PHILADELPHIA HAS TWO POLICEWOMEN

THEY ARE STALWART AMAZONS AND ABLE TO COPE WITH ANY MALES OF THE "MASHER" TYPE

Philadelphia, May 2.—Commuters scurrying through the Broad street station today on their respective ways to the daily grind stopped, craned their necks and stood agape at the curious spectacle of a large woman dressed in a military cut blue suit, with her hand firmly upon the shoulder of a well dressed young man, escorting him hurriedly out of the waiting room. The two passed quickly to the street, the young man offering apparently no resistance.

"What's it all about?" inquired one dumfounded commuter, of the station attendant. "What right has that towering woman to treat a defenseless young man that way?" "Oh that; that's only a policewoman of the Philadelphia force throwing out a masher," calmly explained the attendant. "She's just been commissioned. If you don't believe she has the authority or the nerve to eject or treat obnoxious or disorderly persons, just start something. She throws 'em out in bunches every day—and she doesn't always merely throw 'em out. Hardly a day passes that some smart Aleck doesn't object to being ejected by a woman, policewoman or no policewoman, and she marches him to the police station. What's more, she hasn't lost a case yet. If you want a demonstration just take a few stunts at any lone girl or woman in the depot and see if she doesn't get you quick."

However, the inquirer was satisfied with what he had seen. When he walked away he was careful to look straight ahead.

The "lady cop" was Mrs. Mary Diehl, a superbly formed 1913 Amazonian style of woman, with pleasing but stern features and military bearing. She is on the Broad street station beat and her chief work is to protect young girls and women against the glances and advances of roysters and mashers. She had sat unnoticed in a rear seat in the waiting room and had seen the young man approach a girl who had just arrived. Convinced from the girl's attention that the man was forcing his attentions on the girl, Policewoman Diehl stepped in and after questioning the two, flashed her badge and said to the young man, "Come with me." The offender was let go when the street was reached, on promise not to flirt any more.

Philadelphia has two such policewomen. They have been on the force about four weeks. They are Mrs. Diehl and Miss L. M. Gillespie. Both are detailed at railroad stations but they have full authority to act as guardians of the peace in all sections of the city alike. They are provided with revolver, black-jack, nippers and badge, all identical with those of the other members of the Philadelphia police force. They work "split shifts" on their beats and are supposed to be "on reserve" at their homes during the night. In the early evening, if not actually on duty, they are "on reserve" in the police station, where already they have "all with them strong," as their fellow members put it. The "back room" of their respective stations present, a unique picture when they are "on reserve" and sit playing cribbage or pitch with their brother officers. At first, the atmosphere was a little tense when they were in the "back room," but now "everything's fine," says the policemen, who admit sheepishly that the whole air of the police stations has changed for the better.

SPORTING MATTERS

Three Weeks of Racing for Chicago

Chicago, May 2.—Bookies will be eliminated and the Pari-mutual machines installed, when the Mineral Springs Jockey Club opens the Porter track with a fifteen-day meeting starting Saturday, June 14, and closing Saturday, July 5.

Officials of the club said today they believed the French system would not meet with objection on the part of the Indiana State authorities. The association itself will have control of the machines, as is the case at the Kentucky track.

However, before the machines are installed attorneys for the club expect to hold a conference with the attorney general of Indiana and learn whether they would be within the law.

BASEBALL NOTES

Two home run knocks was Bob Stengel's contribution toward the defeat of the Boston Braves. The two homers were responsible for three of Brooklyn's four runs.

Ray Keating pitched another corking game for the Yankees but, four errors behind him and all coming in a bunch were too much. He allowed only four hits but the Athletics got as many runs.

The Pirates slipped down another notch when the Cardinals came out on top in a slugging match.

With both the Giants and Cubs losing and Philadelphia and Brooklyn winning the first division is lightening up.

Shafer threw away the Giants' game by a wild peg to Merkle. Knabe's double then scored Alexander with the winning runs.

It took the lowly Reds to check the Cubs.

It was a bad day for Long Tom Hughes and three other pitchers sent in by Griffith could not stop the Red Sox.

No matter how much money Colb drew out of the Detroit Club he has probably decided it is worth \$50.

Manager Chance continued the weeding out of the Yankees today when Pitcher Chester Boff was released to the Rochester team of the International League. Chance is more in need of infielders and outfielders than he is of pitchers and two-scouts are now beating the bushes in hope of discovering some good men.

