OSWEGO DAILY JOURNAL

Wednesday Afternoon March 24.

$6,00 per Year—10 Cts. per Week.

The Militia Law.

An effort is now being made in the Legislature to amend the present Militia Law of this State. We are opposed to any such modification or amendment. The Law does not need any change; it is now as favorable to military purposes as is required; and is a law under which the Militia of the State can be organized efficiently, and conducted prosperously until it becomes a pride to the State which maintains it. When we see anything working advantageously to the many, we will never favor any encroachments upon it, even though they may be made under the guise of a desire to *improve* it. This is our position in regard to the proposed modification of the Militia Law. The present law works well enough to all intents and purposes. Then "let well-enough alone."

The Militia is an important arm of the military force of this State. It should be fostered with care, and every measure which is calculated to promote its growth and prosperity should be adopted by our Legislators. They are aware of this, and gave evidence of it by passing the law of 1851.

One of the features of this law,—and the only one, we think, which renders it objectionable in certain quarters,—is the commutation tax. This tax is levied upon all persons liable to do military duty; and is appropriated to military purposes. This appropriation in many cases is an inducement to form military companies. For instance, in a town where one thousand persons are liable to military duty, five hundred dollars are collected as a commutation tax.—This sum, if there is no military company in the town, goes to defray the expenses of the company or companies in another town, if the tax raised for such purpose in the town where the company exists is not sufficient to meet its expenses. Thus a town being unwilling to be shorn of its military honor and five hundred dollars (which is by far the greatest object in the minds of many) at the same time; and being unwilling also to contribute so materially to the maintenance of military companies in a neighboring town; will set to work and form and maintain their own military companies. So that the feature which is deemed by many most objectionable is in reality the best provision in the whole law. We hope that any attempt at a modification of the present law, therefore, will be met with a prompt rejection at the hands of our Legislators.

Prosper M. Wetmore.

It will be remembered that an article appeared in this paper recently in which the connection of this gentleman with the sale of Government property was referred to. It was hinted then that the sale of the property, consisting of guns, equipments, cartridges, &c., in great quantities, was not conducted in a manner sufficiently satisfactory to prove the disinterestedness of Mr. Wetmore. Some information may be gained as to his character from a letter written by A. O. Dayton, Fourth Auditor, in answer to an inquiry of the House of Representatives.—The Auditor says that Mr. Wetmore made regular quarterly returns until the first quarter of 1849. When his account for this quarter was presented, it showed a balance against Mr. Wetmore of $398,698 99. A short time after he presented a number of vouchers for his disbursements, and a new account was stated, in which the balance against him was reduced to $131,590 78. Mr. Wetmore then established an additional claim, and another account was made out by which it appears there is still a balance against Mr. Wetmore of $89,315 54. He has presented a large amount of claims as an offset against this balance, but they have all been rejected. A suit is now pending for the recovery of this sum against Mr. Wetmore and sureties, who have given sufficient security that they will pay whatever sum may be eventually found to be due.

☞ The Gloucester fishing vessels have experienced severe weather of late, and fears are entertained that two of the finest vessels out of that port are lost. They have been absent over three weeks, and it is feared that they were lost in the severe blow that occurred a few weeks ago on Saturday night and Sunday morning. They are the schooners Golden Fleece and C. A. Parkhurst, and are manned by some of the most efficient young men in Gloucester. The hazards of this fishing are very great, and hardly a year passes without the loss of one or more vessels. But still they pursue it with undiminished energy and perseverance.

☞ Speaking of snakes, on Thursday a laborer trimming trees on the banks of Neponset River, Dorchester, Mass., saw a snake concealing itself in a heap of stones imbedded in grass. Soon after he saw another disappear at the same point; his curiosity was aroused; he commenced digging, and dug out of a space 4½ feet in diameter, and 1½ feet in depth, 211 snakes, ranging from 4 to 18 inches in length, and embracing all the different species common to the vicinity, except the rattlesnake. When found, most of them were torpid, but soon gave evidence of locomotive power. Sometimes they were found singly, and sometimes in bunches of half a dozen. The black, green, striped, and brown, and the adder, were found in the most affectionate embrace.—The Boston Journal is responsible for the above.

