VOLUME XXXVIII--NO. 14?. OSWEGO, N. Y., THURSDAY EVENING, MAY 2, 1901. ESTABLISHED 1819

NEW BUCKET SHOP TAXES.

The Collection is to be Rigidly Enforced in Every Respect.

THE LAW IS IN EFFECT.

Commissioner Yerkes Will Confer With Collectors of Internal Revenue in Baltimore, Philadelphia, New York and Boston on the Matter.

WASHINGTON, May 2.—"We will take immediate and resolute steps to enforce the law in every particular."

This was the declaration of Mr. Yerkes, Commissioner of Internal Revenue, when asked today what would be done in regard to the collection of the special taxes on the keepers of bucket shops and the double tax on their transactions.

The new rates upon bucket shops took effect on April 1st, but their collection by force of law against the wishes of those who are subject to them could not well be inaugurated until after May 1st, because the law requires only monthly returns from the brokers.

The test question for the local Collector of Internal Revenue will be whether the keepers of bucket shops before the close of business today have made the returns required by law. If such returns have not been made, immediate steps will be taken to report to Washington persons believed to be conducting a bucket shop business, and the usual processes of law will be instituted to force payment.

Commissioner Yerkes proposes to set out at once upon a visit to the four principal eastern cities where bucket shops transactions are carried on. He will first stop at Baltimore, then at Philadelphia, and, after careful examination of the conditions in New York, will go to Boston. He does not contemplate visiting Chicago at once, but may do so soon after his return from his eastern trip.

He proposes to hold consultations in each city with the local Collector of Internal Revenue, in order to learn what steps he is taking to enforce the law and what information he has regarding the conduct of bucket shops.

The Government is not concerned with the legality or illegality of such institutions, but proposes that they shall pay the Federal tax imposed by law, if they can be made to pay it.

Uniformity of method and of interpretations of the law will be one of the objects of the visit of the Commissioner to the leading points where bucket shop business is done, as well as information for himself regarding conditions there.

The fact that the laws of New York, Illinois and several other States impose severe penalties upon any bucket shop business, and make it illegal, may require careful consideration by the Commissioner how far the United States shall permit State officers to go in deriving evidence against the bucket shops from the records of the Internal Revenue Bureau. It is not the policy of the Federal officers to extend aid to the State officers in such matters, because they believe that the Federal law is levied for revenue purposes, and not as a means of punishment or prohibition upon any industry.

Congress passed an act some years ago throwing open to public inspection the list of persons obtaining special license stamps for sale of liquor. Some of the States have made copies of these lists or evidence derived from their examination available as evidence in the State courts in proof that the holder of the license sold liquor contrary to State law. The Federal officials have refused, however, even under this law, to permit certified copies or photographs to be taken.

Similar questions are likely to arise in the effort to stamp out bucket shops in some of the States, and the exact attitude to be taken by the local collectors of Internal Revenue will have to be considered.

Internal Revenue Commissioner Yerkes is an acute lawyer, and will endeavor to take a position which will protect himself and his subordinates from criticism for violation of the law.

FIRST TICKET TO PAN-AM.

New Yorker Gets it by Subscribing for $20,000 Worth of Stock.

NEW YORK, May 2.—Today Mayor Diehl, of Buffalo, sent to William Hamlin, of this city, ticket No. 1 for admission to the Pan-American Exposition. Mr. Hamlin subscribed to $20,000 worth of stock to get the bit of pasteboard which undoubtedly will never be used to gain admittance to the grounds.

Some time ago Mr. Hamlin offered $5,000 cash for the ticket, but the exposition authorities were anxious to dispose of stock and Mr. Hamlin offered to take $20,000 worth of stock for the coveted ticket.

MINISTER WU TALKS TO MUTES.

Says That He Has Often Wished That He Was Deaf.

WASHINGTON, May 2.—Minister Wu Ting Fang made a speech yesterday to a deaf mute audience. The occasion was the graduating exercises of the Columbia Institution for the Deaf and Dumb. The Chinese diplomat's words were translated as he spoke, into the sign language by Professor Gallaudete, President of the institution.

