BIGGEST THINGS ON EARTH.

A Short Account of Some of the Wonders of the World—Marvels of Nature—Stupendous Works that have been Accomplished by men.

The highest range of mountains is the Himalayas, the mean elevation being estimated at from 16,000 to 18,000 feet.

The loftiest mountain is Mount Everest or Guarisanker of the Himalaya range, having an elevation of 29,002 feet above the sea level.

The largest city in the world is London. Its population numbers 3,020,871 souls. New York, with a population of about 1,250,000, comes fifth in the list of great cities.

The largest theatre is the new Opera House in Paris. It covers nearly three acres of ground. Its cubic mass is 4,287,000, . It cost about 100,000,000 francs.

The largest Suspension Bridge will be the one now building between New York and Brooklyn. The length of the main span is 1,595 feet six inches; the entire length of the bridge is 5,989 feet.

The loftiest active volcano is Popocatepeti — "smoking mountain" — 35 miles south-west of Peubla, Mexico. It is 17,784 feet above the sea level, and has a crater three miles in circumference and 1,000 feet deep.

The largest Island in the world, which is also regarded as a continent, is Australia. It is 2,500 miles in length from east to west, and measures 1,950 miles from north to south. Its area is 2,984,287 square miles.

The longest span of wire in the world is used for a telegraph in India over the river Kistnah, between Bezorah and Seetanagrum. It is more than 6,000 feet long, and is stretched between two hills, each of which is 1,200 feet high.

The largest ship in the world is the Great Eastern. She is 680 feet long, 83 feet broad and 60 feet deep, 22,927 tons builder,s, 18,615 gross and 13,344 net register. She was built at Millwall, on the Thames, and was launched January 31, 1857.

The largest university is Oxford, in England, in the city of the same name, fifty-five miles from London. It consists of twenty-one colleges and five halls. Oxford was a seat of learning as early as the time of Edward the Confessor. University college claims to have been founded by Alfred.

The most extensive park is Deer Park, in the environs of Copenhagen, in Denmark. The inclosure contains about 4,200 acres and is divided by a small river. The largest pleasure ground in America, and one of the largest in the world, is Fairmont Park, Philadelphia, which contains 2,640 acres.

The highest monolith is the obelish at Karnak, in Egypt. Karnak is on the east bank of the Nile, near Luxor, and occupies a part of the site of ancient Thebes. The obelisk is ascribed to Hatasu, sister of Pharaoh Thothmes III., who reigned about 1600 B. C. Its whole length is 122 feet, its weight 400 tons. Its height, without pedestal, is 108 feet 10 inches.

The biggest cavern is Mammoth Cave, in Edmuuson county, Ky. It is near Green river, six miles from Cape City and twenty-eight miles from Bowling Green. The cave consists of a succession of irregular chambers, some of which are large, situated on different levels. Some of these are traversed by navigable branches of the subterranean Echo river. Blind fish are found in the waters.

The longest tunnel in the world is that of St. Gothard, on the line of railroad between Lucerne and Molan. The summit of the tunnel is 980 feet below the surface of Andermatt, and 6,600 feet beneath the peak of Kestlehorn, of the St. Gothard group. The tunnel is 27½ feet wide, and 19 feet 10 inches from the floor to the crown of the arched roof. It is 9½ miles long, 1½ miles longer than the Mount Cenis tunnel.

The biggest trees in the world are the mammoth trees of California. One of the grove in Tulare county, according to measurement made by members of the State Geological Survey, was shown to be 276 feet high and 109 feet in circumference at base, and 76 feet at a point 12 feet above the ground. Some of the trees are 376 feet high and 34 feet in diameter. Some of the largest that have been felled indicate an age of from 2,000 to 2,500 years.

The largest inland sea is the Caspian, lying between Europe and Asia. Its greatest length is 760 miles, its greatest breadth 270 miles, area 180,000 square miles. Great Salt Lake, in Utah, which may be properly termed an inland sea, is about 90 miles long and has a varying breadth of from 20 to 35 miles. Its surface is 4,200 feet above the level of the sea, whereas the surface of the Caspian is 84 feet below the ocean level.

