Intelligence reaches us of the peculiar and ending of Miss Elizabeth Slade, who died on the train between Santa Clara and Brandon Wednesday evening. Miss Slade had been spending the summer months at the Santa Clara sanitarium in the interest of her health. But she could not win back the roses to her cheek, even in the air of our balm laden mountains, and being admonished by her waning strength that the fateful change was rapidly approaching, her longing for home induced her to attempt the journey; but the angel of death bid her to another where we hope she has found that peace and rest which life denied her weary feet.

Ice Cream Now Made in a Minute. I have an Ice Cream Freezer that will freeze cream perfectly in one minute; as it is so simple a crowd will always be around, so anyone can make from five to six dollars a day selling cream, and from ten to twenty dollars a day selling frozen cream, as people will always buy an article when it is demonstrated that they can make money by so doing. The cream is frozen instantly and is smooth and free from lumps. I have done so well myself and have friends succeeding so well that I feel it my duty to let others know of the opportunity, as I feel confident that any person in any locality can make money, as any person can sell cream and the freezer sells itself. J. F. Casey & Co., 115 N. H. St., St. Regis Falls, N. Y., will mail you complete instructions and will employ you on salary if you can give them your whole time. Wm. M.

Since 1878 there have been nine epidemics of dysentery in different parts of the country in which Chamberlain's Colic, Cholera and Diarrhoea Remedy was used with perfect success. Dysentery, when epidemic, is almost as severe and dangerous as Asiatic cholera. Heretofore the best efforts of the most skilled physicians have failed to check its ravages; this remedy, however, has cured the most malignant cases, both of children and adults, and under the most trying conditions, which proved it to be the best medicine in the world for bowel complaints. There is more Ostarin in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors produced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Medicine has proven certain to be a constitutional disease, and, therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Sent for free trial and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc.
