MILWAUKEE, WIS., August 8, 1855.

Market very dull on Saturday, and no increase of receipts. For wheat prices remained about the same, old spring, of which there were sales of small lots, bringing $1@1,05, old winter $1.10@1,15, new winter, of which no handsome lots were offered, $1,15@1,25. We do not learn that the heavy rain of Friday did any material damage to the crop, the weather cleared up cool on Saturday. The break at the dam will be repaired, it is thought, so as to let water into the canal by the 15th.— As soon as the mills are running again, there will be some activity in the market.

Corn selling for 60@65c.

Rye, little or nothing doing, nominally 70@75c.

Barley, but little coming in—for a small lot 60c was offered, and 90c asked. The tendency is in favor of holders.

Oats 48@50c.

No change in Potatoes.

Wool—Shipped 12,000 lbs per Lady of the Lake, for Boston.

TOLEDO, August 8, 1855.

THE CROPS.—Spring wheat—where sown late—is not ripe yet, consequently, the heavy and protracted rains of the past two weeks have not damaged it, but on the contrary, allowed the berry to ripen slow and fill out to its utmost extent. Winter wheat, in this immediate vicinity, is mostly destroyed, except some small lots, harvested early before the rains. In Fulton and Williams counties the loss will not be as heavy as in Lucas. Corn will be but a poor crop at best, and in many places almost a total failure, owing to the rains. Oats mostly secured and in good order. Potatoes are reported to be rotting in some localities.

FLOUR—Held at $9, owing to scarcity, worth $9,50 at retail.

WHEAT—No transactions.

CORN—Receipts by canal moderate and mostly going into store as fast as received. Holders unwilling to sell at present low prices. No late sales.

OATS—No change. Sales from wagons 50c, retailing asking 55c.

SALT—$1,63 from dock.

FREIGHTS—Vessels plenty and freights scarce. Grain to Buffalo 2½@3c. To Oswego 5c.

NEW YORK MARKET.

NEW YORK, August 9—P. M.

FLOUR—Demand for flour less active. Market unchanged. Sales 5,500 bbls—$9@9,25 for state; $9,37½@9 for western, including 1000 bbls for export. Several contracts settled at $8. Canadian firm. Sales 500 bbls, $9,37½@10,12½.

WHEAT—Less active, market firm. Sales 12,000 bu at $1,84@1,90 for red southern; $1,85@2,12½ for white do.

RYE—Firm at $1,30.

CORN—In limited supply and better. Sales of 17,000 bu at 86@87½ for western mixed.

SEBASTOPOL
Resists the Fire of the Allies!

BUT what has that to do with West's Galvanic Cement, which is considered by all who have tried it, a very superior article for roofing buildings, repairing old tin roofs, &c, &c. As a permanent and substantial armour against fire and water, it cannot be surpassed. It has many advantages over the pitch roof besides being perfectly tight, in preserving rain water for washing purposes, from the offensive smell communicated to it by pitch. It is also more durable than the thickest tin, which, as every body knows soon rusts and requires repairing every little while. As a roof that will give entire satisfaction, we can confidently recommend it to the public.