He assured his audience that he had frequently wished he was deaf. "Lots of people hear," said the minister, "but don't understand. You understand, but you don't hear. It is a great deprivation to lose a sense, but it is usually compensated by the gift of other senses. You should be glad that you are not bothered with noisy streets of American cities. It is good to be deaf."

Saved by Her Back Hair.

WATERTOWN, May 2.—Mrs. S. A. Mundy was struck and knocked down by a team at the American corner yesterday. The team was driven by a farmer from Chaumont. The horses and wagon passed over her, but she was not touched by the hoofs or the wheels. She struck on the back of her head when she fell, but her hair, which was knotted at the back of her head, protected her from injury. She was taken to the Woodruff House, where she boards, and Dr. W. N. Brown attended her. He found her suffering from shock, but said that she had not sustained any serious injury.

HANNA AND THE BOOM.

Says He Loaned His Horns For Use in Wall Street.

NEW YORK, May 2.—Senator Hanna was interviewed last night in regard to the great bull movement that has swept everything before it in the Stock Exchange the past two weeks. He was asked: "In your opinion, have stocks reached a market price beyond what is justified by their dividend earning power?"

"Well," replied the Senator, "I am not in Wall street and don't understand that game. I am too unsophisticated, but I have loaned my horns to the bulls and they are doing great business with them. Of course records have been broken, but this is a record breaking year. This boom shows the confidence people have in the stability of American property values.

"This country has reached a three per cent. basis. Any security that pays more than that is bound to go to a premium.

"Look at earning and figure how high stocks should go yourself."

"Did you give a special set of horns to Morgan?"

"Guess I did. And isn't he making good use of them! I hear he is trying to buy the English fleets. The British had better watch him or he will come back with the whole empire. That is the kind of imperialist I am in favor of."

The Senator said he was only here on business, and would not say when he was going away.

Big Order For Electric Motors.

NEW YORK, May 2.—The General Electric Company has secured an order from the Manhattan elevated railroad for 1,600 motor cars, which will replace the little locomotives now in use on the elevated lines in Manhattan. The railroad company before awarding the contract investigated every known form of electrical propulsion. This is said to be the largest electrical contract ever made. Nearly $3,000,000 is involved.

MERRY MIX-UP.

By Marriage Young Woman Becomes Grandmother to Her Own Children.

DAYTON, O., May 2.—A marriage was solemnized yesterday which makes a queer tangle in relationships. The contracting parties are John Karch, aged fifty-nine, and Mrs. Susie Karch, aged twenty-two. The bride is the divorced wife of the son of the bridegroom.

The divorced husband is now living in Indiana. Mrs. Karch has two children, and as she has married her father-in-law the grandfather of the children becomes their stepfather. Likewise Mrs. Karch will be the grandmother by marriage of her own children.

Strength and Endurance

Are factors of the greatest success.

No person can do full justice to himself without them.

In no season of the year are they more easily exhausted than in the Spring.

We need not discuss the reason for this here. It's enough to say there is one, and that Hood's Sarsaparilla gives strength and endurance, as thousands annually testify.

DYNAMITE IN THE WOOD.

And Mrs. Deming's Kitchen Stove Went Up.

SHE WAS BADLY INJURED.

Next the Parlor Stove Was Blown to Pieces and a Caller at the House Was Severely Injured—Who Planted the Dangerous Bomb?

PLATTSBURG, N. Y., May 2.—Mrs. Alice Deming has lived alone all Winter in her house in Wadhams Mills, fourteen miles South of Port Henry, on Lake Champlain.

On Tuesday morning, two weeks ago, she went into her kitchen, and after placing kindlings in the stove she went to the woodbox in the shed. There was only one stick in the box, and she placed it on the now blazing fire.

A few moments later, when Mrs. Deming was in the pantry, a terrific explosion occurred, blowing the cook stove to fragments and wrecking the kitchen. Mrs. Deming was thrown to the floor and rendered partially unconscious. She was bruised and bleeding in fifty places. The tea kettle was blown through the ceiling into the attic.

