

WANT UNION RECOGNITION

Anthracite Operators and Miners in Conference.

SETTLEMENT LOOKED FOR

While it is Expected Several Meetings Will Be Held it is Rumored the Operators Have Practically Agreed to Compromise on a Ten Per Cent. Wage Increase.

PHILADELPHIA, April 10.—When the joint conference of the operators' committee and the union anthracite miners' representatives opened at noon today it was the general impression that several meetings would be necessary before a settlement is reached. Both sides went into the meeting ostensibly recognizing mining, but it was reported that the operators and miners had agreed to compromise on a ten per cent. wage increase. Any settlement must be submitted to the rank and file of the miners for approval.

Whether an early resumption of work in the anthracite fields, a suspension of which since April 1st has already resulted in a heavy financial loss, may be expected, depended, it was said, on the recognition of the union by the operators. Mr. White, of the miners' side, stated that without recognition of the union the ten per cent. wage increase would not result in settlement. He declared that only all of original demands of the miners were granted there was likely to be a real strike.

Look for Agreement.—The operators' committee met at a meeting in New York, which is said to have decided against recognition. President Stone, spokesman of the operators, it is known, was not present. It was reported that the miners' side, on the other hand, was not in favor of a report that they would accept of the operators, it is known, was not present. It was reported that the miners' side, on the other hand, was not in favor of a report that they would accept of the operators, it is known, was not present.

President Stone made the proposition on behalf of the operators that the old contract be renewed. At the same time, it was officially announced that the operators' committee had appointed a committee to confer with the miners' side before the strike commission is organized. The committee consists of Messrs. W. J. Richards, J. D. Williams, Morris Wilson and J. Phillips.

At the close of the miners' committee meeting, the operators' committee met and a statement which said in part: "The operators' committee has decided to accept of the miners' side, on the other hand, was not in favor of a report that they would accept of the operators, it is known, was not present."