FRAUDS IN GOLD PIECES.—The Philadelphia Pennsylvanian says a number of bored $10 and $20 pieces are in circulation, having holes first bored through them, and then so nicely filled up as to render detection very difficult; the hole closed by some other metal.

☞ The injuries to Mrs. Mowatt by her recent fall from a horse in Boston, are not so serious as at first apprehended.

Oswego Starch Factory.

We copy the following interesting notice of the Starch Factory of Messrs. Kingsford & Son, of this city, from the N. Y. Tribune.

"One of the most extensive manufacturing establishments in the country is the Starch Factory of Messrs. Thomas Kingsford & Son, at Oswego, N. Y., of which we gave a brief account sometime ago. The ground covered by the building is more than two acres in extent, and the number of persons in Oswego and vicinity attached to the concern, and whose employment depends on it, exceeds two hundred. It was commenced in 1847, and so rapidly has the demand for its products grown, that it has been found necessary to enlarge the works every year since, until they have attained their present magnitude. The past year the establishment has turned out 80,000 boxes of Starch, containing three millions of pounds. In the manufacture of this quantity, 200,000 bushels of grain were used. The Starch is of a very pure and beautiful quality, and received a prize medal at the Great Exhibition in London, last year.—Wherever it has been exhibited in this country it has also taken the first premiums. The New York State Agricultural Society has awarded the Company a gold medal for their *pure* Starch, and a silver medal for their *pulverised corn* Starch, two different articles each excellent in its kind. The establishment and its products afford a striking illustration of successful enterprise and skill."

GRAHAM'S MAGAZINE FOR APRIL.—The April number of this superior Magazine is one of the very best, and contains, as will every number in '52, 112 pages. To those acquainted with the work nothing need be added; those who are not among the number of its readers we would say subscribe for it immediately, and if desired we will forward your names. The Embellishments of the present number are, "Coquettish Seventeen," "The Destruction of Sodom," one of Dainty's new style of Engraving, called by him "Gemograph," "Hunting the Cariboo," "The Forest Fountain," &c. &c., all executed in the best style.

☞ The Maine law has passed the Minnesota Legislature, with a proviso for submitting it to a direct vote of the people. The vote throughout the Territory is to be taken on the first Monday in April, and, if favorable, the Law goes into force the 1st of May. Thus we see the extreme West vieing with the East for the suppression of the greatest scourge that ever afflicted mankind.

PERSIA.—The Prussian Moniteur publishes a telegraphic despatch, dated Trebisond, Feb. 6th, stating that the recently dismissed Grand Vizier of Persia, Mirza-Tagi-Khan, had been put to death by order of the Shah. He was taken to a bath, where several of his veins were opened, and he was suffered to bleed to death. The Government then seized his immense treasure.

☞ Reuben Edmonson better known as "Jack Bowers," the most noted thief in the Mississippi Valley, died in St. Louis on the 4th inst. He was 68 years of age, and stated in a confession which he made just before his death, that he had been arrested 115 times, and incarcerated in various prisons 41 times.

A WESTERN LEGISLATURE.—The Sheboygan Lake Journal makes the following charge against the Wisconsin Legislature now in session at Madison:—"Most of the time of the Legislature has been employed in preferring foolish charges against the State officers, Supreme bench, attending the theatre, and drinking whiskey."

FIRES IN SYRACUSE.—A fire occurred in Syracuse on Monday, which destroyed property to the amount of about $400. Another fire occurred in that city yesterday destroying two buildings valued at about $1200. It also damaged furniture &c., to the amount of about $500.

☞ The Japanese Government have heard of the coming of the American squadron, and have applied to the "Holland Tazal" to repel the invaders. The latter declines.

