SOMETHING NEW FOR FALL AND WINTER USE.

AS the seasons change, so must we, in order to keep up with the comforts of the age. The article I wish to draw your attention to, is

FELTED COTTON FOR MATTRASSES, PILLOWS AND CUSHIONS.

It has been thoroughly tested in Public Houses and Sea Steamers, and said to answer a better purpose than most other articles, for the reason that it does not cheapen, and does not mat like cotton before it is felted. It is to be had at the

City Upholstery, 150 West First Street Up stairs.

Where all the Wire Spring and other mattresses are to be had. Also Sheets, Pillows and Cases, Comforters, Blankets, Counterpanes, Towels, Table-cloths, Damasks for Curtains, Lounges and Lounge Cushions and pillows, Curtain Cord and Tassels, and Shade &c. ☞ Curtains, Shades and Cornishes hung, and Carpets made and put down on the shortest notice. Church trimming, and upholstered furniture repaired and trimmed anew. Hair mattresses picked up and made over as good as new.

Oswego, Oct. 13. A. H. WILLIAMS.

FRUIT AND ORNAMENTAL TREES Shrubs, &c.

THIS is the proper time to commence an annual planting of Trees and Shrubs. The proprietor of the OSWEGO NURSERY would notify the public that, for their convenience as well as his own, he has built an office and enclosed a large plat of ground, at the corner of E. First and Utica streets, where he is now setting, temporarily for sale, a general assortment of Trees, Shrubs, and everything pertaining to a general Nursery stock. Gentlemen from abroad will find him there and Tree Depot, directly on their walk from the Railroad Depot to the steamboat landing on the east side of the river, and he would claim with great confidence, both from theory and experience, that his trees are more valuable for our gardens and orchards, as well as all northern localities, than those grown in any nursery in western New York. In this city he will need trees to any points ordered, and men to set them, and gives a written guarantee that the shall live for one year, and bear the varieties of fruit that they are labelled, for a reasonable compensation being paid for labor and risk. He has a large stock of both dwarf and standard trees in a bearing state. J. W. P. ALLEN.

The Globe:

THE OFFICIAL PAPER OF CONGRESS.

And Newspaper for the People.

It will be seen by the annexed extract from a letter of Gen. Washington to David Stewart, dated New York, 17th March, 1790, that the idea of such a paper as I propose to make the Globe originated in the mind of the Father of his country. He said:

"It is to be lamented that the editors of the different Gazettes in the Union do not more generally and more correctly (instead of stuffing their papers with scurrility and nonsensical declamation, which few would read if they were apprized of the contents) publish the debates in Congress on all great national questions. The principles upon which the difference of opinion arises, as well as the decisions, would then come fully before the public, and afford the best data for its judgment."—Sparks' Writings of Washington, vol. 10, p. 84.

THE DAILY GLOBE AND THE CONGRESSIONAL GLOBE.

In surrendering my interest in the organ of a great political party, I cherished the purpose of continuing the Congressional Globe, and, if possible, to make it a perfect history of the action of Congress, giving the debates accurately and fully with the proceedings—all stamped with the verity of an official record. From the passage to the letter of General Washington which I have quoted, it will be perceived that he thought this office might be combined with that of a regular newspaper, and it is certain that the ability of the public for news of the day has important [illegible] which may be called Congressional news.

Having succeeded in my purpose of perfecting the reports of the debates in Congress, and giving them the official stamp, I now propose to send them abroad, in connection with the news of the day, in such numbers as shall outstrip all and accurate intelligence sent from the seat of Government in any other form whatever. It will even anticipate the scraps of news forwarded to cities within two hundred and fifty miles of Washington by telegraph. Before the events thus transmitted are published in the morning papers, for instance, of the city of New York, the Globe containing them will have reached the post office of that city by the Express Mail of the previous night. The process by which this will be effected I now lay before the public.

[illegible] I will have a corps of sixteen Reporters in Congress, each in succession will take notes during five minutes, then retire, prepare them for the Press, put them slip by slip in the hands of compositors, and thus, while a debate is going on in Congress, it will be put in type, and in a few minutes after it is ended it will be in print. I shall by this means be enabled to send by the Express Mail of 5 o'clock p. m. for the East, West, and North, and by that of 9 o'clock p. m. for the South, all the proceedings of Congress up to the ordinary hour of adjournment. Thus the accurate debates of Congress will reach the cities two hundred and fifty miles from the Capitol before their daily morning papers are in circulation.

