# BACH'S AMERICAN COMPOUND.

**P. V. R. COVENTRY & Co., are Sole Possessors of a New and Perfect Process, Not Patented, of Extracting and Combining the Medicinal Properties of Plants, without their Impurities.**

With it they have obtained the most powerful Tonic and Alterative medicine ever offered to the public. In "Bach's American Compound" they prove beyond a doubt the greatest superiority and success ever attained by any remedy. Its rapid and permanent cures of Dyspepsia and all derangements of the Stomach, as well as Scrofulous taints and disorders of the blood, indicate a just superiority over anything of its kind ever before known. This compound is warranted to cure the worst cases of Salt Rheum, Erysipelas, Scrofula, Tetter, Scald Head, Ringworm, Biles and Pimples—and restore activity and health to sluggish blood. Its great Tonic properties restore digestion and give strength and tone to the Stomach, thus curing any of its derangements, as Dyspepsia, Weakness, Piles, and depression attending want of appetite. It is warranted to restore strength and activity in all cases of female weakness, or to those suffering from nervous debility, or premature old age. As an outward application (though taken internally at the same time, as directed in each wrapper) it is warranted to cure Cankered, Calomel, Nursing and Ulcerated sore Mouths and Throats, Sore Nipples, Abscess and Fever Sores. This is no secret preparation (the curse of ordinary medicines) as a full formula is being furnished to all Physicians. No medicine has ever before attained so high a reputation for invariable success—or been so highly recommended by Physicians.

*Opinion of a celebrated Practioner, Acknowledged one of the most prominent Physicians in the State of New York.*

Auburn State Penitentiary, 1854.

For several months past I have used your "Bach's Compound" in my practice both Private and Hospital, have carefully watched and noted its effects in the hands of others, and in no case has it failed to meet my expectations. I am pleased with the happy and skillful combination of its remedial constituents.

LANSINGH BRIGGS, M. D.

**From the eminent Dr. Whaley of Ithaca, N. Y.**

I have received your Formula for preparing "Bach's Compound." I think it unexceptionable. I have used it in my practice, and pronounce it a valuable medicine.

A. WHALEY, M. D.

**Testimony of the Highest Character.**

*REMARKABLE CURE.*

Dear Sirs,—We the undersigned cheerfully give our names to the following statement, that the value of your medicine may be known to the public. Henry Seymour, a convict now in this Prison, has been ever since his confinement, a great sufferer from Salt Rheum. For five months in 1853, he was unable to do any work. The ordinary remedies for Salt Rheum were applied without any good effect. In September he was put upon fresh diet, and received a bottle of "Bach's American Compound." He has used three bottles and we are satisfied he is cured. He is now able to do full work.

Physician to the Penitentiary.

**From an ex-Agent and Inspector of the Auburn Prison.**

Auburn, Jan. 25, 1855.

This certifies that my wife has been for years afflicted with chronic sore mouth, arising from a bad condition of the Stomach and blood, and that *one bottle* of "Bach's American Compound" cured her entirely. It is now ten months and she has had no return of it.

**VERY REMARKABLE!**

NEWARK, N. J., March 18, 1854.

Dr. Cheesman:—When I first wrote to you, my sister was upon a sick, and as we supposed, a dying bed.—Every thing we could think of had been tried in her behalf, but to no purpose. She coughed day and night, and spit up great quantities of bloody and most offensive matter. One side had fallen in, and the doctor said that the left lung was nearly or quite gone. She sweat nights, so as to drench the clothes. Her flesh was almost gone, and she was very weak and feeble. When I sent for your advice, we had almost despaired, but now every thing is changed for the better. My sister is able to be about the house every day, and do light work. Her cough is gone, and she raises scarcely anything at all.—Her health is now as good, except occasional dizziness, as it has been at any time for the past ten years. Her gratitude knows no bonds.

Most respectfully yours,

JOHN S. NILES.

