Omega Oil

Great is Oil! Did you ever think what an important thing oil is in this world? It is the oil in paint that prevents decay of woodwork. It is the oil the bootblack puts on your shoes that preserves the leather. It is oil that keeps iron and steel from rusting. It is oil that makes machinery run easily and smoothly.

But the greatest oil of all is Omega Oil, the popular green-colored liniment that everybody is talking about. It keeps the human body from decaying and getting rusty. It softens, relaxes, soothes and preserves the flesh of old people. It lubricates stiff joints, and makes them work easily and smoothly. And the little Swiss green herb in Omega Oil is the most amazing thing for stopping pains and aches that ever grew out of Old Mother Earth. If you have a place on your body that hurts, you are mighty foolish if you don't rub that place with Omega Oil, and get cured right away. It is good for everything a liniment ought to be good for.

Tell your druggist you must have Omega Oil and nothing else. He will give it to you or get it for you. The Omega Chemical Co., 257 Broadway, New York, will mail you a bottle, prepaid, anywhere in the United States for 50c. in cash, money order or stamps. 782

A TOUCHING EULOGY.

Eloquent Tribute Paid to the Late Edwin Allen.

BY REV. DAVID WILLS, JR

Morning Service at Grace Church Yesterday Was Largely Attended—Spoke of Mr. Allen in the Highest Possible Terms—A Severe Loss.

An eloquent tribute was paid to the life of Edwin Allen by the Rev. David Wills, Jr., at the morning service at Grace Church yesterday. Mr. Wills chose for his text, "For brass I will bring gold, and for iron I will bring silver and for wood brass and for stones, iron. I will also make thy officers peace and thine exactors righteousness." In part he said: "It always follows that when age follows age each is firmer and better than the one preceding. After stones comes the iron, after iron brass, then silver and last of all gold. Under the earth men seek silver and underneath the silver gold. In this there is a danger that the eyes might be blurred and we not see the vision; that the ears might be closed and not catch the word. The speaker pictured the type of man who sneezed at political and social reform not unmixed with contempt and at the same time repudiating Christ. He knows that few are rich, the larger number poor, some overfed and overclothed and others ragged and starving.

The speaker said such characters could not be dispensed with; that they teach many lessons and while they come not in Christ's name they give the poor their subsistence and by their thrift and honesty set good examples to the young.

Referred to Edwin Allen.

In speaking of the life of Edwin Allen Mr. Wills said: "I speak of him as a disciple like his Master, as a lover of God. I pitch my words in the key of affection, reverence, kindliness. When my way was dark he lightened it for me, when my arm fell limp at my side he touched me with his kindliness and gave me new strength, when I was discouraged and downhearted, he by his example, gave me new encouragement.

He was a practical man. His words and best of all his character, made for him a place in social, religious and judicial life. He spoke with all possible logical force. It was natural for him to think directly and along straight lines. He had ideals that redeemed and beautified his life. I knew him and loved him. I never saw him except on the side of right. I never could dream of him being on the side of wrong."

Continuing Mr. Wills said: "Of whom did he ever speak evil? With power as of a giant we could caress all men as a child. He was a gentleman not of the old school, not of the new school but of the best school. I never saw him when he was not courteous and cheerful and beyond even all these ideals he had spirituality. He was filled with the holy spirit and walked and talked with God. He was a happy man because he was at peace with his creator. Oh, good, kind friend, what loving memories you have left, what thoughts you have bequeathed, what inspiration is ours. He is dead to us but he lives and as he lives, let us live."

1900 Was a Great Hay Year.

CANAJOHARIE, Jan. 7.—In its annual review the *Hay Trade Journal* gives the year 1900 a greater amount of hay to the several large markets of the United States than was received in the same markets in 1898 and 1899. This increase in demand carried with it an average advance in value of $1.75 per ton or thirteen per cent. over the average price of 1899.

PULASKI.

PULASKI, Jan. 7.—Joint Installation of J. B. Butler Post No. 111 G. A. R., Women's Relief Corps No. 127 and A. S. Warner Camp No. 105 S of V, took place Saturday evening at G. A. R. Hall. The officers of the Corps were installed by Past President Mrs. Adda W. Clark. In behalf of the members of the Corps Mrs. Ella More presented the retiring President, Mrs. Carrie Twitchell with a Past President's pin. Past Captain Calvin B. Burch was the installing officer for the camp. Past Commander Henry C. Twitchell installed the officers of the Post. Lunch was served at the close.

