HOOVER'S PLAN.
DON'T KISS THE BABY.
CONGRESS MEETS.
290,000,000 MAN POWER.

Secretary Hoover's plan for waterways in the United States is a magnificent, common-sense presentation of what this country should do.

Mr. Hoover shows that 3,000,000 horsepower, more than three times the amount now taken from Niagara Falls, could be developed on the Tennessee and Cumberland rivers.

The South knows what that power, now wasted, would mean to Atlanta, Birmingham, Chattanooga and Nashville.

That is only one item in a great programme that the will of the American people should put through.

Dr. Bundesen, Health Commissioner of Chicago, says many fathers and mothers "kiss their babies into the grave."

To kiss an infant on the mouth is a crime.

Parents stupid enough to allow strangers to kiss their children almost deserve the result.

An infant's blood lacks the protective strength, the disease fighting leukocytes, that come later in life.

That is why reason consumption nearly always starts before the child is two years old.

Millions of unfortunate children have had the tubercular germs planted in their mouths by loving but ignorant mothers.

Kiss your baby on top of its head.

Let no one else kiss or handle it.

Congress, resuming business, will find the indignant farmer sitting on the Capitol steps telling his high income taxpayers, "Until the Government does something for us farmers, YOU don't get that refund of \$250,000,000."

April Rothemere says Britain misses prosperity by failure to develop electric power.

The economic welfare of the United States, says he, "is based more than anything else on the fact that she has 29,000,000 electrical horsepower in her factories, equal to 290,000,000 human workers."

Joseph S. Donovan knew exactly what he wanted when he went to work in a carpet factory for \$1.50 a week.

While he was working in the mill he said he would make a million by the time he was forty-five and retire.

Last September, not yet forty-four, he had made his million and retired as he promised. Now he is dead.

The best thing, when you have made your first million, is to go on and make the second. It isn't the money, but the fact that you are working, which enables others to find employment and independence.

The right kind of American begins his rest when the undertaker gets him. That is a long and an early enough rest for anybody.

There is no room on the earth for a parasite and any man that stops working, before he's ninety, is that.

Dr. Spahlinger, Swiss scientist, has shown that cattle can be made immune to tuberculosis by vaccination.

The fight against tuberculosis could be made successfully without vaccination, although that would be a great blessing, should it prove successful in advanced cases.

Good food, fresh air, rest and reasonable exercise are the tuberculosis cures that nature supplies.

Supreme Court Justice William Harmon Black denounces "chicken-hearted judges and juries" that encourage crime, wants quick trials, with two-thirds of the jury deciding, no unanimous vote necessary.

The two-thirds idea would not suit criminals, and the prosperous among them would be obliged to purchase at least five or two purchased "game guys" can prevent conviction.

NEW HUNTING LICENSES ARE NOW ON SALE

Notices were sent out last week by the county clerk, that the new hunting licenses were on sale. Accompanying the notices was a list of the season's bag limits of game birds, quadrupeds, fur-bearing animals and fish.

The Patriot reprints the list for the benefit of our readers with sportsman-like tendencies.

Deer (buck) one in open season; bear, one in open season; squirrels (black and gray), five in the aggregate of one day; cottontail rabbits and varying hares, six in the aggregate of one day; grouse, three in one day, fifteen in an open season; on Long Island, two in one day, fifteen in open season.

Pike-perch, (Wall-eyed Pike commonly called pike and yellow pike), fifteen in a day; to a boat, two or more persons, 25 in a day; in waters in which permits are permitted to take pike-perch, no limit as to number; Crappies or calico bass, Cuba Lake, Allegany county, 15 in a day, to a boat, 25 in a day; yellow perch, Cuba Lake, Allegany county, five pounds in a day.

Game Taken by Hunters. The Conservation Commission reports the amount of game taken in this state in 1924—the latest year for which the complete figures are available—totaled 1,592,179 pieces, with the season closed two weeks earlier in the Adirondacks and Catskills on account of exceptionally dangerous forest fire conditions.

The increase in the take of pheasants has been continuous since 1918 and has more than doubled in the past five years.