☞ We are requested to state that the Dress Parade of the "Oswego Guards," which was appointed for to-morrow evening, is postponed, as the Hall is engaged by Gerrit Smith. The Company will meet, however, for the transaction of business.

☞ A Mr. Hickman was recently murdered at Hay River, Wisconsin, by a drunken Chippeway Indian. The murderer was first arrested and then set at large, and all the whiskey in the neighborhood destroyed.

☞ The breach in the dam has been repaired, and the water is almost entirely out of the excavation. We expect to see the work going on to-morrow as actively as ever.

Opening of the Canals.

The Canal Commissioners give notice that the canals of this State will be opened on the 15th of April next.

☞ Mary E. Brown, colored, has been arrested in Prince George's county, Maryland, for poisoning her husband.

☞ Mr. Caleb Maxfield, cabinet maker, lost about $2,000 by the fire in New Bedford, recently. He was insured $1,000.

☞ Col. King, well known throughout the southern country as editor of The Charleston Courier, is dead.

☞ The law against the circulation of foreign small notes in Delaware, goes into operation on the first of May. Penalty $10.

☞ Mons. De Fronrose, the c[...]gler, Ventriloquist and Necroman[...] visit this city in a few days. Lo[...]

MR. EDITOR—SIR.—Seeing an article in the Daily Palladium signed "Fair Play," I deem it just that the people may not be gulled, to give a "fair" and brief statement of the affair.

Taking it for granted that the committee was appointed, and the by-laws revised and presented to the Council for our approval. A motion was made that the by-laws be accepted, and the committee discharged. Before the motion was put Mr. Regan asked whether Mr. Wilson was a member of this Council. The Chief Engineer stated that he was, also Mr. Wilson stated that he was, if not as a representative of No. 5, at least by virtue of his appointment as 2d Engineer. Mr. Regan objected on the ground that Mr. Wilson was not a member of the Fire Department, having been honorably discharged by the Common Council April 9th, 1851.

I, reposing confidence in the Chief Engineer and Secretary, let the matter rest, being assured that the by-laws were not passed, not having a two thirds vote. At the next meeting of the Council the reason of my not voting against the minutes of the previous meeting, was that I did not deem them passed.

The reason that No.'s 1, 2, and 4 did not send delegates is that they also did not consider them passed, and supposed that the next meeting of the department would set the matter right. A few companies sent delegates in pursuance of the new By Laws and elected a Chief and two Assistants, the result of which was brought to the department meeting convening on the same day, and read by the secretary of the department. Motion made and seconded that the report be rejected. The Chief Engineer declared the motion out of order.—Thence's call was made for a division of the house. This also the Chief refused to put, and a motion made to adjourn, was put by the Chief Engineer, and declared by him carried. An appeal from the chai[r was ca]lled for, and a division of the house, which he refused to put, and the Chief and Secretary immediately left.

A MEMBER OF THE COUNCIL.

☞ Louis Napoleon does not appear to be as much in fear of assassination as some supposed. Mr. Walsh writes, on the 26th ult., that on the Friday previous "in the Bois de Boulogne, we met the 'Prince President,' in an elegant open caleche, with four horses, and a few outriders in his very handsome liveries. He appeared on the Boulevards, on Monday last, in the same way, and was abroad the day before yesterday on horseback."

☞ The New York Herald says Mrs. Forrest will be accompanied through the United States by Madame Marguerite, who prepares her for the stage, and by G. G. Foster, who knows how to manage both newspapers and theatricals for her, having been formerly engaged in both lines of business. Vandenhoff also accompanies her, to perform the leading male characters.

THE CORONATION OF THE BLACK EMPEROR OF HAYTI.—This great event in the history of Hayti is to take place on the 11th of April, as we learn by a gentleman just arrived from Port-au-Prince, and not on the 18th of March, as before stated. The ceremony, which will be one of great pomp, will take place in Church. For the festivities which follow, an immense tent is to be erected on the Champ de Mars, back of the palace. Twenty-five thousand troops, and all the dignitaries of the Island are ordered to be present. The English papers claim that Louis Napoleon, in his usurpation in France, was a poor imitator of Soloque in Hayti.

