

Pictured is Margaret Crisafulli - she and Elie Sereno are co-chairmen for the 13th Annual Hospital Bazaar.

**13TH ANNUAL HOSPITAL BAZAAR NOV. 2 & 3**

The 13th Annual Hospital Bazaar will be held on Nov. 2 and 3 from 10 a.m. till 8 p.m. in the hospital lobby. Many area groups have been busy preparing for their booths. The Oswego Hospital Auxiliary has a craft group which meets every Tuesday and Thursday morning, and they have made some beautiful things for this year's event. They will also have baked goods for sale as well as collectibles and antiques.

The Oswego Hospital Employee's and Children's Board will offer handmade items at their booths.

Zonta will once again feature delicious homemade candy and the Oswego Business and Professional Women will have a "book nook". Rotary is donating a "basket of cheer" and Catholic Daughters will have hand-crafted articles, including a quilt.

Also, a raffle will be held, with tickets available at the bazaar. Prizes include \$100., \$50., and afghan made by Mrs. Amy Cimildoro and a crocheted bedspread by Mrs. Blanche Peterson.

The public is invited to enjoy dinner, which is prepared by the hospital. It will be served both days between 5:00 p.m. and 7 p.m. Tickets are \$5. for adults and \$2.50 for children 12 and under.

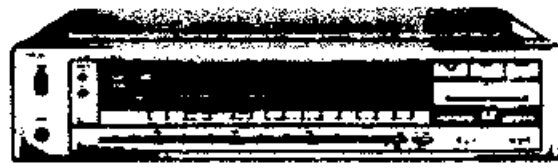

Money raised at this year's bazaar will be used to buy a Vascular Diagnostic Laboratory. This equipment will eliminate the need for many patients to be hospitalized for vascular evaluation.

The hospital bazaar is an important fund-raiser, hopefully the community will give it wide-spread support. It's a great opportunity to start your shopping for Christmas decorations and gifts.

SAVINGS OF 20-60%

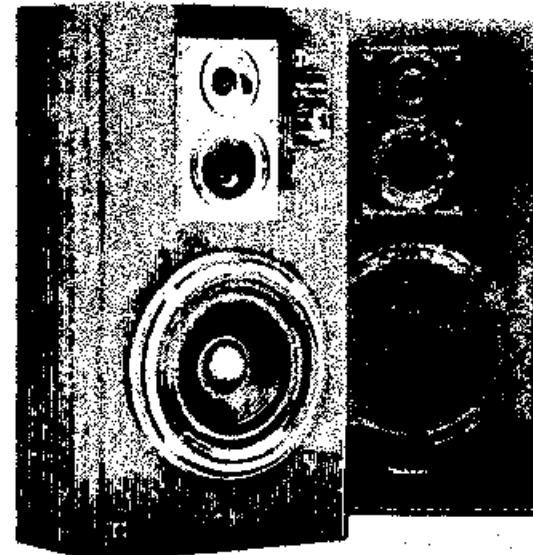

## Technics

**SA-310  
Quartz Synthesizer  
Computer Drive New Class  
A Receiver**

35 watts per channel RMS, both channels driven into 8 ohms, from 20 to 20,000 Hz, with no more than 0.2% THD. Computer Drive uses a microprocessor to eliminate transient crossover distortion. New Class A provides the power and efficiency of Class B amps without switching distortion. Quartz synthesizer digital tuning locks into frequencies with no noise or drift. Random Access Memory stores any 16 stations for one-touch recall. Auto-scan finds stations at the touch of a button.