## Bells.

**BELLS! BELLS! BELLS!**

FOR Churches, Academies, Factories, Steamboats, Plantations, etc., made, and a large assortment kept constantly on hand by the subscribers at their old established, and enlarged Foundry, which has been in operation for Thirty Years, and whose patterns and process of manufacture are so perfected, that their Bells have a world wide celebrity for volume of sound and quality of tone. The present proprietors have recently succeeded in applying the process of loam moulding in Iron Cases to Bell Casting—which secures a perfect casting and even temper, and as an evidence of the unimpaired excellence of their Bells, they have just received—January, 1854—the FIRST PREMIUM (a Silver Medal) of the World's Fair in New York, over all others, several from this country and Europe being in competition; and which is the 18th Medal, besides many Diplomas, that has been awarded them. They have patterns for, and keep on hand, Bells of a variety of tones of the same weight, and they also furnish to order CHIMES of any number of Bells, or key, and can refer to several of their make throughout the States and Canadas. Their Hangings, comprising many recent and valuable improvements, consist of Cast Iron Yoke, with moveable arms, and which may be turned upon the Bell; Spring acting on the Clapper, prolonging the sound; Iron Frame; Tolling hammer; Counterpoise; Stop, etc. For Steamboats, Steamships, etc., their improved revolving Yoke, or Fancy Hangings in Brass or Bronze of any design, furnished. We can supply whole setts or parts, of our Improved Hangings, to rehang Bells of other construction, upon proper specification being given. Old Bells taken in exchange.

Surveyor's Instruments of all descriptions, made, and kept on hand.

Being in immediate connection with the principal routes in all directions, either Rail Road, Canal or River, orders can be executed with dispatch, which either personally or by communication, are respectfully solicited.

**BELLS! BELLS! BELLS!**

FOR Churches, Factories, Steam Boats, School Houses, Plantations, Locomotives, Hose Carriages, Ships, and Rail Road Stations.

The Subscribers manufacture and keep constantly on hand, the above assortment of Bells, from 20 to 3000 lbs. cast and hung on an entire new principle, viz.: cast in metallic castings, which they have invented and adapted to bell castings; the first that ever were used in this or any other country, for which Letters Patent have been applied for.

We have purchased the entire right of "Hildrith's" improved Rotary Yoke. This attachment, by loosening one bolt, admits the bell to revolve from one to five inches; causing the clapper to strike in a different place, and lessening the risk of breaking.

A movable journal is also connected with the yoke, so that the bell can be raised and lowered at pleasure.—Also, cast steel springs arranged so that the clapper cannot rest on the bell, avoiding all jar or clatter which often occurs when there is no spring. An extra hammer for tolling is also attached: wheels, frames, &c., &c., in short, every improvement combined that is in use.

We give our attention particularly to making Chimes or Peals of Bells, keyed on any letter of the musical scale desired. With the castings we can perfect them as to their respective keys without resorting to the ordinary mode of chipping or filing. We would refer to the one recently made at this Foundry and hung in St. Stephen's Church, Philadelphia, which is the first complete chime ever made in this country, and they all just as they came from the moulds.

Mr. A. Hitchcock, one of the proprietors, having had eighteen years' experience in making Bells with the late Mr. Andrew Meneely, and for 10 years had the whole charge of said foundry, and having made all the models and patterns for that establishment, we do not hesitate to warrant, from improvements made since that time, not only superior shape and finish to our bells, but one third more tone than can be produced from those of any other make; weight to being equal; as was awarded to us the highest premium for superior tone and finished bells at the State Fair held at Saratoga, Sept., 1853; also, a Gold Medal at the Fair of the American Institute, [illegible] of all nations at the Crystal Palace in New York, January, 1854; the latter in competition of those of Europe and several from this country.

Letters addressed to the subscribers at Troy, Rensselaer Co., New York, shall have immediate attention.

