

**Dawn Wood Holmes and James Lyboldt Wed at First Methodist Church**

Mrs. Dawn Wood Holmes, daughter of Mr. and Mrs. Leon F. Wood of 12 Van Buren St. and James Edward Lyboldt, son of Mr. and Mrs. Clifford R. Lyboldt of 720 W. First St., were married at 2 p.m. Saturday in a double ring ceremony in First Methodist church.

The wedding was performed by Rev. J. Harold Riggle, pastor, with the bride given in marriage by her father.

The bride wore a champagne chantilly lace ballerina length gown over taffeta and tulle. The gown was of semi-fitted bodice with full shirred scalloped skirt, long fitted sleeves and bateau neckline. The headpiece was of imported velvet with flowers trimmed with seed pearls. The bride carried a bouquet of three cattleya orchids with boxwood.

Miss Jean Wood, sister of the bride, was maid of honor with Clifford Lyboldt acting as his son's best man. Ushers were Frank E. Fox, 3rd, Howard Lyboldt, Jr., cousin of the bridegroom, Robert Stormes and Lloyd Fry.

A reception followed the wedding in the Chamber of Commerce with Mr. and Mrs. Lyboldt later leaving on a wedding trip through the southern states. Mr. Lyboldt is a salesman for the Palmer Granite garage.

**ALL KINDS OF COMMERCIAL PRINTING AT THE FULTON PATRIOT**

**FASHIONS AROUND FULTON**

Lighter prints are very hot in the casual clothes line. Cotton finished like silk is a leading fabric. In fact, this coming spring and summer will find cotton as the leading fabric. There are so many different new textures of cotton that they never become dull or tiresome. Also, there is no cooler fabric known.

If you are handy with knitting needles, you can be the smartest looking woman around. The knitted coat has been an important item in the fashion picture for the past two seasons. The latest look for the knitted coat is away from sweater lines, popular during fall and winter, and more to coat lines. A great many knitted coats look like fabric coats except for the distinctive way they hang.

Hulett's Yarn Nook, 121 Cayuga St., carries exclusively in Fulton, the Bear and Bernat yarns in a wide assortment of colors in 3 and 4 ply, also Shetland and Cuddlespun. Hulett's is such a friendly place for shopping. You will also find a full line of books for knitting and crocheting, as well as complete supplies for the knitter. Looking ahead to beach

wear, we see the change in line. Knitted cotton pullovers, in bold stripe patterns worn over crisp shorts or to the ankle pants will again be a dominant sight. The computer top nothing more or less than a knitted cotton turtleneck worn in by elastic over matching shorts may do something for some girls.

The two-piece swim suit will make a comeback. The mailot will be worn by the girls with the figures for it. Just remember that the mailot calls attention to any figure fault while playing up the figure's good points.

The draped suit is seen in all the collections. This is the most flattering to the figure and looks good on all figure types.

Play shoes that are not Italian imports are likely to be copied from Italian designs. The new shoes are flattering to foot and leg and at the same time give you comfort plus.

The classic white wool coat is a beautiful way to welcome spring. The most interesting coats for the coming season are uncluttered, with much thought put on cut and drape rather than bits of trim.

**Food Sense—Not Nonsense**

**Keep a Weather Eye on Appetite**

Doctors keep a weather eye on your appetite just as a fisherman watches his barometer. For doctors recognize the ups and downs of appetite as a barometric reading to predict health. When the appetite barometer falls, they are alerted for storm warnings of poor health. Through research, they know there exists an appetite reading for a climate of good health.

Researchers say that drastically restricting food to the point of near starvation results in an almost complete loss of appetite. Although appetite may cease to be a nagging nuisance, drastic reducing regimens cannot provide the nutrients they need. Even dieters on well balanced reducing diets often find that they do not lose as rapidly as they would like, because the body adjusts to less food and conserves its energy when calories are restricted.

Keeping a steady appetite reading on a safe, no-nuisance level is under your control: If you keep physically active, chances are that your appetite will match the food you eat. To be sure you get the essential nutrients you need, nutritionists advise that you eat minimum amounts of these foods daily:

- Four servings of enriched or whole grain bread and cereal
- Four servings of fruit or vegetable
- Four ounces of meat, fish, eggs, poultry, or dry beans or peas
- Two servings of milk or cheese

**He Also Ran?** The husband did some fast thinking. "Why, that's the name of a horse my boss gave me a tip on yesterday," he said with an air of injured innocence. "Oh yeah?" she screamed... "Well, your horse called up and asked for you this afternoon!"
