws a steady, continuous stream, and does not freeze in the coldest exposures, and is unusually cheap. We say this knowingly, and give the testimony of our own accord, without the knowledge or request of the proprietors."—*N. Y. Evening Post, July 1st, 1863.*

This may certify that I have been using, at my manufactory, for the last four years, "West's Improved Pumps." I now have in use three of said pumps, one of which is kept constantly at work, 24 hours each day, (save Sundays) and has been running for the past two years. I pronounce them, unhesitatingly, the best pumps that have been brought to my notice, having used many others previously. They are simple in their construction, and not easily disarranged.

N. Y., Oct. 10, 1859. JAMES A. WEBB.

J. D. WEST & Co.,

We are pleased to state that the Pumps we had of you, about a year ago, have been in constant use, 19 hours each day, and raise for the use of our Woolen Factory about 130 gallons per minute. They work with but little power, compared with pumps we have used before, and do not get out of repair, and are satisfactory in all respects. Yours, &c.,

DUNLAP MANUFACTURING COMPANY.

SOLON ROBINSON to the Farmer's Club, Jan. 28:

"No farmer who owns a well or cistern can possibly afford to be without an iron pump. It should be of once a suction and forcing pump—a perfect little fire engine—such a one known as 'West's Improved Pump.' I speak of this pump because I happen to know it.... to be very simple, durable, powerful and cheap, and it don't freeze up, nor get out of order once a year.... I know this, and think I may be doing the farmers good by speaking of it.... A boy 10 years old can work it, and throw a continuous inch-and-a-quarter stream.... It can be made to work in deep wells as well as in shallow ones."

From the New York Observer.

We have had in use for months past one of West's Pumps, which has given us more satisfaction as a force and lifting pump than any we have ever used. It is one of great power, and well adapted for ship's decks, mines, factories, green-houses, graperies, &c., &c. The *Mining Chronicle and Railway Journal* says:

It is recommended for its extreme simplicity of construction, great strength, and consequent durability and cheapness of repair. There is no stuffing box—the pressure being held by a cup packing, like that upon the working piston, working in a cylinder, fitted for the purpose within the upper air chamber—which we think a great improvement, as stuffing is so liable to be deranged, and leak under strong pressure, to say nothing of the loss by friction incident thereto. It has also two air-chambers; thus the action of the valve is cushioned upon both sides by air—preventing water-hammer and vacuum-thump. The valves are very accessible, and simply and cheaply repaired. They work much easier than any pump we have ever seen; the 4-inch cylinder being worked by children, in wells 100 feet deep, and as they are extremely cheap as well as simple and strong, we freely recommend them.

GT. NECK, L. I., 1866.

I have used this pump for one summer and winter, exposed to the North-west wind coming over Long Island Sound, being the coldest possible exposure, and at no time did it freeze, nor were we at any time unable to pump water with great ease.

H. B. MCILVAIN.

The undersigned, having to use "West's Improved Pumps," cheerfully recommend them as simple, durable and powerful in raising and throwing water, and for their ease of action, security against frost, and low price, we believe them superior to all others.

CAMBRIDGE MINE, N. C., June 15, 1863.

J. D. WEST & Co.:

Gents—The pump which I ordered for our Mine is received and put to work in our underlay shaft, which we are sinking. We find that one man will with ease lift 50 gallons per minute. We lifted in three and a half hours all the water in the shaft, which measures seven by twelve feet and 30 feet deep, and it was full when we commenced. It answers our expectations in every respect, and our workmen are highly pleased with it. It will do great service with but trifling expense for repairs.

Yours, respectfully, BURR HIGGINS.

We have plenty more such certificates, but think these are enough. For Pumps, Hose, Pipe, &c., address or call upon J. D. WEST & CO.,

SEWING MACHINES

GREAT IMPROVEMENTS IN

SEWING MACHINES.

EMPIRE

SHUTTLE MACHINE.

Patented February 14th, 1860.

Salesroom, 454 Broadway, N. Y.

THIS Machine is constructed on an entirely new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be Simplicity and Perfection combined.

The following are the principal objections urged against Sewing Machines:

1—Excessive labor to the operator.
2—Liability to get out of order.
3—Expense, trouble and loss of time in repairing.
4—Incapacity to sew every description of material.
5—Disagreeable noise while in operation.

The Empire Sewing Machine is Exempt from all these Objections.

It has a straight needle, perpendicular action, makes the Lock or Shuttle Stitch, which will neither rip nor ravel, and is alike on both sides; performs perfect sewing on every description of material, from Leather to the finest Nansook Muslin, with cotton, linen or silk thread, from the coarsest to the finest number.

Having neither Cam nor Cog Wheel, and the least possible friction, it runs as smooth as glass, and is

EMPHATICALLY A NOISELESS MACHINE.

It requires Fifty per cent. less power to drive it than any other Machine in market. A girl of twelve years of age can work it steadily, without fatigue or injury to health.

Its Strength and Wonderful Simplicity of construction render it almost impossible to get out of order, and is Guaranteed by the company to give entire satisfaction.

We respectfully invite all those who may desire to supply themselves with a superior article, to call and examine this Unrivalled Machine.

But in a more especial manner do we solicit the patronage of

Merchant Tailors, Dress Makers,
Coach Makers, Corset Makers,
Hoop Skirt Manufacturers, Gaiter Fitters,
Shirt and Bosom Makers, Shoe Binders,
Vest and Pantaloons Makers.

☞ Religious and Charitable Institutions will be liberally dealt with.
