Oswego Morning Express.

VOL. III, NO. 6--WHOLE NO. 312. OSWEGO, N. Y., MONDAY, AUGUST 7, 1882. SIX DOLLARS PER ANNUM

The Morning Express.

For additional Editorial and News matter, see second and third pages.

CONGRESS has been in session eight months last Saturday.

CHICAGO is not to have a cardinal after all. The story was a canard.

CONGRESS did not adjourn Saturday but will probably do so to-day.

THE wife of Frederick Douglass died in Washington, Friday morning, of paralysis.

AT Matamoras the yellow fever in on the increase. The reports are denied by the governor of the state that there have been any cases of yellow fever in Texas.

PRESIDENT ARTHUR has received an invitation to visit the west during the coming autumn. He will probably accept and make the trip in the month of September.

HON. THOMAS G. ALVORD denies the reports that he is to be sent to the legislature from Jefferson county. He says he will go from the district where he lives or remain at home.

THE action of Russia and other European powers in refusing to support England in the position she has taken upon Egyptian matters is causing both apprehension and embarrassment.

COLONEL CASH who killed Colonel Shaw in a duel, announces himself as a candidate for congress in the fifth South Carolina district. He is the kind of a man they are in the habit of electing.

THE story was first that the Sultan had declared Arabi Bey a rebel. That is now denied and currency given to the report that he has deposed the Khedive. The latter is probably like the former—untrue.

THE census shows that in 1880 there were 25,700 lumber-establishments in the United States employing $181,186,000 capital and 118,000 hands. The annual value of the products amounted to $223,-367,000.

ASSEMBLYMAN W. W. ASTOR receives the Italian mission. He was one of the "Spartan band" who never deserted Conkling in the fight for return to the senate, and now gets his reward. He is rich and light.

THE largest flag-stone in America is soon to be laid in front of R. L. Stuart's house in Fifth avenue, New York. The ston is 26 feet 6 inches long, 15 feet 6 inches wide and 9 inches thick. It weeh. 60,000 pounds.

THE telegraph reports that the nomination of Stevens for postmaster at Utica has been referred to Senator Warner Miller as a sub committee. Senator Miller is a member of the committee, and opposes the confirmation of Stevens.

BRADSTREETS advices from different sections of the country for business prospects have, during the past week, been of the most encouraging character. Movements of crops and merchandise are unusually large and are beginning early.

THE rain in northern Ohio during last week was very heavy and did much damage. Bridges were carried away, rail road tracks washed out. Barns, fences and live stock were carried away. A little less rain there and a little more in northern New York would have been very acceptable all round.

GOVERNOR Crittenden, of Missouri, has some queer ideas of propriety. He made a bargain with a man to shoot James, the outlaw, and when convicted of the murder, pardoned him as he had agreed. Now he pardons three lottery dealers on their promising to be good and to devote their energies to build up the prosperity of St. Louis. They would all probably make good promises.

ARABI BEY appears to be in great force in front of the British troops. On the whole matters are not at all improving, and cannot be very satisfactory to anybody—especially Great Britain. Egypt and Ireland manage to keep England busy. Limerick City has again been proclaimed under the repression act. Dublin, Clerkenwell, and other places, are also making trouble. In Dublin the constabulary, to the number of from five to ten thousand threaten to resign.

Kills One of his Pursuers.

MONROE, La., August 5.—Bob Butler, convicted of murder and sentenced to be hanged at Columbia, escaped from the jail here. He was pursued by a sheriff's posse, overtaken, surrounded, and called upon to surrender. This he refused to do, and drawing a revolver, shot and killed Edward Coates, one of the posse, and in the excitement which followed again made his escape.

Mr. English's Imputations.

INDIANAPOLIS, Aug. 5.—The Republican State Central committee to-day asked Mr. W. H. English for a thousand copies of his speech delivered at the Democratic convention last week to distribute to voters. Mr. English consented, if they would pay for the printing out of the "soap" furnished by the Dorsey or Hubbell fund.

WASHINGTON NEWS.

