FULTON DAIRY FEED. It's a good feed—there's a tag on every bag. "What does it say on the tag?" "I don't know—never looked at the tag—never read it." To such farmers we make no appeal—a good talker could sell them anything—if they had the money. All intelligent, unbiassed dairymen are invited to examine the formula and analysis of FULTON DAIRY FEED. Such an investigation will reveal that none are superior to FULTON DAIRY FEED, and that FULTON DAIRY FEED contains certain excellent dairy feeds that others do not, namely—Buckwheat Middlings and Diamond Gluten Meal, and that we use larger proportions of Linseed Oil Meal than any other manufacturers. Surely this is an advertisement we are paying to have it published, but it is none the less true. Gilbert & Nichols Co. Fulton, N. Y. Tel. 4
