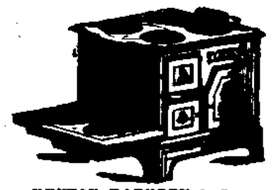
CITY HARDWARE STORE.

STOVE DEPOT.



KENYON, RATHBUN & Co.

TELEGRAPH BLOCK, nearly opposite Luther Wright's Bank, WEST OSWEGO, offer for sale the largest and best assortment of

STOVES

ever offered in this market, and would invite those in want to call examine, and price their Stoves, before purchasing elsewhere. Among the numerous styles of COOKING STOVES, will be found the newly invented

STAR AND SUN,

Stoves combining all the new and useful improvements in cooking, baking and economy of fuel. The subscribers have no hesitation in recommending them as the best Stoves in existence. They are much heavier than ordinary Cooking Stoves, the castings being double the usual thickness, by which means they are rendered more durable, and are less liable to crack. Also the

"ANNEXATION"

and "CALIFORNIA AIR-TIGHT," the "IRONSIDES," "GREEN MOUNTAIN ROTARY," the "EMPIRE STATE," the "WOODLAND AIR-TIGHT," and "J. C. HERMANCE'S DESPATCH," and Premium of all styles and descriptions. Also a very large and splendid assortment of PARLOR, SIX PLATE and BOX STOVES, of the newest patterns, and latest style, for wood or coal, which will be sold at exceedingly low prices.

Old Stoves, old Iron, Brass, Copper and Rags, received in exchange for Stoves and other goods.

Also a large Fall and Winter stock of Hardware, Cutlery and Shelf Goods; Bar, Band and Sheet-Iron Steel, Nail-Rods, Horse Shoes, Wrought and Cut Nails and Spikes, Anvils, Vices, Tin and Japanned Ware, Sheet and Bar Copper, Zinc and Lead, Lead Pipe, Solder, together with Brass Brews, Narrow, Broad and Hand s f Gatchels, Hammers, &c., &c.

KENYON RATHBUN & CO.

Oswego, October 27, 1851

BRUSH and MOULDING PLANES one of the largest stocks ever brought into this city now opening 4w9

MOTT'S Patent Agricultural Furnace AND

DAIRY STOVE.

THE Subscriber would call the attention of farmers and others to the important improvement of this Furnace for Dairy and other purposes. The construction of this furnace is such that the fire passes completely around the cylinder and in the entire top of the same, the space being two or three inches between the castings and the kettle; this causes the water to boil very suddenly, with a small amount of fuel. When used for heating milk with a tin tub in the caldron, there is no danger of scorching the milk, and cheese made in this way will fetch much higher prices in market. Dairymen who have used this Stove give it the preference to any other in use. Also the

Dairy Maid Stove.

This stove has been used to good satisfaction for the last two years, and can be used for good advantage for all boiling and culinary purposes, heating flat-irons, &c.—Removing the boiler it makes a neat heating stove.

Oswego, may 25-tf W. H. WHEELER.

TO THE AGED,

YOUR SIGHT MAY BE RESTORED.

THE Subscribers present to your notice an invention of a simple character, by the use of which the sight may be preserved through life without the use of glasses, or if may be restored after glasses have been worn many years.

This wonderful effect is produced by an instrument philosophically constructed, by which the cornea of the eye is gradually raised to its original convexity, causing the focus to impinge on the retina, without the aid of convex lenses.

That no danger need be feared from the use of these instruments, we have permission to give the following as references:—J. Cockcroft, M. D., 58 Fourth street; A. S. Ball, M. D., 126 Bleecker street; R. F. Bowers, M. D., 194 Bleecker street; R. F. Trall, M. D., 15 Laight street; to which we add an extract from an article in the Water Cure Journal for October, 1851, R. F. Trall says: After testing the Cups for months, he says: "They are well calculated for that condition of the eye—too great flatness of the globe—which is a frequent cause of imperfect vision, and for chronic weakness of the eye from deficient circulation."

J. BALL & Co., 307 Broadway, N. Y.

The above may be found for sale at the office of Dr. CONDICE, Seneca street, West Oswego.

