The determination of the Democracy to have an entire new ticket this fall, is every where manifested.—*Palladium.*

Now, will not Mr. Johnson's organ tell us why a new ticket is so urgently demanded? Is this the way to reward faithful and efficient public servants? Is it because the State has had enough of the present Democratic State officials that they are to be incontinently kicked out, without so much as the empty compliment of "Don't be in a hurry, sir!"—or "Do call again, at an early day, sir!"

Still, we think Mr. Johnson's organ is right about it. The State has had about all it can stand of the present State officials who sit in the high places. But may not the tax payers be in the condition of the fox in the brambles, beset by the flies, that remonstrated with the friendly swallow which undertook to drive them away? The fox reasoned that the flies, which were devouring his life blood, were nearly full, and that if they were driven away their places would be taken by another swarm, with empty stomachs, still more voracious.

The tax payers of this state have learned that the only difference between the old and new democratic officials is that the state of things grows worse by every change. Every new set is worse than their predecessors.

Yes, Mr. Johnson's organ is correct. It is a political necessity that the democrats should have an entire new ticket in the coming election, and the selection of the men for the new ticket, with such good material on hand, is not difficult of accomplishment.

Tweed might do very well for Comptroller, but unfortunately his engagement at Ludlow street, N. Y., has not yet terminated. His great financial ability will not, therefore, be available to the democracy in the present emergency. Willard Johnson is the next best man, and considering age and opportunities, we do not know but he will prove the peer of his friend Tweed. The Governor and the Commission have given him an admirable send off, and from recent developments there can be no doubt that he possesses all of the requirements for a first class Democratic official. By all means let Willard Johnson be nominated for Comptroller.

For Secretary of State we have but one candidate in view. We refer to George D. Lord, of Rochester. His qualifications for a first class Democratic State officer have been so well exemplified that his fitness will be conceded everywhere. The truth is Mr. Lord has qualities which entitle him to a better position, but the Secretaryship will tide him over until a better opening occurs.

For State Treasurer, Doc. Denison ought to do very well, as the only duties are to *keep* all that comes in, and administrative qualities are not very essential. He will do honor to any Democratic State ticket.

For Canal Commissioner, all of the indications point in one direction. Tommy Gale is the man. It is true he has not much "book larnin," but he is a natural born "engineer." He can look at a bank of mud, and decide at a glance just how much there is in it,—that is too say, if there are two hundred yards of gravel and mud to be removed, at fifty cents per yard, he will decide immediately just how many thousand yards of rock excavation at six dollars per yard, it will answer to charge the State for. He is not much of an "arithmetician," but in making charges for services against the State he always employs the rule of "geometrical progression, ascending series, and finds it to work well, and that he understands the rule of "Division" may be inferred from the fact that he is a favorite [with the canal ring thieves who can read and write. There is no disputing Tommy Gale's claims to run on the democratic ticket for Canal Commissioner.

For Attorney General it is more difficult to find the right kind of a candidate. Hon. Albertus Perry, of this city, has been talked of but we hardly know of any especial qualification he possesses which should entitle him to a place with the galaxy of worthies we have presented. He will have this advantage, however, which is not to be regarded lightly. He has been for many years the intimate political friend of Delos DeWolf and Willard Johnson. His close, friendly relations with them would entitle him to their support and confidence in the prosecution of the canal ring thieves. Having been their legal adviser so long, he ought to be able to rely upon them to let him into the secret methods of plundering the State. Mr. DeWolf can post him in relation to the manner in which the Governor was wheedled in allowing the bill giving Willard Johnson an extra fifty-five thousand upon a swindling job, so that that little circumstance can not be set up as a defense by Johnson, when charged with procuring the money improperly. Willard can tell him all about "unbalanced bids," the measurement of mud for rock excavation, and the difference between dry wall and other masonry, and the manner in which the Ring do one class of work and collect pay for another class at six times the contract price.

When we remember who Mr. Perry's friends and backers for the nomination are, and the fact that as Attorney General he will be called upon to prosecute the Ring thieves, we must confess he has claims to the office not apparent at the first flush.

For State Prison Inspector, John Morrissey would do. He would find many of his friends and customers under his care. Gov. Tilden would support him for any place he would be willing to take. But his occupation is such that he cannot devote himself to the duties of the position. Tom Fields, or Harry Genet, or Mike Murphy, if either of them returns from his travels in season, will be nominated. The qualifications of either of these distinguished and worthy democrats to discharge duties around the state prisons are too well known to be dwelt upon.

