General Rosecrans, register of the treasury, in his annual report presents a good many interesting facts. For instance, he shows the amount of money the government has received from its foundation to the present time, and the amount it has expended. The figures are as follows: Grand total receipts from March 4, 1789, to June 30, 1885, $21,649,305,641.28; grand total expenditures from March 4, 1789, to June 30, 1885, $21,128,011,615.01; balance in treasury June 30, 1885, $521,794,026.26.

A large number of coasting vessels were driven ashore by Saturday's gale. The schooner Mary G. Fay, from Baltimore for Providence was driven ashore and burned. The high wind and driving snow made life saving almost an impossibility. Twice the boom of a signal gun ran across the water and a saving rope was sent toward the vessel but in vain. The crew of the burning vessel launched a boat, but in a moment it went to pieces and its occupants were drowned. The schooner Millie Trim, Capt. Olsen, from South Amboy for Rockland, Me., with a cargo of coal, went ashore on Calf Island Saturday morning. All hands were drowned except the captain.

Jacob Henry, a well known and much respected elderly Hebrew of Schenectady, has just committed suicide by shooting.

Mrs. Delia T. Parnell is again ill in New York with rheumatic fever and palpitation of the heart, and visitors are not permitted to see her.

Fall creek, flowing through the northern part of Ithaca, gorged with ice yesterday, overflowing a large portion of the surrounding territory to a depth of several feet, filling cellars.

Douglas Hill, an assistant foreman in the Monroe county penitentiary, was found frozen to death in the suburbs of Rochester Sunday morning by a milkman. He was last seen alive late Saturday evening, and it is supposed that he lost his way.

All of the Lyon shippers of poultry to New York and other cities, this season, have lost heavily on their ventures. Thus far this season about fourteen tons of poultry have been shipped away, and it has been ascertained that the aggregate amount of the losses to the shippers the shippers there has been nearly $1,200.

The wife and family of Abram White of Perry, Wyoming county, were overjoyed to welcome him last night after a mysterious absence of two years, during which he had been mourned as dead. He had been placed in the insane asylum at Buffalo, but escaped and made his way to New York. There he shipped on board a vessel and since that time has visited India, Africa, Spain, Italy and England. He returns home completely restored to health and reason.

Foreign.

Princess Christian is slowly recovering from her prostration. It is now admitted that her illness is melancholia.

The Greek government has made overtures to the government of Montenegro looking to a formation of an alliance both offensive and defensive against the Porte.

It is stated that several Scotch and Irish peers both conservative and Liberal will support the motion of the earl of Kilmorey in favor of the abolition of the office of lord lieutenant of Ireland.

The St. Lawrence river has risen three feet at Montreal since yesterday and the streets in low lying districts are covered with eighteen inches of water. An ice blockade at Boucherville, nine miles below here, is the cause of the trouble.

The Duke of Edinburg will assume command of the Mediterranean fleet in February. The Duchess of Edinburg will transfer her home to Malta, and will there set up a mimic court and make her residence on the island as brilliant socially as her royal position can make it.

Alarming reports were current yesterday concerning the condition of the emperor William, who was said to be seriously ill. The rumors probably had their origin in the fact that the emperor was suffering from an unusually severe attack of rheumatism and also from a cold.

The lakes in Regent's park London have been crowded by skaters during the recent freeze. Yesterday there was an unusual number of persons on the ice and the throng was so great on one of the ponds as to break the ice, and at least a hundred women and children were given a very cold immersion. There was intense excitement, but the water was shallow and beyond the discomforts of a cold bath nothing serious happened, no one being drowned.

Railroad Matters.

Franklyn B. Gowen was to-day elected president of the Philadelphia & Reading railroad.

The Baltimore & Ohio and the Pennsylvania roads have inaugurated a war in through western passenger rates out of New York.

Mr. Thomas L. Hanna has been appointed general western freight agent of the Erie with headquarters at New York. He succeeds Mr. A. H. Ward, resigned.

It is learned that the man chosen at Friday's meeting of the trunk line managers to act as arbitrator for the pool is Hugh H. Rydell, ex-vice president of the Rock Island road.