DEWEES'

CANKER & SALT RHEUM

SYRUP

WARRANTED A PERFECT CURE FOR

Salt Rheum, Erysipelas, Canker, Scrofulous and all other Humors of the Blood.

WHAT IT HAS DONE

WONDERFUL CURE

of Mrs. Giles Turner of Montville who has been afflicted with the Erysipelas for the last twenty years; and three times within the last five years has been entirely blind from the effects of this dreadful malady!!

☞ *Cure effected by* DR. WEAVER'S SYRUP, *after all other tried Medicines had failed!*

READ THE CERTIFICATE.

Montville, March 6, 1851.

Messrs. S. A. Weaver & Co.—Gentlemen: In relation to my wife, I would say that from childhood she has been afflicted with a humor. About twenty years since it appeared in a very distressing form of Erysipelas, at first in a spot of bright cherry color, on the side of the face, soon succeeded with a painful sensation, similar to that produced by fire. From this point it spread over the whole face, which became so swollen that for several days she was entirely BLIND, and so disfigured that her most intimate acquaintances did not recognize her. She has been in this situation three times in the last five years. Its effects some times appeared in small cracks in the skin, commencing back of the ears, thence extending over the side of the head. So sore and painful were they that at night it was impossible for her to allow them to touch the pillow. The discharge from these sores was so profuse that it frequently wet through the dressings and run down the sides of the neck, and so acrid was it, that when it came in contact with the skin, the effect was the same as that of boiling water.

After any gentle exercise, especially in warm weather, parts of her body became covered with spots of a dark red or purple color, and were very painful and tender; in a short time these spots would be covered with milk blisters, which broke and discharged, then dried up, forming a scab which in a few days would come off, leaving an angry and painful sore, bleeding much like a burn. She would be a long time healing up—frequently months. At one time it appeared on the feet and ankles, running much the same course as it had on the other parts of her body, except that in this instance it was aggravated by swelling. These sores, moreover, seemed the character of bed sores, and so inflamed, that for months she was unable to move either of her last three children. Often she has been to such distress from the constant pain for weeks and has been able to obtain but little sleep or rest, and has often said that her sufferings was so great she could not describe it.

At the time she commenced using DEWEES CANKER AND SALT RHEUM SYRUP, she had a running sore on her right cheek, which had been there more than a year, healing up at times, perhaps in one place, but always breaking out in another. To the sore she applied many remedies and various kinds of medicines for removing the disease from the system, some of which produced the least apparent benefit. She took the syrup a few days and then commenced applying the Canker to the sores, and of course said she had never found anything so soothing as this was. I have frequently known her to get up several times in the course of the night to apply the Canker to her feet, in order to obtain sleep. In about three weeks after using the medicine, the sores began to heal, and before she had finished the second bottle they were entirely well. She has now taken four bottles, and is to all appearance perfectly cured, and is in better health than has been known by her friends for twenty years. The medicine has effected in her case the most wonderful cure ever known in our section or country, and I strongly recommend all afflicted to give it a trial.

Any one desiring further information in relation to the facts or particulars of the case, it will afford me great pleasure to give any information. If they will call at my residence in Montville; or they can make inquiries of many of my acquaintances in New London and vicinity, who are conversant with them.

GILES TURNER.

New London, March 21, '51.

Dr. S. A. Weaver—Dear Sir—It gives me pleasure to say that the above will be considered by all who are acquainted with Mr. & Mrs. Turner, as a simple statement of facts, given with the knowledge of all the circumstances of the case.

J. S. SWAN,
Pastor of Huntington-st. Baptist Church.

DR. T. V. PARKER,

CANCER DOCTOR,

n the Indian Plan.

TAKES this method to inform the public that he can be found at his ordinary corner of State and Hosdick Streets, Lansingburgh. He designs to give his undivided attention to the ra- lasses palliate who may repose confidence in his skill and Indian mode of practice, for the healing and removal of all maladies not incurable, by the introduction and application of proper medicine.

The time has come when Cancers can be cured without the use of the knife, by first cleansing and purifying s by applying a plaster, we will extract the Cancer in less than ten hours, without creating much pain, and the loss of but little blood; and $5,000 reward is offered to any one who will make a more effectual cure.

