TIM'S AUTO TIPS

If you smoke cigarettes, you should clean the inside of your windshield every three weeks. This will prevent that bothersome glare during nighttime driving.

"He who is in a hurry misses his opportunities."

Softball Marathon For Easter Seals

Over 100 softball teams from Syracuse and Onondaga County are expected to participate in the local Easter Seal Society's First Annual Softball Marathon to benefit the crippled children and adults of Central New York, on Saturday and Sunday, June 11 and 12.

The unique marathon softball tourney will be held at two area fields--Hopkins Road Park in Liverpool and Sunnycrest Park in Syracuse. Play will begin at 8:00 a.m. on Saturday, June 11, and continue around the clock through Sunday, the following day, until 8:00 p.m.

The event, which is open to the public, is being co-sponsored by Miller Brewing Company, through its eastern brewery in Fulton, and the Central New York Softball Umpires Association.

Trophies, softballs, gloves, bats, Miller High-Life T-shirts, a weekend for two in a "super deluxe" suite at the Hotel Syracuse, and dinners at various restaurants are among the prizes being offered to participants. The tournament is described as a "fun event" by the sponsors and some of the trophy awards are: most outrageous player, worst error, big gun award, mouthiest player award, most runs scored, least runs scored, most runs given up and least runs given up.

Men's, women's and junior teams are invited to participate in the event, according to a spokesman for the Easter Seal Society. Funds for the charity will be raised primarily through sponsorships for individual teams, which are being sought from among business and industry in the Syracuse and Onondaga County area. Miller T-Shirts commemorating the event will be awarded to those team volunteers who secure the largest number of sponsors.

Sponsor forms and additional details on the softball marathon may be obtained by calling the Easter Seal Society at 471-7873.

County, State Officials Meet

Oswego County Legislative Chairman, Arthur Ospelt, Majority Leader, Bruce Soule; Legislator, John Wallace, and County Information Director, Benjamin Banta travelled to Albany, Monday, May 16, to meet with the commissioner of the State Department of Environmental Conservation (DEC), Peter A. A. Berle, and Dr. David Axelrod of the State Health Department. The meeting had a two-fold purpose.

First, the issue of the ban on possession of certain species of fish from Lake Ontario was discussed. Berle stated that the ban would continue until further tests have been conducted to determine the levels, of the chemical mirex, in the fish. Also, long-range testing is being done by the State Health Dept. to try and determine the effects of mirex on humans. Citing the tragic example of workers in a vinyle chloride plant near the James River in Virginia, Dr. Axelrod said that his department is now testing milk from expectant mothers (whose main diet consisted of fish), in the Oswego area, for traces of mirex, PCB or Kepone. "It's a new scientific problem," said Axelrod, "and we're not sure if it (mirex) is passed on or not."

The second area of concern discussed was the construction of the proposed $10 million state fish hatchery in the community of Altmar. Commissioner Berle said that he was "anxious to see the project go forward," but continuous testing must go on before a final decision is to be made. Asked when that decision could be expected, Berle replied, "In the next 2 or 3 months."

Following their meeting, County officials were conducted on a tour through the State Health Laboratory where the testing of Lake Ontario fish was being done. The lab was quite impressive, and equipped with the latest scientific gadgetry. It left the officials with the impression that the State is doing all it can and that time will only tell what testing results will reveal.

Seven other counties that border Lake Ontario were represented at this meeting, including Jefferson, which had the largest delegation of all.

Berle concluded the day's activities with an optimistic quip that left those attending grumbling, but with a smile. He stated: "There's plenty of fish and fishing in Lake Ontario, but there's some you cannot keep!"

Come Join The Fun - Ride For Cancer

H. Thomas Cook, General Chairperson of the forth coming "Great American Ride for Cancer" says that plans are continuing and pertinent information on the ride is available for cyclists and concerned parents.

Everyone is urged to obtain a pledge form which have been placed in all schools, The American Cancer Society, 184 W. First St. and Maryanne Boyzuck's, 244 E. Second Street.

This great Fund Raising Event to assist the American Cancer Society in Research, Education and Service will take place on June 5th (raindate June 12th).

As in the past - there will be refreshments after the ride supplied by the Elks Club, and prizs.

After all pledges are collected there will be awards of Trophies, Camera's and Bicycles to those who bring in the most monies.

There will be a period of 10 days to collect all pledges and bring returns to the American Cancer Society or any Marine Midland Bank in Oswego.

Don't forget to leave the "A" part of the pledge form at the place where it was obtained. This is the only way we have of knowing the amount of refreshment to plan for that day.

Come Join In the Fun of the "SIXTH ANNUAL BIKE—A—THON".

Some seeds, notably the legumes, may sprout after a century or more.
