NEW GOODS CHEAP—
CHEAPER THAN THE CHEAPEST!
J. A. STEVENSON'S
ONE PRICE
Cash Clothing Store,
At J. F. Temple's old Stand, North Corner Eagle Block, West Oswego.
HEARTILY sick of the credit system, and still more so of that doubtful one of jockeying and bantering so discreditable to the manly character, yet so generally practiced among the trade, I present myself before the public With the motto:—TERMS CASH—
NO DEVIATION IN PRICES.
It must be obvious to every one that in pursuing this course I mine first place avoid bad debts, and secondly save much precious time—and "time is money;" besides will not be haunted with the fatal recollection of having made the unsophisticated man, who always regards his neighbor as honest as himself, pay something more than a fair profit, to make up what another, by dint of jockeying, had bartered out of me. I feel confident that the patrons of my predecessor and the public generally will properly appreciate my efforts, and attest their approbation by a liberal patronage.
My stock will always be the as desirable in market, consisting of almost every variety of trade and color of Belgian, French, German, English, and American
BROADCLOTHS, CASSIMERES,
Doeskins, Silk, Linen, Alpacaillas, Satin, and other Vestings: White, Cord and Slate colored Linen Drills for Pants, Cassimeretts, Tweeds, Kentucky Jeans, &c.

READY-MADE CLOTHING,

The above Goods will be sold for Cash at a very small advance on cost, and warranted to be what they are recommended. In the production of elegant, tasteful, and fashionable Garments, it shall be my constant aim positively and emphatically to excel, my Cutters being men of great experience and pre eminent skill.
MR. TEMPLE will be on hand through the season, and will be happy to see his old friends and customers. Prompt and respectful attention on my own and employees part is also assured by

To Carriage Makers and the Public.
EVERETT'S PATENT CARRIAGE COUPLING.
EDWARD & CHAS. EVERETT, Washington City, D. C., Patentees of an Improved Coupling in the running part of Carriages, respectfully present their invention to the public for patronage. The improvement, though simple in construction, is the result of a long course of experiments, attended with much labor. It is now believed to be perfect, and has thus far met the approbation of all who have examined it. The advantages consist principally in strengthening the fore part of the carriage, enabling it to be turned in less than one-third the space required by the old construction, without interfering with the body of the carriage, and greatly facilitating the getting in and out—heretofore considered a very great objection to four-wheeled vehicles.—By the adoption of this improvement, large fore wheels may be used.
The undersigned has been appointed sole agent for the sale of Rights to use the above Patent in the counties of Onondaga, Cayuga and Oswego.
