A Physician writes to the *American Journal and Repository of Medical Science*, as follows: "About four years ago I was badly afflicted with SPERMATORRHEA, and had nearly despaired of finding relief, for I had tried every plan of treatment suggested by my medical friends, under whose care I had placed myself. * * * I had taken but FOUR DOSES of this medicine before *the emissions ceased*; and, by continuing its use, my appetite returned, the peculiar cadaverous hue of my face yielding to a more healthy color. As subsequent years have proved, I WAS CURED OF MY DISEASE. This being a difficult malady to cure, I mention the result in my case, that others may try its virtues."