WASHINGTON, D. C., August 5.—The president is getting ready a flood of nominations for the senate. A long executive session will be necessary before adjournment.

Secretary Chandler has issued a circular inviting plans for the construction of two cruisers, provided for in the naval appropriation bill, to be submitted within sixty days after August 20th. All necessary information will be furnished by the secretary upon application.

The weight of opinion to-day is that congress will adjourn to-morrow, but not a few insist that the session will be extended several days by the revenue bill.

Reports from a few members heard from since their arrival home show a popular demand for action on the bill. A majority of republican senators think it unwise to adjourn without action. The fact that the House is without a quorum shows that the only action which can be had on the bill is for the Senate to recede from the amendments already adopted and pass the bill as it came from the House. This the democrats will oppose holding that the bill gives no relief to the masses, and will combine to offer amendments. As there is no "previous question" in the Senate the republicans will have great difficulty in in forcing a vote. In all probability the matter will go over without action as all the appropriation bills have been passed and an end will be made of the session to-morrow.

Should congress adjourn to-morrow it will have been a session of two hundred and forty-five days, the longest continuous session except one for many years.

Aside from the general appropriation bills, which exceed those of last year by upwards of seventy-five millions, the present session has passed an apportionment bill giving the house 325 members after March 4, 1883; polygamy bill, Utah commission, Chinese bill, which like the river and harbor bill was passed over veto; tariff commission bill; re-established the Alabama claims commission; extended National Bank charters; amended the laws regulating the carriage of passengers by sea and regarding immigration and passed the knit goods bill.

The army and navy appropriation acts contain much of general legislation reorganizing those branches of service. There has been a liberal investment of surplus revenue in public buildings in all parts of the country. Each branch of congress had a sensational investigation, starting with the whiskey ring in the senate and the Peru-Chili-Shipherd affair in the house. Aside from pensions the number of private bills passed is remarkably small. It is a general remark that it has been a bad year for lobby. There was an absence of jobs in view of a plethoric treasury and is one of the redeeming features of the session just ending.

Since the first meeting of the present congress the senate has had three presiding officers, Republican, Democrat, and Independent, without a change in other officials.

GRAIN SPECULATIONS.

Chicago Buyers Waiting to Ascertain the Quality of Spring Wheat.

CHICAGO, August 5.—The wheat receipts for this week show 275,000 bushels less than the shipments. This, in connection with adverse harvest weather, lessens the disposition of the bears to sell short; but the buying is small, operators on that side not being disposed to take large lines until spring wheat is harvested and its quality understood. They do not wish to buy an article of uncertain quality, which is now the case with regular wheat. As under the rules of the board of trade, either No. 2 spring or No. 2 red can be delivered on contracts for regular, should spring wheat prove poor, sellers will decline it and red will bring a premium. Prices are steady. Corn opened lower, but soon advanced three-fourths under a strong shipping and speculative demand. Oats were active and options for September were one cent higher. The advance is due to bad weather, which restricts harvesting and threshing. Pork opened ten cents lower, but, under a fair shipping and active speculative demand, advanced twenty-five cents. Lard is quiet.

Rolling Mill Strikers Discomfited.

MCKEESPORT, Pa., Aug. 5.—The rolling mill strike is a failure. There was no demonstration against non-union men this morning, Messrs. J. F. Flagler, J. B. Converse and E. C. Converse escorting the men to and from the National rolling mill. The mayor posted the riot act about the town to-day. Both the citizens and the company are determined to protect any man who goes to work. The mill is now running with an increased force of non-union men, and more are expected on Monday. The strikers talk threateningly, but do nothing.

A Clerical Swindler.

LINCOLN, Neb., Aug. 5.—The Rev. J. B. Rockwell, pastor of the Congregational church at DeWitt, has been arrested here for using the United States mails for extensive swindling operations. His plan was to advertise extensively in religious publications, offering for sale a large lot of rare books, ten per cent. of the amount to be sent in advance. The books were never sent, though money has been mailed him from all parts of the country.

"Hemorrhagic Fever."