Games today:
National—Boston at Brooklyn, clear; New York at Philadelphia; St. Louis at Pittsburgh, cloudy; Cincinnati at Chicago, clear.
American—Philadelphia at New York, clear; Washington at Boston, clear; Chicago at Detroit, clear; Cleveland at St. Louis, clear.
International—Toronto at Baltimore, clear.

KILLING OFF THE MOSQUITO

Much Has Been Done With Crude Petroleum, and the Fish Experiment Works Well.

According to those who have given much time to the question of destroying the mosquito, considerable progress has been made in that direction in the last few years. Many of the breeding places have been wiped out in New Jersey and Staten Island, but unfortunately enough still remain to give the insects plenty of chance to multiply. Crude petroleum has been used with good effect in places where the drainage is bad, but this, of course, can bring only a temporary cessation of breeding.

The fish experiment is said to have been used successfully in the Barbados. All the swamps and ponds were stocked some years ago with a species of fish that feed on the larvae of the mosquito. These fishes multiply rapidly and thrive in the West Indian waters. In a short time there were millions of them in the swamps and ponds, and it was observed that mosquitoes were comparatively scarce in the islands.

The success of this experiment led to the stocking of standing waters in Jamaica, a year or two ago, and the health authorities of that island report a considerable diminution of fever as a result of the destruction of the mosquito larvae.

WILSON IN NEW JERSEY

Spoke in Support of Proposal to Reform System of Drawing Grand and Petit Jurors.

New York, May 2.—President Wilson returned to New Jersey last night to speak in support of a proposition to reform the system of drawing grand and petit jurors, which is to be considered at a special session of the legislature next Tuesday. He spoke to large audiences in Newark and Elizabeth and denounced the influences that are seeking to thwart the reform in scathing language.

"I know of no greater satisfaction, man speaking for the people of this state," he said, "for I have not come to speak to you. I know what you believe in. I know what you want. I have come to speak for you and to tell those men with whom you are dealing what it is their business to do, for we are their masters; they are not ours."

President Wilson was in New York last night for the first time since his inauguration and as has been his custom for a long time, he stayed at the home of his friend, Colonel E. M. House. The president spoke in Newark and Elizabeth and came to New York in his private car over the Pennsylvania. He will speak in Jersey City tonight and return to Washington by midnight train.

Awkward

This is how "salvation" was being brought about. A captain in the "Army," noted for his erudition and enthusiasm, said: "If you look to the hens they never so much as take a drink of water without raising their bills in token of gratitude. Oh, that we were all hens!" To which there was an unanimous response of "Amen!"

Habitual Thought Counts.

It is the habitual thought that frames itself into our life. It affects us even more than our intimate social relations do.—Scottish Reformer.

WOMEN CONTINUE ARSON CRUSADE.

Torch Applied to Stable and Thames Boat House.

BREAK WINDOWS AND CUT WIRES

Notwithstanding Drastic Action Taken by London Police to Curb Suffragettes the Militant Women Continue Their Outrages—Standard Announces Plot to Remove Mrs. Pankhurst by Aeroplane.

London, May 2.—Notwithstanding the drastic action of the police on Wednesday in raiding the offices of the Women's Social and Political Union on Kingsway, arresting all the women found there and suppressing the newspaper "Suffragette," the militants continued their outrages yesterday.

A large stable was burned at Hendon near London and a placard with the words "Votes, votes, votes, beware!" was found pasted on the premises. A boathouse on the Thames was destroyed and a number of skiffs were burned. The authorship of this outrage is doubtful.

Windows Smashed and Wires Cut. The windows of the revenue offices at Plymouth were smashed and more telephone wires at Cardiff were cut and the contents of several mail boxes destroyed.

"This is real war," exclaimed a woman who presided at a meeting of the Women's Social and Political Union in London last evening. "No amount of cruelty can break up our union because it is a spiritual union."

The detectives who were present did not interfere. It was announced that the usual weekly meeting would be held on May 5. Mrs. Pankhurst and General Flora Drummond are quoted as saying that Christabel Pankhurst arrived in London on Thursday.

