SOUTH SCRIBA.

Miss Blanche H. Goodroe, 50, died Monday in Newark following an illness of a few days with influenza from which pneumonia developed.

Miss Blanche H. Goodroe was the daughter of the late Andrew and Bora Goodroe. She spent most of her life in Scriba and was a member of the Scriba church. Besides her aunt, she leaves a brother, Nelson H. Goodroe, Goodroe of Scriba; and her aunt, Mrs. Martha A. Brown of East Albany street, Oswego, and an uncle, G. M. Gittinger of Parish.

A boy does as his father does, not as his mother says.

HOMESPUN YARN.

A touch of bitter-sweet brightness a dark corner all winter. Too wide a kitchen shelf makes game of hide and seek.

A hot dish for the child's school lunch improves his health, disposition and opens his grades.

When the family has pumpkin pie for dessert bake some of the filling in a custard cup for each child. A bouillon cube gives an added flavor to soups and gravies. It may also be added to cream sauces for vegetables.

Cranberry jelly may be sliced and cut into fancy shapes to make an attractive garnish for salads and desserts.

Chopped dates, figs or raisins in the breakfast cereal or a little shaved unspiced sugar on it sometimes turn a reluctant child's frown into a smile and then he empties the dish.

Not a New Idea We note that electricity may be used to produce year around crops; however, it always has been customary to stock the corn.—Ohio State Journal.

ORIGIN OF VEGETABLES.

Celery originated in Germany. The chestnut came from Italy. The onion originated in Egypt. Tobacco is a native of Virginia.

The citron is a native of Greece. Oats originated in North Africa. The poppy originated in the East. Rye originally came from Siberia. Parsley was first known in Sardinia.

Sonchac came from Arabia. The sunflower was brought from Persia. The mulberry tree originated in Persia.

Walnuts and peaches came from Persia. The horse chestnut is a native of Tibet.

Cucumbers came from the East Indies. The quince came from Greece. The radish is a native of China and Japan.

Possibly of Egyptian origin. The white potato was discovered about 1492 by Christopher Columbus. The potato entered Spain, Italy, Belgium before its supposed home, Ireland, whither it was taken in 1826 by colonists returning from Raleigh's venture in the Carolinas.
