*Scotch, Scots, Scottish

In the United States the adjectives Scotch and Scottish are ordinarily used interchangeably, although literary usage prefers the term Scottish. In Great Britain the modern tendency is to use Scottish or Scots instead of Scotch, the first being favored in literature when applied to the nation or its institutions except law, which is known as Scots law. It is correct, however, to speak of the literature of the Scots or of Scottish literatures. Scotch is used of bonnets, caps, collies, mists, terriers, thistle, tweeds or whisky, and other things. The people are Scots or the Scottish people.—Literary Digest.
