

Mrs. Joseph Barone of Ware Road was shaken up a bit this past Monday afternoon when, enroute to the school for her youngsters, her auto apparently hit a bit of rough ice, skidded and tipped over, near the McGuire farmstead. The car was badly damaged but, fortunately, Mrs. Barone wasn't injured, according to our informant. That not being enough 'tough luck' for one family, they tell us that Joe lost one of his sheds in the recent windstorm. Ah well, if a fellow must have bad luck, it might just as well all come at one time and get it over with!

Undoubtedly you remember having read of the recent tragic fire at the home of Mrs. Marion Bowen of Willow Road. The folks down that way tell us the Bowens and VanBurens have always been mighty good neighbors and they intend to show them, in a tangible way, that the community appreciates their spirit. Since the home was burned to the ground and nothing at all was saved, it will be necessary to start from the bottom and work up. Mrs. Ezra Baker heads the committee which is trying to secure building materials so that a small home may be put up for the family. If any of you folks have 2 x 4's, siding, shingles, flooring or any other materials which are useable, won't you please contact Mrs. Baker whose telephone number is Fulton 64-F-4. In addition to building materials, they'll need furniture for the place, once it's built. If you have a chair, table, bed or anything at all in the line of furniture that you can spare, won't you please call 64-F-4. We might also point out, that there may be some of you folks who aren't in a position to give building materials or used furniture. How about contributing a few hours time on the building project? You know, your home may seem safe and secure but there isn't any assurance it will always be that way. You would appreciate a helping hand, wouldn't you? It's a nice feeling, knowing your neighbors care. If you're able, won't you help? No one is asking you to tear the clapboards off your own house or part with your pet chair. The committee simply hopes you'll donate building materials you have in your shed or out back on that lumber pile. You know, the ones you have been hanging onto, just in case you ever had need for them. The furniture needn't be new. If it needs repairs, one of the fellows will fix it. As for the labor, perhaps you wouldn't merit a Union card as a carpenter or plumber but you certainly know how to drive a nail or act as errand boy on the job, don't you? There's plenty of work for all. Won't you lend a helping hand? Be a good neighbor! The folks down Ox Creek way have undertaken a big job but it's for a worthwhile cause. If you're able, won't you give them a hand? Just phone Fulton 64-F-4 and say you'll lend a hand. You will, won't you?
