

ROYAL BAKING POWDER

Absolutely Pure
The only Baking Powder made from Royal Grape Cream of Tartar
NO ALUM, NO LIME PHOSPHATE

THE PALLADIUM.

TUESDAY, APRIL 1, 1913

Mr. Kissel Named as Organist.

Miss Adelaide Harding has resigned as organist at the First Baptist church and has been succeeded by Clarence Kissel.

To Raise Ten Thousand Dollars.

The Executive Committee of the Prohibition party has just started a campaign for votes, and has opened headquarters with W. E. Fitts in charge. They plan to raise \$10,000 for the work, and will organize clubs in every election district in the county.

Spoke of Meade's Death.

Friday, April 1. The Syracuse Evening club, of which the late Sheldon B. Meade was a member, met last night and took action on his death. Addresses were made by Arlyn Rice and John Hunter in which they paid high tributes to the deceased.

Minetto Boys Wow.

The Minetto basketball team with Captain Young at the head trimmed Saturday's quietest of millionaires at the Armory last night 48 to 5. The first half 25-14, the second 23-14.

If the person who took the bicycle away from in front of 68 West Eighth street yesterday will kindly return it to the Palladium there will be no questions asked.

BURT & KELLY

DRANK QUART OF WHISKEY

Then Fell Unconscious and is Now in the Hospital.

John Minetto, a Pole, twenty-two years old, employed at the Diamond Match Company, didn't work yesterday. Instead he went to a christening at 98 Water street, and there made a bet of \$5 with a friend that he could drink a quart of whiskey as fast as he could pour it down. He did and collected the wager. Then he fell unconscious on the floor. The ambulance was called and took him to the Hospital, where Dr. Hervey employed the stomach pump. He is out of danger from the whiskey, but is suffering from congestion of the lungs, and may be a very sick Pole before he gets back to work at the match factory.

MINETTO GIRLS MISSING

Syracuse Police Asked to Help in Locating Them in Syracuse.

Louis Stevens, a Minetto constable, asked the Syracuse police yesterday to help him in a search for his sixteen-year-old daughter, a girl who he thinks was lured away from her home by a nineteen-year-old girl boarder. He thinks both girls are in Syracuse, the one who went with her being Helen Madison, who works in the mills and boarded at the Stevens home.

PUBLIC HEARING.

Will be held at City Hall April 24 on Sewer Bill.

Pursuant to section two of article twelve of the Constitution of the State of New York and sections thirty and thirty-one of the General City Law of said State, I, David D. Long, Mayor of the City of Oswego, N. Y., do hereby fix April 24, 1913, at eight o'clock p. m., at the Council Chamber in the City Hall of said city as the time and place when and where a public hearing will be held and given before the Mayor and Board of Aldermen of said city, concerning the Common Council and the legislative body thereof, upon a certain bill passed by the Legislature of the State of New York, known as Senate Bill No. 1296, the title to which is as follows:

An act to amend chapter 894 of the laws of 1896, entitled "an act to revise the Charter of the City of Oswego" in relation to the construction of sewers and sewage disposal plants and other necessary construction incidental thereto, and to the issuance of bonds therefor.

I therefore hereby designate the Oswego Daily Times and the Oswego Palladium as the official papers for the publication of this notice for each of three successive days.

Dated March 29th, 1913.

DAVID D. LONG,

Mayor of the City of Oswego.

March 29, 1913.

Mechanics Will Ask Shorter Hours.

After May 1st, the union mechanics of Syracuse will refuse to work ten hours a day. It is said that Oswego mechanics will also ask for shorter hours.

What Will Become of Employees of Local Office?

Resident Engineer Burden Will be Continued But His Staff May be Transferred to Other Places—No Signs of Any Start in Terminal Work—Laborers Are Anxious.

The Almahar Construction Company which has the contract for the local barge canal work, will complete its job within three weeks, according to General Manager Flaughan today and there is much speculation among the employees of the local residence as to their future. Resident Engineer James Burden will unquestionably continue in charge, as he also has supervision over Contract 87, from the High dam at Minetto, now just fairly under way, but some of the rest of the staff may be transferred, as there is practically a full force of assistants engaged on the sewer contract.