The Springville & Pardinia railroad was sold at auction at Buffalo this morning by referee George Graham, to R. B. Book and S. O. Barnum, of that city, a committee of first mortgage bondholders for $8,000.

The Oregon railway and navigation company's large hotel and depot at Wallula Junction, Oregon, was burned Sunday morning. The loss is $48,000. The fire caught in the laundry, it is supposed, from a defective flue.

The Western Maryland railroad, in the sweep of the Blue Ridge mountains, between Mechanicstown and Penmar, is blocked by snow to a depth of fifteen feet. Four passenger trains and several loaded freight trains are unable to move, and fourteen engines are working to get them out.

E. L. Engel of Cincinnati, for several years past connected with the leading lines of the west as engineer in charge of construction, has been called to the construction department of the Chicago, Burlington & Northern, an extension of the Chicago, Burlington & Quincy.

The Knights of Labor, assembly district 104, met in their first annual session at St Louis to-day. About 150 delegates are in the city representing 200,000 workingmen, most of whom are employed on the South west Gould railroad system, the proceedings are secret. There is no doubt however that the eight hour system is the most important business to be discussed.

The Baltimore & Ohio railroad company this morning opened sale of tickets to western points at the following through rates: Chicago $15, Cincinnati $13, St. Louis $18, a cut of $5 to each from the standard tariffs. As the result of the cut Baltimore & Ohio offices in New York did rushing business from the moment the doors were opened.

The Rome, Watertown & Ogdensburg railroad company has obtained an injunction restraining James E. Smith, Dexter A. Leggett and Carroll Phippany from interfering with, levying upon or selling any portion of the real or personal property of the railroad company in the towns of Kendall, Gouverneur or Yates by virtue of any warrant issued by them as collectors of taxes of these towns under an assessment made for the year 1885.

Chicago Times: "The Lake Shore is going in for its share of the Baltimore business, having taken a large lot of grain—one hundred cars or more—one day this week. The stuff is turned over to the Philadelphia & Erie at Erie, Pa., and thence on to Baltimore. Would it be impertinent to ask if the latter road gets its full proportion—of course, there is no question about the Lake Shore—and, if so, how this route can compete with the other lines, if the latter have been cutting as charged."

The New York, Ontario, & Western railway company has completed an arrangement with the new West Shore company and its reorganization committee and the New York Central, as lessee of the West Shore railroad, which avoids all litigation as to the interests of the parties in the West Shore road, secures to the Ontario company an entrance into New York for 200 years, and relieves it of the load it incurred in connection with the terminal property that one time threatened to ruin it.

A Pittsburg despatch says the snow blockade on the railroads is almost unprecedented, and all trains are from one to fifteen hours late. In many instances trains have been abandoned and on several smaller roads traffic has been entirely suspended. On the main line of the Pennsylvania railroad the trains are from seven to fifteen hours late. On the Wheeling branch of the Baltimore & Ohio road, the Cincinnati express, which started from there last night, returned this morning, having been snow-bound near that city. The West Pennsylvania and Castle Shannon roads have virtually suspended operations. The Pittsburg & Western and Pann Handle roads are still suffering greatly.

Sporting.

All of the $5,000 stake money is now posted for the balk-line billiard championship of the world between Schaefer and Vigneaux. The contest will be 3,000 points and will last five nights, 600 points being played each night. It will take place in New York.

A cock fight for $10,000 between Boston and New York birds took place on Staten Island Saturday. The main was fought in an old church near Stapleton landing and it took 11 battles to decide it. The referee was in doubt about giving his decision; when one of the owners of the New York birds said he had been fairly beaten and the main was awarded to Boston, the battle standing six to five. Nearly $20,000 changed hands on the result.

The Elmira walking match broke up Saturday night in a row. At the time for the closing of the race Herty and Fitzgerald had some words and pitched into each other. Two officers separated them, but made no arrests. The race has been an acknowledged "hippodrome," and the men made about as much time asleep as on the track, trying to make a little money out of evening exhibitions. The closing score is as follows: Herty, 275 miles; Hegleman, 272.