The Standard gravely announces the discovery of a plot to remove Mrs. Pankhurst abroad by taking her in an aeroplane. The paper says: "Several prominent airmen have been requested to undertake this criminal enterprise and an invitation, which is remarkable for its audacity, has been extended to the Standard to cooperate in placing Mrs. Pankhurst beyond the reach of the British authorities in return for the bribe of exclusive information as to her flight. It is not necessary to say that the Standard declined to participate in a criminal conspiracy and a warning was forwarded to Scotland Yard."

Government Fears the Torch. The antithesis to this is the announcement that the government has got wind of a suffragette plot to burn the hangars and military flying school on the upper Avon in consequence of which military sentries have been posted there day and night.

The home office is credited with having inaugurated a stern campaign to crush militancy and the raid on the women's headquarters Wednesday was the first step, but the authorities have been aware for a long time that very little actual militant business is carried on there. Most of the outrages are planned at the homes of individuals and in restaurants which are frequented by the suffragettes. These are being closely watched and when all the strings are gathered they will be raided.

ANOTHER STRIKE IN AUBURN

Carpenters Reject Proposition Offered by Builders and Quit Work.

Auburn, May 2.—After a series of meetings yesterday, the labor situation in Auburn, which appeared to be clearing up Wednesday, developed a tie-up in the building trades, when the carpenters voted to reject a counter proposition offered by the builders and struck. About 250 men are out. The builders announced they will not grant the men's demands for a 44-hour week and a minimum wage of 45 cents an hour.

The teamsters' troubles were settled by State Organizer W. H. Ash-ton, who negotiated a compromise agreement and then left for Albany. The section men of the New York Central railroad in this territory are out on strike.

The foreign element among the textile workers is in ferment over the apparent determination of the police to punish the six strikers arrested during the disorders Wednesday. They declare that Governor Sulzer's representative, Edwin P. Chapman, promised the release of the prisoners and insist that they will not go back to work unless the prisoners are released absolutely. The prisoners, therefore, declined to give bail.

Mr. Chapman said: "I gave no such promise. I merely said I would use my influence to have the prisoners dealt with as leniently and reasonably as possible. I said that law and order must prevail."

RAISE FOR OPERATORS

Concessions by Erie May Avert a Strike of Telegraphers.

Cleveland, O., May 2.—In answer to a strike vote taken by telegraph operators on the Erie railroad last week, the road has tendered a 5 to 10 per cent increase to operators receiving less than \$60 a month.

"We can't give more," said H. O. Dunkle, general superintendent, "because of our heavy losses in the recent flood."

The operators stand firm for a 12 per cent increase. Twenty-five per cent of them are affected by the new increase.

Elmira, May 2.—It was officially announced here to telegraphers on this division of the Erie railroad that the proposed cut in wages of operators would not be made. The men on Sunday took a secret poll and it was rumored, voted to strike. Fifteen hundred operators on the Erie system would have been affected.

OPEN CANAL JUNE 1

Promise to Have it Ready by May 15 Evidently Ignored.

Albany, May 2.—Through navigation on the Erie canal will be opened on June 1, according to Duncan W. Peck, state superintendent of public works. The Champlain canal between Watervliet and Northumberland will be opened next Monday at noon and through navigation on the Champlain canal will be established on May 15 at noon.

The Cayuga and Seneca and Black River canals will be opened on July 1. The delay in the opening of through navigation on the Erie canal is due to the non-completion of the junction lock at Vischer's Ferry.

Superintendent Peck says he tends to begin clearing eastbound boats at Buffalo about May 26.

ASSEMBLY AGAINST SULZER

By a Decisive Vote the Lower House Defeated His Primary Bill.

Albany, May 2.—The assembly voted on the Sulzer direct primary bill long after midnight and defeated it by a decisive vote. Nearly two score Republican and Democratic assemblymen voted for the measure, however. The senate, by a vote of 42 to 8, refused to pass it Wednesday. Governor Sulzer has announced his intention of taking the issue to the people by stumping the state and calling a special session of the legislature to consider direct primary legislation. The debate on the primary bill did not begin until after 10 o'clock.

Amendments Are Defeated. Washington, May 2.—All efforts of the opposition to disturb the "market basket" reductions in the Democratic tariff bill failed in the house, despite the fact that Republican orators sounded warnings of ruined industries and empty cupboards to follow the enactment of the Underwood bill. The first break from the solid front of the majority came when Louisiana Democrats led by Representative Broussard, appealed to Republican Leader Mann for a share of time in which to speak against the sugar schedule, and when Representative Kinkead, a New Jersey Democrat, uttered a prediction that the senate would strike out the ways and means committee's 10 per cent rates on livestock.