The miscellaneous news I shall be careful to gather from remote sections of the country by telegraph. I will obtain from the Executive Departments, their official notices the matters of moment transacted in them, and, through agents employed for the purpose, all the city news of consequence in sufficient time to be put into the Globe and mailed in the Express Mail trains. In this way I hope to create a new era in the dissemination of news from Washington. Hitherto no newspaper has attempted to give authentic accounts of things done at Washington before the public mind of a distance had received its first impressions from irresponsible telegraphic dispatches, or by peculiar views.

Washington has now become so great a centre of political interest during all the year—the proceedings of the Executive Departments and the information collected by them even during the recess of Congress is of so much importance to the interests of every section of the country—that I shall continue the publication of the daily paper permanently, with a view to become the vehicle of the earliest and most correct intelligence.

It is part of my plan to reduce the price of the daily paper to half that of similar daily papers; and thus I hope to extend the circulation so as to invite advertisements. I will publish advertisements of the Government. To subscribers in the cities I hope to submit such terms as will induce them to advertise their business in every village throughout the Union, where the Globe is sent daily under the franks of members of Congress, all of whom take it, and some of them a large number of copies.

The installation of a new Administration and a new Congress portends much change in the course of public affairs as the result of the next session. Many vast interests which were brought up in the last Congress were laid over by the Democratic majority to await the action of a Democratic Executive. The new modelling of the tariff; the new land system; the question of giving homesteads, and making every man a freeholder who may choose to become one; the appropriation of the Atlantic and Pacific oceans by a national railroad across the territory of the Union; reform in the Army, Navy, and civil offices—all these great questions, with a thousand minor ones deeply affecting multitudes of men and every State in the Union, will, now being matured by public opinion, come up for the Government's decision. These new issues, co-operating with old ones, coming up to be disposed of by the new actors on the scene at Washington, will be apt to modify greatly, if not alter essentially, the party organization of the country.

To these elements of interest another is likely to be introduced by the interposition of the agitations in Europe. After nearly forty years of peace in Europe, there is an evident tendency [illegible] with tendencies, threatening wars, and if war comes in all likelihood there will follow such universal change that the United States cannot hope to escape its vortex. Indeed, free from the events, it is apparent that our Government is already drawn into European difficulties. These circumstances are calculated to draw the public mind towards the next Congress with much expectation.

The DAILY GLOBE will be printed on fine paper, double royal size, with small type, (brevier and nonpareil), at five dollars a year.

The CONGRESSIONAL GLOBE will also be printed on a double royal sheet, in book form, royal quarto size, each number containing sixteen pages. The Congressional Globe proper will be made up of the proceedings of Congress and the running debates as given by the Reporters. The speeches which the members may choose to write out themselves will, together with the messages of the President of the United States, the reports of the Executive Departments, and the laws passed by Congress, be added in an Appendix. Formerly I received subscriptions for the Congressional Globe and Appendix separately. But this has not been found satisfactory, inasmuch as it gave, in incomplete view of the transactions in Congress, and therefore I have concluded not to sell them apart, considering that neighbors can have the advantage of both by clubbing in case individuals shall find it too onerous to be at the charge of both.

To facilitate the circulation of the Congressional Globe and Appendix to subscribers, Congress passed last year a joint resolution making it free of postage. I annex it, as the law may not be accessible to postmasters generally:

Joint Resolution providing for the distribution of the Laws of Congress and the Debates thereon.

With a view to the cheap circulation of the laws of Congress and the debates contributing to the true interpretation thereof, and to make free the communication between the representative and constituent bodies:

Be it resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That from and after the present session of Congress, the Congressional Globe and Appendix, which contains the laws and the debates thereon, shall pass free through the mails so long as the same shall be published by order of Congress; Provided, That nothing herein shall be construed to authorize the circulation of the Daily Globe free of postage.

Approved, Aug. 6, 1852.