Of course the democrats must have a new ticket, and with such excellent material to select from there is nothing to hinder. And it is time some of these old wheel horses of the democracy in this state had their reward.

There was no interest taken in the Custom House caucuses held in this city last evening.—*Johnson's Palladium.*

Why, what a confession for an editor who has spent the best years of his life in opposing the wickedness of the "terrible Custom House Ring!" Either the Johnson *Palladium* must have but very little influence, or, intelligent people do not believe its utterances. It is not recorded that the ancient Don Quixote, after his account of his famous battle with the wind mills, was aware that he was a most consummate ass, and Mr. Johnson's Don Quixote does not appear to be an improvement upon his ancient prototype.

FROM NEW YORK CITY.

Transfer of Gold Coin from San Francisco to the Treasury.

Dr. Linderman, the director of the Mint, who is now in San Francisco, has sent the following telegram from that city to the secretary of the treasury: An additional half million in gold coin may be transferred from the bullion fund of the San Francisco mint to the treasury of the United States without interfering with the prompt payment of bullion deposits and purchases by the mint, which is reviving on a large scale.

The business outlook is improving, and will soon move forward on a more solid basis.

Battle the Few Kernels.

A special to the *Evening Post* from Washington says that the impression prevails here that Secretary Bristow will endeavor to put into circulation, within a very short time, silver coin in place of fractional currency, withdrawing and cancelling the latter. It is maintained at the Treasurer department that there is enough silver on hand to successfully carry out such a policy.

CRIMES AND CASUALTIES.

Murder.

ELMIRA, Sept. 3.—A colored man named Moses Charles was killed this afternoon, near Chemung, by being struck with a hand spike on the head by one Charles Hill. An altercation arose between the murdered man and an employe of Hill. The men were engaged in log-rolling. The murderer was arrested and is confined.

A Hanging Bee.

LITTLE ROCK, Sept. 3.—Six men were hung to-day at Fort Smith. There were eight sentenced at the same time. One was killed afterwards while attempting to escape, and sentence of the other was commuted to imprisonment for life. The names of the men who were hung were James H. Moore, white; Daniel H. Evans, white; Samuel V. Coy, quarter Cherokee; Smoker Mankiller, full blood Cherokee; Edward Campbell, colored; John Whittington was but eighteen years old, lived in Flint district, Cherokee nation. On the first of September, 1874, he murdered a white man named Wm. Shoot. He stoutly asserted his innocence in written statement; he charged a witness who testified against him with perjury. A few days since he professed religion and joined the Presbyterian church. James H. Moore was twenty-seven years old. Was convicted with a band of outlaws in the Indian country of stealing some horses in Washington county, this state in connection with confederate; they were followed and overtaken when fired upon, the posse killing one and wounding another. They escaped but were afterward overtaken. When captured they boasted that they had killed eight white men, and Indians and negroes too numerous to mention. He was Baptized in the Roman Catholic faith last Sunday. Samuel Foy, a quarter blood Cherokee, native of Fort Smith, 28 years of age; confessed his crime. In July, 1872, murdered a young man named John Neeff, near Tahlequah for $300. Foy confessed his crime. Daniel H. Evans, a young man of twenty, a native of Tennessee, had respectable connection in Missouri, Tennessee and Texas, and he murdered a man named Seabold in November last, near Enfanler Creek nation. Evans admitted he associated with outlaws, and he connection with two others robbed a wealthy man in the Creek nation in '73 of $27,000. Of this money he said he buried $25,000 in Bosque county, Texas. He says he stuck a pine stick in his victims flesh and set it on fire, to compel him to tell where his money was. After his sentence was pronounced by the judge he smilingly rose and thanked the court for the courtesy shown him. He embraced the Catholic faith.

Wm. J. Whitington, native of Georgia, Taylor county, thirty years. Whitington murdered a man named John J. Turner in February last in Chickasow nation. He attributed all his troubles to whisky; was penitent and resigned and joined the Methodist church. Edward Campbell a colored boy, was aged twenty. He in connection with two others killed Lawson Ross and Maria McKenna on the 13th of February, 1875. Edmond Campbell and Frank Butler were both sentenced to be hung. Frank made an attempt to escape some time since, but was shot and killed and the other party connected with the murder was sent to the penitentiary, and Edmond forfeited his life to-day for the crime. He professed religion, and joined the Presbyterian church. All six of these parties were launched into eternity at the same time.