AUSTIN, Tex., Aug. 5—Governor Roberts received the following from the mayor of Brownsville, to-day: "One man died this morning in the garrison from hemorrhagic fever. There is no other case there, but there are five or six in the city."

Let Us Have Peace.

CHICAGO, Aug. 5.—The sister of the assassin Guiteau, Mrs. Frances M. Scoville, filed a bill for divorce this morning in the Circuit court against George Scoville. She says her husband treats her with extreme cruelty and makes her life miserable.

Glove Fights Illegal.

NEW YORK, Aug. 5.—The corporation counsel in answer to the mayor's letter, in an elaborate opinion, decides that glove fights are illegal, and all participants are liable to punishment.

THE LATEST FOREIGN NEWS.

AFFAIRS IN EGYPT.

Sir Garnet Wolseley Predicts a Short Campaign Battling Arabi—Another Engagement Saturday Afternoon—The English Victories—Three Killed and Twenty-Seven Wounded—Egyptian Loss 300—England's Ultimatum to the Porte—Turkey Must Declare Arabi a Rebel or Fight.

ALEXANDRIA, August 5.—The British forces at Ramleh will be commanded by Major-General Graham. No news from the front had been received up to 9 o'clock this morning.

Sir Garnet Wolseley predicts that Arabi Pasha and his following will be subdued and quiet restored in Egypt by September.

PORT SAID, August 5.—The iron-clad Monarch arrived at this port to-day.

LONDON, August 5.—The *Times* to-day, commenting on the action of the porte in withholding its proclamation declaring Arabi a rebel until Arabi's attitude is made known after the landing of Turkish troops, declares it impossible for England to permit the landing of Turkish troops under these circumstances, and regards the porte's claim to draw on the Egyptian revenue as preposterous in the extreme.

ALEXANDRIA, August 5.—A train mounted with Nordenfelt nine-pounders and forty-pounders penetrated to Matalla Junction yesterday afternoon. The Egyptians appeared in force, and a sharp engagement ensued, resulting in the defeat of the Egyptians with a heavy loss in killed and wounded. A number of prisoners. The battle lasted till sunset. The British loss is slight.

LONDON, August 6.—Details of the fight at Matalla Junction yesterday afternoon have been received by the war office, and show that the British troops lost three killed and twenty-seven wounded. General Alison reports that the reconnoissance was a complete success, as it discovered what force and what guns the enemy had in front of the main position, at the same time allowing the British troops to repair the track.

ALEXANDRIA, Aug. 6.—Another armed train mounted with Nordenfeldt nine-pound and forty-pound guns, carrying about 1,200 marines, proceeded to Matalla Junction this morning, but met with no opposition. At Matalla Junction about 300 marines were deployed as skirmishers to feel for the enemy, but after advancing beyond the enemy's advanced posts of last evening and first line of entrenchments, and finding them deserted the troops returned.

It is generally believed that Arabi's troops were in force just beyond the second line of entrenchments at Kafhr-el-Dwar, and the object of their silence was to draw the British troops out from the armored train in the hope of making a detour in their rear and capturing them. The British troops, however, proceeded cautiously, and the advance was not pushed to any considerable distance.

LONDON, August 7.—The government has instructed Lord Dufferin, the British ambassador at Constantinople to present an ultimatum to the Porte demanding that the Sultan at once declare Arabi Pasha a rebel and accept the English proposals for joint action in Egypt, and in event of the Porte failing to comply, Lord Dufferin will be recalled and the leading of Turkish troops in Egypt would be opposed by the English.

The porte requested delay for consideration of the demand. Lord Dufferin telegraphed to the foreign office here for further instructions.

It is believed the government will not consent to any further delay.

A dispatch from Constantinople reports great excitement there on announcement of the British ultimatum.

ALEXANDRIA, Aug. 5.—The Egyptian loss in the fight at Mahalla Junction yesterday is reported to be 300.

LONDON, August 5.—The porte is reported to yield to the demands formulated in the English ultimatum.

The conference yesterday adopted a proposal for a collective protection of the Suez canal.

England.