The largest empire in the world is that of Great Britain, and comprising 8,557,659 square miles, more than a sixth part of the land of the globe; and embracing under its rule nearly a sixth part of the population of the world. In territorial extent the United States ranks third, containing 3,580,242 square miles, including Alaska; in population it ranks fourth with its 50,000,000 of people. Russia ranks second, having 8,352,940 square miles.

The largest library is the Bibliothique National, in Paris, founded by Louis XIV. It contains 1,400,000 volumes, 300,000 pamplets, 175,000 manuscripts, 300,000 maps and charts and 150,000 coins and medals. The collection of engravings exceeds 1,300,000, contained in some 10,000 volumes. The portraits numbers about 100,000. The building which contains those treasures is situated on the rue Richelieu. Its length is 540 feet, its breadth 130 feet.

The largest bell in the world is the great bell of Moscow at the foot of the Kremlin. Its circumference at the bottom is nearly 68 feet, and its height more than 21 feet. In its stoutest part it is 23 inches thick, and its weight has been computed to be 443,772 pounds. It has never been hung, and was probably cast on the spot where ie now stands. A piece of the bell is broken off. The fractnre is supposed to have been occasioned by water having been thrown upon it when heated by the building erected over it being on fire.

Curious and Comical.

Mr. and Mrs. Herrick were separated by divorce at Corinth, N. Y., eighteen year ago. Both married again and lived a long distance apart until the other day, when they met and immediately eloped together.

It isn't often that a couple is married in three languages, but at a wedding in Cleveland, Ohio, one day last week, the Justice performed the ceremony in English and German, the bride responded in Bohemian, and the groom answered in German.

A curiosity in the shape of a vast army of small toads was seen at Linkville, Oregon, last month. They were migrating up Klamath River, and were so numerous that on large areas it was impossible for a person to walk without stepping on them.

August 4, 1832, eleven school-boys in Genesee walked to Niagara Falls, and agreed to meet there again, if living, in fifty years. This month seven of them kept their promise, coming with their wives and children. And Niagara roared as it tumbled to the racket.

London's latest is a burying ground for pet birds and animals. A compauy has been formed, called the "Zoological Necropolis Company, limited." It will erect a tomb and reception room for defunct household favorites, and will set forth their virtues upon neat marble tablets.

Miss Corson, the cook lecturer, published a book, "Fifteen Cent Dinner," in which she advocated oatmeal, rice and soup as all that the human machine required for getting up steam. A New York stonecutter bought the book, followed the suggestions, run down in a month so that he was discharged as unfit for a day's work, and he has sued Miss Corson for damages for leading him into this era of idleness.

On Thursday last Mr. C. M. Brown, who lives near Smithville, Ala., lost four horses, all he had, by one stroke of lightning. The horses were grazing in a grass field, and when the cloud came over sought shelter from the rain under a persimmon tree, where all four were killed. They fell evenly, the first one lying at length and the next with his head resting on the neck of the second and so on.

A wagon loaded with powder and two Mexicans was the other day going down hill in New Mexico, the wheels being locked by a chain. The powder leaked, fell in front of the locked wheel and was ignited by the friction as the wheel passed over it. The wagon load exploded, killing the men, the mules and tearing up and crushing the rocks and earth by the roadside as if an earthquake had got hold of them.

To be "clear-headed" is usually regarded as very desirable, but there is a clear-headed child in Cincinnati whose parents would be glad to have him otherwise. His head is so clear that the light of a coal oil lamp gleams through it as if there was nothing between it and the eye but a thin membrane. Such at least is the local report. Persons at any great distance from Cincinnati will be entitled to the customary discount on such stories.

Some time since a curious freak of nature is reported to have occurred on the farm of Robert Jackson, about six miles west of Middleville, Barry County, Mich. In a corner of one of his fields, where there had never been any appearance of water, and where the land is high and dry, there suddenly burst forth a stream of water about the size of a man's body. A large oak tree which stood in close proximity was forced out and now lies prostrated upon the ground. The water is highly charged with sulphur, and the odor of the same can be noticed for a considerable distance from the spring.