Pacific Coast—Monetary Affairs in San Francisco.

SAN FRANCISCO, Sept. 3.—The opening of the Merchant's Exchange Bank and the prospect of immediate resumption of the Bank of California, cause the best possible feeling in business circles, and with the exception of closing of the stock board, business has practically settled down to its usual routine. This morning the Board of Brokers will hold a meeting, and it is possible may conclude to resume business by Monday, though more cautious members advise waiting until the resumption of the Bank of California. The time is not yet fixed for the opening of the bank, as much work remains to be done in the examination of accounts. Ralston's successor has not yet been decided upon. At present D. O. Mills is at the head of affairs. The amount of new capital subscribed to date is $4,800,000. The bank affairs will be taken in charge and business managed as before the failure, until all assets are collected and all debts paid, and engagements and obligations of the bank will be regulated quietly and prudently so as to restore confidence among merchants and relieve the city of any anticipation of interest in any respect. Stockholders are expected, in their own interest and in that of the city, to give the syndicate a controlling interest in stock, and when the bank is free from its obligations and its assets have been realized, any benefit accruing will be distributed among the stockholders pro rata. Assurance is given on indisputable authority that the business of the bank will be closed up, as it affects creditors and stockholders, in a most advantageous way. Time will be given to debtors who are unable to meet their bills, but a strong effort will be made to collect assets as soon as circumstances permit. As fast as cash is available, the indebtedness of the bank has been cleared up, the syndicate will take into consideration the advisability of continuing the old organization or starting a new one, or some other course will be taken.

Strike of Boot and Shoemakers.

NATICK, Sept. 3.—A general strike inaugurated among workmen in all boot and shoe establishments at Cochetts, 800 employees being idle, the cause being that employers refuse to restore pay to the same standard as before the reduction, which was made some months since on account of dull trade. Workmen in two prominent establishments of this place struck yesterday, but a compromise was effected and work resumed to-day.

Going for the Big Purse.

CHICAGO, Sept. 3.—A number of celebrated fast running horses, including Springbok, Wild Idle and Grinstead let this city to-day en route for California where they will contest for the great $40,000 purse.

THE DOMINION.

MONTREAL, Sept. 3.—After the departure of Guibord's remains from the Catholic cemetery gates yesterday afternoon, the mob remained in force on the ground until the arrival of the mayor and fifty police, when they immediately abandoned the gates and dispersed. Before this, however, some of them had filled up the empty grave and tore down the cross over it. The Prince of Wales regiment rendezvoused last evening, and is held in readiness for any outbreak. A mob numbering several hundred, and well armed, are at the cemetery to day. It is not known when the funeral will be attempted again. Priests undoubtedly instigated the riot. The feeling runs very high between Catholics and Protestants. Orangemen talk of turning out at the funeral.

QUEBEC, Sept. 3.—An unusually large number of new insolvents have been gazetted this week.

There are seventy vessels now in port. The past week shows an increased tendency in freight to advance. Inquiry for tonnage fair. Arrivals from sea are 186 vessels less, and 113,694 tons less than for same date last year.

SPRINGLESS TRUSSES AND SUPPORTERS.

Dr. G. W. Hotchkin of Rochester has finally consented by the most earnest solicitations of citizens of Oswego and Jefferson counties, to visit once in three months the following places:

Fulton, Lewis House, Nov. 3d.
Oswego, Hamilton House, Nov. 4 & 5.
Pulaski, Salmon River House, Nov. 6th.
Adams, Cooper House, Nov. 8.

Dr. H. treats successfully Inguinal as well as Umbilical Hernias and Varicoceles which have healed at the advanced ages respectively from sixty-five to ninety-two years of age, not speaking of younger persons because they are too numerous to mention. Dr. H. has visited these places professionally before and is well and favorably known. His Trusses and Supporters have always given the best of satisfaction. The Truss has no spring or hard metalic substance. It can be worn night and day and by so doing the rupture heals. There are persons in these counties who have been entirely cured under Dr. H.'s treatment. Therefore all persons afflicted with hernia of any description should avail themselves of the opportunity on the above named days he visits these places, and obtain one of the Doctor's Trusses and abdominal supporters. Dr. H. comes only to gratify those who have been inviting him often to renew his visits to these places who feel so grateful for benefits they have received that their friends may get relief as well as themselves. Therefore go early as soon as he arrives. Dr. H.'s postoffice address is No. 145 Powers Block, Rochester, N. Y. Send stamp for circular and read testimonials. Consultation free.
