

The Secret... of Dodge Brothers Reputation

The secret of Dodge Brothers reputation for building a dependable product can be summarized briefly and forcefully in two sentences:

Never a type that had to be withdrawn.

Never a fundamental mistake that the public was asked to forget.

The Work Behind the Bill

"What most of us now receive is not a monthly electric light bill, but a bill for domestic wages, a bill for work done in parlor, bedroom, kitchen, pantry, a bill which represents a saving both of work and money."

Did you ever think of your electric current bill that way?

The housewife who hires electricity obtains a most efficient worker—a tireless helper who never asks for time off and is never sick.

Securing such a dependable assistant on a full time basis, and at a cost of only a few cents an hour, is really a delightful economy.

The Niagara Falls Power Company sells electricity at the lowest average price received by any generating system on the North American Continent.

LEGISLATIVE AND OTHER ALBANY NEWS

New State Departments.

Governor Smith has named the heads of the state departments under the re-organization bill. Here it is:

Executive—George Gyaves, assistant to the governor.
Audit and Control—Comptroller Tremaine.

Taxation and Finance—M. Frank Loughman.

Law—Attorney General Ottinger.

State—Robert Moses.

Public Works—Frederick Stuart Greene.

Conservation—Alexander McDonald.

Agriculture—The council of agriculture and markets.

Labor—James A. Hamilton.

Education—Regents of the university.

Health—Mathias Nicoll, Jr.

Mental Hygiene—F. W. Parsons.

Charities—Board of charities.

Correction—James L. Long.

Public Service—W. A. Prendergast, chairman of the public service commission.

Banking—Frank H. Warder.

Insurance—J. A. Beha.

Civil Service—Civil service commission.

Court of Appeals.

With the promotion of Justice Cardoza to be chief justice, and John F. O'Brien, appointed by the governor, the new court of appeals will be composed of the following:

Benjamin N. Cardoza, P. J. Manhattan; Cuthbert W. Pound, Lockport; Frederick E. Crane, Brooklyn; William S. Andrews, Syracuse; Irving Lehman, Manhattan; Henry T. Kellogg, Flattsburg; John F. O'Brien, Manhattan.

Increased Deposits.

Resources of the banks and other financial institutions of the state have increased \$1,425,000,000 and deposits have increased \$1,290,000,000 during 1926. It was announced by Frank H. Warder, state superintendent of banks, in a report submitted to the legislature.

These increases mark the greatest jump for any single year in the history of the state banking department according to Mr. Warder. "An estimate made in the manner which has proved reliable in previous years," said Mr. Warder's reports, "indicates resources of \$12,815,000,000 and deposits of \$10,170,000,000 as of Dec. 31, 1926."

Wedding Pension.

Couples passing their fiftieth year of married life together would truly have a golden wedding anniversary under terms of a bill introduced in the legislature by Assemblyman F. A. Miller, Democrat, of Kings. The measure is destined to provide for a pension of \$100 a month to all couples married in this state and now residing in it who have been married and lived together for 50 years or more. In the event of the death of the husband or wife after their golden wedding anniversary, the surviving partner would be allowed a monthly pension of \$50.

Prohibition Notes.

"Public officials who disregard the prohibition law in private and speak against it in public, are becoming more and more responsible for its violation," Mrs. D. L. Colvin, state president of the Women's Temperance union, said at a mass meeting at the capital in observance of the seventh anniversary of national prohibition. "We have driven the saloon from the protection of the law," she addressed, "but it remains entrenched in politics to make a mockery of the law."

Assemblyman Cuvillier, who first introduced his memorial resolution to congress to repeal the Volstead act and 18th amendment, has withdrawn it and submitted another in an amended form—cutting out repeal and substituting amendment. This is in keeping with the wet plan in Maryland and Massachusetts, and Albany dispatches intimate that the wet Republicans and Democrats will make a pool to put the resolution through, knowing the governor will approve it.

Another move of the wets in keeping with the foregoing, is to move in congress for a nationwide referendum on the prohibition question. It looks as though the members of congress are getting ready to "pass the buck" to the voters.

A retirement bill for judges at 70 or 75 years is before the legislature, but it will find rocky traveling.

The Journeymen Barbers' union of the state has a bill to introduce, compelling barbers to have a permit

to do barber work after July 1st; shops must be sanitary and applicants must be residents of the United States before they can work as barbers. The unions are behind the measure.

Democrats are urging another move. They want the governor elected in off years instead of running in presidential years; they want a four-year term and to dodge presidential years. The Republican plan for election in the same years as presidential years has passed one legislature, and, if approved at the present session, will be submitted to the voters at the November election.