Joe Coborne has matched Paddy Ryan to fight John L. Sullivan in a room, five spectators a side, for $5,000 a side. The articles have not been signed in consequence of the death of Paddy's mother in Troy Saturday evening. Paddy was in McGrai's saloon on Green Island, when a messenger announced that she was rapidly sinking. He hurried to her bedside, and as he took her by the hand, with a look of recognition she fell back as if she had fallen asleep and was dead. Mrs. Ryan was born in Ireland, and was nearly 80 years of age. For thirty years she has resided in West Troy. She has suffered for a long time from the weakness and diseases of old age, and, as Paddy expressed it, "death has ended her sufferings and pain."

Bishops Opposed to Cremation.

Buffalo, Jan. 9.—There is a general crusade among the clergy against cremation. Bishop Coxe, of the Episcopal church, in an interview yesterday said: "That is a nasty question: none but cranks will patronise the horrible practice. No respectable person will consent to be cremated." He does not positively forbid his clergy to officiate. Roman Catholic Bishop Ryan said: "It is a pagan custom. We bless our cemeteries and bury the dead respectfully and sacredly." He said that no priest could officiate at a crematory funeral. Only three ministers in the city favor cremation so far as known.

"An Ogdensburg Man.

Jersey City, Jan. 9.—The chief of police this morning received a letter from the authorities of Ogdensburg, N. Y., which removes the mystery surrounding the suicide of Daniel H. Hunt, who shot himself in a gunstore here Dec. 25. Several months ago Hunt got in trouble with a young woman in Ogdensburg, and to save himself from state prison married her. After marriage he deserted her.

AT HYMEN'S SHRINE.

The Marriage of a Young Lady Well Known in this City and Vicinity.

Binghamton Leader: Miss Tilly Fournier, the estimable sister of the Rev. Father Fournier, formerly the popular pastor at Deposit, later of Chatham, Columbia county, and at present the esteemed pastor of St. Mary's church at Oswego, is well known in this city and vicinity. Her many friends will be interested to learn that on Tuesday last, the 5th instant, she was led a fair bride to hymen's holy shrine. Prof. T. McKenna, a well known and efficient music teacher of Hudson, this state, was the fortunate groom. The ceremony was performed at her home at Morristown, N. Y., by the Rev. Father Fournier, assisted by the Rev. Father Conroy, of Ogdensburg Cathedral. A number of clergymen and intimate friends of the family witnessed the performance of the ceremony which firmly tied the indissoluble hymeneal knot.

Miss Lizzie Cummings of Elmira, also well known in this city, acted as bridesmaid and Mr. A. Fournier, brother of the bride, as groomsman. The happy couple were the recipients of many present of a valuable, ornamental and useful nature, fitting testimonials of the esteem in which they were held. The Wrong Man's Picture.

The Syracuse Sunday Times yesterday published a portrait of Hon. C. N. Bulger, recorder of this city, in connection with certain correspondence from Oswego, in which Dr. W. J. Bulger is charged with serious offences. The picture has printed under it the name of "Dr. W. J. Bulger." The portrait is unmistakably that of the recorder, who is justly indignant at the act. How the mistake occurred is not known, but the probability is that the Syracuse people sent for a photograph of Dr. Bulger, and one of the recorder's was sent instead.

Improving the County Clerk's Office.

SAVED HIS WIFE

An Illinois Dentist Shows Two Physicians Who Persist in Having Her Die.

Chicago, Jan. 10.—Five weeks ago the wife Charles P. Pruin, a dentist of Oak Park gave birth to a child. This was followed by an attack of mania. As his wife grew worse rapidly Pruin consulted a city physician, and he recommended the use of anaesthetics to quiet her nerves. An Oak Park physician was called in and he also adopted the same course of treatment, administering strong doses of morphine. The lady was found to be rapidly sinking till on Sunday night she fell back apparently lifeless. The physician made the usual examination and pronounced her dead.

The husband was frantic and rushing to the bedside of his wife put his ear to her heart. He declared he could detect a faint throb. The physician again assured him that life was extinct, but to satisfy Pruin he called in another doctor. He to made an examination and confirmed the report of his brother physician that the patient was dead.