Mrs. Deming was soon able to get to her room and call for help. District Attorney Perry found among the rubbish several pieces of a beechwood stick, a kind of wood foreign to Mrs. Deming's woodpile. These pieces showed an augur hole running lengthwise, and one piece shows the end of the hole. It is believed that in this stick was dynamite.

A few days ago Mrs. Deming had a second narrow escape. She was entertaining callers, among them D. A. Woodruff, when she heard a sizzling noise coming from the parlor stove. She ran from the house, calling to her guests to follow. She afterwards explained that the same noise was heard before the first explosion in the kitchen stove. Mr. Woodruff was severely injured by the explosion, which wrecked the stove and parlor.

Sheriff Adkins and District Attorney Perry are at work on the case, and Mrs. Deming has gone to Westport to stay with a friend.

One theory in explanation is this: Several dogs have been poisoned in Woodhams Mills, and, it is thought, some one suspecting Mrs. Deming, has been trying to wreak vengeance on her.

Another story is that Mrs. Deming's son, who has been on a training-ship near New York, but who has been home on a vacation, placed the dynamite in the woodpile in a spirit of deviltry.

The Trial Yacht Races.

NEW YORK, May 2.—The custom of holding the trial yacht races off Sandy Hook has been abandoned. The races to select America's defender will all take place at Newport on June 3d, 4th and 5th. There is little doubt that the Independence will take part in the trials, as Manager Clark, of the Lawson boat, has been proposed as a member of the New York Yacht Club. His admission will settle all dispute regarding the Independence's eligibility to compete.

Did Mrs. Nation Put up the Job.

KANSAS CITY, Mo., May 2.—Police Judge McAuley has remitted the $500 fine which he imposed on Mrs. Nation for alleged obstruction of the sidewalk. He asserts that the whole matter of the fine and his speech on the occasion was pre-arranged by himself and Carrie Nation for mutual advertising. Mrs. Nation, from her cell in Wichita, says this is untrue.

The Book Publishers Combine.

NEW YORK, May 2.—The agreement reached some months ago by the American Publishers' Association to prevent the sale of books at cut prices, went into effect yesterday. The effect will be that the publishers themselves will from now on list work of a general character at about twenty per cent. lower than in the past.

They will also fix the retail price, thereby depriving the booksellers of opportunities for cutting the prices. Booksellers who refuse to be bound by the price determined upon will not be dealt with.

Strikes a Rich Find.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by [illegible] feb7d&w1y—1

AMERICAN TROOPS GOOD KILLERS.

Not Much to Look at, But Hell on Fighting.

NEW YORK, May 2.—General James H. Wilson's address on the part taken by Americans in the Chinese campaign was the great feature of the Loyal Legion banquet last night. "It is my private opinion," he said, "that the American soldier is the best killer on the top of the earth. He is a good deal like those fighters in South Africa, who are not very much to look at, but are hell on fighting."

As to the colonial natives in the British Army, General Wilson said: "They are very poor material. There was a very high mountain to climb recently. They are mountain climbers, you know, but a company of our men, which started fifteen minutes after they did, reached the summit fifteen minutes ahead of them. We have always been in the front rank among the allies."

Contract Involving Millions.

NEW YORK, May 2.—Several huge contracts have been placed in this country by the British Westinghouse Electric and Manufacturing Company in connection with the installation of an $8,000,000 plant at Trafford Park, near Manchester. James Stewart & Company, of St. Louis, have contracted to erect the buildings for $3,000,000. D. L. Gillespie & Company, of New York and Pittsburg, will supply the lumber required for $500,000 and the machine tool equipment will be furnished by the Niles-Bement-Pond Company, of this city. The greater part of this work will be done at Hamilton, O. The contract calls for machines varying from 200 pounds to 150 tons in weight.

Another Standard Oil Dividend.