At least one of the three main staff engineers, George T. Haley, D. H. Judson and F. J. Ellis, and possibly two, will be shifted unless they are placed on the terminal work. At present there seem to be no signs of starting this work, and unless the State officials are jacked up again and forced to do it, it does not look as if there would be any activity along this line this year. Mr. Ellis is at present the assistant engineer in charge of the Minetto contract.

THE NEW OSWEGO.

L. J. Farmer Developing a Fruit That is Bound to Become Famous.

Every orchardist in Oswego county, and every owner of a garden plot, should make it a point to raise a new variety of apple called the New Oswego. There is nothing like it in the world, says L. J. Farmer, of Palastki, who has developed the new fruit, a sample of which was left at this office Monday. The apple was discovered eight years ago. D. D. Tryon found it growing up through the top of a large Northern Spy apple tree that had split down with the heavy load of fruit. Whether it is a seedling of the Spy and some other sort, or a sprout from the roots of the old Spy tree, will never be known. The young tree is about six feet from the trunk of the old Spy and is about seven inches in diameter now. Mr. Tryon thinks it is a cross of the Spy and Spitzenburg. The growth of the tree closely resembles that of the Spy, it having that clean, healthy appearance that the Spy always has. The apples are about the average size of the Spy, and in flavor suggest a combination of the Spy and Spitz. The color is a beautiful clear red, the inner colored apple, Mr. Farmer says, that he has ever seen. Saturday last he exhibited a number brought from the cellar of his residence in Palastki, where they have been kept all winter near a furnace. They were beautiful in appearance, strong, firm, and delicious for eating out of the hand. The trees are being propagated, and this Spring there are a limited number for sale. Mr. Farmer has named the new fruit, which gives promise of becoming famous, the New Oswego.

LOOKS LIKE A BUSY SEASON

Work Projected That Will Keep a Large Force Busy.

Commissioner of Works Smith kept busy preparing plans and attending hearings—Council Will Approve Sewer Bill at Hearing Tomorrow Night—Contractor Calkin Busy.

Commissioner of Works John Smith announced today that at tonight's meeting of the Common Council he will present a report stating that if no objection is made to the construction of the proposed general sewers he is ready to proceed with the work of letting the contract and requests that the Board of Local Assessors call a hearing on the subject.

No objection is expected at the sewer hearing tomorrow night, and city officials anticipate a unanimous approval of the plan. The proposed Westside sewer will run from Erie and Singleton streets to the lake in a southerly direction to the sewage disposal plant. The East side sewer will run from the Lake up Eleventh to Cayuga thence to Tenth and up Tenth to Cherry and Church streets.

It was stated at the City Hall this morning that the total cost of the sewers to the taxpayers and city was a matter of conjecture, no computation of the cost having as yet been made. The sewer bill has a provision that the cost to taxpayers be fifty cents per foot.

Commissioner of Works Smith has a large amount of work mapped out for the summer months and with hearings and computing of the assessment for property benefited it may be necessary for additional assistance in several of spots. Plans of the Commissioner call for sewers in West Bridge, West Seneca, East Cayuga, Syracuse streets, Canal and Cochrans streets; a cement sidewalk through the West Park, to the new Normal school, and the new \$40,000 brick pavilion from St. Louis's church to St. Francis Home, work on the main highway near the canal.

At no time in the history of the city has such a large amount of work been projected and the activity in this line will provide work for all who apply during the summer. Contractor Calkin, who is building the sewer pavilion, is employing all who desire work and promises to have this road completed in record time.

Lectures at the High School.

Thursday at the Oswego High school representatives of the State College of Forestry at Syracuse University will give an illustrated lecture. The object is to show the necessity for the preservation of forests. After the lecture, which will take place in the afternoon, the student body will be taken on an expedition through a woodlot near the city.

CANAL WORK NEARING AN END

What Will Become of Employees of Local Office?

Resident Engineer Burden Will be Continued But His Staff May be Transferred to Other Places—No Signs of Any Start in Terminal Work—Laborers Are Anxious.

The Almahar Construction Company which has the contract for the local barge canal work, will complete its job within three weeks, according to General Manager Flaughan today and there is much speculation among the employees of the local residence as to their future.