There is a partial resemblance, but taken as a whole, the black man has the advantage. Soloque, as well as Napoleon, had the troops on his side, but while Louis Napoleon imprisoned and scattered the members of the Legislature, and thus usurped supreme power, Soloque by a legal decree of the Senate, was declared Emperor. Both the Haytiens and French are lovers of pomp and show. It remains to be seen whether they will be willing to pay for it.

BOSTON, March 20.

A letter from Hon. Josiah Quincy, Jr. late Treasurer of the Vermont Central Railroad, will appear Monday. He will show that his connection with the Road has been perfectly fair and upright; and will express his willingness to leave the whole subject of his compensation, and the right to use the Company's bonds, to arbitration of disinterested persons.

Great Fire in Cincinnati—Loss $100,000

Cincinnati, March 21.

At 5 o'clock yesterday afternoon the lumber yard of Messrs Stewart & Dunning, including a large amount of lumber, was burnt, together with twenty frame dwelling houses. Loss estimated at $100,000.

SHIP FEVER.—The Governors of the New York Hospital have resolved henceforth not to receive within the walls of that institution any person having ship or typhus fever, from the fact that it is intended as a general hospital for other than contagious disease. The majority of patients admitted to the Hospital [...] accidents or dis[...] and the Governors [...] protecting these [...] ship fever.

CONGRESS.

Washington, March 20th.

Mr. Marshall presented the joint resolutions of California, asking the refunding of certain monies collected therein, prior to her admission into the Union; and for an increase of the District Judges of that State.

By unanimous consent, the time for closing the debate on the Deficiency bill was extended two hours.

The House then went into Committee of the Whole on the State of the Union on the bill for supplying deficiencies in the appropriations for the present fiscal year.

Mr. Johnson of Arkansas made explanations as to the items for the support of the Indian Department, and complained that the Committee of Ways and Means have rejected one half of them.

Mr. Brooks, of New York, defended the bill, contending that it is the duty of Congress to scan the estimates, and when Congress votes for and adopts them, then Congress is responsible, as well as the Executive, for the estimates, which are best, but guesses a year or eighteen months ahead.

The Committee arose, and the House adjourned.

Further from Texas.

New Orleans, March 16.

The capture of Carvajal, by Gen. Harney, is confirmed by letters brought by the steamship Louisiana, from Galveston. Consequently, the Sierra Madre revolution is at an end for the present.

Indian depredations in Texas are reported to be of the most alarming character, and the Texas papers urge that unless Government speedily interfere to check them, irreparable damage to life and property must ensue.

Much excitement existed at Brownsville growing out of an assault upon the Editor of the *Flag*, by Col. Wheat, for some remarks made by the former in his paper, unfavorable to the latter.

Later from Buenos Ayres—Defeat and Flight of Rosas.

We have received Rio papers of 10th Feb., which announce the defeat of Rosas, by the allied forces of Brazil and the revolted provinces of the confederation.

Urquiza had taken up his quarters at Palermo, the country seat of Rosas.

The combat was bloody, resulting in a loss on both sides of 4000 lives. The date and place of the battle are not given.

Rosas and his daughter had taken refuge on board an English steamer.

The news reached Rio just as the steamer for Pernambuco, which brought this intelligence left that port.—*Journal of Commerce.*

☞ Parson Green is still in the habit sometimes of drawing upon a barrel of sermons bequeathed him by his father, who was also a minister. Upon one occasion he got hold of a sermon by mistake, which the old gentleman had once preached to the State Prison convicts.—It opened well, and the congregation were becoming very deeply interested, when all at once the parson surprised them with the information, that "had it not been for the clemency of the Governor every one of them would have been hung a long time ago!"—*Newport News.*

Erie, March 22—7 P. M.