Steamer Is Sunk; Four Drowned.

Cuxhaven, Germany, May 2.—Four of the crew of the Swedish steamer Flora are believed to have been drowned when that vessel sank after a collision near here with the British steamer Mozart which was on the way from Rangoon to Hamburg.

Alberta Has a Heavy Snow.

Winnipeg, May 2.—A heavy fall of snow throughout Alberta province was reported. Farm work was retarded. Seventy-five per cent of the spring wheat in Southern Alberta is reported above ground.

The Stock Market

New York, May 2.—The stock market opened quiet and lower.

11 a. m.—Though there was not much activity during the first hour, a good demand appeared for such securities as were offered for sale.

Noon.—The market became unsettled in the second hour and at noon trading was dull and irregular.

2 p. m.—The market was dull during the afternoon.

New York, May 2.—The stock market closed dull.

DON'T TELL OF THEIR RICHES

Great Britain Has Many Millionaires Who Keep Quiet About Their Great Wealth.

"While people in Europe marvel at the big incomes of our American magnates," said Arthur Albert Brooks, late of London, who has come to this side for permanent residence, "it must be admitted that there are many men in Great Britain who are blessed with large incomes and are careful to make no reference to the fact that the newspapers. Possibly England has as many millionaires to the population as this country, but it would be disputed off-hand by any one who had not taken the pains to look up the figures.

"They are reaching out in England for a higher tax on incomes, and it was the operation of this new law that brought forth the information. In the United Kingdom there are more than 10,000 persons with an income of more than \$50,000 a year. They average \$83,000 a year each. There are 20 men in commercial pursuits who have an income each of more than \$250,000.

"I am told that you can find 20 men in one business block down town in New York city with that income, and anxious to double it. Possibly in some of your industrial towns you have groups of millionaires who will laugh at our claims in England of large incomes. But our average to the population will keep up well.

"The aggregate gross income of the inhabitants of the United Kingdom is more than \$5,000,000,000, and the average to each inhabitant will compare favorably with the annual incomes of citizens on this side of the water."

WILSON IN NEW JERSEY

Spoke in Support of Proposal to Reform System of Drawing Grand and Petit Jurors.

New York, May 2.—President Wilson returned to New Jersey last night to speak in support of a proposition to reform the system of drawing grand and petit jurors, which is to be considered at a special session of the legislature next Tuesday. He spoke to large audiences in Newark and Elizabeth and denounced the influences that are seeking to thwart the reform in scathing language.

"I know of no greater satisfaction, man speaking for the people of this state," he said, "for I have not come to speak to you. I know what you believe in. I know what you want. I have come to speak for you and to tell those men with whom you are dealing what it is their business to do, for we are their masters; they are not ours."

President Wilson was in New York last night for the first time since his inauguration and as has been his custom for a long time, he stayed at the home of his friend, Colonel E. M. House. The president spoke in Newark and Elizabeth and came to New York in his private car over the Pennsylvania. He will speak in Jersey City tonight and return to Washington by midnight train.

I have come to speak for you and to tell those men with whom you are dealing what it is their business to do, for we are their masters; they are not ours."

President Wilson was in New York last night for the first time since his inauguration and as has been his custom for a long time, he stayed at the home of his friend, Colonel E. M. House. The president spoke in Newark and Elizabeth and came to New York in his private car over the Pennsylvania. He will speak in Jersey City tonight and return to Washington by midnight train.

WILSON IN NEW JERSEY

Spoke in Support of Proposal to Reform System of Drawing Grand and Petit Jurors.

New York, May 2.—President Wilson returned to New Jersey last night to speak in support of a proposition to reform the system of drawing grand and petit jurors, which is to be considered at a special session of the legislature next Tuesday. He spoke to large audiences in Newark and Elizabeth and denounced the influences that are seeking to thwart the reform in scathing language.

"I know of no greater satisfaction, man speaking for the people of this state," he said, "for I have not come to speak to you. I know what you believe in. I know what you want. I have come to speak for you and to tell those men with whom you are dealing what it is their business to do, for we are their masters; they are not ours."