**ARABIAN HEAVE REMEDY.**

A NEVER FAILING CURE FOR HEAVES, Thick and Broken Wind, Colds, Coughs, Inflammation of the Lungs and all diseases which affect the wind of Horses. Also for Botts or Worms. This preparation is in common use among the Arabs, who feed it to their horses three or four times a year, for about a week at a time. The Arabian Heave Remedy was introduced into England some ten years ago, by Mr. Darley, of Yorkshire, who procured the receipt from an Arabian Sick or Chief, from whom he purchased a horse, during his residence in Syria, and which he afterwards imported to England, and known as Darley Arabian, from which sprung the largest and most splendid horse ever known. Mr. Darley used the Arabian Heave Remedy among his horses—he owned several valuable and celebrated race horses—and gave the receipt to an intimate friend, an eminent Veterinary Surgeon who likewise used it [illegible] several years with remarkable success, and was at length induced at the solicitation of many, to put it up for general use, its virtues soon became known, and it is now extensively sold throughout the British Empire, France and Germany, where it is the standard remedy for diseases which affect the respiratory organs of the horse, particularly for heaves and broken wind. It is in fact, the only preparation upon which any dependence can be placed in the treatment of those complaints for which it is designed. It cleanses the breathing apparatus, by removing from the aircells the coagulable lymph, or that secretion which in heaves, clogs them, causing a difficulty in breathing; and by its action on the diseased part causing the mucus membrane to resume its natural dimensions, thus equalizing the circulation of the blood, and restoring the distended vessels to their natural size. By its use the horse's appetite is improved, all derangements of the digestive organs corrected, softening the skin, and giving to the coat a sleek and shining appearance, and may be used with perfect safety at all times, as it contains no ingredients which can injure a horse, whether sick or well. Nor is it necessary that the horse be kept from working while using it.

New York, July 10, 1845.

I hereby certify, that by the use of one package of Darley's Arabian Heave Remedy, my horse was completely cured of the heaves, with which he had been severely afflicted for a long time. I consider the cure permanent.

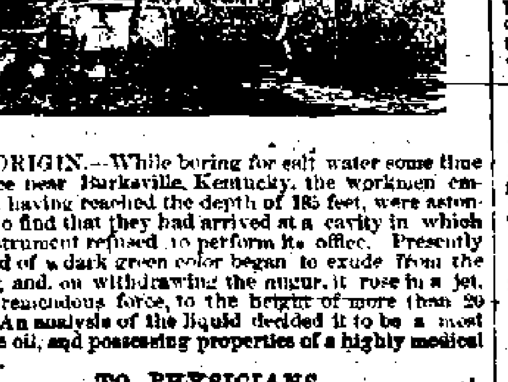
**AMERICAN MEDICINAL OIL.**



ITS ORIGIN.—While boring for salt water some time since near Burkesville, Kentucky, the workmen employed having reached the depth of 185 feet, were astonished to find that they had arrived at a cavity in which the instrument refused to perform its office. Presently a liquid of a dark green color began to exude from the orifice; and, on withdrawing the augur, it rose in a jet, with tremendous force, to the height of more than 20 feet. An analysis of the liquid decided it to be a most volatile oil, and possessing properties of a highly medical nature.

**TO PHYSICIANS.**

Professor Miller, a German physician and chemist of great ability, of Rochester, says:

I do hereby certify that I have analyzed the celebrated *American Oil*, and find that it contains White, Yellow and Brown Naptha, possessing rare medical properties. It also contains Sulphuret of Carbon, and a Balsam of Soft Rosin, Sesqui-Carbonate of Iron, Kali, Alumni, Silicic Acid, Asphaltum, Carbon. I further state that I know the properties of the bituminous oils which are found in this country, and in Asia, Africa, Germany, France and Italy, and that this American Oil embraces rare qualities which are not found in the bituminous oils found in this or any other countries. I consider the American Oil, novel, and deserving the attention of the curious and the scientific. It is, indeed, a valuable medicine, and of great value to its proprietors.

OUR OWN PUBLICATIONS.

*THE EMIGRANTS*. An Allegory; or Christianity versus the World. By Rev. WESLEY COCHRAN, A. M. 192 pp., 16mo. Price 50 cents.

The idea that the influence exerted by emigrants flocking to the American shores, over their countrymen behind, to induce them to follow, is like that of Christians to gain the wicked over to a life of piety, struck the author favorably; and this analogy, in its leading and applicable points, he has endeavored to maintain throughout the work. The work is after the plan of the Pilgrim's Progress, and it is hoped that *The Emigrants* may add something to the success previously realized in illustrating religious things by the familiar scenes of this world.

*THE PHILOSOPHY OF MORAL NECESSITY AND MORAL FREEDOM*, in two parts. Part First, Principles of Necessity and of Freedom. Part Second, Principles of Harmony—Reconciling, particularly, Man's Moral Freedom with Divine Foreknowledge and Predestination. By Rev. J. LATIMER.—270 pp. 12mo. Price 75 cents.