Still the husband would not be convinced. He placed his hand upon her chest and tried to produce artificial respiration. He proceeded to work the arm back and forth, pressing his hand on the chest, thus producing an artificial movement. The doctors protested, but Pruin continued his efforts and after a lapse of some minutes the patient began to revive. She has steadily improved and is now able to move around. The doctors confess that she would certainly have died but for these extraordinary efforts at restoration.

FLOOD IN MONTREAL.

The St. Lawrence Rising Rapidly—Cellars Filled and Other Damage Done.

Montreal, Jan. 11.—The river has risen two feet since midnight, flooding all cellars on St. Paul street and causing great damage to wholesale houses. The thermometer is ten below zero and the water freezes as it floods the streets. In Griffintown, which is the poorest quarter of the city, great misery exists. The water is rapidly rising in the cellars, and in many cases burying the poor people's supplies of fuel and provisions.

Horses and cattle had to be turned into the streets. The ice bridge which had formed in front of the city yesterday shoved out and across the south side over the banks, carrying all before it, and levelling to the ground fences, trees and telegraph poles. Between Lambert and Longueille it carried away many barns and the lumber company on William street lost a number of horses which were frozen in the water.

STRAWBERRIES DAILY.

WHY THE KING OF ITALY ECONOMIZED.

The Czar's New Scheme—The Powers to Greece, Servia and Bulgaria—Germany's Spirit Monopoly Bill—Other Matters.

London, Jan. 10.—A correspondent at Rome says King Humbert was recently taken with an economical fit, having become alarmed at the enormous expenses of the royal household. Evidences of the most extravagant luxury were found on all sides. The king was particularly shocked at discovering that Queen Margherita insisted on having a heaping plate of strawberries every day in the year. As the fruit can only be obtained in winter at an exorbitant cost, the king stormed at the queen and she retorted by charging him with many needless acts of extravagance.

At length the queen offered to compromise by taking strawberries two days only in each week if the king would order his cast off clothing to be sold hereafter instead of becoming the perquisites of his lackeys. The king agreed to this. The queen put herself on short commons as to strawberries and the lackeys are deprived of a considerable portion of their income. King Humbert also ordered that not more than seven francs per bottle shall hereafter be paid for champagne, which is the usual drink at the royal table.

The traffic will be controlled by a monopoly ministry, which will appoint agents to do wholesale vending of the refined spirits, the federal states appointing retailers. Restaurateurs etc., by special favor will be allowed to sell spirits obtained from monopoly without regard to prices exacted by the state retailers.

LEW WALLACE INTERVIEWED.

He Claims That Halleck was Willing to Lose Washington to Ruin Grant.

Cincinnati, Jan. 11. In an interview with Gen. Lew Wallace in the Commercial Gazette yesterday the general uses this language:

Gen. Grant in his report of 1865 says emphatically that the battle of Monocacy saved Washington. I have no hesitancy in saying that it saved the capital, contrary to the wishes of Halleck. I am convinced that at that time out of jealousy of Grant, Halleck was willing to betray his country and allow Washington to be captured knowing that such a thing would destroy Grant.

Burial Permits Sold.

Newark, N. J., Jan. 11.—For years the life of the land owning residents of Newton, L. I., has been growing more and more burdensome by reason of excessive taxation which has been steadily increasing. It has now reached the rate of nearly $5.00 a hundred. It is claimed it is due almost entirely to the growth and expansion of a dozen or more cemeteries which the town contains. Acres upon acres have been absorbed by these corporations which are exempt from taxation until they now occupy one-fifth of the entire township.

The authorities put in practice a rule adopted by the health board that on and after January 10th no body of any person dying outside of the limits of Newton should be interred in any cemetery within the town without a burial permit from the local health board, and for which the payment of $1 was to be made by the undertaker in charge. Constables and sheriffs were placed at all cemetery entrances early yesterday morning. It was intended at first to compel undertakers to go to the village for permits, but to facilitate matters they were made obtainable at the office at the cemetery. Nearly $20) was accordingly paid in under protest yesterday.

The Walkers.

Buffalo, Jan. 11.—At two o'clock the Weston-O'Leary score at the Main street rink was: O'Leary, 1,356 miles and 2 laps; Weston, 1,354 miles. O'Leary has gained one mile to-day and is in good condition. Weston is lame, but improving.