LONDON, Aug. 5.—Home politics are passing through a crisis. The lords insist upon their amendments, wrecking the Irish arrears rent bill. The commons will probably compromise the second amendment, making unpaid arrears a first charge on tenant's interest when the latter is sold, but they will not accept the first. It enables landlords to refuse tenant's applications under the bill. If the Marquis of Salisbury insists, parliament will be immediately prorogued and the bill re-introduced in the new session before the end of August. If the Marquis of Salisbury still obstructs, Gladstone will dissolve the house. Gladstone has been urged to introduce a county franchise bill in the new autumn session, and to make it the platform cry with the arrears bill, if the latter is defeated.

LONDON, Aug. 7.—Mr. Colcott, the English composer died to-day.

The strike movement of driving the Irish constabulary is spreading.

The first detachment of the Indian contingent has left Bombay for Egypt.

France.

PARIS, Aug. 5.—After a long conference with President Grevy to-day at which Egyptian affairs and the position France is likely to assume in the matter was discussed, M. Ducleve consented to try and form a French ministry. It is understood President Grevy made considerable concessions in the matter of asking a large vote of credit for any extensive French expedition to Egypt and it is believed France will merely confine herself to nominal naval protection of the Suez canal.

Ireland.

DUBLIN, Aug. 7.—Great importance is attached to Walsh's trial in London. Parnell, moonlight informer, is expected to make important revelations beyond those already known.

There is great difficulty to collect the Irish seed-rate in the west. The people considered the advances under the seed act a gift, but collectors of bonds are taking legal proceedings and are becoming as obnoxious as landlords and bailiffs.

DUBLIN, Aug. 5.—The *Freeman's Journal* publishes a confidential circular of the government to the police, asking how many are expected to attend the land league demonstration here on August 15th.

FORTY-SEVENTH CONGRESS.

Senate.

WASHINGTON, Aug. 5.—The knit goods bill, after a number of amendments had been voted down, was passed—26 to 15. Messrs. Bayard, Brown, Davis, (W. Va.) Gorman, Jones and Pendleton voted aye.

On motion of Mr. Morrill, the tax bill was taken up as the regular order.

The senate, at 6:20, took a recess until 8 o'clock.

The senate adopted the report on the sundry civil bill at 12:30 this morning and adjourned.

The president sent to the House to-day a communication in reply to the resolution of inquiry, showing that but four American citizens now remain in British prisons, O'Mahony, McSweeney, Slattery, and Gannon. McSweeney and Slattery have been naturalized. Gannon was born in the United States. O'Mahony was irregularly naturalized, for services in the navy. Minister Lowell reported on the 8th ultimo that there was no intention of bringing them to an immediate trial, but all have been offered their liberty if they would return to America, which they refused. Mr. Lowell was again instructed to urge a speedy trial.

House.

The committee on foreign affairs reported having examined into the question of the right of the committee to compel Shipherd to answer questions and find that they have no such right, as the inquiry related purely to his private affairs and did not affect the official standing of any officer of the government since the death of Minister Hurlbut.

The same committee also reported adversely on the bill for the payment of the East Florida Spanish claims, and refers the question to the President for information.

The deficiency appropriation bill was passed, the senate receding from its amendment paying mileage for the extra session.

A recess was then taken until 11 o'clock.

The House at 11:30 A. M. took a recess until 10 A. M. Monday.

The Fire Record.

ABILENE, Kansas, Aug. 7.—A granery, large barn, etc., on the farm of Bishop Samuel Zook, burned yesterday afternoon. A little daughter of the bishop, who was in the hayloft and is supposed to have set the hay on fire with matches, was consumed in the flames.

RUSH CITY, Mich., Aug. 7.—A large grist-mill on Sunrise river, owned by Jno. Wald, burned Saturday morning. Two unknown men asleep in the building perished in the flames. Loss, $10,000.

NEW YORK, Aug 7.—Fire to-day in the moulding shed of Aotchkiss, Field & Co., iron foundry caused a loss of $7,000.

Laughing at Reform.