Oswego County. The returns on all kinds of game reported on licenses issued in Oswego county follow. The fact that the license was issued in Oswego county does not necessarily indicate that the game was taken in this county.

Cottontail rabbits, 16,189, a decrease of 2,666; muskrats, 9,952, an increase of 96; skunks, 3,238, an increase of 185; ducks, 3,651, an increase of 413; grey squirrels, 1,120, a decrease of 534; grouse or partridge, 2,207, a decrease of 959; pheasants, 2,157, an increase of 102; snowshoe rabbits, 735, a decrease of 351; woodcock, 423, a decrease of 41; raccoons, 288, an increase of 37; jack rabbits, 163, a decrease of 37; red foxes, 119, a decrease of 31; grey squirrels, 213, a decrease of 21; black squirrels, 23, a decrease of 4; greater yellowlegs, 3, a decrease of 2; Wilson or jack snipe, 76 a decrease of 34; quail, 1, a decrease of 49; mallard, 120, a decrease of 99; deer, 148, a decrease of 78; coots, 7, an increase of 5; grey foxes 0, a decrease of 4; rails, 12, an increase of 12; lesser yellowlegs, 35, an increase of 25; black-bellied plover, 1, a decrease of 3; gallinules, 1, an increase of 1; opossum, 1, an increase of 1; bobcat, 0, a decrease of 3; sable or marten, 5, an increase of 5; bears, 7, an increase of 4; otters, 14, an increase of 5.

CARTER'S GARAGE BURNS. The firemen had a run to Maple avenue last week, where a fire was located in Arthur Carter's garage. The building and the car were destroyed. Loss estimated at \$1,000. The firemen kept the fire away from nearby buildings, but the garage was too far gone to be saved. The origin of the fire is unknown.

About Your Health

VENTILATION

Ventilation in winter is a problem of first importance. There is no doubt that ill-ventilated apartments make for ill-health.

I want to emphasize at the outset however, that warm air does not mean impure air, by any means; neither may we look on cold air as always being "fresh air."

One of the essentials of air in the living-room is, that it be comfortable to the occupants; great or sudden variations in temperature may be exceedingly harmful.

Circulating air is better than stagnant; the outlet for over-heated, or foul air should be at the highest point in the living apartment; the inlet for out-door air at the lowest.

If front doors are opened and closed frequently during days and evenings, plenty of out-door air may be admitted in that way; and, air should be held inside, long enough to be warmed by the heating-plant. It is therefore evident that, the outlet for air should be smaller than the opening for intake.

The closed room is generally to be looked upon with suspicion. No matter if it be a public hall, a church, a theatre, or any place used on occasions. Public halls should be treated with formaldehyde two or three times a week; the air should be changed daily. A bedroom should always be left wide open after occupation,—the bed being thoroughly "aired" and frequent sprinklings with a solution of formaldehyde may prevent many cases of respiratory infection. People know these things, but so many neglect them.

Know Your Sweetheart by His Handwriting

By EDNA PURDY WALSH

When the letters like a d and t reach high toward the line above and the bars stand upward as well as the writing, then we will find a writer who is idealistic.

Neatness of the page will be evident. And capitals will be simply formed.

There will be a suggestion about the page of a desire on the part of the writer to express in his writing as he would in his life, the best and most unusual way. Capitals will look much like printed ones.

Loops of the w will appear slender and reach high above the line. Lower loops of the f will be small and the upper will be large in proportion.

Writing will be medium in weight or light—never heavy.

T bars are sometimes found above the upright altogether and not touching it at all. This is one of the surest signs of detecting idealism in the writer.

The general appearance of the page of a writer of this nature is a pleasing one.

Note.—Do not make final judgment until other signs in writing are studied. (Copyright.)

Attraction of Gambling

"Gambling is an age-old means of escape from drab life," says Merryrie Stanley Rukeyser in an article in Liberty. "It is a device whereby those of low sensitivity and stunted imagination set up artificial hazards in order to get a kick out of life."

British Criminal Law

There is not in Great Britain the difference in the degree of criminality for murder known as first and second degree as in the United States. All murder is a capital offense punishable by hanging. Manslaughter may be pleaded and is punishable by imprisonment.