LOCAL PEDS.

A Fifty Hour Race to Take Place at the Casino, Open to Residents of This County.

A fifty hour race, open only to the residents of Oswego county will begin in the Casino rink on Thursday evening of this week. Manager Frisbie on the occasion of his recent visit to New York, conferred with Mr. Richard K. Fox of the Police Gazette, in regard to an honest seventy five hour contest at his rink between well known pedestrians. He offered to deposit $300 to be divided among the winners, if he could be satisfied that the men would do their best. Mr. Fox informed him frankly that he did not believe such a race could be arranged. He had lost all faith in the honesty of professional pedestrians, and declared he had done with them. Mr. Frisbie then decided to arrange a fifty hour race between residents of this county for a guaranteed purse. Carter, Cole, Fitzgerald, Frisbie and several others are expected to enter.

COUNTY TOWNS.

New Haven.

Demster, Jan. 11.—This makes the fifth rough day since the cold began in earnest. The mercury fell to zero on Thursday for the first. Friday morning it was 6 degrees below and Saturday 3 below. Yesterday the thermometer indicated zero a part of the time. The two last days were very blustering. Snow fell 4 inches on the 6th, but not much since. The snow plow went through east this morning a little after five o'clock for the first, and the first passenger train on time. Last winter two trains were stalled in Richland on the 18th of Dec. On the 19th the mercury was 11 degrees below zero, and on the 20th, 20 degrees below. That was the coldest during the winter.

Granby.

Oswego Falls, Jan. 10.—Our collector, Wm. H. Summerville, sat at Dexter Bros.' store yesterday for the receiving of taxes. Only about $200 was paid in, however.

Mr. Howe has made several alterations in his store since the removal of the post office.

Rev. Mr. Olmstead writes his sermons now with a new gold pen presented by his Sunday school class.

The village board meets to-morrow night to take action on the Water Works question.

Oswego Falls has three bakeries conducted by Englishmen.

Our new jeweler, Mr. Hoyt, is doing a good business.

Volney.

Fulton, Jan. 11.—G. D. Parker of Pittsfield, Mass., is a guest of Oscar F. Parker, Oswego Falls.

The Baptist clergyman from Phoenix, who united captain Fisher and McKinney of the Salvation army in marriage last week, was named Hanscomb instead of Branscome, as THE PALLADIUM had it, and the correction is made by request. The marriage fee he returned to the bride as a present.

Sixty children, thirty boys and thirty girls, received their first communion at the Catholic church yesterday. The girls were all dressed in white and made a fine appearance.

Fresh Fashion Fancies.

From the New York Sun.

Fur is worn on everything.

This is emphatically a velvet season.

Even morning wrappers are trimmed with fur.

Cuffs as well as linen collars are again fashionable.

Small plush wraps will be worn again in the spring.

Corsages will be shirred on the shoulders in the spring.

Round waists and belts a la Josephine are by no means out of fashion.

Feathers and lace fans are the prettiest for ball-room and opera use.

Plain black silk, faille and gros grain, is again in favor for the entire suits.

A novel fancy in men's wear is velvet bindings on dressy day suits.

Ball dresses are loaded with flowers, natural and artificial, this season.

The catogan coiffure is in high favor in Paris, but not in New York as yet.

Old fashioned round boas very long and large, are coming in vogue again.

Men's shoes, to be fashionable, must be pointed at the toe and low in the heel.

China gauze broche with small figures comes among other ball-dress novelty fabrics.

Imitation straw hats, made of braids of plaited felt, are among late millinery novelties.

STOCKS AND MONEY.

NEW YORK, Jan. 11.—The stock market during the first hour was active, feverish and irregular. Opening prices showed decided losses ranging from ¼ to ⅞ per cent, and in the early dealings with considerable activity. Further declines of ⅛ to ⅛ per cent followed. Lake Shore leading. Towards 11 o'clock there was a rally of small fractions generally, but the real stocks recovered their early losses and something in addition. Lake Shore was the most active stock although there was a good business in Erie, Western Union, St. Paul and New York Central. At 11 o'clock the market was firm and moderately active.