CHICAGO, Ill., Aug. 5.—The efforts of the civil service reform association are generally laughed at by government employes in this city. Contributions to the congressional campaign fund will be fully as large as ever before. The operations of the local campaign committee is very mysterious, but the total number, 838 employes, in the custom house, postoffice, pension office, sub-treasury, internal revenue and custodians department, are assessed this year fully $21,000.

Struck Oil.

ARCOLA, Ill., Aug. 6.—An oil well was struck here to-day by Toomey & Irwin. While boring for water at a depth of eighty-five feet an explosion occurred. Gravel, rocks and water were thrown 250 feet in the air, the upheaval lasting thirty minutes, when the stream fell to fifty feet, where it remains stationary. It was set on fire and burns brightly with intense heat. The event created a tremendous sensation.

Weather Indications.

WASHINGTON, Aug. 6—1 A.M.—For the Lake Region—partly cloudy weather, light local rains, variable winds, mostly from south to west, stationary or lower barometer.

Telegraphic Briefs.

STRAIGHTON, Aug. 5.—Alice, a daughter of Daniel Mahoney, sent for water to a spring fell in and was drowned.

NEWPORT, R. I., Aug.—Major General G. K. Warren is critically ill with nervous prostration, and fears are expressed that he cannot recover.

WOBURN, Aug. 5.—Bartholomew Lombard, missing since Tuesday, was found drowned to-day in a pond. When last seen he was intoxicated.

CYNTHINA, Ky., Aug. 5.—At Antioch Mills yesterday, Don Gruelle and John Ashbury fought with pistols to settle an old feud. The latter was killed.

NORWICH, Aug. 5.—A little son of Harry Pertilla was run over by an express wagon here this morning. His scull was crushed and he will probably die.

NASHUA, Aug. 5.—Joseph Burkhardt, aged 22, while bathing was seized with cramps. Jeremiah Callahan, aged 37, went to help. Both were drowned.

BOSTON, August 5.—The six days' walking match closed at 9:16 P. M. Frank Hart won the belt, covering 527 miles; Noremac second, 505; Harriman third, 500; Campana fourth, 300 miles.

BROOKLYN, N. Y., August 5.—The police are seeking Henry Schultze, who deposited a forged check on the Herkimer savings bank, of Herkimer county in the Brunswick savings bank here, and drew from $1,500 to $1,800 against it.

WOONSOCKET, Aug. 5.—John Shea stabbed his wife four times this morning while drunk. His twelve-year-old son appeared, seized a club and knocked his father senseless. The woman's wounds will probably prove fatal. Shea was arrested.

WATERBURY, Aug. 5.—Barney Stoman, of Oakville, committed suicide yesterday by taking a dose of laudanum because no one cared for him. He left a letter on his bed addressed "To all who love me," and signed himself "Who will

Pork Packing.

CHICAGO, August 6.—From March 1 to date, Chicago packers have slaughtered and salted 1,225,000 hogs against 1,709,-000 for the same period last year.

Hanlan to Ross.

TORONTO, Ont., Aug. 5.—Referring to Ross' recent challenge, Hanlan says Ross is a coward, knowing perfectly well he (Hanlan) has no intention of rowing this year, and will not abcecpt a challenge, but next year will row any person for any amount.

A Wash Out.

PUEBLO, Col., August 6.—A. H. Spratt, traffic manager of the Denver & Rio Grande railroad, reports eleven miles of track washed out between Silver Cliff and Canon City. It is seriously contemplated to seek another route, avoiding the numerous gorges and chasms over which the road now passes.

Illinois Corn Crop.

CLINTON, Ill., Aug. 5.—Reports from every county in central Illinois show that the heavy rainfalls of the last six days have brought out corn to such an extent that it is now estimated at 60 per cent of a full crop. It is in fine condition in every respect. It was thought to be almost a failure five weeks ago.

FINANCE AND COMMERCE.

Oswego Markets—Aug. 5, 1882.

FLOUR—Amber winter, $6.60@6.85; white winter $6.55@7.00; XX, $6.50@7.15; patent $8.00@8.25; Graham, $6.00@6.85. Sales 180 barrels.