MORTGAGE SALE.—Whereas default has been made in the payment of the money secured by a certain mortgage dated Feb. 3d, 1867, executed by Mary E. Lathrop and Frederick B. Lathrop, her husband, to Sally F. Dobbie, recorded in the Oswego County Clerk's office, at Oswego city, N. Y., on March 11th, 1867, in Liber 74 of Mortgages, at page 413; which said mortgage and the debt thereby secured has been duly assigned by said Sally F. Dobbie to Samuel B. Johnson, who is now the owner thereof, by an instrument in writing duly recorded in said Oswego County Clerk's office, on April 4th, 1876, in Liber 108 of Mortgages, at page 440; and on which said mortgage and said debt thereby secured there is claimed to be due at the time of the first publication of this notice the sum of seven thousand five hundred and fifty and 14-100 dollars, ($7,550.14)—that being the whole amount unpaid thereon;

Now, therefore, notice is hereby given according to the statute in such case made and provided, that by virtue of the power of sale contained in said mortgage and duly recorded therewith as aforesaid, said mortgage will be foreclosed by a sale of the premises therein and herein described, at public auction, at the law office of W. H. Kenyon, No. 9 West Bridge street, Oswego city, N. Y., on Monday, November 11th, 1882, at ten o'clock in the forenoon.

The following is a description of said mortgaged premises so to be sold as aforesaid, substantially as contained in said mortgage, to-wit: "All that tract or parcel of land situate in the First ward of the city of Oswego, in the county of Oswego, and State of New York, known and distinguished as lot number thirty-four (34) in block number six (6) of the cemetery plot, so-called, in the former village of West Oswego."

SAMUEL B. JOHNSON,
Assignee of Mortgage.

W. H. KENYON, Att'y for Assignee,
Office 9 West Bridge street, Oswego, N. Y.

SUPREME COURT.—County of Oswego.—George Briggs, as administrator of all and singular the goods, chattels and credits of Orvilla B. Briggs, late of the town of Volney, Oswego county, and State of New York, plaintiff, against William Mack and Herbert Mack, defendants.

To the above named defendant, Herbert Mack:

You are hereby summoned to answer the complaint in this action, and to serve a copy of your answer on the plaintiff's attorney within twenty days after the service of this summons, exclusive of the day of service; and in case of your failure to appear or answer, judgment will be taken against you by default for the relief demanded in the complaint.

Trial to be held in the county of Oswego.

GEORGE W. HARMAN,
Plaintiff's attorney

Office and postoffice address, rooms 13 and 14, Richardson block, 49 East Second street, city of Oswego, N. Y.

Dated this 17th day of June, 1882.

To Herbert Mack, defendant:

The foregoing summons is served upon you by publication, pursuant to an order of Hon. Newton W. Nutting, Oswego County Judge, dated July 25th, 1882, and filed with the complaint in the office of the Clerk of Oswego county, at the city of Oswego, New York.

GEORGE W. HARMAN,
Plaintiff's Attorney.

Office and postoffice address, rooms 13 and 14, Richardson block, 49 East Second street city of Oswego, N. Y.

Dated August 9d, 1882. aug3law6w

PROFESSORS

of the UNIVERSITY OF MORALS AND INTELLECT have unanimously agreed that several of our Syracuse Merchants have fairly earned "THE DIPLOMA OF THE SCHOOL OF DECEPTION.

It is absolutely necessary that some energetic action be taken on the part of well-meaning and deserving Clothing Dealers to protect the public against those dealers who make it a study to deceive.

We have received several communications from leading merchants looking toward the formation of an Association. Such a consummation has our warmest wishes for success, and we are ready to use our best endeavors to promote so worthy a cause. But we fear a personal effort would not result in that success we so devoutly hope for. Our motives might be misconstrued, and thus our efforts dwarfed. We consider it our duty, however, to LEAD AND NEVER TO FOLLOW.

"THE FAMOUS"

VON FRANKENBERG & CO.

2 and 3 Wieting Block, Syracuse.

We are True Laborers: we earn what we wear; we owe no man hate; envy no man's happiness; glad of other men's good; content with our farm.