Dr Parker professes to arrest, and in many instances subdue, (if applied in due season,) the influence and effects generally produced by the following diseases, not unfrequent in our country, viz: Coughs, Colds' Bronchitis, Consumption, Asthma, Rheumatism, Fever and Ague, Pulmonary affections of every kind, Worms, Diarrhœa, Cholera Morbus, Summer complaints, Dyspepsia, Debility of the Stomach and Bowell and organs of Digestion, Seminal weakness of both sexes, &c.

WHERE'S HOUSE.—Dr. I. G. Fraser, or Dr. N. B. Parsons, may be found at White's Central Hotel, Utica, N. Y., on the third Monday and Tuesday of each month, and on the following Wednesday and Thursday at Brintnall's Hotel, Syracuse, N. Y.; and on the following Friday and Saturday at the Oswego City Hotel OSWEGO, N. Y. The remaining portion of the time, one or both may be found at the infirmary, corner of State and Hosdick streets, Lansingburgh, N. Y. Advice gratis.

The following are copies (essentially) of certificates now in the possession of Dr. I. G. Fraser, to wit:

Whereas, It has been said, that I attribute the recovery from my late sickness to the use of Dr. Ramsdale labeling take alone, and not to any medical treatment. This is therefore to make it do on the fact that I have never so stated, and that on the treatment I make use of medicines myself, and only use the tube as an accompaniment. The use of the tube as directed by the regular practice with their mode of treatment will in 20 cases out of 100 fail. I put myself under the care of Dr. Fraser in September 1851, after I had been given over by the most eminent Colleges and Botanic Physicians, and under his care and the use of the tube, I recovered my health. Had I been under the care of our regular physicians, I do not believe I should have recovered.

I hereby certify that my disease was pronounced by all the physicians who visited me during my sickness of two years, to be consumption, and that I last stage—attended with copious expectoration pain, [illegible] cough, night sweats, [illegible] fever, and copious hemorrhage for 28 days [illegible] and diarrhœa. Copy. L. WL.

Dr. Ira G. Fraser—Dear Sir,—I have been acquainted with Miss Sybil Barlow, of [illegible] Mass., on whom you cured a cancer, on the breast of many years standing and growth. I saw the cure a short time previous to your first Administering for it, but knew it to be incurable by any of the commonly received methods of cure; indeed it was the opinion of all who knew the case, that it would be fatal to her. She was given up over two hours by consultation of Physicians, and I did not believe it was possible it could ever be cured. I consider it the greatest cure of the kind I have ever known, or ever read of, and I do not consider your method of cure the best and only natural method which has come to my knowledge. You are at perfect liberty to refer to me for any information respecting the case. Most respectfully, your friend, &c.

SAMUEL S. BARLOW, M. D.,
341 Bowery, N. Y.

REMARKABLE CURE OF CANCER.—Leroy, N. Y., June 14, 1852.—In justice to Dr. Ira G. Fraser, and for the benefit of the afflicted, I make the following statement of facts:—I have been afflicted for more than thirteen years in my left breast; it was exceedingly painful, and pained me very low and brought me nearly to the grave. Last November I providentially heard of Doctor Ira G. Fraser, the celebrated Cancer Doctor of Troy. I was induced to go to Rochester, to the Clinton Hotel, which he visits once a month. There I learnt that I had a Cancer in my breast. I consulted him, and he told me I could be cured in three months. I went to Rochester the first Tuesday in March, and on Wednesday Dr. I. G. Fraser carefully and skillfully removed my Cancer, weighing two pounds. The third day after the operation I returned home to Leroy, twenty-five miles. In seven weeks my breast was healed. It is now three months since it was removed, and I am in a very good state of health. I can with the utmost confidence recommend Dr. I. G. Fraser to all who are afflicted with Cancer, as being successful in treating the disease and very skilled in his operations.

MRS. ESTEY BASCOMBE, aged 52 years.