As I sell the Daily Globe at half the price of similar publications, so the Congressional Globe and Appendix is sold for half the cost, of so much as composition, press work, and paper. This I can afford to do, inasmuch as the subscription of Congress almost covers the cost of composition, and this enables me to sell for little more than the cost of press work and paper. It requires the sale of about 8,000 copies to reimburse expenses. If 20,000 copies were sold, the cost of each copy would be about $10! The debates in the English Parliament cost about seven times as much as I charge subscribers for the debates in Congress, equal in quantity, and as well reported and printed.

The next session of Congress will be a long one, and it is believed the Congressional Globe for it will reach 4,000 royal quarto pages, as the last long session made 3,937, and the long one before that made 3,907 royal quarto pages—four large volumes each session. If subscribers will be careful to file all the numbers received by them, I will supply any that may miscarry in the mails. This work increases in value as it grows old. The first seventeen volumes will now command three times, and some of the subsequent ones twice, their original subscription price.

The subscription price for the Congressional Globe (including the Appendix and the Laws) is six dollars.

Complete indexes will be made out and forwarded to subscribers soon after the session is ended.

Subscriptions for the Daily should have their money here by the 5th, and for the Congressional Globe by the 15th of December. The money must accompany an order for either the Daily or the Congressional Globe. Bank notes current where a subscriber resides will be received at par.

JOHN C. RIVES.

WASHINGTON, October, 1853.

THE BOARD OF SUPERVISORS OF OSWEGO COUNTY at their Annual Session held in the city of Oswego, in Nov. 1851, passed the following Resolution:

Resolved, That hereafter the accounts of Justices of the Peace, Constables, Sheriffs, Jailors, or any other officer will be audited, or allowed by the Board of Supervisors of this county, unless the bills presented are made in accordance with this statute. The charges against the county and [illegible] and distinct from each other, [illegible] whom crimes or misdemeanors were committed, the crime charged to the persons, by whom warrants and all other process were issued, stating the name of the town where the offence was committed with each item in the account properly dated.

That no accounts for services rendered, or materials furnished by order of the Superintendent of Jails and Court Houses, or any other officer of this county, will be audited or allowed by said Board, unless properly verified by such officer as correct.

That the Board of Supervisors at their Annual Session, will not receive any account to be audited by said Board, after the fourth day of the regular Session thereof.

For the purpose of enabling Justices of the Peace, Constables, Sheriffs and others having accounts against the county to comply with the Statute, their attention is called to the 2nd section of the Act in relation to Town and County expenses, passed May 10th, 1845, as amended in 1847, which directs that the fees of Magistrates and other officers for criminal proceedings, shall be charged to the town where the offence was committed, except in cases of felonies and, except the cost made after the defendants are bound over or committed, and the cases made in the Court of Oyer and Terminer and Sessions which is chargeable to the county.

A Justice of the Peace residing in another Town, from where the offence was committed, has jurisdiction to issue a warrant and try the same, but can have no fees for the same, except for the issuing of the warrant, and any Justice of the Peace is allowed a fee for issuing a warrant for assault and battery. HOLLOWAY'S OINTMENT.

Astonishing Cure of Bad Legs, of 43 years' suffering.

Extract of a Letter from Mr. William Galpin, of 70 St. Mary's Street, Weymouth, dated May 15, 1851.

To Professor Holloway,

SIR—At the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely and the state of her legs was terrible. I had often read your Advertisements, and advised her to try your Pills and Ointment; and as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and strange to relate, is now in good health. Her legs are painless, without seam or scar, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow-creature.

(Signed) WILLIAM GALPIN.

A person 70 years of age Cured of a Bad Leg, of Thirty years' standing.

Copy of a letter from Mr. William Abbs, Builder of Gas Ovens, of Rushcliffe, near Huddersfield, dated May 31, 1851.

To Professor Holloway,

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works, accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated, yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr. W. P. England, Chemist, 13, Market street Huddersfield.

A Dreadful Breast Cured in One Month

Extract of a letter from Mr. Frederick Turner, of Penshurst, Kent, dated December 13th, 1850.

To Professor Holloway,

DEAR SIR,—My wife had suffered from Bad Breasts for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends.