NEW YORK, May 2.—The Standard Oil Company will declare a dividend of twenty per cent. on its stock of $100,000,000 which, for the fiscal year, with dividends hitherto declared, will make a total of $60,000,000, or sixty per cent.

The rumor has been very persistent in Wall street that the Standard would increase its capital stock to $405,000,000, possibly $500,000,000. It was said that the Rockefellers were waiting until the stock was quoted on the curb at $1,000 a share, which might occur within the next few months at the present rate of advance.

A Pertinent Question.

WASHINGTON, May 2.—Major Erastus L. Hawkes, who preferred the original charges against Lieutenant Colonel Heistand in connection with the so called Manila hemp scandals, investigation of which has from time to time been postponed by the Senate committee having the matter in charge, has written a letter to Secretary of War Root demanding to know, "whether you intend to allow the Military Committee of the Senate to make an investigation into the charges, and incidentally allow them to call you as a witness."

Secretary Root will make no answer to the letter.

Three Negroes Shot to Death.

ATLANTA, GA., May 2.—A special to the Daily News from Selma, Ala., says that last night a mob of unknown white men shot three negroes to death at that place at a spot where a negro named Dawson, on Sunday night, killed a white Deputy Sheriff. The three negroes were all intimately connected with Dawson and were killed for supposed connection with the murder. There is no clue to the identity of any of the members of the mob.

To Buy Sugar Plantations.

NEW YORK, May 2.—H. O. Havemeyer, head of the Sugar Trust, and John H. Post, head of the National Sugar Refining Company, have sent representatives to Porto Rico who have been busy securing options on the choicest sugar plantations of the island. Reports from Porto Rico have it that they have succeeded in buying some of the most valuable sugar lands on the island. It is believed when the relations between this country and the island are adjusted profits in sugar for selling purposes will be better.

Have You a Skin Disease?—Tetter, Salt Rheum, Scald Head, Ringworm, Eczema, Itch, Barber's Itch, Ulcers, Blotches, Chronic Erysipelas, Liver Spots, Prurigo, Psoriasis, or other eruptions of the skin—what Dr. Agnew's Ointment has done for others it can do for you—cure. The Kind You Have Always Bought

WOMEN ON STOCK MARKET

Servant Girls Catch the Craze and Make Money.

CHORUS GIRL'S GOOD LUCK.

Many Women in New York's Swell Set Have Taken to Gambling and Ride to and From the Stock Exchange in Their Automobiles.

NEW YORK, May 2.—Mrs. Marie L. Wilson, a chorus girl in "Florodora," is reported to have retired from the stage, having been on the right side of the stock market to the sum of $250,000 in the last month.

Servant Girls Catch Speculating Craze.

ST. LOUIS, May 2.—According to St. Louis brokers, servant girls and farmers have caught the speculation fever and are buying stocks, usually at a margin. Letters are pouring in from this class of people in Missouri and tributary States and many firms have refused to speculate with their money. One St. Louis housemaid is said to have invested $3,500 in railroad stock last week, while others have risked more than $1,000 each.

New York Women at It, Too.

NEW YORK, May 2.—The boom in Wall street is reflected each evening in the business done in the cafes of the up town hotels. The Waldorf-Astoria bar was crowded four deep after 4 P. M. by the lucky winners in the stock market. The Hoffman House cafe and other popular bars are having similar prosperity. Jewelers, too, are doing a big business, many investing their surplus winnings in something to please their wives.

The Astor house last night had to turn away swarms of clerks who were obliged to toil until midnight and who wished to sleep in a place near the scene of their labor.

Many women are joining in the gambling in Wall street. Most of them are on the right side and making money.

Many of the women come to Wall street in automobiles, where they used to use street cars.

Not Afraid of a Black Friday.

NEW YORK, May 2.—Many Wall street men laughed heartily when they saw Russell Sage's dire prediction of another "black Friday." They said it was a bear card played at a time when the market has gone against the veteran financier. Mr. Sage deals in privileges occasionally, but it is generally reported in Wall street that he has lost a tidy sum on calls.

