

A short time ago a young woman named Dorothea Geingner, was buried with military honours at Magdebourg. She was only 18 years old, and had made the campaigns of 1813 and 1814. The attestation which was given to her by her Colonel, set forth that this heroine, who had been engaged in more than 40 battles, was equally virtuous and intrepid.

**Melting Iron by Steam.**—It is said that Mr. Stephen R. Com, of Georgetown, District of Columbia, has really discovered the practicability of melting iron with steam only, and he has so far succeeded as to bring the iron down to welding heat by this process.

Mr. Gideon Davis, who accurately describes Mr. Com's method of generating steam, says—

"I have no doubt that a steam generator can be made on the principle of this improvement, that a man could take up under his arm and carry, that would generate steam sufficient to work an engine of ten or twenty horse power."—*Alexandria Herald.*

**Trials.**—Mr. J. Dugan, of the house of Savage & Dugan, of Philadelphia, drew the \$30,000 prize of the Union Canal Lottery, and Mr. Henry Lentz, of do, the \$18,000. Both, it is reported, are reconciled to their fate!!!

The Russian Counsellor Smirnoff, has been decorated by the Emperor Alexander with the order of St. Walkner, for having saved the lives of twenty-seven persons on the day of the great inundation of St. Petersburg.

### DIED.

In this village, on Sunday morning last, Mr. ASA HAMMOND, of Geneva, aged 22.

On the same day, an infant son of Mr. Anson Rodgers.

In Syracuse, on Tuesday, the 8th inst. MARY ELIZABETH, eldest daughter of Mr. John Durnford, publisher of the Syracuse Gazette, aged 3 years and 6 months.

To the parents, the sudden bereavement of this tender plant, so lovely and fair—shooting up in all the freshness of infancy, and like a budding rose just expanding its beauties, is an afflicting blow. It was the pride of a fond father, and an affectionate mother—its innocence, its beauty and interesting prattle, the theme of all who knew it.—But like some beautiful flower, too lovely to adorn the garden of nature, it has been early transplanted from earth to heaven—too dear to the hearts of its parents, it has been plucked by the relentless tyrant of the tomb, and borne to the bosom of its God; and long, long will all that was fascinating in an infant, be remembered in its loss, while fond recollection shall dwell upon those departed hours, beguiled by one so promising and interesting. She now sleeps the sleep of the happy—the sleep of death! to awake no more; and, alas! buried with her are all those fond and pleasing anticipations, which led them to hope a gem so bright, would deck their declining life, and ornament society.—*Gazette.*

### VALUABLE MEDICINE FOR

### Coughs & Consumptions.

THE high reputation that ANDERSON'S COUGH DROPS & PECTORAL POWDERS have gained for coughs and other affections of the chest and lungs leading to consumption, renders it unnecessary to say much in recommending them to the public, as no stronger proof of their possessing uncommon virtues could be given than will be found by reading the certificates accompanying each bottle, given by those of the first respectability, who have used them in cases of long standing; and some of them, where the physicians had given them up as past recovery, have been entirely restored by this medicine. The fact that they have now been in use six years, and that the demand of the present season has been much greater than at any former period is also a strong argument in their favour. Thousands have shortened their days by neglecting coughs when first attacked, which have soon terminated in a seated consumption, and proved fatal.—Scarcely a case of colds, coughs, pain in the side, difficulty of breathing, want of sleep arising from debility, or even consumptions but may be relieved by a timely use of this healing balsam. Each dollar bottle of this medicine contains about 40 doses, which proves them to be a cheap medicine, considering their virtues.

For the further satisfaction of the public, the following certificates are offered for perusal:

### NEW CERTIFICATES.

MR. J. MELLE: Sir—If you think the following statement of my case worth publishing, you are at liberty so to do. I, the subscriber, do hereby certify, that about the middle of August, 1821, I was seized with a violent pain in my breast, which terminated in eight or ten days in an ulcer or abscess which discharged a vast quantity of matter attended with a violent cough and spitting blood. This continued until some time in November following. In the interim new ulcers gathered and discharged; which reduced me very fast. I made application to physicians, but to no effect. By the above mentioned time, November, I was reduced to the last stage of earthly existence, when I heard of "Anderson's Cough Drops." I accordingly purchased and made use of them, which soon gave me relief, and after taking them regularly about 3 months, to the astonishment of all my neighbours, I gained my health and soundness; therefore I feel in duty bound to say that I believe said Drops to be the best medicine that was ever introduced into the world for complaint of the lungs. JOSHUA BLODGET. Bartonville, (I. C.) Oct. 1823.

This is to certify that the subscriber was brought very low by spitting blood, attended with a cough and catarrh, and that nothing afforded me real relief until I commenced taking Anderson's Cough Drops, the use of which were the means in the hand of God of restoring me again to a comfortable state of health. And I do further certify that the wife of Mr. Nathan Huntington, living in the same place, was afflicted with a very bad cough for a number of years, and that in 1823 she was reduced so low that it was thought she must soon be in her grave, as she was scarcely able to walk from her bed to the fire, when she commenced taking Anderson's Cough Drops, the use of which, in a short time so far restored her, that she was soon able to do a good day's work. I can cheerfully recommend this medicine to the public. PHILIP JUDSON, Pastor of the Church in Ashford, (Conn.) Ashford, Sept. 25, 1824.

### AUBURN ASSOCIATE ACADEMY.

For this purpose they have appointed the following gentlemen a visiting and examining committee, to wit:—Rev. James Richards, D. D. Rev. Professor Henry Mills, Rev. D. C. Lansing, Rev. C. P. ## THE ORACLE,

PRINTED WEEKLY AT NORTHAMPTON, MASS. BY HIRAM FERRY.

THE practice having become general, with conductors of public journals, to mark out in the onset, the course they intend to pursue, in the prosecution of their labours; so we, in imitation of our predecessors, would mark out the ground we propose to occupy; and briefly state the manner, in which we hope to cultivate it.

It is intended that the Oracle shall be a register of religious intelligence, and missionary exertion; and so far as can be done, to bring to the knowledge of the Christian public, the situation of the church of Christ in every part of the world; and the wants and moral condition of those, who yet sit in darkness, and are perishing for lack of vision, in our own, and in foreign lands. Its columns will be open for original communications upon moral and religious subjects, which are respectfully solicited from clergymen and others who feel an interest in the prosperity of this establishment. Religious biography, and notices of revivals of religion, will also form a part of the paper. It is also intended briefly to notice the proceedings of our national and state legislatures, and such other matters of general interest, as shall seem most important to be known.

While we would wish to stand aloof from the anger and bitterness of party feelings and party distinctions, we at the same time, wish it to be clearly understood that we shall advocate religion as understood and believed by our "puritan fathers" and the great reformers in the protestant church; hoping in the spirit of meekness and love, to reprove what we deem essential error, while we would sincerely and earnestly commend all that is good in principle or practice.

We are fully sensible of the high responsibility which attaches to us in the management of this paper, and will spare no pains to make it worthy the patronage of an enlightened public; and, as we would hope, promotive of that great and holy cause for which a Saviour bled and died.

### TERMS.