(Signed) FREDERICK TURNER.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs,	Chiego-foot,	Fistulas,
Bad Breasts,	Chilblains,	Gout,
Burns,	Chapped Hands,	
Skin diseases,	Bunions,	
Glandular Swellings,	Scurvy,	Lumbago,
	Corns (Soft,)	
Sore Heads,	Bite of Mos-chetoes and Sand Flies,	Cancers,
Piles,		Tumors,
Sore Throats,		Contracted and Stiff Joints,
Rheumatism,	Ulcers,	
Scalds,	Wounds,	Coco bay,
Elephantiasis,	Sore Nipples,	Yaws.

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; and by all respectable Druggists and Dealers in Medicines throughout the British Empire, and of those of the United States, in Pots at 37½ cents, 87 cents and $1 50 each. Wholesale by the principal Druggists in the Union, and by Messrs. A. B. & D. Sands, New York.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot.

Professor Alex. C. Barry's Tricopherous —A New Volume of Front Opened.

Heretofore, Prof. Barry in his communications with the public through the press, has confined himself mainly to scientific descriptions of the various operations by which his TRICOPHEROUS produces such wonderful effects upon the Hair, Skin, and the Muscular system. It now occurs to him that the wonderful operation of the article as a means of cleansing, renovating, preserving, and beautifying the Hair, and of curing cutaneous diseases, Cuts, Bites, and all irritations of the Skin, being known throughout the Continent of America, and the rest of the civilized world, it may be well to exhibit the statistical proofs of its popularity. They constitute a chapter in the history of articles of personal use entirely unparalleled. The following account of sales for the past year at the depot and manufactory of Barry's Tricopherous will show

Average Wholesale per Day—Twenty gross, or two thousand and eight hundred and eighty-eight bottles.

Average Receipts per Day—Three hundred dollars, at wholesale and retail.

Number of Bottles sold in the Year—Six thousand two hundred and [illegible] gross, or nine hundred and thirty [illegible] hundred and [illegible] bottles.

Total Receipts for the year—Ninety-three thousand six hundred dollars.

Be it remembered, that this immense amount is derived from a preparation selling at 25 cents per large bottle retail, and a considerable reduction on that price wholesale. For sale wholesale and retail, at No. 137 Broadway, and by the principal merchants and druggists, throughout the United States, Mexico, West Indies, Great Britain, France, &c. Also by J. S. HOLLOWAY'S PILLS.

Cure of a Disordered Liver and bad Digestion.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, 7, Prescot st., Liverpool, dated 6th June, 1851.

To Professor Holloway:

SIR—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion.

An Extraordinary Cure of Rheumatic Fever, in Van Dieman's Land.

Copy of a Letter inserted in the Hobart Town Courier, of the 1st March, 1851, by Major J. Walch.

Margaret M'Connigan, nineteen years of age, residing at New Town, had been suffering from a violent rheumatic fever for upwards of two months, which had entirely deprived her of the use of her limbs; during this period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless. A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and in an incredibly short space of time they effected a perfect cure.

Cure of a Pain and Tightness in the Chest and Stomach of a person Eighty-four years of Age.

From Messrs. Thew & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement.—August 2nd, 1851.

To Professor Holloway,

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtue. I am now rendered, by their means, comparatively active, and can take exercise without inconvenience or pain, which I could not do before.

(Signed.) HENRY COE, North Street, Lynn, Norfolk.

PRIVATE AND CONFIDENTIAL.

To whom it may concern; To the Intelligent; the Thoughtful; the Philanthropic. Your earnest attention is respectfully invited to the following advertisement of a New, Original, Peculiar, and very Important Work.

A Pocket Volume, 12mo. of 400 pages, Illustrated by nearly One Hundred Engravings.

ENTITLED

Esoteric Anthropology

BY T. L. NICHOLS, M. D.,

Principal of the American Hydropathic Institute, Educational and Therapeutical, at Port Chester, N. Y., one hour's distance from New York City, on the New York and New Haven Railroad.

A Comprehensive and Confidential Treatise on the Structure, Functions, Passional Attractions and Perversions, True and False Physical and Social Conditions, and the most Intimate relations of Men and Women.