Minority Leader Maurice Block introduced two of the Democratic "reform" measures, one providing for restoration of the direct primaries for state-wide offices and supreme court justices and the other for the filing of statements of election receipts and expenditures before instead of after election.

Last week, a relic of ancient history, in the form of an original assessment roll for the town of Constantia, was filed in the office of Walter C. Matteson, county clerk, by Attorney James Gallagher, owner of the document.

Although the roll is yellow with age, having been made in 1821—106 years ago—still every line in it is as legible as the day it was written with a quill pen and smoke ink. When the original town of Constantia was set apart, it contained the towns of Hastings and West Monroe. These were afterwards set off and are now towns by themselves.

The assessed valuation of the town of Constantia 106 years ago was \$14,420. The combined assessments of the three towns today is \$1,860,000.

The roll was made by Myron Stevens, Edward Smith and Jonathan Waring, assessors, and was acknowledged before Hastings Curtis, supervisor, and the man after whom the town of Hastings was named.

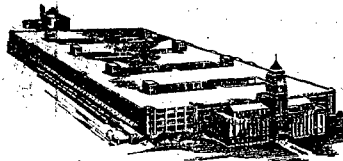

The largest assessment against any one man in the town at that time was against John Bernhard, from whom Bernhard's Bay was named. His assessment was \$1,000.

The State Association of Stationary Engineers—a branch of the national association—has prepared a bill to be introduced in the legislature for the licensing of all stationary engineers; the applicant must pass an examination and show his knowledge and ability to operate a stationary engine. It is considered

Lowest Kelvinator Prices in history for 1927!

This enormous new plant makes possible these Startling Low Prices

The 1926 prices below included all installation charges except wiring and represented a Kelvinator delivered, set up and running in your home.

The 1927 prices below are a startling reduction since 1926. Remember that any 1927 price includes all installation charges (except wiring) and represents Kelvinator delivered, set up and running in your home.

The popularity of Kelvination—its wide demand—allows these startling price reductions.

Read the prices. Consider Kelvinator's advantages. Electric refrigeration of longest proved efficiency. Correctly designed. Proved better for more than twelve years.

All models reduced today. Cabinet Kelvinators and freezing units for installation in any well-insulated refrigerator. Quality for quality, the most astounding cuts in history.

Come in today. Let us show you the values success has built.

FAIR HAVEN STATE PARK.

Efforts are being made to induce the state to take a lot of ground at Fair Haven, the well known summer resort, ten miles from Fulton on the west, as a site for another state park. Endorsement of this project has been made by the chambers of commerce of Fulton, Oswego, Argus and the civic organizations of Fair Haven—while other places are lending their efforts to the movement.

While there exists a division of opinion as to the most feasible place for a public playground and recreation field, to be maintained by the state under a \$15,000,000 appropriation authorized in November, 1924 election, the majority of interests behind the project agree the park should be located to the east of Fair Haven, known as the "Island Proper."

The site on the east side of Fair Haven is favored most for the reason that it is adjacent to the Roosevelt highway, making it accessible to thousands of tourists every season; also because the lake shore provides a fine bathing beach.

It is expected the commission will

reach a decision on or about April 1st. The Fair Haven site is one of nature's playgrounds, centrally located and with all the attractions that can be desired in its original state; its beautifying will be an easy matter, without excessive expenditures.

The contract for wiring the new school building at Phoenix has been awarded to Snyder & Mackin of Oswego. They will install 250 lights.

Wife Takes Vinol Feels Fine Now

"I was weak and had no strength. Since taking Vinol, I feel fine now and do my work again."—Mrs. G. Barnesberger. The very FIRST week you take Vinol, you begin to feel stronger, eat and sleep better. Vinol is a simple, strengthening iron and cod liver compound in use for over 25 years by weak, nervous women. Run-down, thin and sickly children. Contains no oil—pleasant to take. H. C. Giesler.

Night Coughs

Stopped in 15 Minutes.

Almost always coughing is caused by an irritated and inflamed throat or bronchial tubes, which cough syrups and patent medicines do not touch.

But a famous physician's prescription recently discovered, called Thoxine, goes direct to the cause, relieves the inflamed membranes and stops the cough almost instantly, one swallow does the work and the remarkable thing about it is that it contains no dope, chloroform or harmful drugs. Once used you will never be without it. Pleasant taste. Safe for children. 35c, 60c and \$1.00. Sold by Hargrave's, Giesler's and all good drug stores.