April 8, 1852.—This is to certify that I have been afflicted with a Cancer for a number of years, but hearing of the celebrated Cancer Doctor who doctors on the Indian plan, I was induced to give him a trial. He extracted the said Cancer in less than six hours, without the aid of a knife or much pain. My health was poor for three or four months previous to his taking it out I am now cured and enjoy good health; and would recommend him as the best person to use any other physician in both skill and ability; and I would add that I had my cancer cut out previous to Dr. Fraser's extracting it, and that it grew more in six months after than it had for six years previous—my health growing poor very fast until I received assistance from Dr. Fraser.

A copy. GEORGE KING.

Is upwards of eighty years of age and resides in Gansbaker, Washington Co., N. Y.

Salem, Washington Co., N. Y., April 6, 1852.—This is to certify that I was afflicted with a Cancer; but hearing of the celebrated Cancer Doctor who doctors on the Indian plan, I was induced to give him a trial. I had applied to several physicians but received no help, and it grew larger and more painful, spreading over my face. I had taken but three bottles of Dr. Fraser's Canker Syrup, and but one box of Dr. Fraser's Pills, and my cancer being as large as a hen's egg. I recommend him to the public in preference to any other physician. Eighty years old last January. WILLIAM SCOTT

Sandgateon, Vt., May 20, 1851.—This is to certify that I had three cancers upon my person, some of which had been of several years. I heard of Dr. Ira G. Fraser of Troy, and was induced to employ him to cure my cancers. I had taken of his medicine about four weeks, when one of the cancers on my neck, as large as a chestnut, fell out without the use of even a knife, plaster, or any other outward application. HARRIS B. EGERTON.

Sandgate, March 6, 1852.—This is to certify that I had a Wen of long standing on my neck, to which Dr. Ira G. Fraser applied his plaster, and subsequently opened it, and took out the core, and with the following salve and the use of but little blood, it now appears to be perfectly cured. BEN B. LARKIN.

Troy, March 26, 1852.—This is to certify that my daughter has been afflicted with the Erysipelas for four years; and to remedy said evil, I called into consultation the skill of our most celebrated physicians but without success, inasmuch as the true source of her disease could not be understood by them, but my daughter had but one ill after Dr. Fraser commenced with her, and in less than forty hours she was restored to sight and health although previously almost blind. I therefore do cheerfully recommend Dr. Fraser to the public as a skillful physician in such diseases.

GILBERT GARDNER.

Albia, Rensselaer Co., N. Y.—This may certify that I have been afflicted with dyspepsia and nervous debility for more than two years; I was unable to labor the greatest part of the time, and after expending two or three hundred dollars and trying all the popular medicines of the means of skillful physicians without finding any relief, hearing of a celebrated Root Doctor of Troy, whose name is Ira G. Fraser, I was induced to give him a call; and after application, in less than twenty-four hours, he brought away about forty worms, and I got better immediately, and am now able to labor and to attend to my business as usual. I would therefore recommend him to those who may be similarly afflicted, or otherwise, before it is too late G. B. McCOY.

Albany, September 22, 1851.—This is to certify that I have recently been cured of the Fever & Ague by Dr. Ira G. Fraser. I had been sick with said disease for nine months, and part of the time partially deranged, under the guidance of Providence and through the instrumentality of Dr. Fraser, I have been restored to a good state of health. Therefore, I can unhesitatingly recommend his practice to all sick persons.

M. ROBINSON.

Roman, April 7, 1852.—This is to certify that I have been afflicted with a Cancer for a number of years, and hearing of the celebrated Root Doctor of Troy, who practices on the Indian plan, to wit, Dr. I. G. Fraser, I was induced to give him a trial, and in less than ten hours he extracted said Cancer, with "no little pain and without drawing blood." I would advise all persons who are similarly afflicted to call on said Fraser before it is too late. ROSETTA A. CUSTER.

Albany, September 20, 1851.—This may certify to all whom it may concern, that I have been cured of the Fever and Ague by Dr. I. G. Fraser; did not have one fit of the Ague after the commenced doctoring me.

JAMES McGIVEN.

Boton, Madison Co., June 28, 1852.—This is to certify that I had a cancer upon my person, some of which had been of several years. I heard of Dr. Ira G. Fraser of Troy, and was induced to employ him to cure my cancers. I had taken of his medicine about four weeks, when one of the cancers on my neck, as large as a chestnut, fell out without the use of even a knife, plaster, or any other outward application.
