Notice to Contractors.

DEPARTMENT OF WORKS,
Oswego, N. Y., Jan. 10, 1907.

SEALED PROPOSALS will be received by the Department of Works, until 2:00 o'clock P. M., Friday, February first, 1907, for the construction of the following local improvements.

PUBLIC SEWER,

Commencing at the intersection of Murray and Varick streets, and running to the center of Tillman street, and along Tillman street, to the centre of West Fifth street, about 368 feet of 24 inch and 190 feet of 15 inch tile with the necessary manholes, catch basins and connections. All in accordance with plans and specifications on file in the office of the Department of Works.

The Department reserves the right to reject any or all bids.

JOHN SMITH,
Commissioner.

PLANNING TO AID HOSPITAL

Managers Propose to Adopt a Rochester System.

Plan to Form Circles Not Only in This City But in the County—Will Be a Permanent Organization and Should Result in Much Good.

The managers of the Oswego Hospital are busily engaged just now in arranging the details of a new plan to help, not only in raising funds for the present need of the maintenance and building funds, but which is hoped to prove a steady source of income to the Hospital.

It is proposed to establish here a system of organized aid, similar to one that has been of untold value to the General City Hospital of Rochester for many years. Just now the work here will be for the forthcoming fair or bazar to be held by the Hospital trustees at the opening of the new Armory. It is believed, however, that the organization when arranged and perfected will prove so interesting to the various members that it will, as a matter of course, become permanent.

The proposition before the women of Oswego is this: that as many small circles as possible of from twelve to fifteen members be organized; each little circle be named a certain "Twig" belonging to and directed by a "Parent Stem;" the distinctive name for each twig formed to be chosen by its own members; the work to be undertaken by each twig to be suggested by the Parent Stem or Executive Committee.

As a suggestion, we quote names and donations of Rochester Twigs during the year just ended and at the annual "Donation Day" held for the General City Hospital, Rochester, the first Thursday and Friday in December, 1906:

"Twig Table.—Parent Stem, $400; First Twig, $131 69; Second Twig, $808; Third Twig, $400; Fourth Twig, $600; Fifth Twig, $81 05; Sixth Twig, $100; Columbian Twig, $182, Blooming Twig, $55; Laurel Twig, $125; Magnolia Twig, $335; Morning Twig, $205; Cedar Twig, $142 75; Properly Bent Twig, $148 88; Roentgen Twig; $300; First Gratt, $180 33; Splinters, $175 83; Leaves, $12 50; Pine Needles, $50 23. Total, $3,933 23."

A letter from a lady interested in the work in Rochester says: "Last Fall the Superintendent of the City Hospital asked for 4,000 articles for use in the hospital and she received every one, each twig completed its own list and the result was eleven dozen sheets, three dozen crib sheets, eight dozen baby sheets, forty-three dozen pillow cases, ninety-three dozen towels, forty-one dozen napkins, eight dozen adult night gowns, two dozen child's night gowns, five dozen baby dresses, seven dozen baby petticoats, seven dozen baby shirts.

"As this work was divided among the various Twigs, it was done without appreciable effort and the entire amount, large as it seems, was achieved quietly and regularly to the immense benefit of the hospital.

The contracts for our new hospital are now being prepared; as soon as the building is finished the scope of hospital work in Oswego will be materially widened. The present building can not meet the demands of the public. The plans for the future include both obstetrical and children wards, in addition to the private rooms and public wards, consequently the demand here will be correspondingly increased.

It is the sincere desire of the managers that ladies throughout the city voluntarily form themselves into these "Twigs," and to report as organized to the President of the Hospital Board, Mrs. Carrington Macfarlane, Hotel Deep Rock; Mrs. Luther W. Mott, 73 West Schuyler street, or Mrs. John S. Parsons, 56 Montcalm street.

The work of organization should be completed as soon as possible, as it is imperative that a general meeting should be held soon for final arrangements and the perfecting of the plans, not only for the work of the coming bazaar, but also for the opening of the new Hospital and its maintenance.

It has been suggested that the ladies of the towns and villages of Oswego county may be glad to give systematic help to our Hospital in this manner. Word has already been received that a "Twig" has been started in New York city by a lady interested in our local hospital work.

It does not seem necessary for us to call attention, at this time, to the humane and valuable work that has been done by the Oswego Hospital since its inception. The managers are grateful for the untiring and cordial support that the hospital has received during the first quarter century of its existence and now ask for a continuance of kindness so increased that the necessary enlargement of the work may have adequate support.