At the meeting of Pulaski Chapter Order of Eastern Star Tuesday evening the Worthy Matron will announce her appointments and the degrees will be conferred upon two candidates. Installation occurs January 15th.—Public installation of Salmon River Encampment No. 39 I. O. O. F. occurred Friday evening. Dr. Phelps of Oswego, the District Deputy Grand Patriarch installed the officers. Refreshments were served and a social time enjoyed.

Newton G. Ehle and bride have returned from New York and are at the family residence on North Street.

Alderman and Mrs. Charles Tollner are entertaining Mrs. B. B. Marco and daughter, Miss Grace Marco of New York.

The marriage of Miss Cora May Clark to Herbert Morrison took place Wednesday at the bride's home. Many out of town guests were present. The happy pair left for a trip through the West.—Mr. Robert Gilleaple, his daughter, Miss Lizzie and Mrs. Helen M. Box leave to-day for California to spend the winter.

Mr. and Mrs. Francis P. Betts entertained the Chaffing Club on Friday evening. Messrs. Frederick G. Whitney and Francis P. Betts were cooks.—Arthur I. Decatur is home for the winter.—Ex-Sheriff William H. Enes is suffering from a severe cold.—Colonel and Mrs. Lewis J. Macy are confined to their rooms with the grippe.

The Pulaski Gas and Oil Company have notified its patrons that the price of gas will be 50 cents per 1,000 feet after Jan. 10.—At the Congregational Church, Friday evening, the members of the church and society enjoyed a six o'clock supper after which the church officers were elected for the ensuing year.—Dr. Clarence A. Potter of Gowanda, N. Y., was in town last week the guest of Miss Carrie Hibbard.

More Applications for Rural Delivery.

PULASKI, Jan. 7.—Applications for two more rural mail routes from this Postoffice have been forwarded to Washington and it is quite evident that they will be established in the near future.

A LEAGUE FORMED.

Great Enthusiasm Shown at a Meeting of Bowlers Held Yesterday Afternoon—Officers Elected.

An association to be known as the Oswego Bowling Association was formed yesterday afternoon. Several clubs have joined the league and it is the purpose of the promoters to have an eight club league. The following organizations have joined: The Knights of Columbus, Knights of Pythias, Germanians, Eurekas, Wrights and the Elks. At least two independent clubs will be added to that list.

It is the purpose of P. R. Schilling and John Wright, proprietors of the two local alleys, to offer valuable prizes to be given to the club having the highest score and also to the person having the highest individual score. The first of the series of games will be played Tuesday evening.

The officers of the association are: John Harris, President; James Carey, Secretary; Frank Washburn Treasurer.

Death Was Sudden.

Elbridge Stacy of the town of Scriba, died suddenly at his home on the Hall road about six miles East of this city, about one o'clock yesterday morning. Coroner Vowinkel was called and found that the probable cause of death was paralysis of the heart.

Mr. Stacy was sixty-four years of age and is survived by seven children, five sons and two daughters. He was well known in this city.

INHERITANCE TAX.

Revenue from That Source Was $700,000 During the Last Three Months in This State.

ALBANY, Jan. 7.—The collateral inheritance-tax act has brought into the State Treasury during the last three months over $700,000, which is above the average for a period of that length. The bulk of that sum has come from New York, which has always contributed the major part of the taxes collected under this statute. The estate of Emma S. Schley, late of New York, paid the largest amount of taxes during the three months. Its contribution to the State Treasury was $261,494.

It is expected that the collections from New York will be very large during the current three months, as many of the old appraisers are concluding their work on estates which went into litigation over one year ago.

Handsome Calendar.

We are in receipt of the Armour 1901 Calendar, which is composed of six leaves. It is entitled "Armour's Spirit of the Century Calendar," and is intended to illustrate six national heroes who have typified the spirit of the century just closing. It begins with the "Boys of Seventy-six" and ends with Roosevelt at San Juan. As a new century calendar the idea is certainly appropriate and as the military sentiment holds strong, it ought to meet with a good reception. Armour & Company, Chicago, will mail this calendar to any address on receipt of six two-cent stamps for postage.

