Waiting Children

Sixteen month old Tony, born September 1977, is a charmer and loves to be the center of attention. He has a Black and Hispanic background. Tony appears to be quite bright and developmentally is well ahead of schedule. He is very coordinated and loves to dance to music. The only health problem is a bronchial condition that has been noticeable this winter. He has a happy disposition and loves other children.

A Black or racially mixed family with one or two children is preferred. The adoptive family would need to cope with the possibility of some court action as the adjudicated father may contest the child's adoption. Based on legal opinion, the risk is minimal and should not interfere with the child's adoptive placement.

If you are interested in a child like him, contact Oswego Council of Adoptive Families, 343-3012.