The title, Esoteric Anthropology, will seem strange to many, but it is thoroughly appropriate. Anthropology is from Anthropos and Logos, a description. Esoteric from Eso, within, signifies private, secret, interior, and was used by the ancient philosophers to distinguish their private letters, given to the interiors, the initiated, upon the sacred mysteries of science and philosophy, to their chosen disciples, from their Exoteric discourses, which were given to the public. Esoteric Anthropology is, therefore, a private treatise on Human Anatomy, Physiology, Pathology, Therapeutics and Unisetics—on the whole science of man—plain in language, full and faithful in illustration, and written in all the frankness of a private letter, under the seal of professional confidence. It contains the highest and deepest truths in every department of Human Physiology, with their individual and social application; the true nature and hidden causes of Disease; the conditions of Health, physical and passional; all that information which every human being needs, which few dare ask for, no know how to obtain, but which, amid the disorderance and depravities of civilization, is of priceless value.

There are many subjects connected with the broad science of Human Life, of the deepest and most vital interest to man and the race, in regard to which a terrible ignorance everywhere prevails; an ignorance which is destroying the health, shortening the lives, and sacrificing the happiness of millions—which threatens the power of nations, and the perpetuity of races.

Professional works on Physiology are dry, mechanical, or chemical, astonishingly ignorant, as well as technically incomprehensible. The popular works are superficial, meager, and necessarily wanting in the most important matters. The quack books are full of errors, false in science, absurd in philosophy, mischievous in morals, and basely mercenary in their motives. In most cases those books are the advertising mediums of some specious charlatan, who snares patients, or lures of commissions, or who has some instrument to sell, or some nostrum to palm off upon the credulous.

The world has need of a very different book from any of these—such a book has never been written, and as can not now be published in the usual way, sold by booksellers, and hawked by agents or peddlers. The author of Esoteric Anthropology, a Teacher, a Physician, a public and private Lecturer on all branches of Medical Science, has written this book with a frankness he could never have used in a work for the public or the class to civilians. It is for his pupils and patients, for intelligent men and women who wish to understand the deepest mysteries of life; especially is it for the nobleminded twenty few, who are brave enough to examine and accept new truths, and wise enough to profit by them. There can scarcely be any important question which any man or woman can ever need to ask a physician, to which this volume does not contain an answer. It is so complete in this respect, that the author hopes and believes that no one who reads it will ever need to trouble him with a professional consultation—as it is henceforth his chosen method of medical instruction and practice, and in it he has performed the duty he owes to mankind as a teacher of the sick, a preserver of health, and a teacher of the Laws of Life.

Among the subjects treated of in this work, are the following: Man, and his relations to the Spiritual and Material Universe; Human Anatomy; The Chemistry of Man; Principles of Physiology and the Active Powers of Nature; The Three Groups of Functions, Organic, Animal, and Generative; The whole Physiology and Processes of Reproduction; The True Law of Marriage; The Conditions of Health; Causes of Disease; Curative Agencies; Processes of Water-cure; Diseases and Treatment; Passional Diseases; 30 chapters of the General system; Brain and Nerves; Respiration; Digestion; Generation; Gestation and Parturition; Lactation and the management of infancy, &c. etc., including every important condition and process from the beginning to the close of life, constituting a complete—

1. A clear and ample illustrated view of the structure of the body, and all its complex organism, male and female.

2. A full account of the functions of life, with such illustrated description of the evolution of the human race as has not before been given.

3. All that is known of health and disease, with the means for the preservation of the former, and the cure of the latter.

4. [illegible] of the whole process of gestation and childbirth, as will enable every woman to dispense with the services of a physician or [illegible]

Esoteric Anthropology is plain and simple language, will be illustrated, as comprehensive as the utmost any reader can wish, and without one line of quackery, or the remotest hinting of a fee.

It must be evident that such a book, written with the scientific freedom, and illustrated with fullness, must not be preferred. It is not for the counter, the book-stall, the library shelf, or the centre table. It is not to be offered for curious examination, nor urge upon those who can not appreciate its value. It is a desire that every one who needs it may obtain it, if he will. Whether the social properties be true or false the author can not violate them, and he feels compelled to keep this book truly esoteric, a private work, to be sent as a confidential manner to a professional consultation. And he trusts that no person will not apply for it who will not make it a point of honor to so consider it.

To all such persons it will be sent BY MAIL, to any designated address, POST-PAID, on the receipt of One Dollar, and three of postage, by T. L. NICHOLS, M. D., Portchester, N. Y. [illegible]