The steamer Ocean left her dock at 5 this P. M. She is a few rods outside of the lighthouse at present. The ice detains her and it is thought she will have to put back. She has a large load of passengers.

The Caspian has not been here. Some boat came in sight this P. M. but not near enough to distinguish what boat it was.

LEGISLATIVE.—In the Legislature yesterday no business of importance was transacted.

MARRIED

In Watertown, Jeff. co., on the 22d inst. by Rev. Mr. ——, Mr. CYRUS E. STONE, of this city, to Miss SUSAN PHILLIPS, of the former place.

THE MA NE LAW.

Public Meeting at City Hall.

GERRIT SMITH, Esq.,

Will address the citizens of Oswego on Thursday Evening, 25th inst., at 7 o'clock, in the CITY HALL, on the subject of the "Maine Law," and with reference to the prohibition of the sale of intoxicating drinks.

Oswego, March 24, 1852.

NOTICE.

OSWEGO BOARD OF TRADE.—There will be a meeting of the Members of the Board on Friday afternoon March 26th, at 3 o'clock; a full attendance is requested on important business. R. C. LITTLEJOHN, President. March 22

☞ The most wonderful medicine which has ever appeared, is Dr. E. A. Weaver's Canker and Salt Rheum Syrup, with the Cerate, which is advertised in another column. It is the production of regularly educated Physicians, and never fails of curing all diseases of the blood, if faithfully persevered in.

NOTICE.

Dr. Van Denburgh having closed for the winter his duties at the New York Dental College, will hereafter be in constant attendance at his office.

Oswego, March 17, 1852.

PERRY & VAN DYCK.
FORWARDING AGENTS AND
Commission Merchants of Lumber & Produce.
ROBERT PERRY. OSWEGO, N. Y.
HENRY S. VAN DYCK. feb 27

Dr. CHARLES C. P. CLARK,
PHYSICIAN AND SURGEON,
OSWEGO HOTEL.

Inflamatory Rheumatic Annihilator, or Mountain Indian Liniment.

THIS Medicine will cure the very worst cases of INFLAMATORY RHEUMATISM, without fail, if applied before the disease becomes seated in the system, and is the most effectual in cases of long standing of any other. It is warranted to cure if applied according to directions. It is also successfully used by Physicians in the cure of all other forms of Muscular and Nervous diseases.
March 20 For sale by D. K. DAVIS.

REMOVAL.
THE subscriber has removed his provision store to No. 6, First street, a few doors north of Bridge st., where he will be happy to supply old and new customers with all articles in the line of
GROCERIES AND PROVISIONS.
March 23, '52 D. K. DAVIS.

Zinc Paint—Warranted Pure.
THE New Jersey Zinc Co.—Warehouse, 44 Dey Street, New York—furnish their Zinc Paint at the following prices:—
No. 1, White, ground in oil, 9 cents per lb.
No. 2, White, ground in oil, 8 cents per lb.
No. 3, White, ground in oil, 7 cents per lb.
Brown and Black, ground in oil, 5½ cents per lb.
Dry White of Zinc, 6 cents per lb.
Their WHITE ZINC PAINT—equal weight—covers, according to surface, from 40 to 100 per cent more surface than any other Paint; retains its whiteness, brilliancy, and protective qualities for years; is free from the poisons so dangerous in other pigments, to painters and free tenants of newly painted rooms, and resists the sulphurous coal gases, and foul air of ships, and, as outside or inside Paint, does not tarnish or become yellow. Ground in varnish it forms a beautiful porcelain finish. The French government has adopted Zinc Paint for all its uses.
The Brown and Black Zinc Paints form directly a solid metallic coating on wood, brick, iron, &c., admirable for fire-proof qualities. They are unrivaled for rail cars, depots, engines, etc. For marine uses they resist the corroding of salt water and weather, so fatal to other paints. Dealers supplied on liberal terms, by MANNING & SQUIER, Agents.
March 23-3m 44 Dey street, New York.

CITY BOOKSTORE.