Cooper's Change in Prices.

H. M. Cooper, 213 East First street, announces the following changes in prices: 10c tapioca package, 5c; 5c A sugar, 2c; 25c coffee, good, 15c.

No Meeting in the First Baptist Church.

Owing to an accident to the boiler in the First Baptist church, by which two sections of it were broken, no services can be held there tomorrow. The congregation will attend services in the other churches in the morning. In the evening the congregation will unite in the union service in the Congregational church.

FAILED TO SELECT NORMAL SITE.

Local Board Want Assistance From Albany.

For Two Hours They Wrestled With Problem, Sentiment Being About Equally Divided Between East and West Sides—Committee's Report Favored Lathrop Property.

For two hours yesterday the Local Board of Managers of the Oswego State Normal and Training school discussed in executive session the question of the location of the site for the proposed new Normal school and then adjourned until January 21st without having reached a decision.

Laurence Clancy was the only absentee and it is understood that the members were almost equally divided as between the Oak Hill and Lathrop properties.

The Building and Grounds Committee, composed of R. A. Downey, C. B. Benson, Laurence Clancy, F. O. Clarke, P. W. Cullinan and T. D. Lewis reported (Messrs. Cullinan and Clancy not joining) favorably on the Lathrop property, providing a piece of land on the North known as the Dudley Miller estate, can be secured, which would take the proposed property through to the lake. With the Miller property and the present botanical gardens and the triangular park of the latter, there would be parcels of land aggregating a trifle over eight acres.

All the various sites that have been heretofore mentioned were again discussed, but the only one that received any particular attention was the site on Oak Hill. Several of the members are in favor of an outlying site, although no particular one is favored by them.

After considerable discussion the report of the Building and Grounds Committee was laid on the table for ten days by unanimous vote. The reasons were to allow, if possible, an official from Albany, either Doctor Dowling or one of his assistants, to come to this city and recommend a site, or at least let the Board know what requirements are favorable to the State Department; and also to go farther into the particular recommendations of the Oak Hill and Lathrop properties.

The attitude of the State Department all along has been to allow the Local Board to select a site without assistance from the capital, but the Board feel that such assistance is necessary under peculiar local conditions. Feeling on the selection of a site has been high during the past two months, since the matter has been up for consideration, and the sooner a decision is reached the better it will be for all concerned.

Judge Stowell said today that up to the time the Oak Hill site was suggested he favored the Lathrop property. Now, however, he feels that the Eighth ward property is preferable, provided the Sisters of St. Joseph relinquish their claim to Highland Park. Without this the site would be about as large as the Lathrop property, but he does not think that it would be advisable to have a school and hospital so close together. It was stated at the meeting yesterday that the Sisters would probably be willing to give up the park.

Another member of the Board said today that while no vote was taken, the line-up of the members was five for the Lathrop site, four for the Oak Hill property and two for the Boulevard site. Mr. Clancy, who was not at the meeting, and Mr. Cullinan favor this latter location, it is understood. This same member expressed the opinion that Commissioner of Education Draper would not interfere in the selection of a site, but would leave it all to the Board.

THE NEW POWER-HOUSE.

Citizens' Lighting Company Starts in on Skenandoah Mill Site.

A gang of workmen were engaged yesterday clearing away debris on the old Skenandoah mill site that work may be started without further delay on the foundation walls of the proposed new power station of the Citizens' Lighting Company. Some years ago the street railway company, under the direction of F. E. Sidman, started to rebuild the foundation, but the work was abandoned. That will count for much in favor of the new company.

A large amount of machinery has arrived for the temporary power-house in East First street, and men are at work getting ready to install it. By the middle of February, it is expected, the company will be ready to begin serving their patrons.

RECESS TAKEN UNTIL MONDAY.

Justice Scripture Will be Here at One O'clock.

The Trial Term of Supreme Court adjourned yesterday afternoon until one o'clock Monday afternoon.

The case of Ella M. Shand, etc., against the Hudson Valley Railroad Company was put over until Tuesday for the convenience of the attorneys so that the empaneling of a jury for the case of Michael Dunn against the city of Fulton, the next case on the day calendar, will probably come up the first thing Monday.

Just before court adjourned yesterday afternoon Justice Davenport heard evidence in the divorce action of Henry Heilig against Emma Heilig. They were married in Rochester in 1898 and separated in 1902. The court took the papers and requested F. E. Cullen, attorney for the plaintiff, to file the findings of facts with him. The defendant was not present.