Corn Forced Up to 55.

CHICAGO, May 2.—There was the wildest scene of the year in the corn pit this morning when Corn King Phillips continued his merciless squeezing of the shorts and sent the price of May up to fifty-five cents as early as eleven o'clock. The shorts made frantic efforts to buy at fifty and then at fifty-one, but could get none even at these figures, and the excitement became intense. Then there was a wild advance to fifty-four, that figure being reached a half hour after the opening. A few sales held the price at that notch, but another lively demand sent it up to fifty-five.

Brokers Need a Rest.

NEW YORK, May 2.—The press of business has become so great on the Stock Exchange that a petition was circulated among the brokers asking the governors to close the Exchange on Saturday to allow the members to catch up with their current business. The brokers say the strain has been so great that they need a rest.

Some Heavy Dealings.

NEW YORK, May 2.—Atchison common advanced 11½ points today. Trading in the stock was enormous. At 2:30 o'clock 500,000 shares had been dealt in. This activity was due to reports that Atchison will be acquired by the Pennsylvania Railroad Company. There is no definite news to confirm or deny this gossip.

C. & O. assumed great activity at 2:30 this afternoon. Blocks of the stock ranging from 500 to 2,200 shares were dealt in, 70,700 shares changing hands in less than ten minutes. The price advanced sharply from 49 to 53.

St. Paul Railway stock sold at 177, a net advance of 4½ per cent. this afternoon. There was no accounting news [illegible]

Twisting the Bull's Tail.

NEW YORK, May 2.—They twisted the tail of the bull a little on 'Change at the opening this morning. The market in initial dealings was more irregular than it has been for days, the weak spots being of a pronounced character. Dealings were on active scale, but they presaged no such volume of sales as was recorded Tuesday.

Sales ranging from 1,000 to 4,000 shares came out on the ticker in rapid succession. The lower prices from London influenced the irregularity some, but the warning talk of the conservatives had more to do with the declines.

Russell Sage Talks Again.

NEW YORK, May 2.—Russell Sage today denied the story current in Wall street that he has been caught on the wrong side of the market.

"I bought privileges at my own figure and I sold them when I could get what I wanted for them. When this present inflation in the market will break I can not say, but it will come like a thief in the night. A big house may fail and that may set prices toppling. It won't take six hours when it comes either. Look at U. P. A. A few days ago there were no buyers. Now look at it. This thing can't go on when speculators show so little prudence.

Bears the Signature of Chas. H. Fletcher

COMMUNITY OF INTERESTS.

How Some Saloonkeepers Circumvented High License in a West Virginia Town.

MOUNDSVILLE, W. VA., May 2.—This city is to have a saloon conducted on the community of interests plan. The present City Council was elected on a semi-reform platform and began its career by declaring for more revenue and raising the saloon licenses from $300 to $500 a year.

The saloonkeepers, eleven in number, demurred, but a contest before the Council between the church federation and saloonkeepers resulted in a victory for the good people, and the $500 license was reaffirmed. The licenses expired Tuesday night and yesterday the saloonkeepers met and formulated a plan to beat the city.

The eleven saloonkeepers became stockholders in one big saloon to be located in the center of the town. A $500 license will be taken for this and to it all stocks and such fixtures as are needed will be taken.

The saloonkeepers will be bartenders and a general manager will look after the business. A competent accountant will make an estimate of the business done the last three months by the several saloons and on the basis of this the profits will be shared and the stock in the combine issued.

The trust will save much money in operating expenses, also $5,000 in license fees.

Russians and Chinamen in Battle.

COLOGNE, May 2.—A despatch from Pekin says that a sanguinary battle has been fought at Mukden, Manchuria, between the Russians and Chinese. The Russians lost sixty killed and wounded, including four officers.

THE FIRE RECORD.

Gloversville Loses a Big Manufacturing Establishment.

GLOVERSVILLE, May 2.—A disastrous fire occurred at Robinson Brothers' mill in Railroad street last night, when the mill was destroyed, involving a loss of from $125,000 to $150,000. The mill was a four-story building with a cupola and was erected about eight years ago by J. G. and T. B. Robinson, leather dressers.