This work is designed to be simple, but comprehensive, being a statement of principles, together with their proof, in two parts. Care has been taken to distinguish those things which differ—to identify those which are not distinct, to analyze ideas which are compound, and to harmonize those revealed Bible truths which appear to conflict. It is believed that it presents a more complete view of the principles of Moral Necessity and Moral Freedom than has hitherto been presented.

*THE MORALS OF ODD-FELLOWSHIP*, a Discourse delivered before the Grand Lodge of the Independent Order of Odd-Fellows, at their Annual Session at Ithaca, August, 1854, by Rev. D. W. BRISTOL, Grand Chaplain. Price 50 cents.

This is published in a neat miniature form, of 64 pages, and makes a very pretty present for any friend, whether in favor of, or opposed to the institution.

"This work is written in the usually felicitous style of the author, and aims to overcome objections against the Order, on the ground of its moral tendencies."—*Susquehanna Journal.*

*ENTIRE HOLINESS*, an Essay by Rev. JOHN H. WALLACE, of the Genesee Conference of the M. E. Church. 16 pp., 16mo. Price 35 cents. Fourth thousand just issued.

This work is regarded as among the best ever published on the subject, and has met with the unqualified approbation of most who have read and circulated it.

*SLAVERY AND THE CHURCH*. By Rev. WM. HOSMER, 207 pp., 16mo. Second Thousand, enlarged.

This is pronounced the most thorough and able work ever published on the relation of Slavery to the Church, and the importance of eradicating this evil.

*END OF THE ARGUMENT FOR FREE BELIEVING*. A review of Rev. Mr. Austin's Nineteen Arguments in a debate with Rev. Mr. Holmes, held in Dec. and Jan., 1847-8. By Rev. S. CONRAD. 16mo. 300 pp. Price 50 cents.

*RICHES OF GRACE*; a volume containing the experience of over sixty persons, on the subject of Bible holiness. It includes the remarkable experience of Bishop Hamline, Dr. Upham, and President Mahan; extracts from the religious diary of Mrs. Upham; also, the testimonies of eminent Christians, both male and female, occupying various positions in the Church of Christ. 12mo. 446 pp. Price $1.00.

*DISSERTATIONS ON THE LICENSE SYSTEM AND MAINE LIQUOR LAW*. By CLINTON DANOS, Esq. Pamphlet, 88 pages. 16mo. 10 cents.

This is an excellent publication to circulate at this crisis in the Temperance cause. Let it have a large sale.

**THE EMIGRANTS:**

AN ALLEGORY; or, CHRISTIANITY vs. THE WORLD, by Rev. Wesley Cochran. Price, 50 cents, plain; 75 cents, gilt edge.

"There is truth, power and effectiveness in this little volume. It is a gem of richness to every emigrant sailing on the sea of time, or traveling by land, to the shores of a distant eternity. The conception, taken from the yearly rush of emigrants to our shores, their solicitude to bring over the friends they have left behind, and our duty to them, is a most happy one, and is carried out with felicitous effect. The reader cannot but be interested, instructed, and made better by its perusal, and taught thereby that his life should be one of active exertion for the good and salvation of his neighbor. It should be in the hands of every family."—*American Spectator.*

"From a careful looking through the volume, we conclude, that the author has attained his end, in a pleasant, instructive, and very intelligent manner, and it cannot help furthering its designed object."—*Utica Teetotaler.*

"The writer has adopted a style of composition which is especially difficult, since the amazingly popular and successful effort of John Bunyan, to present the truths of religious doctrine and experience by allegory. Indeed, we have supposed that this style of writing required an inspiration almost divine, and which is given only occasionally at great intervals in the history of society. But Mr. Cochran seems to have imbibed this spirit, and has presented here a work which cannot fail to produce an effect upon the spiritual well being of those for whose benefit it is designed. The power of temptation—the sad effects of sin—and the inevitable ruin it works, are described in an interesting and impressive manner; as is also the duty and obligations of Christians, with reference to themselves and their friends. We cheerfully commend the book to the attention of all."—*Susquehannah Journal.*

**ELEGANT MINIATURES FOR PRESENTS!**

LOVEST THOU ME? or, The Believer's Companion in his hours of Self-Examination. By Rev. D. Wise. Twelfth edition. This is a new edition of a work which has been out of print for some time. Price, gilt, 50 cents.

