News from Towpath Towers

Edith Tompkins and Helen Abbott recently spent an afternoon with friends at St. Luke's in Oswego.

Tuesday evening I attended the annual dinner of the Marine Midland Bank Quarter Century Club. Failed to ask how many were there but the Onondaga Room at the Onondaga Country Club in Fayetteville was filled with tables. 14 employees became new members. One was Harry Lathrop's niece, Wilma Jones Jerrett, of the Oswego office who reached the 25 year mark and also retired. Jim Ingamells who started with us here in Fulton and left to go to the computer center in North Syracuse and then Buffalo has been transferred back to Syracuse and it was my pleasure to be seated side of him for dinner. They will be residing near Fulton on Route 48. It must be great to come back home.

Wednesday noon I attended the monthly meeting of Holy Family Golden Age Club. Following noon Mass, 63 ladies and 3 men drove to Mexico for luncheon at the Eis House. It was a beautiful day for a ride, the glass dining room was beautiful and the food excellent.

Angie Fichera had to miss it as she was entertaining her niece and husband from California, Mr. and Mrs. Nunzio Arcidiacono.

There were 45 at coffee hour last week for our day of music. Ernie and Mary Hamer and Marion Poulakis brought with them a new singer, Al Wygant. Helen Abbott was also a guest. Mary plays the piano and all join in singing. We also enjoyed solos: Marion sang "It is No Secret What God Can Do," Ernie sang "I Love You Truly," and Al sang "Daddy's Little Girl." We look forward to our music day the second Wednesday of each month and glad to welcome a new guest singer.

9 attended Bible study class last week with Pat Guerrara, representing Holy Family Church, as leader.

March of Dimes march planned

This year marks the 50th anniversary of the March of Dimes. More than 8,000 volunteer marchers will call on an estimated 160,000 homes in the North Central New York area in the January Mothers March campaign to improve the health of America's children.

All HairCrafter locations have agreed to assist in recruitment of volunteers for the Mothers March door to door campaign. The Mothers March is the March of Dimes special and personalized way of reaching into every neighborhood to ask for help in our battle against birth defects. Great progress has been made, with the conquest of polio efforts turned to the fight against birth defects.

Money collected during the Mothers March helps support programs in birth defects research, medical services and education. HairCrafters has joined in the fight against birth defects and they urge you to volunteer for the January Mothers March in your community. Anyone interested please call 455-2451 at the North Central Chapter of the March of Dimes.

Halloween is tough on pets

To The Patriot:

Halloween is one of the best holidays for kids, but it can be hard on pets if you don't take precautions.

The best way to keep your pet safe is to keep it at home. Wandering pets can be spooked by noisy groups, and might end up running so far from home that they couldn't find their way back.

Keep pets confined away from the door. You may open the door many times during Halloween evening, providing tempting opportunities for your pet to slip out, unescorted. Pets are calmer, too, if kept away from the door. Dogs in particular may resent the endless intrusions of strangers into their territory, and become very anxious, which could lead to growling at the children, or worse.

If you have a black cat, you have a special problem. The mythology about black cats being related to witches can lead strange people to do strange things to them. Even kids who mean no harm may yell when they see a black cat, scaring the cat more than the cat is scaring them.

If you find yourself with a house full of candy, don't feel you must share it with your pet. Be particularly careful about feeding dogs chocolate. It contains a stimulant called theobromine which can make dogs very ill, and could even cause death if too much is eaten. If you want to treat your pets, stock up on dog biscuits or catnip--treats with no tricks attached.

Candidate receives support

To The Patriot:

And the people of Fulton:

I am writing this letter in support of the candidacy of Gene Tenery for the office of alderman of the fifth ward. I have had the pleasure of working closely with Gene on several projects and am impressed with his imagination and attention to detail in these projects. He has displayed a real caring for his city and the people in it. He has done the necessary homework to inform himself of the pros and cons of several important issues, and demonstrated to me the willingness to tackle tough issues and make independent decisions based on his own perceptions of the situation.

Fulton could not do much better than to have the talents and energies of Gene Tenery on the City Council. He deserves the consideration and vote of the citizens of the fifth ward.

Mike Martin-Schroeder

Time for someone new

To The Patriot:

Several of us were talking recently about candidate Burleigh's lawn signs with the slogan, "The Time is Right." We wonder what does this mean?

Does it mean it is right for him to run for mayor as he recently retired from Niagara Mohawk? Or does it mean it is right for him to get into politics again? It looks to us as if it may be right for him, but what about us, the taxpayers? Let's not repeat the mistakes of the past.

We think it is the right time for somebody new, with different ideas and somebody that will listen to you and me. The time is right for Muriel Allerton. We have had enough of the reckless spending of our money by the old guard. Vote for her on election day.

Janet L. Scott

One vote doesn't count

To The Patriot:

We are represented by six legislators in the Oswego County Legislature, one for every ward in Fulton. Most of them are unopposed this time. And that's okay. These legislators are hard working and dedicated. However, I've yet to find out what a legislator does to represent his home town, and what does Fulton receive from Oswego County other than the usual social services, road care and trash burning and dumping, all services that are open to everyone else in the county. So what I really mean is what extras are we getting here, or is Fulton an orphan? If so, why is it?

I especially wonder about this when I read of the help given to the Town of Schroeppel with the Sand Ridge aquifer study under way. Now don't get me wrong, I'm all for it. Any study done for environmental preventive medicine is good. But what about special services such as the paving done in the Palermo park? Who paid for that? And who voted to get it done?

As I raise these questions, I admit I do it with envy. This is examplified when I watch TV and see what's happening in Onondaga County. For one thing, their county health commissioner is a bonafide medical doctor. He seems to be genuinely interested in his people and their environmental concerns and wherever there's a trouble spot, he's johnny on the spot. Not so in Oswego County. What we've gotten so far is a lot of political rhetoric and a bunch of money wasting baloney. Take the health survey done in the Town of Granby around the Clothier Site for example. I believe it cost somewhere in the neighborhood of $25,000. But it showed nothing and told nothing. What a waste.

The statements that came out said, in effect that no concrete evidence was found to conclude that the Site had any serious health implications and if it did, the county could do nothing about it anyway! It was a joke on the Town of Granby, on its rural and industrialized poor.

And what about Fulton's water woes. Where's the study and/or the help we've asked for and needed? Fulton is clearly an orphan child, a second hand cousin to nobody.

So, voters, when you go to the polls on election day on November 3, don't bother to pull down the lever of your candidate of your choice for county legislator. It won't matter anyhow. He's probably unopposed anyway. And besides, as one of them once told me in a letter, and I quote from it: "I singularly, as a county legislator, can do nothing."

My reply to him was that his statement was like telling me my one vote doesn't count at election time. And so it won't.
