It is the announced purpose of the war department to draw fighting men from this class of registrants.

Something is wrong with the management of public affairs in this country. Canada has plenty of sugar, coal and bread; the reason they have coal is that in 1917 early they paid \$10.50 a ton for it, and the coal men rushed all the surplus coal to Canada. But the sugar and bread conditions will stand explanation. Also in the west and northwest sugar is plentiful at 8 1/2 c and here it is scarce at 10c.

The chamber of commerce has received a request from Secretary McAdoo, the new director general of railroads, to assist in every manner possible in the immediate unloading of freight cars in the Fulton railroad yards, so as not to hinder the shipment of fuel, food and other necessities. TEACHERS AND LOCAL OPTION

The Oswego Palladium publishes an article on the increase of wages desired by teachers, janitors, etc., in the Oswego public schools. In a comparative table the Palladium shows that the average pay of superintendents in 17 cities of that size in the state is \$8,092, while in Oswego the salary is \$1,800; principals of High schools, \$2,508; Oswego, \$2,000. Principals of grammar schools, \$1,672; Oswego, \$1,500. Average of male High school teachers, \$1,494; for females, \$1,039; Oswego, \$1,100 and \$800. Grades, \$813 for upper, \$783 for lower; Oswego, \$686 and \$680. The average for teachers all over the state, exclusive of superintendents, is \$241 higher than in Oswego.

The Palladium says: "The cities from which the statistics were received were Auburn, Amsterdam, Batavia, Dunkirk, Geneva, Gloversville, Hornell, Ithaca, Jamestown, Kingston, Lockport, Middletown, Newburgh, Niagara Falls, Olean, Port Chester, Poughkeepsie, Rome and White Plains.

"In everyone of these cities salaries are higher than in Oswego and this is also true in Fulton, which was not used in making the average. In Fulton the superintendent receives \$2,800; principal of High school, \$2,000; principals of grammar schools, \$1,200; supervisors, \$900; High school teachers, male, \$1,100, and female, \$900; grade, upper, \$700, and lower, \$700."

What Bona Dry Will Do.

The Palladium sees higher taxes for Oswego if local option carries in April, and says: "In the event of local option carrying, Oswego will lose a revenue of about \$25,000 a year and the increases to the teachers and janitors will reach a maximum of about \$20,000 in the next three years. The \$45,000 on a valuation of \$14,000,000 amounts to approximately 32c a hundred."

RED CROSS CAMPAIGN

The campaign headquarters of the Red Cross society gave out the following statement last week:

"The latest reports available indicate that the Christmas drive for ten million new members for the American Red Cross has resulted in the addition of fully 18,000,000 names to its rolls. This number added to the more than 6,000,000 members before the Christmas campaign, makes the total present enrollment fully 22,000,000. This is a magnificent fact, an expression, not alone of the patriotism but of the fine sympathy and idealism of the whole American people.

"The wonderful achievement of enrolling one-fifth of the entire population of the United States as members of the American Red Cross is no less a triumph than it is a call to greater service."