PRECIOUS LESSONS FROM THE LIPS OF JESUS—Containing Cautions, Counsels and Consolations for each of the disciples of Christ as are seeking to be like their Lord. By Rev. Daniel Wise. The fifth thousand of this work has been printed. The National Magazine says of it: "It is a pithy little book, abounding in the well known excellences of its author's able pen. Few writers have a happier tact at illustration—some of his 'figures' are devices for the worker in gold. The religious tone of the volume is of the highest order. It is a good presentation book." Price, gilt, 50 cents.—For sale by WM. J. MOSES, Auburn, N. Y.

**THE LUTE OF ZION.**

DESIGNED for the use of all denominations, by I. B. WOODBURY, author of those popular books, "Dulcimer," "Cythara," "Liber Musicus," etc., assisted by Rev. H. MATTISON, New York.

This new Music Book has now been in use about 1 year, during which period more than thirty thousand copies have been published. From its first appearance, the book has been received with the utmost satisfaction. In presenting, therefore, a thoroughly revised and corrected edition of the "Lute," the publishers feel great assurance that they offer a very superior collection of sacred music, combining beauty and simplicity, of arrangement with sweetness of melody.

**THE WORK IS DIVIDED INTO FIVE PARTS.**

Part I. Is devoted to the ordinary Church Music—the short, common, long, and particular metres. These last are numbered and arranged in regular order, (as in the Methodist Hymn Book,) from 1st to 40th, so that all Metres of the same kind may be found together, not only in the Metrical Index, but in the Book. This part of the work contains 314 tunes, many of which are in Prof. Woodbury's happiest style.

Part II. Is devoted to *Anthems and Select Pieces.* In these fifty pages will be found most of the old favorites, with several new pieces, some of which were composed expressly for this work.

Part III. Is a collection of the choicest melodies, old and new, for the *Lovefeast, Prayer and Class-Meetings* and especially for use by the whole church in times of revival. Prof. Mattison's labors have been mostly confined to this department.

Part IV. Is devoted to *Sabbath School Hymns and Music*, and occupies eighteen pages. It contains a good variety of choice tunes.

Part V. Is more extended, and is composed of selections designed for the *Singing-School, Social Circle and Concert Room.* It contains a variety of pieces suitable for Temperance Meetings, Fourth of July Celebrations, Agricultural Meetings, Literary Anniversaries, School Conventions, etc., etc. If in the School-Room this part be used, the evil of carelessly singing sacred words will be entirely avoided. **PROSPECTUS OF THE AUBURN DAILY AMERICAN, AND AUBURN WEEKLY AMERICAN.**

The undersigned proposes to commence on Thursday, Feb. 1, 1855, the publication of a new Daily Paper in the City of Auburn, to be devoted to the principles of the American Party, and the rights and interests of American Citizens.

The Daily American will be the same size as the Auburn Daily Advertiser, will be printed on good type, and will contain the latest Foreign and Domestic General and Commercial News. Our Telegraph Reports will be as complete as the best New York Dailies. The Local Department will receive a due share of attention, that our Patrons may have a general knowledge of events passing in our midst.

The Editorial Department will be under the direction of an experienced Journalist. We shall not oppose political measures because they emanate from either Whig or Democratic Administrations, but shall discuss all political questions with perfect freedom, keeping always in view the principles of the American Party. We shall battle for those principles, condemning what we think wrong, in all parties and in all public men.

The Auburn Daily American will be issued every evening (Sundays excepted,) and will be afforded at $5 per annum, one quarter in advance.

A Weekly American will be issued from the same office, every Wednesday morning, at $1 50 per annum, in all cases in advance. The Weekly will contain the principal matter of the Daily, with a digest of the latest News and the latest Telegraph Reports before going to press.

Advertisements will be inserted in both papers, at the usual rates. And as the circulation of these papers will be larger, it is confidently believed, than any other papers in the County, they will afford the best means of advertising.

Subscriptions for either Daily or Weekly and Advertising Patronage, are respectfully solicited.

All orders should be addressed to