Colombian Rebels Defeated.

KINGSTON, Jamaica, Jan. 7.—The British steamer Costa Rican, Captain Kelly, which arrived here last evening from Colon, Colombia, reports that a big battle was fought recently near the Venezuelan border between the Colombian Government forces and 2,000 insurgents under General Uribe, assisted by sympathizers from Venezuela, the battle ending in the defeat of the rebels, who broke into small parties, General Uribe escaping.

Eight Suffocated to Death.

MINNEAPOLIS, Jan. 7.—The Harvard Hotel burned at three o'clock yesterday morning. There were twenty-seven lodgers in the building. Nineteen beat their way out through the heat and smoke, the other eight, all men, were suffocated to death.

New York Cheese Markets.

NEW YORK, Jan. 5.—Receipts to-day 1,838 boxes, including 120 boxes through cheese in transit for export. There is comparatively little movement to-day, but the market shows little if any change. A fair peddling trade has been going on from store, mostly for small sizes during the week, generally on the basis of 12c for average sales, though we hear of occasional sales of exceptionally desirable quality at a fractional premium. With stocks considered moderate, more particularly of small sizes, holders are quite firm and confident in their views and quietly awaiting future developments. Large sizes have only a limited outlet, but desirable grades firmly held. Exporters have shown very little interest, and with the exception of a few hundred boxes, mostly skims, we do not hear of business on that account and bulk or shipments as given below have been through cheese. Skims are generally quiet. Choice small light skims have worked into narrow compass and held firmly with occasional sale a shade above quotations, but plenty of ordinary grades which are offered at low and irregular figures.

Exports for the week foot up 6,549 boxes, including 4,988 boxes to Liverpool, 298 boxes to London, 1,004 boxes to Bristol and 299 boxes to Hull.

New York Butter Market.

NEW YORK, Jan. 5.—Receipts to-day 2,417 pkgs, making for the week ending to-day 20,044 pkgs, as compared with 29,096 pkgs last week. It is interesting to note that the arrivals at New York for the year ending January first were about 48,000 pkgs more than during the previous year. The condition of the market to-day was not changed materially: there seemed to be an absence of important demand and slight weakness was manifest on most grades; even the fanciest creamery was slow and offering at 25c. Values for all qualities under extra grades were determined only by actual negotiation between the buyer and seller. The sales varied ¼@1c per pound on much the same class of stock.

Shipments for the week include 2,702 pkgs to Liverpool, 557 pkgs to London, 100 do to Bremen and 42 do to Baltic ports.

OBITUARY.

Ex-Senator Bradbury Dead.

AUGUSTA, Maine, Jan. 7.—Former United States Senator James Ware Bradbury died at his home in this city yesterday of bronchitis. He was 89 years old.

He graduated from Bowdoin College in 1825, the celebrated class in which were Henry W. Longfellow, Nathaniel Hawthorne, Jonathan Cilley, John S. C. Abbott, George B. Cheever and Horace Bridge. He was the last survivor of his class and the oldest living graduate of Bowdoin College.

Bradbury sat in the Senate half a century ago, with such men as Webster, Clay, Calhoun, Benton, Seward, Cass, Sam Houston, Douglass and Jefferson Davis. He was a hard money Democrat.

Charged with Robbing Mails.

ROME, Jan. 7.—Saturday afternoon Simon Ecker of No. 204 Depeyster Street was arrested by Chief of Police Barry on a warrant charging him with robbing the United States mails. The papers were taken out before United Commissioner E. A. Rowland. Postoffice Inspector Kyle of Syracuse was the complainant. Ecker was taken before Commissioner Rowland, arraigned and pleaded not guilty. He was committed to jail but was released Saturday evening on $500 bail. The charge against Ecker consists of robbing the United States mails when he was night baggageman at the Central depot.

B. & O. Not Affected.

BALTIMORE, Md., Jan. 7.—"The Baltimore & Ohio Railroad Company is in no way affected by the acquisition of the Jersey Central by the Philadelphia & Reading Company" said President Cowan, of the B. and O. yesterday. "For many years our company has had a traffic agreement with the Philadelphia, Reading and Jersey Central Companies. This agreement will continue without change."

President Cowan said that there was no prospect of a movement to control the bituminous coal interests similar to the control of the anthracite output.
