Everything connected with Butter

—churns, patters, tubs, firkins—ought to be washed with **Pearline**. That gets at the soaked-in grease as nothing else in the world can. Things may seem to be clean when you've washed them in the usual way; but use **Pearline**, and they really are clean. It might make all the difference, sometimes, between good butter and bad. Wherever you want thorough cleanliness, or want to save your labor, the best thing to do is to use **Pearline**.

Send it Back Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—*send it back.* 302 JAMES PYLE, New York.

YANKEE APPLES FOR THE WORLD

Exports Thus Far This Season Have Been Over 1,160,000 Barrels.

NEW YORK, Jan. 2.—Choice Baldwin and greening apples for shipment are selling at from $2.75 to $3 a barrel. The weekly exports have ranged from 18,000 to 20,000 barrels.

The total exports thus far this season are over 1,160,000 barrels, against little more than 100,000 barrels up to the corresponding date of last year, when the transatlantic crops were abundant, instead of being scant, as is the case this year.

In 1891, which was the "banner year" in the apple trade, 1,450,336 barrels were exported, and it is expected that this great quantity will be equalled before this season's shipments have ceased.

CATARRH IN CHILDREN

For over two years my little girl's life was made miserable by a case of Catarrh. The discharge from the nose was large, constant and very offensive. Her eyes became inflamed, the lids swollen and very painful. After trying various remedies, I gave her S.S.S. The first bottle seemed to aggravate the disease, but the symptoms soon abated, and in a short time she was cured.