S. H. Shotwell was among the heaviest losers. His skins were valued at from $35,000 to $40,000 and were partially insured. The next heaviest loser was the firm of Jacob Adler & Son. The insurance policies are in the New York office and neither Mr. Adler nor Mr. Stitt was able to give the amount last night. There was over 10,000 dozens of pickled stock, very little of which was saved.

The mill which burned last night has been the scene of two terrible accidents. When the addition was being built a man fell from a scaffold and was injured and only a short time ago the engineer was killed by being wound around the shafting. Thomas B. Robinson, one of the members of the firm, together with his wife and child, intended starting on a European trip Saturday.

Blown To Atoms.

The old idea that the body sometimes needs a powerful drastic, purgative pill has been exploded; for Dr. King's New Life Pills, which are perfectly harmless, gently stimulate liver and bowels to expel poisonous matter, cleanse the system and absolutely cure Constipation and Sick Headache. MORGAN'S PURCHASE.

Will Those English Ships Help Solve Subsidy Question.

J. DEWITT WARNER TALKS.

Declares That American Shipbuilding Needs no Bonuses—President McKinley in His Speeches in the South Advocates the Subsidy Plan.

NEW YORK, May 2.—Whether the purchase of the Leyland fleet by J. P. Morgan will help out the ship subsidy cause that has been bothering vessel owners, is still undecided. Some of the owners pretend that the purchase will be helpful, because it will stimulate American pride in the ocean-carrying business. It will give an idea of the glory and power that comes from the ownership of great fleets, they say, and will create a demand for more ships.

They also believe that Morgan will bring his powerful influence to bear in favor of vessel legislation. The men who fought the Hanna Subsidy bill last Winter contend that the Morgan fleet is an argument on their side. It shows, they say, that the American merchant marine will grow without a subsidy and even if a subsidy is paid it will be absorbed by a few trusts. No general benefit, they claim, would result from the payment of a bonus.

John Dewitt Warner said of the Morgan purchase:

"It adds another to the proofs which have been constantly more numerous for the last few years—first, that American ship building and ship owning needed no subsidy, and, second, that pending combinations were and are such as to secure for a comparatively small group of capitalists whatever largess the Government may give, and to assure that others get too little to be worth mentioning.

Until we see what shape in which the new Subsidy bill is introduced at the next session of Congress it is hard to say what the developing Morgan interests would get thereby. We may expect to see pushed a much more extensive treasury steal than the one which died last March."

If the Hanna Subsidy bill were now in effect, the English built ships bought by Morgan would not be entitled to share in its benefits. The bill provided that only foreign built ships owned by Americans January 1st, 1899, should share in the subsidy.

A new subsidy bill will be introduced in Congress next Winter and it may be framed to include the Morgan fleet. President McKinley during his present tour is advocating in his speeches the passage of ship subsidy legislation.

Whitelaw Reid Injured.

SAN FRANCISCO, May 2.—Whitelaw Reid and D. O. Mills were slightly injured in a railroad collision at Yuba Pass last night. Fireman James Saunders was instantly killed.

MAKE OFFER TO CUDAHY.

Kidnappers Will Return $21,000 if the Prosecution is Dropped.

OMAHA, Neb., May 2.—An agent of the kidnappers has made a proposition to Edward Cudahy to return $21,000 of the money paid for his son's ransom, demanding in return a withdrawal of the $25,000 reward and a cessation of the search that is being prosecuted, together with an abandonment of the determination to punish the criminals.

The proposition came in a letter from Elgin, Ill., and Mr. Cudahy is convinced of its authenticity. He went to Chicago ten days ago because of it, being summoned there by his brother in response to overtures that had been made. He refused to consider it and declares his unchanged resolve to prosecute to the end the search for the men who stole his boy.

Deafness Can Not Be Cured

by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that can not be cured by Hall's Catarrh Cure. Send for circulars, free.
